6 Location Notices-Amendments and Supporting Documents

Notice Is Hereby Given That the Glory Ana. #. 1. Mining Claim was located by C. E. New on this 1 day of July 19231, for mining purposes. Said claim is 1,500 feet in length along the vein or deposit of mineral-bearing rock in place and 300 feet in width on each side of the center of said vein or deposit, from end to end of said claim. The general course of this claim is North Westerly & South Easterly and is situated in the Black Canyon Mining District, yavapai

Santa Crus County, Arizona, about 2 1/2 Miles south of Bumble Bee Ariz. About One Mile East of Black Canyon

(WRITE ON ABOVE LINES THE DISTANCE AND DIRECTION THE CLAIM IS FROM SOME PERMANENT AND NATURAL OBJECT, SUCH AS A MOUNTAIN PEAK, STREAM, ETC.)

This claim runs from the discovery monument, or stake, on which the notice is posted 750 feet in a North Westerly direction to the North Westerly center end monument, or stake, and 750 feet in a south Easterly direction from the aforesaid location monument, or stake, to the south Easterly center end monument, or stake, and is also marked by two corner monuments, or stakes, at each end

### NOTICE OF LOCATION

Notice Is Hereby Given That the la Dora #4 Mining Claim was located by C E New on this 1 day of Nov., 19234, for mining purposes. Said claim is 1,500 feet in length along the vein or deposit of mineral-bearing rock in place and 300 feet in width on each side of the center of said vein or deposit, from end to end of said claim. The general course of this claim is North & south and is situated in the Black Canyon Mining District, Santa Crus County, Arizona, about Three Miles south of Bumble Bee,

(WRITE ON ABOVE LINES THE DISTANCE AND DIRECTION THE CLAIM IS FROM SOME PERMANENT AND NATURAL OBJECT, SUCH AS A MOUNTAIN PEAK, STREAM, ETC.)

This claim runs from the discovery monument, or stake, on which the notice is posted 750 feet in a northerily direction to the northerly center end monument, or stake, and 750 feet in a southerily direction from the aforesaid location monument, or stake, to the southerly center end monument, or stake, and is also marked by two corner monuments, or stakes, at each end of said claim, one on each side of and 300 feet from the center end monuments, or stakes, making the claim in the form of a

> C. E. New Locator.

Filed and recorded at request of C.E. New, Jan. 5 A. D. 1935, at 9:00 o'clock A. M., Book 129 of Mines, Page 269, Records of Yavapai County, Arizona.

#### EXCERPTS FROM THE MINING LAWS OF THE STATE OF ARIZONA

Title XXXIV of the Revised Statutes of 1913, Chap. I, and Amendments thereto.

Section 4038. Such location shall be made by erecting at or contiguous to the point of discovery a conspicuous monument of stones not less than three feet in height, or an upright post, securely fixed, projecting at least four feet above the ground, in which monument of stones or on which post there shall be posted a location notice which shall be signed by the name or names of the locator or locators.

Sec. 4030. From the time of the location of a mining claim, as above specified, the locator shall be allowed ninety days within which to do or cause to be done the following things:

2. To sink a discovery shaft in the claim to a depth of at least eight feet from the lowest part of the rim of the shaft at the surface, and deeper, if necessary, until there is disclosed in said shaft mineral in place.

Sec. 4032. Such surface boundaries shall be marked by six substantial posts projecting at least four feet above the surface of the ground, or by substantial stone monuments at least three feet high, to-wit: One at each corner of said claim and one at the center of each end-line thereof.

Provided, however, that when the point of a monument of a mining claim is at the same point, and coincides with a monument of the survey of the United States, the monument of such government survey shall be and is hereby declared to be a mining claim monument of claims heretofore or hereafter located.

Sec. 4034. Location notices may be amended at any time and the monuments changed to correspond with the amended location; Provided, That no change shall be made that will interfere with the rights of others.

This diagram is to give locator a general idea of plan of location under the new law. The Discovery Shaft can be in the center of claim or any distance from either end desired. In the diagram it is placed 500 feet from one end and 1000 feet from the other. Commence description of claim at a center end monument, giving its distance and direction from center of Discovery Shaft: thence bound the claim in either direction. In description be careful to state locality of claim with reference to some natural object, or permanent monument, as will identify the claim.

Dated and posted on the grounds this 15 day of APRIA 1956

#### EXCERPTS FROM THE MINING LAWS OF THE STATE OF ARIZONA

Title XXXIV of the Revised Statutes of 1913, Chap. I, and Amendments thereto.

Section 4038. Such location shall be made by erecting at or contiguous to the point of discovery a conspicuous monument of stones not less than three feet in height, or an upright post, securely fixed, projecting at least four feet above the ground, in which monument of stones or on which post there shall be posted a location notice which shall be signed by the name or names of the locator or locators.

Sec. 4030. From the time of the location of a mining claim, as above specified, the locator shall be allowed ninety days within which to do or cause to be done the following things:

2. To sink a discovery shaft in the claim to a depth of at least eight feet from the lowest part of the rim of the shaft at the surface, and deeper, if necessary, until there is disclosed in said shaft mineral in place.

Sec. 4032. Such surface boundaries shall be marked by six substantial posts projecting at least four feet above the surface of the ground, or by substantial stone monuments at least three feet high, to-wit: One at each corner of said claim and one at the center of each end-line thereof.

Provided, however, that when the point of a monument of a mining claim is at the same point, and coincides with a monument of the survey of the United States, the monument of such government survey shall be and is hereby declared to be a mining claim monument of claims heretofore or hereafter located.

Sec. 4034. Location notices may be amended at any time and the monuments changed to correspond with the amended location; Provided, That no change shall be made that will interfere with the rights of others.

This diagram is to give locator a general idea of plan of location under the new law. The Discovery Shaft can be in the center of claim or any distance from either end desired. In the diagram it is placed 500 feet from one end and 1000 feet from the other. Commence description of claim at a center end monument, giving its distance and direction from center of Discovery Shaft; thence bound the claim in either direction. In description be careful to state locality of claim with reference to some natural object, or permanent monument, as will identify the claim.
