Maintenance Fee Waiver Held for Rejection

This office received the Maintenance Fee Waiver Certification (waiver) for the above listed mining claim(s). The waiver is not properly completed and does not meet the annual filing requirements.

In accordance with 43 Code of Federal Regulations (CFR) 3835.10, the name, address, and original signatures of all owners of the mining claim must be included on the waiver form. Please correct the discrepancy as noted below:

The document received expired on October 31, 2016. Please submit the current Form 3830-2 (January 2017), which expires on January 31, 2020.

In order to correct the defect in the waiver, per 43 CFR 3835.93, you must provide this office with the requested information within 60 days of your receipt of this notice. If you are unable to provide this information, you have the option of paying the annual maintenance fee of \$155 per claim (\$155 per 20 acres for placer claims larger than 20 acres). If we do not receive the requested corrections or the maintenance fees within the 60 day time frame, the claim(s) will be declared forfeited and closed.

If additional information quired, please contact Brent Squires a 2-417-9397. Please include your AMC serial number all correspondence.

Mining Claim Location Notice(s) - Amendment(s) Required

Pursuant to Title 43 Code of Federal Regulations (CFR) 3832.1, the Bureau of Land Management (BLM), Arizona State Office, received the information you filed on February 11, 2016, to amend the mining claims listed above. In accordance with 43 CFR 3832.12, the information received is incomplete and cannot be accepted as filed to amend to your mining claims.

This office did receive amended maps for your claims along with the \$10 processing fee per claim required for 4 amendments. However, you must file an amended location notice for each claim also. The amended location notice must reflect the changes to the claim dimensions, acreage, and legal description. In addition, you must depict the amended mining claim on the location notice map. Your amended map must depict where the claim lies within the section with the section number written clearly along with the township and range. For your convenience, we have enclosed blank location notices for placer mining claims.

An amendment must be filed for each claim listed above to correct the defects identified. No processing fees are required since those fees were received along with the amended maps on February 11, 2016. The amended location notices must be received by BLM within 30 days of your receipt of this notice. If the amended location notices are not received within the 30 day timeframe the mining claims will be declared null and void.

Association Placer Mining Claims Documentation or Amendments Required

The mining claims listed above are association placer mining claims that are over 20 acres in size. The claims were originally located with the required number of locators to meet the 20-acre per locator requirement. However, the claims are now held by a smaller group of claimants than originally located them and are therefore not in compliance with the legal requirements.

By law, each individual claimant is allowed to hold a maximum of 20 acres per claim. A corporation is considered to be a single entity that is allowed to hold a maximum of 20 acres per claim. In accordance with 43 CFR 3833.33 you may transfer, sell, or otherwise convey an association placer mining claim at any time to an equal or greater number of mining claimants. If you want to transfer an association placer claim to an individual or an association that is smaller in number than the association that located the claim you (a) must have discovered a valuable mineral deposit before the transfer; or (b) upon notice from the Bureau of Land Management (BLM), you must reduce the acreage of the claim, if necessary, so that you meet the 20-acre per locator limit.

On June 20, 2014, BLM sent you a notice requesting that you show compliance with 43 CFR 3833.33 by providing either documentation of a discovery of a valuable mineral deposit for each

of the four claims as listed prior to the claims being transferred from the original locators to yourself, or reducing the claim acreage to 20 acres per claim as allowed by law. On July 18, 2014, you provided this office with a document titled "Proof of Discovery" signed by Les Bender and dated February 8, 2005, purportedly written by Les Bender, summarizing the results of the sampling and test results on the listed placer claims.

The BLM determined that the information was insufficient to show that a valuable mineral deposit was discovered prior to the transfer of the claims to you.

Pursuant to 1861 IBLA 227 William Wielgus (09-30-2015), BLM is hereby giving you an opportunity to provide more information to prove discovery prior to the date whereby you obtained the following mining claims:

Claim Name	BLM Claim Number	Location
Open Bucket	AMC369712	T6N R6W, Section 32, NW ¹ / ₄
Rock On	AMC369954	T6N R5W, Section 19, SW ¹ / ₄
Ranger Run	AMC370046	T6N R6W, Section 27, SW ¹ / ₄
Golden Record	AMC370783	T5N R10W, Section 26, SW ¹ / ₄

The "Proof of Discovery" document indicates that five (5) 400 pound samples were taken from each claim at intervals of 1,750 feet to 2,620 feet. There is no indication how these samples were taken or processed or what these samples represent as pertaining to the bulk of material found on the claims. Were the samples taken from the surface, taken from a trench, from a pit, etc.? How far above bedrock were the samples taken? Was the material processed using a dry washer, a trammel, metal detected, panned, etc.? Was the material sampled homogeneous or stratified? Were there boulders present and, if so, what percentage of the material were boulders? What care was taken to ensure accurate samples were taken? How was the weight of each sample determined?

The "Proof of Discovery" document states that a reserve estimate can be done by taking the total acreage in a claim and multiplying it times the value of the related sample. Please provide a reserve estimate for each claim and an explanation how the estimate was derived.

Sample values have little economic meaning unless they are viewed in relation to the cost of recovering the gold. The "Proof of Discovery" document states that "all the land will be worked in the same way as the samples were taken." Please provide a breakdown of the cost to mine the reserves on each claim.

Without this information we cannot determine if the claims are being properly held by a single claimant. Therefore, we are requiring that the above listed information be submitted to this office for review by a mineral examiner.

This required information must be dated **prior** to the date of transfer. If you do not have this information, then you must amend the claims listed above, reducing the acreage to 20 acres per claimant as allowed by law.

We must receive either this additional documentation supporting a discovery of a valuable mineral deposit, or amendments within 30 days of your receipt of this notice. If the required documentation or the amendments are not received within the 30-day timeframe the mining claims will be declared forfeited and void. If amendments are filed, there is a \$10 BLM processing fee for each amendment. The amendments must also be filed with the county.

If additional information is required, please contact Rod Ebert at 602-417-9397. Please include your AMC serial number(s) on all correspondence.

Sincerely,

Rebecca Heick Deputy State Director Lands, Minerals and Energy Division

WILLIAM WIELGUS

IBLA 2015-26

Decided September 30, 2015

Appeal from a decision of the Arizona State Office, Bureau of Land Management (BLM), declaring unpatented association placer mining claims forfeited for failure to file amended claim notices to comply with the 20-acre per claimant requirement of 43 C.F.R. § 3833.33. AMC369712 *et al.*

Set aside and remanded.

1. Mining Claims: Abandonment--Mining Claims:
Recordation of Affidavit of Assessment Work or Notice of
Intention to Hold--Mining Claims: Rental or Claim
Maintenance Fees: Generally--Mining Claims: Rental or
Claim Maintenance Fees: Small Miner Exemption

The holder of an unpatented mining claim is required to pay a maintenance fee for each claim or site on or before September 1 of each year. The Secretary of the Interior has the discretion to waive the maintenance fee for a claimant who certifies in writing that, on the date the payment is due, the claimant and all related parties hold not more than 10 mining claims, mill sites, tunnel sites, or any combination thereof. If a claimant pays the maintenance fee or files a small miner waiver certificate, the claimant must perform assessment work for each assessment year, and then file evidence of assessment work with the proper BLM office on or before December 30 following the end of that assessment year. These annual filings must be made independent of the claimant's obligation to comply with the limitations placed on the transfer of association placer mining claims by 43 C.F.R. § 3833.33.

2. Mining Claims: Mining Claims--Discovery--Generally: Mining Claims--Determinations of Validity: Mining Claims--Placer Claims

Where a mining claimant submits documentation supporting his claim of a discovery of a valuable mineral deposit on an association mining claim prior to transfer under 43 C.F.R. § 3833.33, and BLM finds that evidence to be insufficient for a finding that there is a discovery, BLM properly affords the claimant further opportunity to submit evidence in support of his claim of discovery. It is premature to summarily void the claims based on the adjudicator's finding of insufficient evidence of discovery.

APPEARANCES: William Wielgus, Wickenburg, Arizona, pro se; John L. Gaudio, Esq., Office of the Field Solicitor, U.S. Department of the Interior, Phoenix, Arizona, for the Bureau of Land Management.

OPINION BY ADMINISTRATIVE JUDGE ROBERTS

William Wielgus (Appellant) appeals from and requests a stay of an October 3, 2014, decision of the Arizona State Office, Bureau of Land Management (BLM), declaring the Open Bucket, Rock On, Ranger Run, and Golden Record unpatented association placer mining claims (AMC369712, AMC369954, AMC370046, and AMC370783)¹ forfeited for failure to file amended claim notices to comply with the 20-acre per claimant requirement of 43 C.F.R. § 3833.33. For the following reasons, we set aside BLM's decision and remand for further action consistent with this decision.

See 30 U.S.C. § 36 (2012) ("Legal subdivisions of forty acres may be subdivided into ten-acre tracts; and two or more persons, or associations of persons, having contiguous claims of any size, although such claims may be less than ten acres each, may make joint entry thereof[.]" (emphasis added)); 43 C.F.R. § 3832.12(c) ("If you are describing an association placer claim by metes and bounds, you must meet [the requirements in § 3832.12(c)], according to the number of persons in your association, as described in *Snow Flake Fraction Placer*, 37 Pub. Lands Dec. 250 (1908), in order to keep your claim in compact form and not split Federal lands into narrow, long or irregular shapes[.]"); 43 C.F.R. § 3832.21 (how to locate a lode or placer claim).

Background

Eight co-locators located the four association placer mining claims at issue in November and December of 2005. Each of the eight co-locators located 20 acres in each claim, so that each association placer mining claim contained 160 acres. These locations met the requirements of the Mining Law, which provides that no placer location may include more than 20 acres for each individual claimant, and may not exceed 160 acres for an association of up to eight individual claimants. 30 U.S.C. §§ 35, 36 (2012). Regulations implementing the Mining Law require that upon transfer of an association placer claim to an individual or an association that is smaller in number than the association that located the claim, the transferor must either "have discovered a valuable mineral deposit before the transfer" or, "[upon] notice from BLM . . . reduce the acreage of the claim" to meet the 20-acre per claimant limit. 43 C.F.R. § 3833.33.

In March and April of 2006, the eight original co-locators transferred their interests in the mining claims to Appellant. There is no record that any of the co-locators complied with 43 C.F.R. § 3833.33, there being no evidence in the record that the transferors had "discovered a valuable mineral deposit before the transfer" or reduced the acreage of the claims to meet the 20-acre per claimant limit. 43 C.F.R. § 3833.33. Since becoming sole owner of the mining claims, Appellant has filed maintenance fee waiver certifications (Waiver Certifications), affidavits of performance of assessment work (Affidavits), and the required processing fees for the claims for each assessment year.

On June 20, 2014, BLM sent Appellant a notice requesting him to show compliance with 43 C.F.R. § 3833.33 by providing either documentation of a discovery of a valuable mineral deposit for each of the four claims prior to transfer of the claims to Appellant, or amendments reducing the size of the claims so that they would meet the 20-acre per locator limit. Administrative Record (AR), Tab 5, "Notice: Association Placer Mining Claims Documentation or Amendments Required."

On July 18, 2014, Appellant responded to the notice with a document entitled "Proof of Discovery." AR Tab 4. He stated that "[t]he purpose of this report is to prove 'discovery' of a valuable mineral deposit on the four prospective claims." *Id.* at unpaginated 1. In his submittal, Appellant described in general terms how samples were collected from each of the claims and how they were assayed "using the acid test" for the presence of gold. *Id.* at unp. 1-2. He also discussed in general terms how the claims would be accessed and how any gold found there would be extracted and processed. *Id.* at unp. 2. Appellant stated that "[a] reserve estimate will be done by taking the total acreage in the claim and multiplying if times the value of the sample" which he states "will show that the claim can be used for an extended

period of time." *Id.* He attached maps of the locations on each claim where samples were taken, and results of those samples. *Id.* at unp. 4-7. Last, he attached a signed statement entitled "Results of Sampling Survey" dated February 8, 2005, purportedly written by Les Bender, identified as "V.P. Weaver Mining District," summarizing the results of the sampling and test results.² *Id.* at unp. 8.

