SUBJECT: Waiver Requests

Enclosed are serial register pages for the Pony Express Rider #5-12 mining claims which show present ownerships.

Each of these records reflect that the latest rental paid was for 1994.

On or before August 31, 1994, either a \$100 maintainane fee had to be paid for each of the claims or a waiver request was required. Both were to be filed in advance for 2995.

The waiver requests being returned herein even if signed by all of the proper claimants could not be accepted after August 31, 1994 for 1995.

If the 1995 maintenance fees were not paid by August 31, 1994, the subject mining claims will be declared abandoned by BLM decision in the near future.

Your only alternative is to relocate the mining claims if the maintenance fee was not paid as required.

This was explained to Consuelo P. Velasco by telephone on this date.

Enclosed is your <u>MAINTENANCE FEE PAYMENT WAIVER CERTIFICATION</u> form received by us on September 29, 1994.

Under the Act of August 10, 1993 (the Act) a nonrefundable maintenance fee of \$100.00 for each mining claim, mill site, or tunnel site shall be paid annually on or before August 31 for the subsequent assessment year beginning at 12 o'clock noon on September 1 of that year. The first payment was be due on August 31, 1994.

The Act also provided that a small miner, owning 10 or fewer claims, could be waived form payment of the maintenance fee if certain qualifications were met. Implementing regulations (copy enclosed) further provide that any small miner who was qualified for an exemption from payment for the 1994 rental fee, did not have to file for a waiver from payment of the 1995 maintenance fee, provided that was no change in status.

You complied with this requirement when you filed the certified statement for the exemption on August 24, 1993. You are still required to file an affidavit of labor with this office on or before December 30, 1994.

To be considered timely filed the waiver documents have to have been mailed to the proper BLM office and contained within an envelope clearly post marked by a bona fide mail delivery service within the time period prescribed by law for the filing.

Your filing was contained in an envelope clearly postmarked September 27, 1994. To be considered timely, the postmark must have been not later than August 31, 1994.

In this case your claims will remain active provided that you file an affidavit of labor on or before December 30, 1994. This situation exists for this year only. Next year you will be required to pay the \$100 maintenance fee or file for the waiver in a timely manner, or before August 31, 1995.

MINING CLAIMS, MILL SITES AND TUNNEL SITES DECLARED ABANDONED

Public Law 102-381, 106 Stat 1374, dated October 5, 1992, and the regulations implemented July 15, 1993, 43 CFR §3833.1-5, "Rental Fees" prescribe, unless otherwise exempted, that \$100 rental for assessment year 1992-1993, and \$100 rental for assessment year 1993-1994, must be paid to the Bureau of Land Management (BLM) for each mining claim, mill site, and tunnel site on or before August 31, 1993. Failure to pay the rental fee by that date shall conclusively constitute an abandonment of the mining claim, mill site, or tunnel site, which shall be void.

The BLM records do not show receipt of payment for the mining claim(s), mill site(s), and tunnel site(s) listed on the enclosed sheet(s) on or before August 31, 1993.

If the rental fee was timely paid to the BLM for 1993 and 1994, please furnish a copy of the BLM receipt for payment and the document listing the claims and serial numbers for which payment was made to the BLM, Arizona State Office. The receipt and proof must be dated and/or time stamped by the BLM on or before August 31, 1993.

The proof of payment must show that the required amount was remitted and was received by the BLM on or before August 31, 1993, or it will not be accepted. The evidence must be received in this office no later than 30 days from receipt of this decision. If the proof is not furnished during the 30-day period, the mining claim(s), mill site(s), and tunnel site(s) will be removed from the BLM records as abandoned and void.

If additional information is required, please call (602) 650-0518.

Mining claims declared Abandoned and Void

This is in reference to the unpatented mining claims identified above.

