2012 Maintenance Fees Due on Claims under a Waiver

A Maintenance Fee Waiver Certification (small miner waiver) was filed for the 2013 assessment year for the mining claims listed above. In accordance with 43 CFR 3835.1, to qualify for a small miner waiver you and all related parties must hold no more than a total of 10 mining claims or sites nationwide. Since the commencement of the 2013 assessment year, the owner(s) of these mining claims has acquired and now owns in excess of 10 mining claims nationwide, which means they no longer qualify for the small miner waiver.

Therefore, in accordance with 43 CFR 3835.20, and *Randi Rovetto*, *Et Al.*, 177 IBLA 257, the waiver is immediately cancelled and the 2013 Maintenance Fees of \$140 per claim per 20 acres

are due on the claims listed above. BLM must receive the maintenance fee for these mining claims on or before September 1. 2013. If we do not receive the fee, the claims will be forfeited closed. At that same time (on or before September 1. 2013) the maintenance rees reconstructed assessment year are also due.

When paying the fees please specify which assessment year is being paid so we can apply the fees accurately to the claims. Please also include an explanation as to why the fees for the assessment year that has already begun are being paid. (i.e. The claim owner no longer qualified for a small miner waiver.)

If additional information is required, please contact Rod Ebert at 602-417-9397. Please include your AMC serial numbers on all correspondence.

Mining Claim Maintenance Fee

KATHY VELASCO

Decision Affirmed:

Petition for Stay Denied as Moot;

IBLA 2006-159 Dismissed

ORDER

Bernardo P. Velasco and Kathy Velasco have appealed from and petitioned for a stay of a March 16, 2006, decision of the Arizona State Office, Bureau of Land Management (BLM), declaring seven unpatented mining claims (AMC66659, AMC66666, AMC66668, AMC66670, AMC66672, AMC66679, and AMC33089) forfeited by operation of law for failure to pay the \$125 per claim maintenance fee or file a maintenance fee payment waiver certification on or before September 1, 2005, for the 2006 assessment year. ¹/ We affirm.

Under 30 U.S.C. § 28f(a) (2000), <u>as amended</u>, ²/ the holder of an unpatented mining claim, mill site, or tunnel site is required to pay a maintenance fee for each claim or site on or before September 1 of each year for the years 2004 through 2008. <u>See</u> 43 CFR 3834.11(a)(2). Payment of the claim maintenance fee is in lieu of the

¹/ The Board inadvertently assigned this appeal two docket numbers, IBLA 2006-149 and IBLA 2006-159, even though there is only one appeal. Accordingly, we dismiss IBLA 2006-159.

^{2/} 30 U.S.C. § 28f(a) (2000) has been amended twice by Congress, specifically by the Department of the Interior and Related Agencies Appropriations Act, 2002, Pub. L. No. 107-63, 115 Stat. 414, 418-19 (2001) (requiring the payment of the claim maintenance fee on or before September 1 of each year for the years 2002 and 2003), and the Department of the Interior and Related Agencies Appropriations Act, 2004, Pub. L. No. 108-108, 117 Stat. 1241, 1245 (2003) (requiring the payment of the claim maintenance fee on or before September 1 of each year for the years 2004 through 2008).

assessment work requirements of the Mining Law of 1872, 30 U.S.C. §§ 28-28e (2000), and the related filing requirements of section 314(a) of the Federal Land Policy and Management Act of 1976 (FLPMA), 43 U.S.C. § 1744(a) (2000), for the upcoming assessment year that begins at noon on September 1 of the year payment is due. See 30 U.S.C. § 28f(a) and (b) (2000); 43 CFR 3834.11(a).

The failure to pay the claim maintenance fee "shall conclusively constitute a forfeiture of the unpatented mining claim, mill or tunnel site by the claimant and the claim shall be deemed null and void by operation of law." 30 U.S.C. § 28i (2000); see 43 CFR 3830.91(a) and 3835.92(a). Congress, however, provided the Secretary with discretion to waive the fee for a claimant who certified in writing that on the date the payment was due, the claimant and all related parties held not more than 10 mining claims, mill sites, or tunnel sites, or any combination thereof, on public lands and had performed assessment work required under the Mining Law of 1872, for the preceding assessment year ending at noon on September 1 of the calendar year in which payment of the claim maintenance fee is due. 30 U.S.C. § 28f(d)(1) (2000); see Audrey Bradbury, 160 IBLA 269, 273-74 (2003). BLM implemented this statute with a regulation that requires a claimant to file "BLM's waiver certification form on or before September 1 of each assessment year for which you are seeking a waiver." 43 CFR 3835.10(a).

The case record shows that BLM received an affidavit of assessment work for the seven claims at issue on July 21, 2005. There is no evidence in the case record of the filing of a waiver certification for the 2006 assessment year on or before September 1, 2005. On appeal, Kathy Velasco asserts that she placed the "proper documents" in envelopes addressed to BLM and the Gila County Recorder; that her mother-in-law and her husband checked and approved the paperwork; and that they witnessed her placing the documents in the envelopes. ³/ (Notice of Appeal, Statement of Reasons, Petition for Stay at 2.) She states:

I am returning the original documents I received from the Bureau of Land Management. On said documents you will notice staple holes from the removal of the staple. I am surmising with the flood of papers handled by [t]he Bureau of Land Management my waiver unintentionally became unattached, was misplaced or left in a copying machine, just to name a few possibilities. I am positive that something

³/ Appellants offer the affidavits of Consuelo P. Velasco and Bernard P. Velasco in which each states that they reviewed the documents prepared by Kathy Velasco for BLM; that they reviewed the waiver certification; and that they witnessed Kathy Velasco placing the documents in the envelope and sealing the envelope.

unexplainable happened for the reason previously mentioned; my mother-in-law and husband watched me enclose the proper documents and seal the envelopes.