In a second notice, dated August 18, 2014, BLM stated that Appellant's response had been examined by a mineral examiner who determined that it was "insufficient to show that a valuable mineral deposit was discovered prior to transfer" of the claims. AR Tab 3 at unp. 3. BLM listed the following specific deficiencies:

No information was provided as to how the samples were taken. No data concerning sample volumes was provided. No information concerning the nature or type of material sampled was provided. The amount of gold recovered per volume or tonnage of material was not provided. No reserve estimates were provided. No deposit boundaries were defined. No operational or development costs were provided.

Id. BLM additionally stated that "[t]here was no information submitted for AMC370783." Id. BLM concluded that Appellant was required to amend each of the four claims to reduce their acreage to comply with the 20-acre claimant requirement. Id. at unp. 1. BLM stated that if Appellant did not file the amendments within 30 days of receipt of the notice, the four mining claims would be declared forfeited and void. Id.

There is no evidence in the record that Appellant amended his claims within the 30-day period. On October 3, 2014, after Appellant failed to amend the mining claims to comply with the 20-acre claimant requirement, BLM issued its decision declaring the claims forfeited. AR Tab 2.

Appellant timely filed a "Request for Appeal" of BLM's decision, which we treat as a Statement of Reasons (SOR) in support of his appeal. AR Tab 1 (Appeal).

The Proof of Discovery and Results of Sampling Survey are handwritten, and the handwriting appears to match that of Appellant's Request for Appeal and other handwritten documents in the record. If the validity of Appellant's claims reaches the contest stage, as discussed *infra* in this opinion, the veracity of the Proof of Discovery Results of Sampling Survey, and the validity of their contents, will be evidentiary matters for resolution at the fact-finding hearing before an Administrative Law Judge. See 43 C.F.R. § 4.452-6.

Appellant does not state that he filed amendments to the claims by the deadline. Instead, he states that he filed Waiver Certifications for the 2007 through 2015 assessment years, and Affidavits for the 2006 through 2014 assessment years, and that BLM accepted payments associated with those filings. *Id.* at unp. 2. He also states that when BLM returned to him date-stamped original copies of the documents he submitted in response to BLM's June 20, 2014, notice, including the document entitled "Proof of Discovery," he believed that BLM had approved those documents. *Id.*

BLM filed an Answer to Appellant's SOR. BLM first acknowledged that Appellant timely filed Waiver Certifications for the 2007 through 2015 assessment years, and Affidavits for the 2006 through 2014 assessment years, but stated that "compliance with those filing requirements exists independent of other requirements for mining claims." Answer at 3. BLM concluded that compliance with annual filing requirements is therefore not relevant to whether BLM's decision was proper. *Id.* BLM then asserted that its date-stamping of submissions does not constitute "approval," and that Appellant should have understood that to be the case when he received BLM's second notice, dated August 18, 2014, notifying him that his date-stamped documents were not sufficient to prove discoveries of valuable mineral deposits on in his claim. *Id.* at 4.³ In this Answer, BLM did not address the merits or sufficiency of Appellant's Proof of Discovery and Results of Sampling Survey.

Analysis

We address Appellant's two arguments in order. First we discuss how his filing of maintenance fee waiver certifications and affidavits of performance of assessment work was necessary, but provided no evidence of the validity of his unpatented mining claims. Second, we discuss whether BLM properly declared the claims forfeited when Appellant failed to reduce the claims to 20 acres in size. Answering the second question requires that we address whether BLM properly concluded that the documentation Appellant submitted in response to BLM's notice was insufficient to show a discovery of a valuable mineral deposit on the claims.

BLM has provided the Board with a copy of a letter dated Nov. 2014, that Appellant sent BLM in response to BLM's Answer. This letter was not sent to the Board, but we will nonetheless consider it as a Reply under 43 C.F.R. § 4.412(d). The letter however, does not add to Appellant's arguments. It reiterates his argument regarding BLM's date-stamping of his documents and questions who determined his information regarding discovery to be insufficient, and why. BLM's Aug. 13, 2014, potice lists the reasons why "Jeff Garrett-Certified Review Mineral Examiner #40" determined Appellant's documentation was insufficient to prove a discovery.

A. Waiver Certifications and Affidavits

[1] Appellant states that he has successfully filed Waiver Certifications and Affidavits for his claims and that BLM has accepted his payments associated with those filings. It appears that Appellant believes that his timely filing of those documents establishes the validity of his mining claims. This is incorrect.

The law governing Waiver Certifications and Affidavits is as follows. The holder of an unpatented mining claim is required to pay a maintenance fee for each claim or site on or before September 1 of each year. 30 U.S.C. § 28f(a) (2012); see 43 C.F.R. § 3834.11(a)(2). Payment of the claim maintenance fee is in lieu of the assessment work requirements of the Mining Law of 1872, 30 U.S.C. §§ 28-28e (2012) (Mining Law), and the related filing requirements of section 314(a) of the Federal Land Policy and Management Act of 1976, 43 U.S.C. § 1744(a) (2012) (FLPMA). 30 U.S.C. § 28f(a) (2012); see 43 C.F.R. § 3834.11(a).

The Mining Law, however, grants the Secretary of the Interior the discretion to waive the maintenance fee for a claimant who certifies in writing that, on the date the payment is due, the claimant and all related parties hold not more than 10 mining claims, mill sites, tunnel sites, or any combination thereof, on public lands (Waiver Certification). 30 U.S.C. § 28f(d) (2012); 43 C.F.R. § 3835.1. A claimant who files a Waiver Certification is required to (1) perform assessment work during the assessment year for which the waiver is granted, and (2) file an affidavit of the assessment work (Affidavit) on or before December 30 of the calendar year in which the assessment year ends. 43 C.F.R. §§ 3835.12, 3835.15, 3835.31(a); see Paul Dickison, 186 IBLA 69, 70-71 (2015); John J. Trautner, 165 IBLA 265, 267 (2005); Earl Riggs, 165 IBLA 36, 39 (2005). A failure to file either document -Waiver Certification or Affidavit – by the applicable deadline results in the affected claims being forfeited and void. See Beverly D. Glass, 167 IBLA 388, 394 (2006) ("Absent submission of a proper maintenance fee payment or waiver request [by the deadline for paying maintenance fees], BLM properly declared the claim forfeited and void by operation of law."); Audrey Bradbury, 160 IBLA 269, 275 (2003) 預 ing an Affidavit "is an absolute requirement that cannot be waived" and failure to make the filing automatically results in forfeiture of a claim). See also Paul Dickisott, 186 IBLA at 70-71.

The annual filing requirements discussed above are not, however, the only legal requirements that apply to placer mining claims, including the ones it issue in this appeal. The Mining Law also provides that no placer location may include more than 20 acres for each individual claimant, and may not exceed 160 acres for an association of up to eight individual claimants. 30 U.S.C. §§ 35, 36 (2012); 43 C.F.R.

§ 3832.22(b). Upon transfer of an association placer claim to an individual or an association that is smaller in number than the association that located the claim, the transferor must either "have discovered a valuable mineral deposit before the transfer" or, "[upon] notice from BLM . . . reduce the acreage of the claim" to meet the 20-acre per claimant limit. 43 C.F.R. § 3833.33; see Ulysses Corporation, 186 IBLA 101, 102 (2015); Bruce Curtis, 185 IBLA 371, 372 (2015).

Thus, while Appellant's timely filings of the Waiver Certifications and Affidavits for the mining claims were required under the regulations, those filings were not related to, and cannot be used to establish the validity of his placer claims. BLM acknowledges that Appellant timely filed Waiver Certifications for the 2007 through 2015 assessment years, and Affidavits for the 2006 through 2014 assessment years. However, as BLM correctly notes in its Answer, "compliance with those filing requirements exists independent of other requirements for mining claims." at 3. As discussed above, the annual filing requirements and the limitations on placer claims stem from separate and distinct sections of the Mining Law. U.S.C. § 28f(d) (2012) (maintenance fee and waivers) and 30 U.S.C. §§ 35, 36 (2012) (placer claim acreage limitations). The regulations implementing these statutory requirements are likewise separate and distinct. See 43 C.F.R. §§ 3835.1 through 3835.1, 3835.30 through 3835.33 (maintenance fee waiver and assessment work requirements) and 43 C.F.R. § 3833.33 (requirements for transfers of placer claims). Appellant's compliance with annual filing requirements and payment of applicable processing fees for his small miner waivers and assessment work requirements does not show that Appellant complied with the limitations placed on the transfer of placer claims by 43 C.F.R. § 3833.33. See United States v. Webb, 132 IBLA 152, 169 (1995).4

B. Discovery of a Valuable Mineral Deposit

The key issue here is whether BLM properly deemed Appellant's Proof of Discovery and Results of Sampling Survey inadequate for proving a discovery on his mining claims, and thereafter requiring him to amend his claims to comply with the 20-acre per claimant limit of 43 C.F.R. § 3833.33. As that regulation makes clear,

⁴ Appellant argues that BLM approved the documentation he submitted to prove the discovery of a valuable mineral deposit on the claims by returning date stamped originals of the same. The return of date-stamped originals does not signify approval. "BLM's acknowledgement and acceptance of filings submitted in accordance with the requirements of 43 U.S.C. § 1744 [2012] do not by themselves 'render valid any claim which would not be otherwise valid under applicable law and [do] not give the owner any rights he is not otherwise entitled to by law." *United States v. Webb.* 132 JBLA at 168 (quoting 43 C.F.R. § 3833.5(a)).

the controlling question is whether there was a discovery of a valuable mineral deposit on the claims prior to transfer to Appellant.

The Board has not resolved the precise question of what procedure BLM must follow in the context of adjudicating an interest in an association mining claim involving 43 C.F.R. § 3833.33. However, the Board has issued several opinions that lead us to remand this case to BLM for further review, in accordance with the discussion below.

The conditions that the claimant must show to prove the discovery of a valuable mineral deposit on an unpatented mining claim are set forth below:

The basic test for determining whether a mining claimant has discovered a valuable mineral deposit on his mining claim is the "prudent man rule." This rule, enunciated in Castle v. Womble, 19 L.D. 455 (1894), states that in order for there to be a discovery, there must be exposed within the limits of the claim minerals of such quality and quantity that a person of ordinary prudence would be justified in the further expenditure of his labor and means with a reasonable prospect of success in developing a valuable mine. The "prudent man rule" is complemented by the "marketability test." Simply stated, in order to establish the existence of a valuable mineral deposit, it must be shown that the mineral can be extracted, removed, and marketed at a profit. United States v. Coleman, 390 U.S. 599 (1968). A valuable mineral deposit has been discovered where "minerals have been found and the evidence is of such a character that a person of ordinary prudence would be justified in the further expenditure of his labor and means, with a reasonable prospect of success, in developing a paying mine." Castle v. Womble, 19 L.D. 455, 457 (1894).

United States v. Crawford, 109 IBLA 264, 268 (1989); see also United States v. E. K. Lehmann & Associates of Montana. Inc. [U.S. v. Lehmann], 161 IBLA 40, 43 (2004).

This Board has addressed the question of whether a valuable mineral deposit has been discovered when a claimant has filed a mineral patent application. E.g., U.S. v. Lehmann, 161 IBLA at 43. In this context, the applicant has the purder of establishing in his application that he has made a valuable mineral discovery.

American Colloid Company, 162 IBLA 158, 172 (2004); Dennis J. Kitts, 84 IBLA 338, 342 (1985) (citing Brattain Contractors. Inc., 37 IBLA 233, 239 (1978)) The Board has also addressed whether a valuable mineral deposit has been discovered when the Government has filed a contest against a claim on the basis of lack of discovery.

E.g., United States v. Carlwood Development, Inc., 177 IBLA 119 (2009); United States v. Crawford, 109 IBLA 264 (1989).

The burdens of proof are different in patent application cases and Government contest cases, as follows:

When the Government contests a mining claim based on a charge of lack of discovery of a valuable mineral deposit, it bears the initial burden of going forward to establish a prima facie case in support of that charge, whereupon the claimant has the ultimate burden of persuasion to overcome that case by a preponderance of the evidence. *See Hallenbeck v. Kleppe*, 590 F.2d 852, 856 (10th Cir. 1979); *United States v. Winkley*, 160 IBLA [126,] 142-43 [(2003)]; *United States v. Bechthold*, 25 IBLA [77,] 82 [(1976)]. The burden is different, however, for the contestee when a contest is filed as the result of a patent application. In such a situation, it is well settled that the Government must make a prima facie case in support of its charges and that, upon such a showing, the claimant must establish that the claim is valid, even apart from the issues raised in the prima facie case. *United States v. Mannix*, 50 IBLA 110, 112 (1980).