Pursuant to the requirements of the Act of October 5, 1992, Public Law 102-381, and final regulations at 43 CFR 3833.1-5, 3833.1-6 and 3833.1-7, 58 FR 134 (July 15, 1993), in order to maintain a mining claim or site, claimants were required to pay a nonrefundable rental fee in the amount of \$100 per claim/site or submit a certification of exemption from payment of rental fees (small miners exemption) for both the 1993 and 1994 assessment years on or before August 31, 1993. In addition, in accordance with 43 CFR 3833.2, 58 FR 134 (July 15, 1993), the affidavit of assessment work performed for the period of September 1, 1992, through September 1, 1993, by a small miner claiming a rental fee exemption, had to be filed on or before December 30, 1993, in the proper State Office of the Bureau of Land Management (BLM).

In accordance with regulation 43 CFR 3833.4(a)(1), 58 FR 134 (July 15, 1993), failure to make annual filings required by 3833.2 on or before December 30, 1993, shall conclusively constitute an abandonment of the mining claim which shall be void.

A certification of exemption for the subject mining claims was timely received by the Arizona State Office. However, the BLM records do not show receipt of a 1993 affidavit of labor and, therefore, the mining claims described above are hereby declared abandoned and void.

If the affidavit of labor for the subject mining claims was timely filed with the BLM, Arizona State Office, please furnish a copy of the affidavit along with the receipt of payment from the BLM, which shows receipt thereof on or before December 30, 1993.

Closed 66719, 66721, 66723, 66725, 66727, 66729, 66731, 66733 4-21-94 ENTERED IN COMPUTER 4-25-94 Cm The evidence must be received in this office no later than 30 days from receipt of this decision. If the proof is not furnished during the 30-day period, the mining claims will be removed from the BLM records as abandoned and void.

This decision may be appealed to the Interior Board of Land Appeals, Office of the Secretary, in accordance with the regulations contained in 43 CFR, Part 4 and the enclosed Form 1842-1. If an appeal is taken, your notice of appeal must be filed in this office (at the above address) within 30 days from receipt of this decision. The appellant has the burden of showing that the decision appealed from is in error.

If you wish to file a petition pursuant to regulation 43 CFR 4.21 (58 FR 4939, January 19, 1993) or 43 CFR 2804.1 for a stay of the effectiveness of this decision during the time that your appeal is being reviewed by the Board, the petition for a stay must accompany your notice of appeal. A petition for a stay is required to show sufficient justification based on the standards listed below. Copies of the notice of appeal and petition for a stay must also be submitted to each party named in this decision and to the Interior Board of Land Appeals and to the appropriate Office of the Solicitor (see 43 CFR 4.413) at the same time the original documents are filed with this office. If you request a stay, you have the burden of proof to demonstrate that a stay should be granted.

Standards for Obtaining a Stay

Except as otherwise provided by law or other pertinent regulation, a petition for a stay of a decision pending appeal shall show sufficient justification based on the following standards:

- (1) The relative harm to the parties if the stay is granted or denied,
- (2) The likelihood of the appellant's success on the merits,
- (3) The likelihood of immediate and irreparable harm if the stay is not granted, and
- (4) Whether the public interest favors granting the stay.

Ms. Consuelo P. Velasco 11913 North Copper Butte Drive Tucson, Arizona 85737

Dear Ms. Velasco:

Two quit claims deeds were received in this office on February 16, 1994, purporting to transfer the ownership of the Pony Express Rider No. 5 through No. 12 mining claims (A MC 66764 through 66771).

This deed was received by the Bureau of Land Management on July 27, 1993, and subsequently processed. A refund of \$20 has been authorized for payment through the U.S. Treasury.

The ownership transfer of the Pony Express Rider No. 9 through No. 12, A MC 66768 through 66771, has been processed and entered onto the records.

Sincerely,

CERTIFIED MAIL--RETURN RECEIPT REQUESTED

Barbara L. Wilson 4503 13th St. Lubbock, TX 79416 CONNIE NO. 1, 3, 5, 7, 9, 11, 13, & 15 AMC 66701, 66703, 66705, 66707, 66709, 66711, 66713, 66715.

Enclosed is your Affidavit of Labor and check #1638 in the amount of \$50.00.

The Interior Department and Related Agencies Appropriations Act of 1993 (the Act) requires that an annual rental fee of \$100.00 for each mining claim or site located and held under the General Mining Law of 1872 for each of the Fiscal Years 1993 and 1994 be paid to the Secretary of the Interior on or before August 31, 1993.