Also enclosed is a copy of the Waiver we received from the Gila County Recorder, the original of which was sent to the Bureau of Land Management.

Id.

The "original documents" provided by appellants are the two pages of a copy of the affidavit of assessment work bearing BLM's date stamp of July 21, 2005, and a copy of BLM receipt number 1114336 showing that Kathy Velasco submitted a check for \$35.00 to BLM on July 21, 2005, in payment of the \$5.00 per claim service charge for filing an affidavit of assessment work. The affidavit of assessment work pages do not have any staple holes, but appellants have circled what appear to be copies of staple holes in the upper left-hand corner of each page. While a staple clearly could have been used to secure the two-page affidavit of assessment work, as it is in the case files, appellants imply that the waiver certification for the 2006 assessment year had been stapled to the two-page affidavit of assessment work, when that affidavit was filed with BLM on July 21, 2005.

We note that the "copy" of the waiver certification alleged "received from the Gila County Recorder" does not bear a date stamp by the County Recorder or any other evidence of filing with the county. Moreover, while it is a copy of a waiver certification for the 2006 assessment year, the waiver certification from which it was copied did not bear the signature of one of the claimants, Bernardo Velasco. His signature appears on the "copy" provided to the Board in blue ink.

The absence of a legally significant document from BLM's public records gives rise to the presumption that it was never filed with BLM, since Federal Government employees are presumed to have properly performed their official duties and not lost or misplaced such a document. <u>John J. Trautner</u>, 165 IBLA 265, 270 (2005), and cases cited therein. We cannot conclude that BLM received, but then lost or misplaced, the waiver certification, unless appellants present sufficient evidence to overcome the presumption of administrative regularity, demonstrating that it is more likely than not that the document was in fact filed with BLM. A statement that a document was enclosed in the same envelope together with other documents that were received by BLM must be corroborated by other evidence to establish filing where there is no evidence of receipt of the document in the file. <u>Darrell Palmer</u>, 156 IBLA 360, 362-63 (2002); <u>R. E. Frasch</u>, 69 IBLA 66, 69 (1982).

In this case, appellants have the burden to show, by a preponderance of the evidence, actual receipt of the document by BLM. <u>John J. Trautner</u>, <u>supra</u>. Appellants have provided evidence that they filed an affidavit of assessment work with BLM on July 21, 2005. The other evidence provided does not support their assertion that they timely filed a waiver certification with BLM for the 2006 assessment year. <u>See Red Top Mercury Mines</u>, <u>Inc. v. United States</u>, 887 F.2d 198, 202-03 (9th Cir. 1989); <u>John R. Wellborn</u>, 87 IBLA 20, 22 (1985).

The statute is self-operative. It explicitly states that failure to timely pay the required maintenance fee automatically results in forfeiture of the mining claim by operation of law. 30 U.S.C. § 28i (2000). BLM and this Board are without authority to excuse lack of compliance with the maintenance fee requirement of the Act, to extend the time for compliance, or to afford any relief from the statutory consequences. Richard W. Cahoon Family Limited Partnership, 139 IBLA 323, 326 (1997). In the absence of a timely-filed maintenance fee payment or waiver certification, BLM properly declared the claims forfeited by operation of law. 43 CFR 3835.92(a); see Joe Bob Hall, 135 IBLA 284, 286 (1996); Alamo Ranch Co., 135 IBLA 61, 76 (1996).

Accordingly, pursuant to the authority delegated to the Board of Land Appeals by the Secretary of the Interior, 43 CFR 4.1, the decision appealed from is affirmed. The petition for stay is denied as moot.

⁴/ <u>Darrell Palmer</u>, <u>supra</u>, and <u>L. E. Garrison</u>, 52 IBLA 131, 132 (1981), are examples of cases in which an appellant provided sufficient evidence to meet its burden of showing actual receipt of a document by BLM, even though the document was missing from BLM's files.

Appeal #IBLA 2006-159

DATE:

April 28, 2006

I received a letter dated March 16, 2006, from the United States Department of the Interior advising me that my mining claims had been forfeited "for failure to file the required maintenance fee payment or small miner's maintenance fee waiver (waiver)." I filed an appeal dated March 28, 2006, which is now pending. I then received two letters from the United States Department of the Interior in Arlington Virginia with an ADR Referral Data Sheet attached. After received two ADR Referral Data Sheets, I felt I was being encouraged to proceed in this manner.

I called BLM in Phoenix and did not receive a return call. I then received a call from Ms. Sarah Greenberg which I understood her to say that I should call BLM in Phoenix and discuss the matter with them. Furthermore, an ADR is set at such time as the Department of Interior calls me.

ARIZONA
STATE OFFICE
PHOFNIX, ARIZONA

I called BLM in Phoenix and spoke with Amy. Amy informed me that she was not allowed to discuss any aspects of my case since it is pending appeal. Amy further stated that Ms. Greenberg gave me incorrect information and she was calling Ms. Greenberg. I am not attempting to place blame. I do not know the proper protocol, my point being that I get a different answer from every person I speak with.

This matter has become so frustrating. Every person I speak with gives me a different answer, yet I am told to believe that our mining claims which have been in our family for over fifty years have been forfeited because of one missing sheet of paper. I know the proper form was submitted due to the affidavits I submitted with the appeal. My husband and mother-in-in law witnessed me place the proper paper work in the envelopes. My mother-in-law also did not receive the proper papers from BLM in Phoenix however she is afraid to say anything for fear she will be placed in my situation.

I feel I will prevail on appeal. However, to end this frustrating mess I am willing to pay \$500 to reclaim our mining claims and end this matter.

Sincerely,

Kathy Velasco

ADRARIERERIRAL DATA SHEET

The Interior Board of Land Appeals (IBLA) encourages the list of Alternative Dispute Resolution (ADR) methods to resolve some types of appeals filed with the Board.

What is ADR?