United States v. Miller, 165 IBLA 342, 356 (2005); see also United States v. Carlwood Development, Inc., 177 IBLA at 128; United States v. Crawford, 109 IBLA at 268.

The present case involves neither a patent application nor a Government contest. The regulation provides that the claimant "must have discovered a valuable mineral deposit before the transfer." 43 C.F.R. § 3833.33. In order for Appellant to retain all four claims with 160 acres as located, the burden is properly placed on him to show in the first instance that there was a discovery. This approach places Appellant's case more in line with patent application cases, in which the Board has followed the following standard for evaluating evidence submitted in support of a discovery :

An applicant has an obligation to support his application for mineral patent with sufficient descriptive information and data to permit the BLM mineral examiner, on review in his office, to conclude that each claim was valid and that all prerequisites for patent had been met, subject only to *confirmation* upon field examination. In short, the patent applicant must make a *prima facie* showing that he is entitled to the patent he seeks. This is a reasonable requirement because, otherwise, BLM would be obligated to waste the valuable time of its mineral examiners to conduct costly field examinations based upon

information which did not even show the patent application to be meritorious on its face.

Dennis J. Kitts, 84 IBLA at 343 (emphasis in original).

In *Kitts*, BLM rejected the mineral patent application as inadequate because the applicant failed to provide information necessary to prove discovery of a valuable mineral deposit. We noted that the appellant "provided no meaningful description of the geology on the claims or in the general area; no substantial description of the quantity and quality of the ore alleged discovered; no description of the discovery points; no description of the samples taken in terms of their location, size, the sampling technique employed, or the means of their evaluation," in addition to other deficiencies in the patent application. *Id.* at 342-43. In the absence of that information, we upheld BLM's decision summarily rejecting the patent information for lack of necessary information. *Id.* at 343.

In *G. Donald Massey*, 114 IBLA 209 (1990), we affirmed BLM's authority to request detailed information upon application for a patent application for a placer claim like the ones at issue here. That information included "a detailed showing as to the nature of the mineral deposit, the methods for mining, processing, and transporting the raw material, and the estimated profitability of the mining operation" *G. Donald Massey*, 114 IBLA at 210-11. We found that "BLM could justifiably require a mineral patent applicant to provide information intended to aid the mineral examiner in determining whether the mining claim contains a valuable mineral deposit." *Id.* at 214 (quoting 43 C.F.R. § 3863.1-3(a)).

We upheld BLM's decision to reject a patent application for a lode mining claim in *Karen Lynne Smith Harper*, 126 IBLA 301 (1993), for comparable reasons. In that case, BLM notified the appellant that her patent application was missing several items required by the applicable regulation, including evidence of a valuable mineral deposit within the claim. *Id.* at 301-02 (citing 43 C.F.R. § 3862.1). BLM subsequently rejected the patent application when the appellant failed to provide the requested information. We held that BLM properly rejected the appellant's mining claim patent application because she failed to submit the supporting information requested. *Id.* at 303.

In contrast, we have reversed BLM decisions rejecting patent applications in cases where appellants, in the agency's opinion, had provided insufficient evidence of discovery of a valuable mineral deposit. For example, in *Brattain Contractors Unc.*, 37 IBLA at 240-41, we reversed BLM's decision rejecting a patent application in the absence of information proving discovery. We "observe[d] that if the BLM adjudicator is not satisfied with the evidence of discovery submitted with the patent.

application he has a right to so advise the applicant and request further evidence," at which point it would be "incumbent on the applicant to cooperate in providing such evidence in support of its own application so as to resolve any deficiencies and to facilitate the process." *Id.* at 240. However, we stated that it would be at that point "premature to reject the patent application on the adjudicator's finding of insufficient evidence of discovery." *Id.* On the contrary, we stated that "[b]efore there can be any final disposition of a mineral patent application which is otherwise acceptable, there must be a mineral examination of the subject claims for the purpose, inter alia, of obtaining evidence tending either to confirm or refute the allegation that qualifying discoveries have been made." *Id.*

At the point that a mineral examination is done, and it yields evidence that supports BLM's position that no discovery has been made, it would be appropriate for BLM to initiate an administrative mining contest proceeding to challenge the validity of the claim. *Id.* BLM may initiate contest proceedings "for any cause affecting the legality or validity of any entry or settlement or mining claim." 43 C.F.R. § 4.451-1. Mining contest challenges are brought before Administrative Law Judges ("ALJs") in the Hearing Division, who hold evidentiary hearings and issue decisions concerning the validity of mining claims. 43 C.F.R. §§ 4.452-1 through 4.452-8. Those decisions may be appealed to this Board. 43 C.F.R. § 4.452-9.

In *Brattain Contractors*, we held that a contest proceeding was necessary when BLM concluded, based upon a mineral examination, that there is a lack of discovery, and the appellant refused to withdraw his patent application. We stated: "BLM may not summarily reject the application on any finding of disputed fact. This is because the validity or invalidity of the claims is the ultimate issue in the contest proceeding" *Brattain Contractors Inc.*, 37 IBLA at 240. We explained that a contest proceeding was required because "if a charge of 'no discovery' is finally proven in a proper proceeding, then not only must the patent application be rejected, the claims must be held to be null and void." *Id*. We further noted:

The issue involved herein, i.e., the existence of a discovery at a specified date, is manifestly one of substance going to the validity of the claims or parts thereof, and is thus resolvable against the claimant only after affording the applicant notice and an opportunity for hearing on disputed issues of fact.

Id. at 241 n.2.

We affirmed this result in *United States Steel Corp.*, 52 IBLA 319, 324 (1981), stating that *Brattain* "makes it clear that a mineral patent application may not be summarily rejected on the basis of the lack of discovery of a valuable mineral deposit without affording the applicant notice and an opportunity for hearing on the disputed issues of fact." We further stated in that case that "if BLM considered that the record provided insufficient evidence of discovery, it should have initiated a contest proceeding. Rejection of the patent applications was improper." *Id.* at 325.

The above discussion shows that two groups of cases exist within our precedent pertaining to proof of discovery in mineral patent applications. In the first group, the Board upheld BLM decisions summarily dismissing patent applications when appellants failed to provide information required to support their patent applications. *Kitts* appears to be unique in this group in that BLM rejected the patent application without first affording the applicant an opportunity to submit additional documentation in support of a discovery. In the second group, the Board reversed BLM decisions dismissing patent applications on the basis of insufficient evidence of discovery, holding that a contest proceeding was required.

We recognized and identified these two groups of cases in American Colloid Company, 162 IBLA 158, 176-77 (2004). In that case, we examined the records in the appeals at issue "to determine where they fall on the line of cases in which BLM appropriately concludes that summary dismissal of the patent applications was appropriate versus those where lack of proof of a discovery would require a contest initiated by BLM." 162 IBLA at 176. Each patent application involved in American Colloid Company "was accompanied by a discussion of drilling and sample data, maps identifying the locations on each mining claim where the samples were taken, and a visual depiction on a map of ACC's inference of a bentonite zone within the contours of each claim based on that data." Id. In addition, other record documents provided additional information regarding particular sample locations. On this record, we were unwilling to "affirm that the patent applications must be summarily rejected . . . on the basis of BLM's complaints regarding the sufficiency of that data." Id. We further contrasted the discovery dispute with "technical deficiencies like untimeliness." failure to provide required statements or documents, use of unsupported price estimates, or omission of labor costs in the economic analysis involved in the cases" in which we upheld BLM's summary dismissal of patent applications. Id. at 76-77. We accordingly concluded that "[a]s in Brattain Contractors, Inc., 37 IBLA at 249-41. the parties['] arguments present[ed] disputed issues of fact requiring a contest hearing before BLM [could] reject the patent application." Id. at 176 (citing United States Steel Corp., 52 IBLA at 325).

As noted, the Board stated in *Brattain* that it would be proper for the BLM adjudicator to request further evidence of discovery, and that it would be premature to

reject the patent application based strictly on insufficient evidence in the patent application. 37 IBLA at 240. We believe that the present appeal presents a situation that is more in common with the appeals in American Colloid Company and Brattain Contractors, Inc., than with those in which BLM was justified in summarily dismissing patent applications. We recognize the line dividing the two groups of cases may not appear terribly distinct. For example, much of the information lacking in *Dennis J*. Kitts, 84 IBLA 338, in which we upheld BLM's summary dismissal, pertained to the question of whether there was a discovery of a valuable mineral deposit. Similarly, a paucity of information contributed significantly to the factual dispute regarding discovery in Brattain Contractors, Inc., 37 IBLA 233, where we reversed BLM's summary dismissal. Nonetheless, here Appellant has provided sample locations, analysis, and a purported expert who provided evidence supporting discovery. is comparable to the "discussion of drilling and sample data, maps identifying the locations on each mining claim where the samples were taken, and a visual depiction on a map of ACC's inference of a bentonite zone within the contours of each claim based on that data" accompanying the patent applications in American Colloid Company. 162 IBLA at 176. We are not faulting BLM's conclusion that Appellant's information was insufficient for a finding that there was a discovery of a valuable mineral deposit on the subject claims. However, we cannot affirm BLM's decision to void Appellant's claims in the absence of an opportunity to submit additional information to support a discovery.

[2] As was the case with the patent application at issue in *Brattain*, "[t]he issue involved herein, i.e., the existence of a discovery at a specified date, is manifestly one of substance going to the validity of the claims or parts thereof" *Brattain Contractors, Inc.*, 37 IBLA at 241 n.2. We therefore follow *Brattain* and reiterate that "if the BLM adjudicator is not satisfied with the evidence of discovery submitted . . . he has a right to so advise the applicant and request further evidence" at which point it would be "incumbent on the applicant to cooperate in providing such evidence in support of its own application so as to resolve any deficiencies and to facilitate the process." *Id.* at 240.

BLM's actions in the cases we have discussed supports our conclusion that Appellant has submitted sufficient information to warrant an opportunity to submit additional documentation. In the majority of those cases, the agency provided appellants multiple opportunities to submit information proving discovery. For example, American Colloid Company failed to submit any economic analysis that would "allow a mineral specialist to determine whether a valuable mineral deposit had been found" in its initial patent application. *American Colloid Company*, 162 IBLA at 160. The BLM field offices involved in that case repeatedly requested that information, specifying particular analyses and costs that the agency needed for confirming discovery. *Id.* at 161-63. The Appellant provided the requested

information approximately 2 to $2\frac{1}{2}$ months later, at which point BLM requested additional information. *Id.* at 163-65. Only after American Colloid Company responded to that request did BLM reject the patent applications because the information submitted was "incomplete and inadequate" such that the "mineral report for each patent application could not be completed based on the submitted information." *Id.* at 167, 169. BLM's efforts to obtain information necessary to process the patent application in that case conformed to the agency's Manual, in which it states that the agency will reject applications when applicants fail to submit additional information within reasonable timeframes. BLM Manual 3860.06B.

Based on the facts of this case, which are in many respects unique, we conclude that BLM should not have summarily required Appellant to reduce the acreage of his claims in this case. As a matter of due process, BLM should have requested more information from Appellant regarding discovery, to the extent it was lacking. We accordingly set aside BLM's decision and remand the case for BLM to provide Appellant with the opportunity to prove a discovery prior to the date he obtained the claims at issue.

Therefore, pursuant to the authority delegated to the Board of Land Appeals by the Secretary of the Interior, 43 C.F.R. § 4.1, the decision appealed from is set aside and remanded for further action consistent with this decision.

Association Placer Mining Claims Documentation or Amendments Required

The mining claims listed above are association placer mining claims that are over 20 acres in size. The claims were originally located with the required number of locators to meet the 20-acre per locator requirement. However, the claims are now held by a smaller group of claimants than originally located them and are therefore not in compliance with the legal requirements.

By law, each individual claimant is allowed to hold a maximum of 20 acres per claim. A corporation is considered to be a single entity that is allowed to hold a maximum of 20 acres per claim. In accordance with 43 CFR 3833.33 you may transfer, sell, or otherwise convey an association placer mining claim at any time to an equal or greater number of mining claimants. If you want to transfer an association placer claim to an individual or an association that is smaller in number than the association that located the claim you (a) must have discovered a valuable mineral deposit before the transfer; or (b) upon notice from the Bureau of Land Management (BLM), you must reduce the acreage of the claim, if necessary, so that you meet the 20-acre per locator limit.