The Bureau of Land Management published final rules by which to implement the Act on July 15, 1993 (copy enclosed). The Act and corresponding regulations provided an exemption from payment of the rental fees for small miners who own 10 or fewer claims. To qualify for an exemption from payment of the claim rental fees, the claimant had to file a certified statement with the Secretary of the Interior on or before August 31, 1993.

The Act and corresponding regulations state that payment of rental is in lieu of assessment work requirements contained in the Mining Law of 1872 (30 U.S.C. 28-28e), and the filing requirements contained in section 314(a) and (c) of the Federal Land Policy and Management Act of 1976 (FLPMA) 43 U.S.C. 1744(a) and (c).

You paid the \$100 rental fee for FY 93 and the \$100 rental fee for FY 94 on August 30, 1993 for all of the subject claims. Payment of the rental fees removed the requirement to file and affidavit as required by FLPMA.

An affidavit may be filed by a claimant even though the requirement to file was removed by paying the rental. However, any such filing must be timely pursuant to §314(a) of FLPMA which states "... prior to December 31 of each year ... ". In order for a filing to be considered timely it must be filed or postmarked on or before December 30 of any given year.

Your affidavit which was postmarked by the United States Postal Service on January 3, 1994 is considered as being untimely filed pursuant to § 314(a) of FLPMA and hereby rejected.

This rejection has no effect on the validity of your mining claims because you previously paid the rental fees in lieu of the performance of the assessment work requirement and the filing of an affidavit.

If we may be of further assistance, please do not hesitate to contact us at (602) 650-0528.

EXEMPTION DENIED SUBJECT TO COMPLIANCE

The above-identified claimant(s) timely filed a Certification of Exemption from Payment of Rental Fee, Form 3830-1 for assessment year 1992-1993 and 1993-1994 with the Arizona State Office, Bureau of Land Management (BLM). Only those claimants identified above signed the exemption request.

Public Law 102-381, 106 Stat 1374, dated October 5, 1992, and the regulations implemented July 15, 1993, under 43 CFR \S 3833.1-6 "Rental Fee Exemption Qualifications", and \S 3833.1-7 "Filing Requirements for Rental Fee Exemptions", require that all of the claimant owners shall sign a notarized certified statement requesting an exemption.

The BLM public records show that the following parties are owners of some or all of the subject mining claims included on the exemption request and are required to sign the exemption form with a notarized signature:

Kathy Velasco

Therefore, the exemptions for assessment year 1992-1993 and 1993-1994 are denied unless the exemption forms are returned to this office within 30 days with a properly notarized signature by each of these claimant(s).

If the exemption forms are not returned within the time allowed, which runs concurrently with the appeal period, the exemption requests will be considered denied.

No other criteria on the Certificate of Exemption from Payment of Rental Fee, Form 3830-1 was adjudicated, as this item in itself made the exemption request invalid.

An appeal from this decision may be taken to the Interior Board of Land Appeals, Office of Hearings and Appeals, in accordance with the regulations in

Compliance Requirement met.

Title 43 Code of Federal Regulations (CFR), Parts 1 and 4, and the enclosed Form 1842-1. If an appeal is taken, the Notice of Appeal must be filed in the Arizona State Office of the Bureau of Land Management within 30 days from the receipt of this decision. Do not send the appeal directly to the Board. The appeal and case history file will be sent to the Board from this office. Within 30 days after filing the Notice of Appeal, you must file a complete statement of the reasons why you are appealing. This must be filed with the U.S. Department of the Interior, Office of the Secretary, Board of Land Appeals, 4015 Wilson Boulevard, Arlington, Virginia 22203. If you fully stated your reasons for appealing when filing the Notice of Appeal, no additional statement is necessary. Additionally, within 15 days after each document is filed, the regulations also require the appellant to serve a copy of the notice of appeal, statement of reasons, written arguments or briefs on the Field Solicitor, U.S. Department of the Interior, 2 North Central, Suite 500, Phoenix, Arizona 85004. To avoid summary dismissal of the appeal, there must be strict compliance with the regulations.