ADF involves the use of various methods that allow the parties to resolve issues themselves outside the normal administrative appeals process. Those voluntary methods are confidential to the extent allowed by law and include:

Direct Negotiation

In direct negotiation, the parties get together to talk and try to reach an agreement that meets their common needs on some matter of common interest. Direct negotiation is typically private, with little or no third-party involvement, and the parties determine the outcome rather than a judge or other outside decision-maker.

Assisted Megotiation (Mediation)

In assisted negotiation or mediation, a trained, neutral third party (the mediator) assists the parties in reaching a mutually agreeable resolution of their dispute by helping the parties talk to each other, identify their interests, develop and explore alternative solutions, and decide on the best solution. The parties remain responsible for negotiating a settlement, and the mediator does not decide the issues or impose any solution. Mediation can be useful when the parties have reached a dead end in direct negotiations.

Joint Fact-finding

In joint fact-finding, a trained, neutral third party chosen by the parties receives information and listens to arguments from the parties to a factual or technical disagreement, may investigate the issues in dispute himself or herself, and then reports to the parties with findings of fact and perhaps recommendations based on those findings. The fact-finding process is informal, and the neutral's recommendations are non-binding (unless the parties agree otherwise). The parties typically use the findings and recommendations to help resolve their dispute, through either direct or assisted negotiation.

How does IBLA identify cases for ADR

Appeals filed with IBLA are identified as potentially suitable for ADR through use of an internal screening process. Parties may also request either orally or in writing that their appeals be considered for ADR. Some types of cases, including mining claim maintenance fee and recordation cases, generally will not be considered for ADR.

If an appeal is successfully settled either in whole or in part through ADR, IBLA will dismiss the appeal or those parts successfully resolved. If the case is not settled or if only a partial settlement is reached, the appeal or the unresolved issues will be decided through the normal administrative appeals process.

For more information on these processes, please contact the Office of Hearings and Appeals Dispute Resolution Specialist at (703) 235-3750.

COMPLETE STATEMENT OF THE REASONS WHY YOU ARE APPEALING

MINING CLAIMS DECLARED FORFEITED AMC66659, 66666, 66668, 66670, 66672, 339089 AYALA #1, #8, #10, #12, #14, #21, SAN BERNARDO #1 Referenced 3800 (AZ-933)AB, AMC66645, AMC339089

The above-mentioned mining claims, as well as many others, have been in the Velasco family since 1957. For approximately 50 years the Velasco family has filed the proper documents, as well as maintained the land where the claims are located at great time and expense, without any problems. Now, because of BLM's claim that an appropriate waiver was not filed, our family stands to lose the above-mentioned claims that are very important for financial and sentimental reasons.

I, Kathy Velasco, prepared the paperwork sent to The Bureau of Land Management as I have for the last 13 years. I am confident that my paperwork was correct. My mother-in-law as well as my husband checked and approved said paperwork, witnessed me place the proper documents in the envelopes and are prepared to testify to same. One envelope was addressed to The Bureau of Land Management and the other to the Gila County Recorder.

I am returning the original documents I received from the Bureau of Land Management. On said documents you will notice staple holes from the removal of the staple. I am surmising that with the flood of papers handled by The Bureau of Land Management my waiver unintentionally became unattached, was misplaced or left in a copy machine, just to name a few possibilities. I am positive that something unexplainable happened for the reason previously mentioned; my mother-in-law and husband watched me enclose the proper documents and seal the envelopes.

Also enclosed is a copy of the Waiver we received from the Gila County Recorder, the original of which was sent to the Bureau of Land Management.

I believe it is a travesty of justice for our family to lose these potentially valuable claims that have been in our family for approximately 50 years based on what amounts to a possible clerical error.

PETITION FOR A STAY OF A DECISION PENDING APPEAL

MINING CLAIMS DECLARED FORFEITED AMC66659, 66666, 66668, 66670, 66672, 339089 AYALA #1, #8, #10, #12, #14, #21, SAN BERNARDO #1 Referenced 3800 (AZ-933)AB, AMC66645, AMC339089.

FROM:

Bernardo and Kathy Velasco 816 E. Placita De Roberta Tucson, Arizona 85718 (520) 797-8283 (520) 471-7065

We hereby requested that the Petition For a Stay of a Decision Pending Appeal be granted based on the following grounds:

- 1) The Velasco family stands to lose the above-mentioned claims that could potentially be very valuable in years to come. Our claims have great sentimental value to our family as well. Bernardo Velasco, who has now passed on, originally maintained the claims with the help of his wife and six children. We have maintained these mining claims for obvious financial reasons and for sentimental reasons honoring the legacy of our family.
- 2) The likelihood of the appellant's success on the merits is highly substantial. Consuelo P. Velasco and Bernardo P. Velasco checked the paperwork sent to The Bureau of Land Management and witnessed myself, Kathy Velasco, place the proper documents in the envelopes and seal them. Both witnesses are prepared to testify to same. It is my contention that the Decision declaring the mining claims forfeited is simply an unintentional clerical error in the office of the Bureau of Land Management.
- 3) In the event this Petition for a Stay of a Decision Pending Appeal is not granted, I believe an unknown party could obtain these claims. Furthermore, Consuelo P. Velasco will be 80 years old January 1, 2007. Losing the claims that have been in her family for approximately 50 years would be very unsettling to say the least, not to mention the sentimental and potential financial loss.

4) Public interest favors granting the Stay. The possibility of an unknown person or company obtaining our claims after 50 years due to a possible clerical error would amount to a travesty. For all of the abovementioned reasons together with the possibility of losing our claims after 50 years of hard work and the expenses incurred to maintain the claims because of a possible clerical error merits the granting of the Stay pending a decision on the appeal.