On June 20, 2014, BLM sent you a notice requesting that you show compliance with 43 CFR 3833.33 by providing either documentation of a discovery of a valuable mineral deposit for each

of the four claims as listed prior to the claims being transferred from the original locators to yourself, or reducing the claim acreage to 20 acres per claim as allowed by law. On July 18, 2014, you provided this office with a document titled "Proof of Discovery" signed by Les Bender and dated February 8, 2005, purportedly written by Les Bender, summarizing the results of the sampling and test results on the listed placer claims.

The BLM determined that the information was insufficient to show that a valuable mineral deposit was discovered prior to the transfer of the claims to you.

Pursuant to 1861 IBLA 227 William Wielgus (09-30-2015), BLM is hereby giving you an opportunity to provide more information to prove discovery prior to the date whereby you obtained the following mining claims:

Claim Name	BLM Claim Number	Location
Open Bucket	AMC369712	T6N R6W, Section 32, NW ¹ / ₄
Rock On	AMC369954	T6N R5W, Section 19, SW ¹ / ₄
Ranger Run	AMC370046	T6N R6W, Section 27, SW1/4
Golden Record	AMC370783	T5N R10W, Section 26, SW1/4

The "Proof of Discovery" document indicates that five (5) 400 pound samples were taken from each claim at intervals of 1,750 feet to 2,620 feet. There is no indication how these samples were taken or processed or what these samples represent as pertaining to the bulk of material found on the claims. Were the samples taken from the surface, taken from a trench, from a pit, etc.? How far above bedrock were the samples taken? Was the material processed using a dry washer, a trammel, metal detected, panned, etc.? Was the material sampled homogeneous or stratified? Were there boulders present and, if so, what percentage of the material were boulders? What care was taken to ensure accurate samples were taken? How was the weight of each sample determined?

The "Proof of Discovery" document states that a reserve estimate can be done by taking the total acreage in a claim and multiplying it times the value of the related sample. Please provide a reserve estimate for each claim and an explanation how the estimate was derived.

Sample values have little economic meaning unless they are viewed in relation to the cost of recovering the gold. The "Proof of Discovery" document states that "all the land will be worked in the same way as the samples were taken." Please provide a breakdown of the cost to mine the reserves on each claim.

Without this information we cannot determine if the claims are being properly held by a single claimant. Therefore, we are requiring that the above listed information be submitted to this office for review by a mineral examiner.

This required information must be dated **prior** to the date of transfer. If you do not have this information, then you must amend the claims listed above, reducing the acreage to 20 acres per claimant as allowed by law.

We must receive either this additional documentation supporting a discovery of a valuable mineral deposit, or amendments within 30 days of your receipt of this notice. If the required documentation or the amendments are not received within the 30-day timeframe the mining claims will be declared forfeited and void. If amendments are filed, there is a \$10 BLM processing fee for each amendment. The amendments must also be filed with the county.

If additional information is required, please contact Rod Ebert at 602-417-9397. Please include your AMC serial number(s) on all correspondence.

Fron William R Nielgus 2014 OCT 23 P 4: 17 PHOENIX, ARIZONA I received your letter on Oct 7, 14 concerning my four mining claims. The pertinent part of your letter states you received a Notice requiring that the claims lested above be amended due to make Occeage. The 30 day timeframe allowed has expired nothing could befarther from the buth This is what actually occurred and have the green Return / Receift / Requested vards to back up everything that follows. In July I Sent in the Warrer and the Aflitant for my drims for 2015 slong with the fee bequered like I have done for the past seven years There has never been a problem with what I have done in the past of you accepted my money I received a letter the BLM's rep Rod Elect singing that all of a pudden weighting you have agreed, with was wrong I all the money you Could remedy his problem in 1 of I way.

Firstly I could amend my claim to 20 acres Secondly of I had a nuneral Discovery done before I filed the claims it would take pleadence and I could keep the claims just as they were & Lows made by a Mr Jes Bender who had over to years experience and then was the V.P. of the Weaver Mining District 6 at a cost of 14500

The survey was made 2019/00025 Haim to save up the isistence of minerals in this case gold making it worth while occording to the 12 paradent person" interpretation of the 1872 Mining laws for verification. I sent a copy of the survey back to the BIM In a few days I received a stamped of approved copy of the Wairer a & tanged & approved cop Uffedant, and a stamped & peroved copy This pathe pame as what had occurred for the past seven years, and the BLM took my MONEY! Uny legal attority will testify in a court of law that acceptance of a monetary fee is their acceptance of the transaction, and it would be illegal for ony one to accept a fee & then seneng. on the transaction. Uliout a week later & received a letterfrom Re ann Meyers saying it was unfortunate that the experied Warver form was sent and could f please send the current Tolk copy that she inclosed -I resent the Waiver form & received It stamped and approved at this point I had all that I had ever needed in the past stamped of approved of was acceptable to send what I had to the Mancopa exorder just Oo I had done for the last sonar years. If my one at the Bity had my peoblems why dish't I recaule their objection Swhen I reduced the survey that was planged it approved or when I received they is pubmitted Womer form tamped & approved and, you Took My MONEY !

If anyone had any questions or objections to what I had done why didn't they tell me before they accepted my money. For me to think that someone is hiding something or not telling me weighting never occurred to me because I had received everything planged and gast peven years, AND YOU TOOK RIY MONEY. I have all the stanged of approved documents to will send you copies of anything I have claimed. also please grant a stay until your answer communities that I work closely with and there are scrople who will be carried hardship if our relationship cannot continue. & Klymoan William R Willy I have also sent a copy of this appeal to the solicutors office in placement as regard on this date.

Mining Claims Declared Forfeited <u>Excess Acres</u>

In accordance with 43 CFR 3830.94, the mining claims listed above are hereby declared forfeited for the reason indicated below.

You received a Notice requiring that the claims listed above be amended due to excess acres. The amendments were required to be filed within 30 days of the date you received the Notice. The 30 day timeframe allowed has expired and no amendments have been received.

This decision does not relieve you of the liability for reclamation of all areas disturbed by your activities on land encompassed by your mining claim(s) and/or site(s). After you complete the reclamation, you must notify the authorized officer of the appropriate surface managing agency so that the authorized officer may conduct a final site inspection and determine whether you may be released from liability. If you fail to reclaim the land to the satisfaction of the authorized officer, the surface management agency may cite you for noncompliance under its surface management regulations.

For land administered by the Bureau of Land Management (BLM), if you fail to reclaim the land to the satisfaction of the authorized officer as required in 43 CFR Subpart 3809, the BLM will issue an order of noncompliance under 43 CFR 3809.601(a). If you fail to comply with the noncompliance order, the BLM may take further action under 43 CFR 3809.604. Failure to conduct reclamation is a prohibited act that may subject you to criminal penalties. See 43 CFR 3809.605(h) and 43 CFR 3809.700. If your occupancy has been terminated and you fail

to remove structures, material, and equipment, and any personal property in accordance with the regulations in 43 CFR 3715.5-1, the BLM may dispose of the property. In accordance with 43 CFR 3715.5-2, you will remain liable for the costs the BLM incurs in removing and disposing of the property.

Appeal Procedures

This decision may be appealed to the Interior Board of Land Appeals, Office of the Secretary, in accordance with the regulations contained in 43 CFR, Part 4 and the enclosed Form 1842-1. If an appeal is taken, your notice of appeal must be filed in this office (at the above address) within 30 days from receipt of this decision. The appellant has the burden of showing that the decision appealed from is in error.

If you wish to file a petition pursuant to regulation 43 CFR 4.21 (58 FR 4939, January 19, 1993), for a stay of the effectiveness of this decision during the time that your appeal is being reviewed by the Board, the petition for a stay must accompany your notice of appeal. A petition for a stay is required to show sufficient justification based on the standards listed below. Copies of the notice of appeal and petition for a stay must also be submitted to each party named in this decision and to the Interior Board of Land Appeals and to the appropriate Office of the Solicitor (see 43 CFR 4.413) at the same time the original documents are filed with this office. If you request a stay, you have the burden of proof to demonstrate that a stay should be granted.

Standards for Obtaining a Stay

Except as otherwise provided by law or other pertinent regulation, a petition for a stay of a decision pending appeal shall show sufficient justification based on the following standards:

- (1) The relative harm to the parties if the stay is granted or denied.
- (2) The likelihood of the appellant's success on the merits,
- (3) The likelihood of immediate and irreparable harm if the stay is not granted, and
- (4) Whether the public interest favors granting the stay.

If additional information is required, please contact Rod Ebert at 602-417-9397. Please include your AMC serial number(s) on all correspondence.

MINING CLAIMS DECLARED FORFEIT

The mining claims listed above have been declared forfeit as of September 1, 2014, for failure to timely file the required maintenance fee payment or small miner's maintenance fee waiver (waiver).

Claimants are required to pay an annual non-refundable maintenance fee of \$155 per 20 acres or portion thereof, or submit a waiver, on or before September 1 of each year. (In accordance with 43 CFR 1822.14, because September 1, 2014, fell on a holiday, the payment was due the next business day, September 2, 2014.) These requirements were established by 30 U.S.C. 28f-l, as amended, and 43 Code of Federal Regulations (CFR) 3834 and 3835.

Our records do not show receipt of a maintenance fee payment or small miner waiver filed on or before the due date. Therefore, the claims listed above are forfeit.

Reclamation Requirements

This decision does not relieve you of the liability for reclamation of all areas disturbed by your activities on lands covered by the subject mining claim(s) and/or site(s). After you complete the reclamation, you must notify the authorized officer of the appropriate surface managing agency so that the authorized officer may conduct a final site inspection and determine whether you may be released from liability. If you fail to reclaim the land to the satisfaction of the authorized officer, the surface management agency may cite you for noncompliance under its surface

MUST AMEND DUE TO EXCESS ACREAGE

You received a Notice to inform you that the mining claims listed above are association placer mining claims that are over 20 acres in size and are currently held by a smaller number of claimants than is permitted by law, unless there was a discovery of a valuable mineral deposit prior to the date of transfer. The Notice required that you provide documentation to support a discovery of a valuable mineral deposit or amend the claims to comply with the 20-acre per claimant requirement.

In response to the Notice, you submitted documentation you believe shows such a discovery. The documentation has been examined by a mineral examiner and it has been determined that the submitted documentation is insufficient and does not include the information requested. (See enclosed comment from mineral examiner.) Therefore, BLM is requiring that the acreage of the above listed mining claims be reduced to comply with the 20-acre per claimant requirement.

There is a \$10 BLM processing fee for each amendment. We must receive the amendments within 30 days of receipt of this notice. If the amendments are not received within the 30 day timeframe the mining claims will be declared forfeited and void.

If additional information is required, please contact Rod Ebert at 602-417-9397. Please include your AMC serial number(s) on all correspondence.

From: Jeff Garrett-Certified Review Mineral Examiner #40

Subject: Compliance with 43 CFR 3833.33

RE: AMC369706; AMC369954; AMC370046; AMC370783

On 03/08/06 AMC369706 and AMC369954 were transferred from the original Association Placer locators to William Wielgus. On 04/07/06 AMC370046 was transferred from the original Association Placer locators to William Wielgus. On 03/22/06 AMC370783 was transferred from the original Association Placer locators to William Wielgus. To show compliance with 43 CFR 3833.33, i.e. ..."must have discovered a valuable mineral deposit before the transfer..." the current claimant provided information intended to show that a valuable mineral deposit existed on the claim prior to transfer of the association placer from the original locators to the current claimant.

The information provided was an apparent affidavit signed by Les Bender, dated 2/8/05. The subject claims were located in November and December of 2005. Mr. Bender's document provided information indicating that five 10'x10' samples (samples were shown as having been taken from each corner and the center of each association claim) had been taken from AMC369706, AMC369954, and AMC370046 respectively and provided sampling data indicating ounces of gold per sample taken.

There was no information submitted for AMC370783.

No information was provided as to how the samples were taken. No data concerning sample volumes was provided. No information concerning the nature or type of material sampled was provided. The amount of gold recovered per volume or tonnage of material was not provided. No reserve estimates were provided. No deposit boundaries were defined. No operational or development costs were provided.

The information submitted was insufficient to show that a valuable mineral deposit was discovered prior to transfer.