If you wish to file a petition (pursuant to regulation 43 CFR 4.21) (58 FR 4939, January 19, 1993) (request) for a stay (suspension) of the effectiveness of this decision during the time that your appeal is being reviewed by the Board, the petition for a stay must accompany your notice of appeal. A petition for a stay is required to show sufficient justification based on the standards listed below, Copies of the notice of appeal and petition for a stay must also be submitted to each party named in this decision and to the Interior Board of Land Appeals and to the appropriate Office of the Solicitor (see 43 CFR 4.413) at the same time the original documents are filed with this office. If you request a stay, you have the burden of proof to demonstrate that a stay should be granted.

Standards for Obtaining a Stay

Except as otherwise provided by law or other pertinent regulation, a petition for a stay of a decision pending appeal shall show sufficient justification based on the following standards:

- (1) The relative harm to the parties if the stay is granted or denied.
- (2) The likelihood of the appellant's success on the merits,
- (3) The likelihood of immediate and irreparable harm if the stay is not granted, and

(4) Whether the public interest favors granting the stay.

EXEMPTION DENIED

The above-identified claimant(s) timely filed a Certification of Exemption from Payment of Rental Fee, Form 3830-1 for assessment year 1992-1993 and 1993-1994 with the Arizona State Office, Bureau of Land Management.

Public Law 102-381, 106 Stat 1374, dated October 5, 1992, and the regulations implemented July 15, 1993, under 43 CFR § 3833.1-6 "Rental Fee Exemption Qualifications", and § 3833.1-7 "Filing Requirements for Rental Fee Exemptions", require that all owners of the mining claims for which an exemption is claimed shall sign the certified statement

The mining claims for which the exemption is sought are owned by another party other then the person filing for the exemption. The claimant filing for the exemption was not the record title owner of the mining claims as shown by the records of the Bureau of Land Management on August 31, 1993.

Therefore, the exemption for assessment year 1992-1993 is denied. Without an approved exemption for 1992-1993, the exemption request for assessment year 1993-1994 is moot.

No other criteria on the Certificate of Exemption from Payment of Rental Fee, Form 3830-1 was adjudicated, as this item in itself made the exemption request invalid.

An appeal from this decision may be taken to the Interior Board of Land Appeals, Office of Hearings and Appeals, in accordance with the regulations in Title 43 Code of Federal Regulations (CFR), Parts 1 and 4, and the enclosed Form 1842-1. If an appeal is taken, the Notice of Appeal must be filed in the Arizona State Office of the Bureau of Land Management within 30 days from the receipt of this decision. Do not send the appeal directly to the Board. The appeal and case history file will be sent to the Board from this office. Within 30 days after filing the Notice of Appeal, you must file a complete statement of the reasons why you are appealing. Dear Mr. Westrope:

We are in receipt of your quit-claim deed purporting to transfer the ownership of the Pony Express Rider No. 5 through No. 8 lode mining claims, A MC 66764 through 66767, from Consuelo P. Valasco to Augustine Westrope and Carmen P. Westrope.

We are unable to process the transfer request as our records do not show Consuelo P. Valasco as owner of record of these claims. If you have documentation placing Consuelo P. Valasco in the chain of title for these claims, please send a copy of the document to this office along with the required service charge of \$5.00 per claim. We can then process the ownership change as requested.

Please let us know if we can be of further assistance.

ATTENTION

PLEASE NOTE THE FOLLOWING CONCERNING YOUR RECENT FILING

---- Your filing is being returned without action by BLM in it's entirety because the required fees were not paid.

No action was taken on some of your filings by BLM because the fee you sent was not sufficient to cover all of the items. SEE YOUR ENCLOSED DOCUMENTS.

EFFECT OF NOT PROVIDING INFORMATION: Disclosure of this information is required by the Act of August 10, 1993 (107 Stat. 312) and 43 CFR 3833 for those owner(s) wishing to take the small miners waiver allowed under 43 CFR 3833 and 3850. Failure to supply the information required in this form to support the owner(s) certification of waiver from payment of the otherwise required maintenance fees will result in the waiver being disallowed and the mining claims declared null and void by the Bureau of Land Management (BLM).