ROUTINE USE: (1) Adjudication of the claimant(s) certification of waiver from paying the maintenance fee otherwise required by 30 U.S.C. 28f. (2) Disclosure may be made to appropriate Federal agencies when location is made within the agency's geographic area of responsibility. (3) Information from the record and/or the record will be transferred to the appropriate Federal, State, or local agency, or a member of the public in response to a specific request for pertinent information. The Paperwork Reduction Act of 1995 requires us to inform you that:

This information is being collected to allow the BLM to determine if you qualify for a waiver from the payment of \$100 per mining claim or site maintenance fee established in 30 U.S.C. 28f and the implementing regulations at 43 CFR 3830. A response to this request is required in accordance with the statute to obtain your benefit.

BLM would like you to know that you do not have to respond to this, or any other, Federal agency-sponsored information collection unless it displays a currently valid OMB control number.

MINING CLAIMS DECLARED FORFEITED

The mining claims listed above have been declared forfeited for failure to file the required maintenance fee payment or small miner's maintenance fee waiver (waiver).

Claimants are required to pay an annual non-refundable maintenance fee of \$125, or submit a waiver, on or before September 1 of each year. These requirements were established by 30 U.S.C. 28-f-k, as amended, and 43 Code of Federal Regulations (CFR) 3834 and 3835.

An affidavit of assessment work for the subject mining claims was timely received; however, our records do not show receipt of a waiver or a maintenance fee payment on or before September 1, 2005 for the 2006 assessment year. Therefore, the mining claims listed above are declared forfeited.

You are required to reclaim all areas disturbed by your activities on lands encompassed by your mining claim(s) and/or site(s). After you complete the reclamation, you must notify the authorized officer of the appropriate surface managing agency so that the authorized officer may conduct a final site inspection and determine whether you may be released from liability. If you fail to reclaim the land to the satisfaction of the authorized officer, the surface management agency may cite you for noncompliance under its surface management regulations.

For land administered by the Bureau of Land Management (BLM), if you fail to reclaim the land to the satisfaction of the authorized officer as required in 43 CFR Subpart 3809, BLM will issue an order of noncompliance under 43 CFR 3809.601(a). If you fail to comply with the noncompliance order, BLM may take further action under 43 CFR 3809.604. Failure to conduct reclamation is a prohibited act that may subject you to criminal penalties. See 43 CFR 3809.605(h) and 43 CFR 3809.700.

This decision may be appealed to the Interior Board of Land Appeals, Office of the Secretary, in accordance with the regulations contained in 43 CFR, Part 4 and the enclosed Form 1842-1. If an appeal is taken, your notice of appeal must be filed in this office (at the above address) within 30 days from receipt of this decision. The appellant has the burden of showing that the decision appealed from is in error.

If you wish to file a petition pursuant to regulation 43 CFR 4.21 (58 FR 4939, January 19, 1993) for a stay of the effectiveness of this decision during the time that your appeal is being reviewed by the Board, the petition for a stay must accompany your notice of appeal. A petition for a stay is required to show sufficient justification based on the standards listed below. Copies of the notice of appeal and petition for a stay **must** also be submitted to each party named in this decision and to the Interior Board of Land Appeals and to the appropriate Office of the Solicitor (see 43 CFR 4.413) at the same time the original documents are filed with this office. If you request a stay, you have the burden of proof to demonstrate that a stay should be granted.

Standards for Obtaining a Stay

Except as otherwise provided by law or other pertinent regulation, a petition for a stay of a decision pending appeal shall show sufficient justification based on the following standards:

- (1) The relative harm to the parties if the stay is granted or denied,
- (2) The likelihood of the appellant's success on the merits,
- (3) The likelihood of immediate and irreparable harm if the stay is not granted, and
- (4) Whether the public interest favors granting the stay.

Please include your AMC serial number(s) on all correspondence. If additional information is required, please call Amy Bunda at 602-417-9334.

DECISION

Mining Claimant(s) as Shown on the

Mining Claim(s)

Mill and Tunnel Site(s)

Enclosed Sheet(s)

Mining Claims, Mill and Tunnel Sites Declared Forfeited

Claimants are required to pay an annual non-refundable maintenance fee of \$100 or submit a small miner's maintenance fee waiver for each claim/site. These requirements were established by Public Laws 102-381 (106 Stat. 1374), dated October 5, 1992, and 103-66 (107 Stat. 405) dated August 10, 1993, and the regulations implemented August 30, 1994, found at 43 CFR 3833.1-5, 6, and 7.

The Bureau of Land Management (BLM) records do not show receipt of a maintenance fee payment or small miner's maintenance fee waiver on or before August 31, 1998 for the year of 1999, for the mining claim(s), mill and tunnel site(s) listed on the enclosed sheet(s), and therefore the claims are declared forfeited.

This decision does not relieve you of the requirement for reclamation of all areas disturbed by your activities on lands covered by your mining claim(s) and/or site(s). Failure to reclaim the land to the satisfaction of the authorized officer of the agency upon whose lands you have located may cause the agency to hold the claimant in a status of non-compliance under their surface management regulations. If reclamation is required, you must notify the proper authorized officer upon completion so that final site inspection and clearance may be obtained and your liability released. On BLM administered lands failure to reclaim the land to the satisfaction of the authorized officer as prescribed by 43 CFR 3809.1-1 and 3809.3-2 may cause BLM to hold you in a status of non-compliance under 43 CFR 3809.3-2 and invoke the penalty provisions of 43 CFR 3809.3.2(f).

During the same 30-day compliance period, this decision may be appealed to the Interior Board of Land Appeals, Office of the Secretary, in accordance with the regulations contained in 43 CFR, Part 4 and the enclosed Form 1842-1. If an appeal is taken, your notice of appeal

BUREAU OF LAND MANAGEMENT ARIZONA STATE OFFICE 222 NORTH CENTRAL AVENUE PHOENIX, AZ 85004-2203 must be filed in this office (at the above address) within 30 days from receipt of this decision. The appellant has the burden of showing that the decision appealed from is in error.