Appeal Procedures

This decision may be appealed to the Interior Board of Land Appeals, Office of the Secretary, in accordance with the regulations contained in 43 CFR, Part 4 and the enclosed Form 1842-1. If an appeal is taken, your notice of appeal must be filed in this office (at the above address) within 30 days from receipt of this decision. The appellant has the burden of showing that the decision appealed from is in error.

If you wish to file a petition pursuant to regulation 43 CFR 4.21 (58 FR 4939, January 19, 1993), for a stay of the effectiveness of this decision during the time that your appeal is being reviewed by the Board, the petition for a stay must accompany your notice of appeal. A petition for a stay is required to show sufficient justification based on the standards listed below. Copies of the notice of appeal and petition for a stay must also be submitted to each party named in this decision and to the Interior Board of Land Appeals and to the appropriate Office of the Solicitor (see 43 CFR 4.413) at the same time the original documents are filed with this office. If you request a stay, you have the burden of proof to demonstrate that a stay should be granted.

Standards for Obtaining a Stay

Except as otherwise provided by law or other pertinent regulation, a petition for a stay of a decision pending appeal shall show sufficient justification based on the following standards:

- (1) The relative harm to the parties if the stay is granted or denied,
- (2) The likelihood of the appellant's success on the merits,
- (3) The likelihood of immediate and irreparable harm if the stay is not granted, and
- (4) Whether the public interest favors granting the stay.

If additional information is required, please contact Rod Ebert at 602-417-9397. Please include your AMC serial number(s) on all correspondence.

INFORMATION ON TAKING APPEALS TO THE INTERIOR BOARD OF LAND APPEALS

DO NOT APPEAL UNLESS

1. This decision is adverse to you,

AND

2. You believe it is incorrect

IF YOU APPEAL, THE FOLLOWING PROCEDURES MUST BE FOLLOWED

1. NOTICE OF APPEAL

A person who wishes to appeal to the Interior Board of Land Appeals must file in the office of the officer who made the decision (not the Interior Board of Land Appeals) a notice that he wishes to appeal. A person served with the decision being appealed must transmit the *Notice of Appeal* in time for it to be filed in the office where it is required to be filed within 30 days after the date of service. If a decision is published in the FEDERAL REGISTER, a person not served with the decision must transmit a *Notice of Appeal* in time for it to be filed within 30 days after the date of publication (43 CFR 4.411 and 4.413).

2. WHERE TO FILE

BUREAU OF LAND MANAGEMENT, ARIZONA STATE OFFICE, ONE NORTH CENTRAL AVENUE, SUITE 800, PHOENIX, ARIZONA 85004-4427

NOTICE OF APPEAL.

WITH COPY TO SOLICITOR...

DEPARTMENT OF THE INTERIOR, OFFICE OF THE FIELD SOLICITOR, SANDRA DAY O'CONNOR US COURTHOUSE, SUITE 404, 401 WEST WASHINGTON STREET, SPACE 44, PHOENIX, ARIZONA 85003-2151

3. STATEMENT OF REASONS

Within 30 days after filing the *Notice of Appeal*, file a complete statement of the reasons why you are appealing. This must be filed with the United States Department of the Interior, Office of Hearings and Appeals, Interior Board of Land Appeals, 801 N. Quincy Street, MS 300-QC, Arlington, Virginia 22203. If you fully stated your reasons for appealing when filing the *Notice of Appeal*, no additional statement is necessary (43 CFR 4.412 and 4.413).

WITH COPY TO SOLICITOR.....

DEPARTMENT OF THE INTERIOR, OFFICE OF THE FIELD SOLICITOR, SANDRA DAY O'CONNOR US COURTHOUSE, SUITE 404, 401 WEST WASHINGTON STREET, SPACE 44, PHOENIX, ARIZONA 85003-2151

4. ADVERSE PARTIES.....

Within 15 days after each document is filed, each adverse party named in the decision and the Regional Solicitor or Field Solicitor having jurisdiction over the State in which the appeal arose must be served with a copy of: (a) the Notice of Appeal, (b) the Statement of Reasons, and (c) any other documents filed (43 CFR 4.413).

5. PROOF OF SERVICE.....

Within 15 days after any document is served on an adverse party, file proof of that service with the United States Department of the Interior, Office of Hearings and Appeals, Interior Board of Land Appeals, 801 N. Quincy Street, MS 300-QC, Arlington, Virginia 22203. This may consist of a certified or registered mail "Return Receipt Card" signed by the adverse party (43 CFR 4.401(c)).

6. REQUEST FOR STAY.....

Except where program-specific regulations place this decision in full force and effect or provide for an automatic stay, the decision becomes effective upon the expiration of the time allowed for filing an appeal unless a petition for a stay is timely filed together with a Notice of Appeal (43 CFR 4.21). If you wish to file a petition for a stay of the effectiveness of this decision during the time that your appeal is being reviewed by the Interior Board of Land Appeals, the petition for a stay must accompany your Notice of Appeal (43 CFR 4.21 or 43 CFR 2881.10). A petition for a stay isreq uired to show sufficient justification based on the standards listed below. Copies of the Notice of Appeal and Petition for a Stay must also be submitted to each party named in this decision and to the Interior Board of Land Appeals and to the appropriate Office of the Solicitor (43 CFR 4.413) at the same time the original documents are filed with this office. If you request a stay, you have the burden of proof to demonstrate that a stay should be granted.

Standards for Obtaining a Stay. Except as otherwise provided by law or other pertinent regulations, a petition for a stay of a decision pending appeal shall show sufficient justification based on the following standards: (1) the relative harm to the parties if the stay is granted or denied, (2) the likelihood of the appellant's success on the merits, (3) the likelihood of immediate and irreparable harm if the stay is not granted, and (4) whether the public interest favors granting the stay.

Unless these procedures are followed, your appeal will be subject to dismissal (43 CFR 4.402). Be certain that all communications are identified by serial number of the case being appealed.

NOTE: A document is not filed until it is actually received in the proper office (43 CFR 4.401(a)). See 43 CFR Part 4, Subpart B for general rules relating to procedures and practice involving appeals.

Subpart B—General Rules Relating to Procedures and Practice

§ 4.20 Purpose.

In the interest of establishing and maintaining uniformity to the extent feasible, this subpart sets forth general rules applicable to all types of proceedings before the Hearings Division and the several Appeals Boards of the Office of Hearings and Appeals.

§ 4.21 General provisions.

- (a) Effect of decision pending appeal. Except as otherwise provided by law or other pertinent regulation:
- (1) A decision will not be effective during the time in which a person adversely affected may file a notice of appeal; when the public interest requires, however, the Director or an Appeals Board may provide that a decision, or any part of a decision, shall be in full force and effective immediately;
- (2) A decision will become effective on the day after the expiration of the time during which a person adversely affected may file a notice of appeal unless a petition for a stay pending appeal is filed together with a timely notice of appeal; a petition for a stay may be filed only by a party who may properly maintain an appeal;
- (3) A decision, or that portion of a decision, for which a stay is not granted will become effective immediately after the Director or an Appeals Board denies or partially denies the petition for a stay, or fails to act on the petition within the time specified in paragraph (b)(4) of this section.
- (b) Standards and procedures for obtaining a stay. Except as otherwise provided by law or other pertinent regulation:
- (1) A petition for a stay of a decision pending appeal shall show sufficient justification based on the following standards:
- (i) The relative harm to the parties if the stay is granted or denied,
- (ii) The likelihood of the appellant's success on the merits,
- (iii) The likelihood of immediate and irreparable harm if the stay is not granted, and
- (iv) Whether the public interest favors granting the stay;
- (2) The appellant requesting the stay bears the burden of proof to demonstrate that a stay should be granted;
- (3) The appellant shall serve a copy of its notice of appeal and petition for a stay on each party named in the decision from which the appeal is taken, and on the Director or the Appeals Board to which the appeal is taken, at the same time such documents are served on the appropriate officer of the Department; any party, including the officer who made the decision being

appealed, may file a response to the stay petition within 10 days after service; failure to file a response shall not result in a default on the question of whether a stay should be granted; service shall be made by delivering copies personally or by sending them by registered or certified mail, return receipt requested;

(4) The Director or an Appeals Board shall grant or deny a petition for a stay pending appeal, either in whole or in part, on the basis of the factors listed in paragraph (b)(1) of this section, within 45 calendar days of the expiration of the time for filing a notice of appeal;

(c) Exhaustion of administrative remedies. No decision which at the time of its rendition is subject to appeal to the Director or an Appeals Board shall be considered final so as to be agency action subject to judicial review under 5 U.S.C. 704, unless a petition for a stay of decision has been timely filed and the decision being appealed has been made effective in the manner provided in paragraphs (a)(3) or (b)(4) of this section or a decision has been made effective pending appeal pursuant to paragraph (a)(1) of this section or pursuant to other pertinent regulation.

(d) Finality of decision. No further appeal will lie in the Department from a decision of the Director or an Appeals Board of the Office of Hearings and Appeals. Unless otherwise provided by regulation, reconsideration of a decision may be granted only in extraordinary circumstances where, in the judgment of the Director or an Appeals Board, sufficient reason appears there-for. Requests for reconsideration must be filed promptly, or within the time required by the regulations relating to the particular type of proceeding concerned, and must state with particularity the error claimed. The filing and pendency of a request for reconsideration shall not operate to stay the effectiveness of the decision involved unless so ordered by the Director or an Appeals Board. A request for reconsideration need not be filed to exhaust administrative remedies.

Subpart E—Special Rules Applicable to Public Land Hearings and Appeals

APPEALS PROCEDURES appeals procedures; general

§ 4.400 Definitions.

As used in this subpart:

- (a) Secretary means the Secretary of the Interior or his authorized representatives.
- (b) Bureau means Bureau of Land Management.

- (c) Board means the Board of Land Appeals in the Office of Hearings and Appeals, Office of the Secretary. The terms office or officer as used in this subpart include Board where the context requires.
- (d) Administrative law judge means an administrative law judge in the Office of Hearings and Appeals, Office of the Secretary, appointed under section 3105 of title 5 of the United States Code.

§ 4.401 Documents.

- (a) Grace period for filing. Whenever a document is required under this subpart to be filed within a certain time and it is not received in the proper office during that time, the delay in filing will be waived if the document is filed not later than 10 days after it was required to be filed and it is determined that the document was transmitted or probably transmitted to the office in which the filing is required before the end of the period in which it was required to be filed. Determinations under this paragraph shall be made by the officer before whom is pending the appeal in connection with which the document is required to be filed.
- (b) Transferees and encumbrancers. Transferees and encumbrancers of land the title to which is claimed or is in the process of acquisition under any public land law shall, upon filing notice of the transfer or encumbrance in the proper land office, become entitled to receive and be given the same notice of any appeal, or other proceeding thereafter initiated affecting such interest which is required to be given to a party to the proceeding. Every such notice of a transfer or encumbrance will be noted upon the records of the land office. Thereafter such transferee or encumbrancer must be made a party to any proceedings thereafter initiated adverse to the entry.
- (c) Service of documents. (1) Wherever the regulations in this subpart require that a copy of a document be served upon a person, service may be made by delivering the copy personally to him or by sending the document by registered or certified mail, return receipt requested, to his address of record in the Bureau.
- (2) At the conclusion of any document that a party must serve under the regulations in this part, the party must sign a written statement certifying that service has been or will be made in accordance with the applicable rules and specifying the date and manner of such service.
- (3) A document will be considered to have been served at the time of personal service, of delivery of a registered or certified letter, or of the return by post office of an undelivered registered or certified letter.

[36 FR 7186, Apr. 15, 1971, as amended at 36 FR 15117, Aug. 13, 1971; 68 FR 33803, June 5, 2003]

§ 4.402 Summary dismissal.

An appeal to the Board will be subject to summary dismissal by the Board for any of the following causes:

- (a) If a statement of the reasons for the appeal is not included in the notice of appeal and is not filed within the time required;
- (b) If the notice of appeal is not served upon adverse parties within the time required; and
- (c) If the statement of reasons, if not contained in the notice of appeal, is not served upon adverse parties within the time required.
- (d) If the statement of standing required by § 4.412(b) is not filed with the Board or is not served upon adverse parties within the time required.

[36 FR 7186, Apr. 15, 1971, as amended at 47 FR 26392, June 18, 1982]

§ 4.403 Finality of decision; reconsideration.