The Paperwork Reduction Act of 1980 (44 U.S.C. 3501, et seq.) requires us to tell you that:

This information is being collected to allow the BLM to determine if you qualify for a waiver from the payment of \$100 per mining claim maintenance fee established by the Act of August 10, 1993 (107 Stat. 312) and the implementing regulations at 43 CFR 3833 and 3850. A response to this required in accordance with the statute (107 Stat. 312) to retain your benefit.

BERNAADO (1. VELASCO 1904 E. EIM 14050N, 42.-85716 Velasco Claims: Sun

Summary of Geological and Geochemical Report, July and August, 1988

The Velasco claims are located in the Dripping Springs Mountains in sections 9, 10, and 14 through 23 in T4S, R15E. Evaluation of the claims for mining potential included the following:

- 1) Collection of 51 stream-sediment samples from which a heavy mineral concentrate was obtained. This concentrate was split and analyzed for Cu and Ag by atomic absorption spectroscopy, and Au plus 33 other elements by neutron activation analysis. Stream sediment sampling and heavy mineral separation was carried out by C. F. Minerals of Kelowna, B.C., and analytical services were provided by Bondar-Clegg of Vancouver, B.C.
- 2) Geologic examination of the Velasco claims and adjacent areas, including the Santa Monica Camp, by geologists of Westmont Mining, Inc., of Tucson, Arizona.
- 3) Collection of 151 rock-chip samples from the Velasco claims and adjacent areas, including the Santa Monica Camp. These samples were collected by geologists of Westmont Mining, Inc., and analyzed for Au and Ag by Mountain States Research and Development Corp., of Tucson, Arizona.

Three principal types of mineralization were investigated in the Velasco claims area:

1) quartz-pyrite veins containing galena, chalcopyrite and copper carbonates in skarn, 2) quartz-pyrite veins in a rhyodacite porphyry sill, and 3) quartz-pyrite veins contining galena, wulfenite and vanadinite that occur along the Keystone Canyon fault. Near-surface portions of type 1 veins have been heavily oxidized to a gossan that in places is gold-bearing. Type 2 veins are associated with quartz-sericite alteration of the sill, and contain RECEIVED minor amounts of copper carbonates and trace amounts of gold.

Velasco Claims: Summary of Geological and Geochemical Report, July and August, 1988

The Velasco claims are located in the Dripping Springs Mountains in sections 9, 10, and 14 through 23 in T4S, R15E. Evaluation of the claims for mining potential included the following:

- 1) Collection of 51 stream-sediment samples from which a heavy mineral concentrate was obtained. This concentrate was split and analyzed for Cu and Ag by atomic absorption spectroscopy, and Au plus 33 other elements by neutron activation analysis. Stream sediment sampling and heavy mineral separation was carried out by C. F. Minerals of Kelowna, B.C., and analytical services were provided by Bondar-Clegg of Vancouver, B.C.
- 2) Geologic examination of the Velasco claims and adjacent areas, including the Santa Monica Camp, by geologists of Westmont Mining, Inc., of Tucson, Arizona.

3) Collection of 151 rock-chip samples from the Velasco claims and adjacent areas,
AUG 25 1988 including the Santa Monica Camp. These samples were collected by geologists of
7:45 A.M.
PHOENIX, ARIZON Westmont Mining, Inc., and analyzed for Au and Ag by Mountain States Research and
Development Corp., of Tucson, Arizona.

Three principal types of mineralization were investigated in the Velasco claims area:

1) quartz-pyrite veins containing galena, chalcopyrite and copper carbonates in skarn, 2) quartz-pyrite veins in a rhyodacite porphyry sill, and 3) quartz-pyrite veins contining galena, wulfenite and vanadinite that occur along the Keystone Canyon fault. Near-surface portions of type 1 veins have been heavily oxidized to a gossan that in places is gold-bearing. Type 2 veins are associated with quartz-sericite alteration of the sill, and contain minor amounts of copper carbonates and trace amounts of gold.