If you wish to file a petition pursuant to regulation 43 CFR 4.21 (58 FR 4939, January 19, 1993) or 43 CFR 2804.1 for a stay of the effectiveness of this decision during the time that your appeal is being reviewed by the Board, the petition for a stay must accompany your notice of appeal. A petition for a stay is required to show sufficient justification based on the standards listed below. Copies of the notice of appeal and petition for a stay **must** also be submitted to each party named in this decision and to the Interior Board of Land Appeals and to the appropriate Office of the Solicitor (see 43 CFR 4.413) at the same time the original documents are filed with this office. If you request a stay, you have the burden of proof to demonstrate that a stay should be granted.

Standards for Obtaining a Stay

Except as otherwise provided by law or other pertinent regulation, a petition for a stay of a decision pending appeal shall show sufficient justification based on the following standards:

- (1) The relative harm to the parties if the stay is granted or denied,
- (2) The likelihood of the appellant's success on the merits,
- (3) The likelihood of immediate and irreparable harm if the stay is not granted, and
- (4) Whether the public interest favors granting the stay.

If no appeal, or noncompliance, with the above occurs, this decision constitutes final administrative action of this Department as it affects the mining claims. No appeal, protest or petition for reconsideration will be entertained from this decision after the appeal period has expired.

Please include your A MC serial number(s) on all correspondence. If the maintenance fee payment was filed or additional information is required, please call Dorie Morrison at (602) 417-9518.

MINING CLAIMS, AND MILL SITES DECLARED ABANDONED

Claimants are required to pay a nonrefundable maintenance fee of \$100 or submit a small miner's maintenance fee waiver for each claim/site for each specified assessment year. These requirements were established by Public Laws 102-381, 106 Stat. 1374, dated October 5, 1992, and 103-66, 107 Stat. 405, dated August 10, 1993, and the regulations implemented August 30, 1994, at 43 CFR 3833.1-5, 1-6, and 1-7.

The 1996 maintenance fee or waiver certification must have been received by the Arizona State Office, Bureau of Land Management (BLM) or postmarked by the United States Postal Service on or before August 31, 1995.

If a waiver was timely filed, the affidavit of labor must have been filed on or before December 30, 1995, (43 CFR 3833.1-7 and 3833.2), together with a \$5 service charge per claim/site. Failure to timely file this affidavit and fee constitutes abandonment of the claim/site (43 CFR 3833.4(a)(1)).

The waiver for the subject mining claim(s) was timely received by the BLM; however, the BLM records do not show receipt of a 1995 affidavit of labor. Therefore, the mining claim(s) described above are/is declared abandoned and void.

If the affidavit of labor for the subject claim(s) was timely filed with the BLM, please furnish a copy of the affidavit along with the receipt of payment.

If the proof is not furnished within 30 days from receipt of this decision, the mining claim(s), will be removed from the BLM records as abandoned and void.

Protest Dismissed Mining Claims Declared Void

The Bureau of Land Management (BLM) Arizona State Office issued an Interlocutory Decision declaring the above-cited mining claims abandoned on June 14, 1995. The Decision afforded the claimants 30 days to show proof that the required Affidavit of Performance of Annual Work was timely filed with the BLM for the 1994 assessment year.

The BLM had erroneously given the claimants credit for a 1995 waiver based upon the filing of a 1994 exemption. The BLM had considered that a 1994 annual filing had been made; however, it was later determined that there was no such document on file.

During the compliance period, the BLM received a protest from the claimants on July 6, 1995, in response to the Interlocutory Decision. The protest was accompanied by a copy of the 1994 Affidavit of Performance of Annual Work. The copy, however, did not contain timely proof of receipt by the BLM nor proof of payment of the required service charge; i.e., receipt of payment or cancelled check.

No proof of timely filing of the affidavit or service charge payment was received; therefore, the subject mining claims are hereby considered void and the protest is hereby dismissed.

This Decision may be appealed to the Interior Board of Land Appeals, Office of the Secretary, in accordance with the regulations contained in 43 CFR, Part 4 and the enclosed Form 1842-1. If an appeal is taken, your notice of appeal must be filed in this office (at the above address) within 30 days from receipt of this Decision. The appellant has the burden of showing that the Decision appealed from is in error.

If you wish to file a petition pursuant to regulation 43 CFR 4.21 (58 FR 4939, January 19, 1993) or 43 CFR 2804.1 for a stay of the effectiveness of this Decision during the time that your appeal is being reviewed by the Board, the petition for a stay must accompany your notice of appeal. A petition for a stay is required to show sufficient justification based on the standards listed below. Copies of the notice of appeal and petition for a stay must aæsoubmitted to each party named in this Decision and to the Interior Board of Land Appeals and to the appropriate Office of the Solicitor (see 43 CFR 4.413) at the same time the original documents are filed with this office. If you request a stay, you have the burden of proof to demonstrate that a stay should be granted.

Standards for Obtaining a Stay

Except as otherwise provided by law or other pertinent regulation, a petition for a stay of a decision pending appeal shall show sufficient justification based on the following standards:

- (1) The relative harm to the parties if the stay is granted or denied,
- (2) The likelihood of the appellant's success on the merits,
- (3) The likelihood of immediate and irreparable harm if the stay is not granted, and
- (4) Whether the public interest favors granting the stay.

Dear Mr. Velasco:

We are returning your MAINTENANCE FEE PAYMENT WAIVER CERTIFICATION form, affidavit of labor and check #5350 in the amount of \$50.00 which was received by this office on July 17, 1995.

Current regulations at 43 CFR 3833.1-7 outline the filing requirements for the maintenance fee waiver. Section 3833.1-7(d)(4) and (5) requires that all of the names and addresses of the owners must be listed on the form and all of the owners must sign.

The claims listed on your form are owned by <u>Reymundo P. Velasco</u> and <u>Debra A. Velasco</u>. The name, address and signature of Debra A. Velasco is not affixed to your waiver form.