A decision of the Board shall constitute final agency action and be effective upon the date of issuance, unless the decision itself provides otherwise. The Board may reconsider a decision in extraordinary circumstances for sufficient reason. A petition for reconsideration shall be filed within 60 days after the date of a decision. The petition shall, at the time of filing, state with particularity the error claimed and include all arguments and supporting documents. The petition may include a request that the Board stay the effectiveness of the decision for which reconsideration is sought. No answer to a petition for reconsideration is required unless so ordered by the Board. The filing, pendency, or denial of a petition for reconsideration shall not operate to stay the effectiveness or affect the finality of the decision involved unless so ordered by the Board. A petition for reconsideration need not be filed to exhaust administrative remedies.

APPEALS TO THE BOARD OF LAND APPEALS

§ 4.410 Who may appeal.

(a) Any party to a case who is adversely affected by a decision of an officer of the Bureau of Land Management or of an administrative law judge shall have a right to appeal to the Board, except—

(1) As otherwise provided in Group 2400 of chapter II of this title.

- (2) To the extent that decisions of Bureau of Land Management officers must first be appealed to an administrative law judge under § 4.470 and part 4100 of this title.
- (3) Where a decision has been approved by the Secretary, and
- (4) As provided in paragraph (e) of this section.
- (b) A party to a case, as set forth in paragraph (a) of this section, is one who has taken action that is the subject of the decision on appeal, is the object of that decision, or has otherwise participated in the process leading to the decision under appeal, e.g., by filing a mining claim or application for use of public lands, by commenting on an environmental document, or by filing a protest to a proposed action.
- (c) Where BLM provided an opportunity for participation in its decision-making process, a party to the case, as set forth in paragraph (a) of this section, may raise on appeal only those issues:
- (1) Raised by the party in its prior participation; or
- (2) That arose after the close of the opportunity for such participation.
- (d) A party to a case is adversely affected, as set forth in paragraph (a) of this section, when that party has a legally cognizable interest, and the decision on appeal has caused or is substantially likely to cause injury to that interest.
- (e) For decisions rendered by Departmental officials relating to land selections under the Alaska Native Claims Settlement Act, as amended, any party who claims a property interest in land affected by the decision, an agency of the Federal Government or a regional corporation shall have a right to appeal to the Board.

[47 FR 26392, June 18, 1982, as amended at 68 FR 33803, June 5, 2003]

§ 4.411 Appeal; how taken, mandatory time limit.

- (a) A person who wishes to appeal to the Board must file in the office of the officer who made the decision (not the Board) a notice that he wishes to appeal. A person served with the decision being appealed must transmit the notice of appeal in time for it to be filed in the office where it is required to be filed within 30 days after the date of service. If a decision is published in the FEDERAL REGISTER, a person not served with the decision must transmit a notice of appeal in time for it to be filed within 30 days after the date of publication.
- (b) The notice of appeal must give the serial number or other identification of the case and may include a statement of reasons for the appeal, a statement of

standing if required by § 4.412(b), and any arguments the appellant wishes to make.

(c) No extension of time will be granted for filing the notice of appeal. If a notice of appeal is filed after the grace period provided in § 4.401(a), the notice of appeal will not be considered and the case will be closed by the officer from whose decision the appeal is taken. If the notice of appeal is filed during the grace period provided in § 4.401(a) and the delay in filing is not waived, as provided in that section, the notice of appeal will not be considered and the appeal will be dismissed by the Board.

(R.S. 2478, as amended, 43 U.S.C. 1201; sec. 25, Alaska Native Claims Settlement Act, as amended, 43 U.S.C. 1601–1628; and the Administrative Procedure Act, 5 U.S.C. 551, et seq.)

[36 FR 7186, Apr. 15, 1971, as amended at 36 FR 15117, Aug. 13, 1971; 49 FR 6373, Feb. 21, 1984]

§ 4.412 Statement of reasons, statement of standing, written arguments, briefs.

- (a) If the notice of appeal did not include a statement of the reasons for the appeal, the appellant shall file such a statement with the Board (address: Board of Land Appeals, Office of Hearings and Appeals, 801 North Quincy Street, Arlington, VA 22203) within 30 days after the notice of appeal was filed. In any case, the Board will permit the appellant to file additional statements of reasons and written arguments or briefs within the 30-day period after the notice of appeal was filed.
- (b) Where the decision being appealed relates to land selections under the Alaska Native Claims Settlement Act, as amended, the appellant also shall file with the Board a statement of facts upon which the appellant relies for standing under § 4.410(b) within 30 days after filing of the notice of appeal. The statement may be included with the notice of appeal filed pursuant to
- § 4.411 or the statement of reasons filed pursuant to paragraph (a) of this section or may be filed as a separate document.
- (c) Failure to file the statement of reasons and statement of standing within the time required will subject the appeal to summary dismissal as provided in § 4.402, unless the delay in filing is waived as provided in § 4.401(a).

[47 FR 26392, June 18, 1982, as amended at 67 FR 4368, Jan. 30, 2002]

§ 4.413 Service of notice of appeal and of other documents.

- (a) The appellant shall serve a copy of the notice of appeal and of any statement of reasons, written arguments, or briefs on each adverse party named in the decision from which the appeal is taken and on the Office of the Solicitor as identified in paragraph (c) of this section. Service must be accomplished in the manner prescribed in § 4.401(c) of this title not later than 15 days after filing the document.
- (b) Failure to serve within the time required will subject the appeal to summary dismissal as provided in § 4.402 of this title.
- (c)(1)(i) If the appeal is taken from a decision of the Director, Minerals Management Service, the appellant will serve the Associate Solicitor, Division of Mineral Resources, Office of the Solicitor, U.S. Department of the Interior, Washington, D.C. 20240.
- (ii) If the appeal is taken from a decision of the Director, Bureau of Land Management, the appellant will serve:

(d) Proof of such service as required by § 4.401(c) must be filed with the Board (address: Board of Land Appeals, Office of Hearings and Appeals, 801 North Quincy Street, Arlington, VA 22203), within 15 days after service unless filed with the notice of appeal.

[53 FR 13267, Apr. 22, 1988, as amended at 60 FR 58242, Nov. 27, 1995; 61 FR 40348, Aug. 2, 1996; 67 FR 4368, Jan. 30, 2002]

§ 4.414 Answers.

If any party served with a notice of appeal wishes to participate in the proceedings on appeal, he must file an answer within 30 days after service on him of the notice of appeal or statement of reasons where such statement was not included in the notice of appeal. If additional reasons, written arguments, or briefs, are filed by the appellant, the adverse party shall have 30 days after service thereof on him within which to answer them.

The answer must state the reasons why the answerer thinks the appeal should not be sustained. Answers must be filed with the Board (address: Board of Land Appeals, Office of Hearings and Appeals, 801 North Quincy Street, Arlington, VA 22203) and must be served on the appellant, in the manner prescribed in § 4.401(c), not later than 15 days thereafter. Proof of such service as required by § 4.401(c), must be filed with the Board (see address above) within 15 days after service. Failure to answer will not result in a default. If an answer is not

filed and served within the time required, it may be disregarded in deciding the appeal, unless the delay in filing is waived as provided in § 4.401(a).

ACTIONS BY BOARD OF LAND APPEALS

§ 4.415 Request for hearings on appeals inv olving questions of fact.

Either an appellant or an adverse party may, if he desires a hearing to present evidence on an issue of fact, request that the case be assigned to an administrative law judge for such a hearing. Such a request must be made in writing and filed with the Board within 30 days after answer is due and a copy of the request should be served on the opposing party in the case. The allowance of a request for hearing is within the discretion of the Board, and the Board may, on its own motion, refer any case to an administrative law judge for a hearing on an issue of fact. If a hearing is ordered, the Board will specify the issues upon which the hearing is to be held and the hearing will be held in accordance with §§ 4.430 to 4.439, and the general rules in subpart B of this part.

Association Placer Mining Claims Documentation or Amendments Required

The mining claims listed above are association placer mining claims that are over 20 acres in size. The claims were originally located with the required number of locators to meet the 20-acre per locator requirement. However, the claims are now held by a smaller group of claimants than originally located them and are therefore not in compliance with the legal requirements.

By law, each individual claimant is allowed to hold a maximum of 20 acres per claim. A corporation is considered to be a single entity that is allowed to hold a maximum of 20 acres per claim. In accordance with 43 CFR 3833.33 you may transfer, sell, or otherwise convey an association placer mining claim at any time to an equal or greater number of mining claimants. If you want to transfer an association placer claim to an individual or an association that is smaller in number than the association that located the claim you (a) must have discovered a valuable mineral deposit before the transfer; or (b) upon notice from the Bureau of Land Management (BLM), you must reduce the acreage of the claim, if necessary, so that you meet the 20-acre per locator limit.

In reviewing the case file for these claims it was noted that at the time of transfer to an individual or smaller number of locators than originally located the claims, BLM did not receive documentation supporting that a discovery of a valuable mineral deposit was made. Without this

documentation we cannot determine if the claims are being properly held by the correct number of claimants. Therefore, we are requiring that the appropriate documentation be submitted to BLM. We are enclosing a list to clarify what documentation must be provided to BLM to support the discovery of a valuable mineral deposit.

If you have the required documentation, dated **prior** to the date of transfer, you may file it with this office for review by a mineral examiner. If you do not have the proper documentation, you must amend the claims listed above, reducing the acreage to 20 acres per claimant, as is allowed by law.

We must receive either documentation supporting a discovery of a valuable mineral deposit, or amendments within 30 days of your receipt of this notice. If the required documentation or the amendments are not received within the 30-day timeframe the mining claims will be declared forfeited and void. If amendments are filed, there is a \$10 BLM processing fee for each amendment. The amendments must also be filed with the county.

If additional information is required, please contact Rod Ebert at 602-417-9397. Please include your AMC serial number(s) on all correspondence.

Sincerely,
Muchaelf Worne.

<u>Transfer of Association Placer Mining Claims</u> Amendments Required

The Bureau of Land Management (BLM) Arizona State Office received a conveyance document transferring ownership of the above listed mining claims.

The mining claims being transferred are association placer mining claims. The claims are being transferred to a smaller number of claimants than originally located the claims.

By law, each individual claimant is allowed to hold a maximum of 20 acres per claim. A corporation is considered to be a single entity that is allowed to hold a maximum of 20 acres per claim. In accordance with 43 CFR 3833.33, you may transfer, sell, or otherwise convey an association placer mining claim at any time to an EQUAL or greater number of mining claimants. However, if the claim is transferred to a smaller number of claimants you (a) must have discovered a valuable mineral deposit before the transfer; or (b) upon notice from BLM, you must reduce the acreage of the claim, if necessary, so that you meet the 20-acre per locator limit.

The BLM is therefore requiring that an amendment be filed for each claim listed above, in accordance with 43 CFR 3833.33, reducing the claims acreage to meet the 20-acre per claimant limit, as is authorized by law; or submit appropriate documentation supporting that there was a

discovery of a valuable mineral deposit prior to the date of transfer. We are enclosing a guide to clarify what documentation must be provided to BLM to support a discovery of a valuable mineral deposit. The documentation will be reviewed by a mineral examiner to determine adequacy.

We must receive either the amendments or documentation of discovery of a valuable mineral deposit within 30 days of your receipt of this notice. If the amendments or the required documentation are not received within the 30-day timeframe the mining claims will be declared forfeited and void. If amendments are filed, there is a \$10 BLM processing fee for each amendment. The amendments must also be filed with the county.

If additional information is required, please contact Rod Ebert at 602-417-9397. Please include your AMC serial number(s) on all correspondence.

REQUIREMENTS FOR TRANSFERRING ASSOCIATION PLACER MINING CLAIMS

Under the Mining Law of 1872, 30 U.S.C. 36, an "association of persons" may locate placer mining claims in excess of 20 acres in size. The Bureau of Land Management's (BLM) regulations at 43 CFR 3833.33(a) allow mining claimants to transfer or convey an association placer claim to a smaller number of owners than originally located the claim, including a single owner, under certain conditions.

What are the restrictions on transferring or conveying an association placer mining claim to a smaller number of owners than originally located the claim?

Under the BLM's regulations at 43 CFR 3833.33(a), it is permissible to transfer or convey an association placer claim over 20 acres in size to a smaller number of owners than originally locate the claim only if a "discovery of a valuable mineral deposit" was made within the limits of the claim prior to the date of transfer.