In order to qualify for the waiver from payment of the \$100 per claim maintenance fee due on or before August 31, 1995 all of the owners names must be listed and their signatures affixed to the form. The completed form must be filed in this office on or before August 31, 1995.

Your failure to provide us with a waiver form containing the signature of Debra A. Velasco or a conveyance instrument from her to Reymundo P. Velasco on or before August 31, 1995, could result in your mining claim being deemed forfeited.

RECEIVED SIMAZ STANDOFFICE If we may be of further assistance, please do not hesitate to contact us at $602\ 650-0528$.

If a qualifying Certification of Exemption From Payment of Rental Fee Form had been timely filed by August 31, 1993 for 1994, or a Maintenance Fee Payment Waiver Certification Form by August 31, 1994 for 1995, an affidavit of assessment work performed covering the mining claims and a notice of intention to hold for any mill or tunnel site (annual filing) was required to be filed, accompanied by \$5 for each claim or site on or before December 30, 1994. The BLM records do not show receipt of the maintenance fee payment for the mining claim(s), mill site(s), and tunnel site(s) listed on the enclosed sheet(s) on or before August 31, 1994, or if qualified, an annual filing on or before December 30, 1994. If the maintenance fee was timely paid to the BLM, Arizona State Office for 1995, by August 31, 1994, or if qualified, an affidavit of assessment work performed for mining claims or a notice of intention to hold for mill or tunnel sites for 1994, was filed by December 30, 1994, please furnish a copy of the BLM receipt for payment and the BLM timely stamped document listing the mining claims or sites and the BLM serial numbers. The evidence must be received in this office no later than 30 days from receipt of this Decision. IN REPLY REFER TO:

3800 (921) TR

January 12, 1995

Dear Mining Claimant:

On October 5, 1992, Public Law 102-381 was passed and regulations (enclosed) were approved on July 15, 1993. To maintain a mining claim or site under this law, claimants were required to pay a non-refundable rental fee in the amount of \$100 per claim/site or if qualified, submit a certification of exemption from payment of rental fees (small miners exemption) for both the 1993 and 1994 assessment years on or before August 31, 1993. This law was in effect for a 2-year period.

Our records show that on or before that date, you did file for an exemption for both years (1993 and in advance for 1994), and subsequently have filed each year by December 30, an affidavit of assessment work performed.

On August 10, 1993, Public Law 103-66 was passed and regulations (enclosed) were approved on August 30, 1994. This law approved a claim maintenance fee of \$100 per claim/site payable each year in advance for years 1994 through 1998. The law provided that in lieu of paying the maintenance fee, claimants could file for a maintenance fee payment waiver by August 31, 1994, for 1995. To qualify, all owners had to sign the form, have ten or less claims/sites in the United States, and perform assessment work for the current assessment year.

Many claimants did not file for a 1995 waiver, because by filing for an exemption from payment for both years 1993 and 1994 by August 31, 1993, they believed they were up-to-date for 1994. This was true for 1994, because the law required that the filing for 1994 was to be made in advance. The newest law, however, also required the filing of a waiver request to be made in advance for 1995, and for each year thereafter through 1998 by August 31 of each year.

Because the two laws overlapped one another, the regulations were written accordingly. Under 43 CFR §3833.1-7(a) Filing requirements for the maintenance fee waiver and other exceptions it states, "If no change in status has occurred, a small miner exemption certification previously filed for the assessment year ending at noon on September 1, 1994, under the Act of October 5, 1992 (Pub. L. 102-381, 106 Stat. 1374), and the pertinent regulations in effect on August 31, 1993, will be considered a proper certification filing for a waiver of payment of the maintenance fee due on August 31, 1994."

1995 WAIVER

ENTERED IN COMPUTER

1-10-95-USING DATE TRO 8-31-1993 This overlap of the laws was to your advantage for 1995. It will not occur again for the years 1996 through 1998. You will be required to file a maintenance fee payment waiver certification on or before August 31, 1995, in advance for 1996 and each year thereafter by August 31 for each up-coming year you desire a waiver from paying the maintenance fee.

It appears from the records of the Bureau of Land Management (BLM), that on August 31, 1994, you and all co-owners, if any, had ten or fewer mining claims in the United States, and that you have filed the necessary 1994 assessment work affidavit. Therefore, we have updated the computer record automatically with a 1995 waiver for the claims listed on the enclosed sheet.

Please verify your name and the associated mining claims on this list for its accuracy and notify us if there are any errors.

You must file an affidavit of labor for 1995 by December 30, 1995, covering the mining claims and a notice of intention to hold for any mill or tunnel sites, accompanied by \$5 for each claim or site.

If you desire a waiver for 1996, you must file a maintenance fee payment waiver certification form (copy enclosed) by August 31, 1995, and each subsequent year in advance for the next assessment year on or before August 31. If qualified, you must file an affidavit of assessment work covering the mining claims and a notice of intention to hold for any mill or tunnel site listed on the form, accompanied by \$5 for each claim or site on or before December 30.

In lieu of filing a waiver request followed by an affidavit of assessment work for mining claims or a notice of intention to hold for sites, you have the option of paying a \$100 maintenance fee for each claim or site on or before August 31 each year in advance, in lieu of assessment. However, once you file for a waiver and qualify, you are required to file an affidavit of assessment work to cover that waiver.

Please remember that if you locate new mining claims or sites, or acquire interests in additional mining claims or sites which brings your total to more than ten mining claims or sites in the United States, or if a co-owner owns more than ten claims or sites, your waiver will no longer qualify. You will be required to pay a maintenance fee of \$100 for each claim or site that you own.

If you have any questions concerning the above, please do not hesitate to write Tom Reitmeyer or Mary Hyde at the address above, or call them at (602) 650-0518.