What does "discovery of a valuable mineral deposit" mean?

For purposes of the Mining Law, "discovery of a valuable mineral deposit" means that minerals have been found within the boundaries of the mining claim and that the evidence is of such a character that a person of ordinary prudence would be justified in the further expenditure of his labor and means, with a reasonable prospect of success, in developing a valuable mine.

In addition, for a discovery to exist the deposit must be marketable; that is, of such value that it can be mined, removed and disposed of at a profit.

A discovery has not been made until sufficient work has been done to show that the material can be produced and sold at a profit under conditions present at the time of transfer. The mineral deposit possessing in and of itself a present or prospective value for mining purposes must be actually and physically exposed in sufficient quantities to justify development of the mining claim through actual mining operations. If the deposit requires additional exploration to delineate the ore reserves and determine grade or quality before development may be confidently started, a discovery has not been made.

Sampling must have occurred on the subject claim. You will need several quantitative samples to adequately show a discovery of an association placer mining claim. Sampling should be done at as many places on the claim as may be necessary to establish the continuity and extent of the deposit. Until sampling has been completed, it is rarely possible to develop anything more than an informed guess as to the nature of any deposit. There must be something beyond a mere surmise, speculation, belief, or geological theory or impression of the existence of minerals on a mining claim to constitute a discovery of a valuable mineral deposit that would satisfy the regulations for transferring or conveying an association placer mining claim. Mere indications of existence of minerals within the boundaries of the claim or on adjoining lands are not sufficient to support a discovery of a valuable mineral deposit.

What information should I provide to the BLM to support that my association placer mining claim(s) had a discovery of a valuable mineral deposit at the time of transfer or conveyance?

Although the BLM's analysis is made on a case-by-case basis, the following information will be helpful to the BLM to support that a discovery of a valuable mineral deposit existed on the association placer mining claim(s) prior to the date of transfer.

<u>Transfer of Association Placer Mining Claims</u> Amendments Required

The Bureau of Land Management (BLM) Arizona State Office received a conveyance document transferring ownership of the above listed mining claims.

The mining claims being transferred are association placer mining claims. The claims are being transferred to a smaller number of claimants than originally located the claims.

By law, each individual claimant is allowed to hold a maximum of 20 acres per claim. A corporation is considered to be a single entity that is allowed to hold a maximum of 20 acres per claim. In accordance with 43 CFR 3833.33, you may transfer, sell, or otherwise convey an association placer mining claim at any time to an EQUAL or greater number of mining claimants. However, if the claim is transferred to a smaller number of claimants you (a) must have discovered a valuable mineral deposit before the transfer; or (b) upon notice from BLM, you must reduce the acreage of the claim, if necessary, so that you meet the 20-acre per locator limit.

The BLM is therefore requiring that an amendment be filed for each claim listed above, in accordance with 43 CFR 3833.33, reducing the claims acreage to meet the 20-acre per claimant limit, as is authorized by law; or submit appropriate documentation showing that there was a

discovery of a valuable mineral deposit prior to the date of transfer. We are enclosing a guide to clarify what documentation must be provided to BLM to show discovery of a valuable mineral deposit. The documentation will be reviewed by a geologist to determine adequacy.

We must receive either the amendments or documentation of discovery of a valuable mineral deposit within 30 days of your receipt of this notice. If the amendments or the required documentation are not received within the 30-day timeframe the mining claims will be declared forfeited and void. If amendments are filed, there is a \$10 BLM processing fee for each amendment. The amendments must also be filed with the county.

DISCOVERY OF A VALUABLE MINERAL DEPOSIT

In accordance with 43 CFR 3833.33(a), a discovery is required before an association placer claim can be conveyed to a smaller number of owners than originally located the claim or to a single owner.

What if I convey my association placer to a corporation?

Because a corporation is an individual, any association placer claim, acquired by a corporation must be supported by a discovery of a valuable mineral deposit prior to the date of acquisition.

Although it is permissible for an individual to acquire an association placer claim over 20 acres in size, it is essential that there were sufficient individual locators to make the original location, and furthermore, that a discovery of a valuable mineral deposit was made within the limits of the claim prior to the date of transfer 43 CFR 3833.33(a).

What is a discovery?

Two basic rules of discovery have been formulated by the Secretary of the Interior.

The prudent man rule provides that a discovery has been made "where minerals have been found and the evidence is of such a character that a person of ordinary prudence would be justified in the further expenditure of his labor and means, with a reasonable prospect of success, in developing a valuable mine ".

The marketability rule provides that for a discovery to exist, the claimant "must show that by reason of accessibility, *bona fides* in development, proximity to market, existence of present demand, and other factors, the deposit is of such value that it can be mined, removed and disposed of at a profit."

How does this pertain to an association placer claim?

Because most of the association placer claims in Arizona are located for gold, this information will pertain to gold placer claims. However the legal concept applies to other mineral commodities as well.

To satisfy the prudent man rule gold must be exposed in sufficient quantities to justify development of the claim through actual mining operations.

The marketability role of discovery states that a discovery has been made if the deposit is of such value that it can be mined, removed and disposed of at a profit.

Mere indications of existence of placer mineral within the boundaries of the claim are not sufficient. To constitute a valid discovery there must be actually and physically exposed within the limits of the claim a gold placer deposit possessing in and of itself a present or prospective

value for mining purposes. The particular deposit actually disclosed within the limits of the claim must be the one as to which there is a reasonable prospect of success in developing a valuable mine.

It cannot be said as a matter of law how much gold must be found in order to constitute a discovery, but there must be something beyond a mere guess on the part of the miner. A mere surmise, speculation, belief, or geological theory or impression of the existence of minerals on a claim is not sufficient. A mere indication is not sufficient, nor is the discovery of mineral outside the boundaries of the claim. A discovery has not been made until sufficient work has been done to show that the material can be produced and sold at a profit under conditions present at the time of transfer.

One discovery is required to support a placer location, whether it is a 20 acre claim by an individual or of 160 acres by an association of persons. The locator must, however, show the mineral character of each 10-acre tract of the claim. A discovery on one 10-acre portion of a placer claim does not establish the mineral character of the entire claim. Mineral-in-character may be based on geologic inference from adjoining lands and a reasonable opportunity for profitable extraction.

What information should I provide BLM to indicate that my association claim(s) had a discovery of a valuable mineral deposit at the time of conveyance?

It is difficult to lay down specific rules by which to determine whether a valid discovery has been made, and each case must be determined with reference to the special facts and conditions shown to exist in the particular mining district where a claim is located. A gold placer deposit may not be a valuable ore deposit if the cost of extracting the gold exceeds the value of the gold its self. It is what is exposed on each claim that matters most. Historical interest and production, while interesting, do not take the place of an actual discovery.

In order to qualify as a discovery of a valuable mineral deposit it must be established that the deposit can be mined and sold at a profit and that development and mining operations may proceed with reasonable confidence.

If the deposit requires additional exploration to delineate the ore reserves and determine grade or quality before development may be confidently started, a discovery has not been made.

What you should provide to BLM to show your discovery of a valuable mineral deposit (the information must be dated prior to the date of transfer) –

Claim location map Claim boundary map

Map showing sample locations

Sampling must have occurred on the subject claim. You will need several quantitative samples to adequately show a discovery of a placer mining claim. Sampling should be done at as many places on the claim as may be necessary to establish the continuity and extent of the deposit. Until sampling has been completed, it is rarely possible to develop anything more than an informed guess as to the nature of any deposit. As part of your sampling data you should be able to provide BLM with:

- -sample volume,
- -sample interval,
- -material sampled,
- -raw gold recovered,
- -raw gold weight (grams/bank cubic yards),
- -raw gold value (\$/bank cubic yard) (using the price of gold per Troy ounce at the time the discovery was made),

MINING CLAIM(S) DECLARED FORFEITED

The mining claim(s) listed above has/have been declared forfeited for failure to file the required maintenance fee payment or small miner's maintenance fee waiver (waiver) on or before September 1, 2012.

Claimants are required to pay an annual non-refundable maintenance fee of \$140, or submit a waiver, on or before September 1 of each year. There is no grace period and late filings cannot be accepted. These requirements were established by 30 (United States Code) 28-f-k, as amended, and 43 Code of Federal Regulations (CFR) 3834 and 3835.

Our records show that we did receive either a maintenance fee payment or a waiver for the above listed mining claim(s); however your document was received <u>after September 1, 2012</u>. Therefore, the claim(s) is/are forfeited. If you paid a late maintenance fee, it will be refunded at the conclusion of the 30 days appeal period.

This decision does not relieve you of the liability for reclamation of all areas disturbed by your activities on lands covered by the subject mining claim(s) and/or site(s). After you complete the reclamation, you must notify the authorized officer of the appropriate surface managing agency so that the authorized officer may conduct a final site inspection and determine whether you may be released from liability. If you fail to reclaim the land to the satisfaction of the authorized

officer, the surface management agency may cite you for noncompliance under its surface management regulations.

For land administered by the Bureau of Land Management (BLM), if you fail to reclaim the land to the satisfaction of the authorized officer as required in 43 CFR Subpart 3809, BLM will issue an order of noncompliance under 43 CFR 3809.601(a). If you fail to comply with the noncompliance order, BLM may take further action under 43 CFR 3809.604. Failure to conduct reclamation is a prohibited act that may subject you to criminal penalties. See 43 CFR 3809.605(h) and 43 CFR 3809.700.

Appeal Procedures

This decision may be appealed to the Interior Board of Land Appeals, Office of the Secretary, in accordance with the regulations contained in 43 CFR, Part 4, and the enclosed Form 1842-1. If an appeal is taken, your notice of appeal must be filed in this office (at the above address) within 30 days from receipt of this decision. The appellant has the burden of showing that the decision appealed from is in error.

If you wish to file a petition pursuant to regulation 43 CFR 4.21 (58 FR 4939, January 19, 1993) for a stay of the effectiveness of this decision during the time that your appeal is being reviewed by the Board, the petition for a stay must accompany your notice of appeal. A petition for a stay is required to show sufficient justification based on the standards listed below. Copies of the notice of appeal and petition for a stay must also be submitted to each party named in this decision and to the Interior Board of Land Appeals and to the appropriate Office of the Solicitor (see 43 CFR 4.413) at the same time the original documents are filed with this office. If you request a stay, you have the burden of proof to demonstrate that a stay should be granted.

Standards for Obtaining a Stay

Except as otherwise provided by law or other pertinent regulation, a petition for a stay of a decision pending appeal shall show sufficient justification based on the following standards:

- (1) The relative harm to the parties if the stay is granted or denied,
- (2) The likelihood of the appellant's success on the merits,
- (3) The likelihood of immediate and irreparable harm if the stay is not granted, and
- (4) Whether the public interest favors granting the stay.

Please include your AMC serial number(s) on all correspondence. If additional information is required, please call Tony Smith @ 602-417-9355.

DECISION

WASHINGTON ERIC S PO BOX 1782 CORTARO, AZ 85652-1782

This decision affects those claims shown

in the block below:

AMC369708 BIG GOLD FIND #3

MINING CLAIMS DECLARED FORFEITED ·

The mining claims listed above have been declared forfeited for failure to file the required maintenance fee payment or small miner's maintenance fee waiver (waiver).

Claimants are required to pay an annual non-refundable maintenance fee of \$140, or submit a waiver, on or before September 1 of each year. These requirements were established by 30 (United States Code) 28-f-k, as amended, and 43 Code of Federal Regulations (CFR) 3834 and 3835.

Our records do not show receipt of a maintenance fee payment, or waiver received on or before September 1, 2012, for the 2013 assessment year, for the claims listed above. Therefore, the claims are forfeited.

This decision does not relieve you of the liability for reclamation of all areas disturbed by your activities on lands covered by the subject mining claim(s) and/or site(s). After you complete the reclamation, you must notify the authorized officer of the appropriate surface managing agency so that the authorized officer may conduct a final site inspection and determine whether you may be released from liability.

If you fail to reclaim the land to the satisfaction of the authorized officer, the surface management agency may cite you for noncompliance under its surface management regulations.

For land administered by the Bureau of Land Management (BLM), if you fail to reclaim the land to the satisfaction of the authorized officer as required in 43 CFR Subpart 3809, BLM will issue an order of noncompliance under 43 CFR 3809.601(a). If you fail to comply with the noncompliance order, BLM may take further action under 43 CFR 3809.604. Failure to conduct reclamation is a prohibited act that may subject you to criminal penalties. See 43 CFR 3809.605(h) and 43 CFR 3809.700.