Sincerely,

Mary Jo Yoas Chief, Branch of Lands and Minerals Operations

Ms. Virginia V. Hennessey 201 Downshire San Antonio, Texas 78216

Dear Ms. Hennessey:

The enclosed list identifies the serial numbers that have been assigned to each of your mining claim relocation notices received by this office on December 5, 1994. Please note, A MC 66761 and A MC 66782 could not be closed because the owner of record is Virginia M. Velasco.

The regulations require you to identify the claim name and A MC serial number of each claim, and the claimant's name and address on all future documents and correspondence filed with the Bureau of Land Management (BLM).

This acknowledgment does not verify that your claims have been located on lands open to mineral entry. If you have not made this determination, we encourage you to visit the nearest BLM office to check the official land status records. Only those mining claims that are entirely located on private or Federal lands that are not open to mineral entry will be officially declared void by the BLM.

Please advise this office of all changes of address, any authorized agents, and transfers of ownership.

Transfers of ownership are governed by 43 CFR 3833.3(a) which states that, "Whenever the owner of an unpatented mining claim, mill site or tunnel site, which has been recorded in accordance with 43 CFR 3833.1, sells, assigns, or otherwise conveys all or any part of his interest in the claim, his transferee shall file in the proper BLM office within 60 days after the completion of the transfer. . ." A service charge of \$5 per claim is required for all transfers.

By keeping our records current, we will be able to provide better public service. All future correspondence from this office will be sent \underline{only} to the above name and address unless otherwise instructed.

If any of the information listed on the enclosed is not correct, please notify this office in writing.

Sincerely,

Notice of Intent to Hold I of Filing Fee of \$10.00 pe	Unpatented Miner Claim	ning Claims and Pay	yment		TO OFF

To whom it may concern:

ASARCO LLC has just purchased the 20 mining claims located in Gila County listed on Exhibit "A" (the "Claims"). An unrecorded copy of the Quitclaim Deed which was recorded on December 27, 2012 is also enclosed for your reference. As soon as we receive the recorded document from the Gila County Recorder we will be filing the appropriate change of ownership documents with the Bureau of Land Management.

Considering the recent purchase, it is unclear whether it is necessary for these claims to comply with 30 U.S.C. § 28f, as amended, 43 U.S.C. § 1744, as amended, and other implementing Bureau of Land Management regulations (the "Regulations"). It is my understanding that the sellers of the Claims have not filed any documents with you.

Therefore, on behalf of ASARCO LLC enclosed please find the Location Notice for Load Mining Claim and Affidavit of Performance of Annual Work which were filed by the previous owners with the Gila County Recorder (collectively, the "Notices"). Also enclosed is a check in the amount of \$200.00 for payment of the required \$10.00 per claim filing fee ("Filing Fees").

If the sellers did file the documents needed to comply with the Regulations, or if it is not necessary to file the Notices or pay the Filing Fees, please return the Filing Fee to my

> 2 sheets 7 claims

MINING CLAIMS, AND MILL SITES DECLARED ABANDONED

Claimants are required to pay a nonrefundable maintenance fee of \$100 or submit a small miner's maintenance fee waiver for each claim/site for each specified assessment year. These requirements were established by Public Laws 102-381, 106 Stat. 1374, dated October 5, 1992, and 103-66, 107 Stat. 405, dated August 10, 1993, and the regulations implemented August 30, 1994, at 43 CFR 3833.1-5, 1-6, and 1-7.

The 1996 maintenance fee or waiver certification must have been received by the Arizona State Office, Bureau of Land Management (BLM) or postmarked by the United States Postal Service on or before August 31, 1995.

If a waiver was timely filed, the affidavit of labor must have been filed on or before December 30, 1995, (43 CFR 3833.1-7 and 3833.2), together with a \$5 service charge per claim/site. Failure to timely file this affidavit and fee constitutes abandonment of the claim/site (43 CFR 3833.4(a)(1)).

The waiver for the subject mining claim(s) was timely received by the BLM; however, the BLM records do not show receipt of a 1995 affidavit of labor. Therefore, the mining claim(s) described above are/is declared abandoned and void.

If the affidavit of labor for the subject claim(s) was timely filed with the BLM, please furnish a copy of the affidavit along with the receipt of payment.

If the proof is not furnished within 30 days from receipt of this decision, the mining claim(s), will be removed from the BLM records as abandoned and void.

Dear Mining Claimant:

On October 5, 1992, Public Law 102-381 was passed and regulations (enclosed) were approved on July 15, 1993. To maintain a mining claim or site under this law, claimants were required to pay a non-refundable rental fee in the amount of \$100 per claim/site or if qualified, submit a certification of exemption from payment of rental fees (small miners exemption) for both the 1993 and 1994 assessment years on or before August 31, 1993. This law was in effect for a 2-year period.

Our records show that on or before that date, you did file for an exemption for both years (1993 and in advance for 1994), and subsequently have filed each year by December 30, an affidavit of assessment work performed.

On August 10, 1993, Public Law 103-66 was passed and regulations (enclosed) were approved on August 30, 1994. This law approved a claim maintenance fee of \$100 per claim/site payable each year in advance for years 1994 through 1998. The law provided that in lieu of paying the maintenance fee, claimants could file for a maintenance fee payment waiver by August 31, 1994, for 1995. To qualify, all owners had to sign the form, have ten or less claims/sites in the United States, and perform assessment work for the current assessment year.

Many claimants did not file for a 1995 waiver, because by filing for an exemption from payment for both years 1993 and 1994 by August 31, 1993, they believed they were up-to-date for 1994. This was true for 1994, because the law required that the filing for 1994 was to be made in advance. The newest law, however, also required the filing of a waiver request to be made in advance for 1995, and for each year thereafter through 1998 by August 31 of each year.

Because the two laws overlapped one another, the regulations were written accordingly. Under 43 CFR §3833.1-7(a) Filing requirements for the maintenance fee waiver and other exceptions it states, "If no change in status has occurred, a small miner exemption certification previously filed for the assessment year ending at noon on September 1, 1994, under the Act of October 5, 1992 (Pub. L. 102-381, 106 Stat. 1374), and the pertinent regulations in effect on August 31, 1993, will be considered a proper certification filing for a waiver of payment of the maintenance fee due on August 31, 1994."

SLM. AZ STATE OFFICE

This overlap of the laws was to your advantage for 1995. It will not occur again for the years 1996 through 1998. You will be required to file a maintenance fee payment waiver certification on or before August 31, 1995, in advance for 1996 and each year thereafter by August 31 for each up-coming year you desire a waiver from paying the maintenance fee.

It appears from the records of the Bureau of Land Management (BLM), that on August 31, 1994, you and all co-owners, if any, had ten or fewer mining claims in the United States, and that you have filed the necessary 1994 assessment work affidavit. Therefore, we have updated the computer record automatically with a 1995 waiver for the claims listed on the enclosed sheet.

Please verify your name and the associated mining claims on this list for its accuracy and notify us if there are any errors.

You must file an affidavit of labor for 1995 by December 30, 1995, covering the mining claims and a notice of intention to hold for any mill or tunnel sites, accompanied by \$5 for each claim or site.

If you desire a waiver for 1996, you must file a maintenance fee payment waiver certification form (copy enclosed) by August 31, 1995, and each subsequent year in advance for the next assessment year on or before August 31. If qualified, you must file an affidavit of assessment work covering the mining claims and a notice of intention to hold for any mill or tunnel site listed on the form, accompanied by \$5 for each claim or site on or before December 30.

In lieu of filing a waiver request followed by an affidavit of assessment work for mining claims or a notice of intention to hold for sites, you have the option of paying a \$100 maintenance fee for each claim or site on or before August 31 each year in advance, in lieu of assessment. However, once you file for a waiver and qualify, you are required to file an affidavit of assessment work to cover that waiver.

Please remember that if you locate new mining claims or sites, or acquire interests in additional mining claims or sites which brings your total to more than ten mining claims or sites in the United States, or if a co-owner owns more than ten claims or sites, your waiver will no longer qualify. You will be required to pay a maintenance fee of \$100 for each claim or site that you own.

JUL 6 '95

PHOENIX, ARIZONA

Dear Ms. Yoas,

I received a letter from you dated June 14, 1995 indicating that I have 4 mining claims that do not show receipt of the maintenance fee for the 1993/1994 mining year. I am attaching your letter along with my exemption from payment of rental fee and my affidavit of performance of annual work for the 1993/1994 mining year. I do not however have any BLM receipt to show that you received these documents along with the \$5.00 service charge. I am also sending a copy of a letter dated January 12, 1995 from your office indicating that you updated your records with a 1995 waiver for the 4 claims that are now in question. I am sending to you in a separate envelope my waiver for 1996 for all 10 of my claims which include these 4 that are in question.

I feel that with all the new regulations and all the paperwork that needed to be done on these, it appears that your office might have misplaced some of the documents and therefore you decided to give me a waiver for 1995 on the 4 claims in question. I have the notorized documents showing that I did send in the necessary paperwork and I have the letter that indicates that you gave me a waiver on these 4 claims due to the uncertainty of your office properly processing all the paperwork.

Needless to say, I believe I have done everything that I have been requested to do by the BLM. Your letter in January states that I have been given a waiver for 1995 on the 4 claims. Why am I now subjected to a threat of my 4 claims being taken away? I don't understand nor do I agree with all of the rules and regulations that the U.S. Government put in place with these new small mining regulations however, I have lived and executed against those rules and regulations.

Please review your records again and review your letter of January 12, 1995. If all you are missing is the \$5.00 service fee for these 4 claims I will gladly send you \$20 to ensure that all the records are accurate and up to date. I have been timely with all of my filings since these new laws were inacted. Please update your records to reflect that the 4 Lead Silver King claims are current and are not abandoned.

Thank-you,

Gary D. Petersen

MINING CLAIMS, MILL SITES, AND TUNNEL SITES DECLARED ABANDONED

Public Laws 102-381, 106 Stat. 1374, dated October 5, 1992, and 103-66, 107 Stat. 405, dated August 10, 1993, and the regulations implemented August 30, 1994, at 43 CFR §3833.1-5, "Maintenance fees" prescribe, unless otherwise exempted, that a \$100 maintenance fee for assessment year 1994-1995, must be paid to the Bureau of Land Management (BLM) for each mining claim, mill site, and tunnel site on or before August 31, 1994. If a qualifying Certification of Exemption From Payment of Rental Fee Form had been timely filed by August 31, 1993 for 1994, or a Maintenance Fee Payment Waiver Certification Form by August 31, 1994 for 1995, an affidavit of assessment work performed covering the mining claims and a notice of intention to hold for any mill or tunnel site (annual filing) was required to be filed, accompanied by \$5 for each claim or site on or before December 30, 1994. Failure to pay the maintenance fee by August 31, 1994, or if qualified, to file the annual filing by December 30, 1994, shall conclusively constitute an abandonment of the mining claim, mill site, or tunnel site, which shall be void.

The BLM records do not show receipt of the maintenance fee payment for the mining claim(s), mill site(s), and tunnel site(s) listed on the enclosed sheet(s) on or before August 31, 1994, or if qualified, an annual filing on or before December 30, 1994. If the maintenance fee was timely paid to the BLM, Arizona State Office for 1995, by August 31, 1994, or if qualified, an affidavit of assessment work performed for mining claims or a notice of intention to hold for mill or tunnel sites for 1994, was filed by December 30, 1994, please furnish a copy of the BLM receipt for payment and the BLM timely stamped document listing the mining claims or sites and the BLM serial numbers. The evidence must be received in this office no later than 30 days from receipt of this Decision. If the proof is not furnished during the 30-day period, the mining claim(s), mill site(s), and tunnel site(s) will be removed from the BLM records as abandoned and void.