Appeal Procedures

This decision may be appealed to the Interior Board of Land Appeals, Office of the Secretary, in accordance with the regulations contained in 43 CFR, Part 4, and the enclosed Form 1842-1. If an appeal is taken, your notice of appeal must be filed in this office (at the above address) within 30 days from receipt of this decision. The appellant has the burden of showing that the decision appealed from is in error.

If you wish to file a petition pursuant to regulation 43 CFR 4.21 (58 FR 4939, January 19, 1993) for a stay of the effectiveness of this decision during the time that your appeal is being reviewed by the Board, the petition for a stay must accompany your notice of appeal. A petition for a stay is required to show sufficient justification based on the standards listed below. Copies of the notice of appeal and petition for a stay **must** also be submitted to each party named in this decision and to the Interior Board of Land Appeals and to the appropriate Office of the Solicitor (see 43 CFR 4.413) at the same time the original documents are filed with this office. If you request a stay, you have the burden of proof to demonstrate that a stay should be granted.

Standards for Obtaining a Stay

Except as otherwise provided by law or other pertinent regulation, a petition for a stay of a decision pending appeal shall show sufficient justification based on the following standards:

- (1) The relative harm to the parties if the stay is granted or denied,
- (2) The likelihood of the appellant's success on the merits,
- (3) The likelihood of immediate and irreparable harm if the stay is not granted, and
- (4) Whether the public interest favors granting the stay.

Please include your AMC serial number(s) on all correspondence. If additional information is required, please call Rod Ebert at 602-417-9397.

MINING CLAIMS DECLARED FORFEITED ·

The mining claims listed above have been declared forfeited for failure to file the required maintenance fee payment or small miner's maintenance fee waiver (waiver).

Claimants are required to pay an annual non-refundable maintenance fee of \$140, or submit a waiver, on or before September 1 of each year. These requirements were established by 30 (United States Code) 28-f-k, as amended, and 43 Code of Federal Regulations (CFR) 3834 and 3835.

Our records do not show receipt of a maintenance fee payment, or waiver received on or before September 1, 2012, for the 2013 assessment year, for the claims listed above. Therefore, the claims are forfeited.

This decision does not relieve you of the liability for reclamation of all areas disturbed by your activities on lands covered by the subject mining claim(s) and/or site(s). After you complete the reclamation, you must notify the authorized officer of the appropriate surface managing agency so that the authorized officer may conduct a final site inspection and determine whether you may be released from liability.

See 43 CFR 3809.605(h) and 43 CFR 3809.700.

Appeal Procedures

This decision may be appealed to the Interior Board of Land Appeals, Office of the Secretary, in accordance with the regulations contained in 43 CFR, Part 4, and the enclosed Form 1842-1. If an appeal is taken, your notice of appeal must be filed in this office (at the above address) within 30 days from receipt of this decision. The appellant has the burden of showing that the decision appealed from is in error.

If you wish to file a petition pursuant to regulation 43 CFR 4.21 (58 FR 4939, January 19, 1993) for a stay of the effectiveness of this decision during the time that your appeal is being reviewed by the Board, the petition for a stay must accompany your notice of appeal. A petition for a stay is required to show sufficient justification based on the standards listed below. Copies of the notice of appeal and petition for a stay **must** also be submitted to each party named in this decision and to the Interior Board of Land Appeals and to the appropriate Office of the Solicitor (see 43 CFR 4.413) at the same time the original documents are filed with this office. If you request a stay, you have the burden of proof to demonstrate that a stay should be granted.

Standards for Obtaining a Stay

Except as otherwise provided by law or other pertinent regulation, a petition for a stay of a decision pending appeal shall show sufficient justification based on the following standards:

- (1) The relative harm to the parties if the stay is granted or denied,
- (2) The likelihood of the appellant's success on the merits,
- (3) The likelihood of immediate and irreparable harm if the stay is not granted, and
- (4) Whether the public interest favors granting the stay.

2013 Maintenance Fees - Additional Fees Required

Your maintenance fee payment for the 2013 assessment year, in the amount of \$140 per claim, for the placer claims listed above, has been received and is insufficient. The total due on your claim(s) is: \$\$980.

In accordance with the Consolidated Appropriations Act of 2012, Public Law 112-74 (125 Stat 1047), and FR44155-44158 (2012) Congress changed the way maintenance fees for placer mining claims are assessed. Instead of charging the maintenance fee on a per-claim basis, Congress stated that the fee, which is currently \$140, will be assessed on each 20 acre parcel of a placer claim or portion thereof.

Insufficient payment of the annual maintenance fee for the 2013 assessment year is a curable defect. Therefore you are required to do one of the following within 30 days of receipt of this notice or your claim(s) will be declared forfeited: 1) submit additional fees of \$140 per 20-acres or portion thereof based on the full acreage of the claim, or 2) amend the claim(s) to reduce the acres so a lesser fee is due and submit any additional fees due; or 3) relinquish the claim(s) in their entirety, in which case BLM will refund the maintenance fees you have already paid for the 2013 assessment year.

If you choose to amend the claims to reduce the acres, you must submit an amended location notice for each claim, with an accurate description and dimensions of the reduced claim, along with a map depicting the reduced claim, and a \$10 processing fee per amendment. An amendment must also be recorded at the county. If the amended claim contains more than 20 acres, calculate the additional fees due and submit those fees with the amendment(s).

Pd #980

Please include your Arizona Mining Claim (AMC) serial number(s) and claim name(s) when submitting the additional fees, and note that you are paying additional fees due. If additional information is required, please contact Amy Thrower at 602-417-9334.

Transfer(s) Not Processed

A Quit Claim Deed (QCD) to transfer ownership of the mining claim(s) listed above was received by the Bureau of Land Management (BLM) Arizona State Office. The transfer(s) of ownership cannot be processed for the following reason:

According to BLM records the claim AMC369708 is not owned by Mike and Jeanette Heinonen, it is owned by Eric Washington. Eric Washington did sever some claims from this parent claim, however, we do not show any claim in our system owned by Mike and Jeanette Heinonen. Also, according to your description this claim would only be .75 acres. We no longer sever any claims less than 10 acres in size.

If appropriate, please submit a corrected QCD, required documents, or additional fees, within 30 days of your receipt of this notice. If the required information is not received with the 30-day timeframe, no further action will be taken, and the BLM will retain the non-refundable processing fees submitted.

Cannot process this transfer. The Heinonen's never recorded claim with BLM. We no longer accept claims less than 10 acres in size.

If additional information is required, please contact Amy Bunda at 602-417-9334. Please include your AMC serial number(s) on all correspondence.

Hi Susie,

Here is the information you requested when we spoke on the telephone with the person from Gila County. The name of my claim is "Big Claim 3" and my claim number is #369708. I hope the information from the recorders office in Gila County will be there in your office shortly. I did remember to enclose the \$10 also.

Any questions or problems call me @ 218-584-8234. I fly out to Payson tomorrow (Oct 1) to check everything out.

Thanks,

Dear Mike and Jeanette:

Please find enclosed paperwork on your new 1.25+/- acre placer mining claim in Gila County, Arizona: known as Big Gold Find #3 AMC#369708 in N2, NE4, NW4, NW4, NE4 S23, T10N, R9E Gila and Salt River Baseline and Meridian.

Enclosed are:

- 1. The notarized deed in your name.
- 3. Maps showing relation of your property to the original lot parcel.
- 4. Copies of any other documents in our file for your reference.

Please note that the county no longer requires mining deeds to be recorded because they are not taxed and thus not reconciled by the assessor's office. Also tax parcel numbers are not issued for mining claims because there is no annual property tax on them. The legal description of your property is the Township and Range description given on the deed. We also enclose the DIGITAL GPS coordinates of your parcel.

Should you have any questions, please call or email me.

Thanks again,

Eric Steven Washington-Turner

Hi Amy Bunda,

This is a follow up to the 8 page fax I sent. Please note that there is a discrepancy in the size of the claim. According to the decision letter I received and faxed to you, it states only .75 acres. However the deed transfer from Eric Washington to the Heinonen's I faxed to you states as I circled 1.25. That matches up to the map that Phyllis from the BLM made for me.

Thank you for helping me with all this. My wife and are exited about getting this taken car of and getting it transferred. I flew out to Payson in October and hope to return once this is settled.

MINING CLAIM DECLARED FORFEITED

The mining claim listed above has been declared forfeited for failure to timely file the required maintenance fee payment or the small miner's maintenance fee waiver (waiver) on or before September 1, 2008.

Claimants are required to pay an annual maintenance fee of \$125 or submit a waiver on or before September 1 of each year. These requirements were established by Title 30 United States Code (U.S.C.) 28-f-k, as amended, and Title 43 Code of Federal Regulations (CFR) 3834 and 3835.

In a letter dated December 12, 2008, you were notified that the waiver submitted for AMC369708 (Big Gold Find #3) lacked the names, addresses, and original signatures of all the listed locators. This office did not receive either the required information to complete the deficient waiver or the maintenance fee payment of \$125 within the 60 day timeframe allowed. Therefore, this claim is declared forfeited.

This decision does not relieve you of the liability for reclamation of all areas disturbed by your activities on lands encompassed by the subject mining claim(s) and/or site(s). After you complete the reclamation, you must notify the authorized officer of the appropriate surface managing agency so that the authorized officer may conduct a final site inspection and determine whether you may be released from liability. If you fail to reclaim the land to the satisfaction of the authorized officer, the surface management agency may cite you for noncompliance under its surface management regulations.

For lands administered by the Bureau of Land Management (BLM), if you fail to reclaim the lands to the satisfaction of the authorized officer as required in 43 CFR Subpart 3809, the BLM will issue an order of noncompliance under 43 CFR 3809.601(a). If you fail to comply with the noncompliance order, the BLM may take further action under 43 CFR 3809.604. Failure to conduct reclamation is a prohibited act that may subject you to criminal penalties. See 43 CFR 3809.605(h) and 43 CFR 3809.700. If your occupancy has been terminated and you fail to remove structures, material, and equipment, and any personal property in accordance with the regulations in 43 CFR 3715.5-1, the BLM may dispose of the property. In accordance with 43 CFR 3715.5-2, you will remain liable for the costs BLM incurs in removing and disposing of the property.

This decision may be appealed to the Interior Board of Land Appeals, Office of the Secretary, in accordance with the regulations contained in 43 CFR Part 4, and the enclosed Form 1842-1. If an appeal is taken, your notice of appeal must be filed in this office (at the above address) within 30 days from receipt of this decision. The appellant has the burden of showing that the decision appealed from is in error.

If you wish to file a petition pursuant to regulation 43 CFR 4.21 (58 FR 4939, January 19, 1993) for a stay of the effectiveness of this decision during the time that your appeal is being reviewed by the Board, the petition for a stay must accompany your notice of appeal. A petition for a stay is required to show sufficient justification based on the standards listed below. Copies of the notice of appeal and petition for a stay must also be submitted to each party named in this decision and to the Interior Board of Land Appeals and to the appropriate Office of the Solicitor (see 43 CFR 4.413) at the same time the original documents are filed with this office. If you request a stay, you have the burden of proof to demonstrate that a stay should be granted.

Standards for Obtaining a Stay

Except as otherwise provided by law or other pertinent regulation, a petition for a stay of a decision pending appeal shall show sufficient justification based on the following standards:

- (1) The relative harm to the parties if the stay is granted or denied,
- (2) The likelihood of the appellant's success on the merits,
- (3) The likelihood of immediate and irreparable harm if the stay is not granted, and,
- (4) Whether the public interest favors granting the stay.

If additional information is required, please contact Rod Ebert at 602-417-9397. Please include your AMC serial number on all correspondence.

MINING CLAIM DECLARED FORFEITED

The mining claim listed above has been declared forfeited for failure to timely file the required maintenance fee payment or the small miner's maintenance fee waiver (waiver) on or before September 1, 2008.

Claimants are required to pay an annual maintenance fee of \$125 or submit a waiver on or before September 1 of each year. These requirements were established by Title 30 United States Code (U.S.C.) 28-f-k, as amended, and Title 43 Code of Federal Regulations (CFR) 3834 and 3835.

In a letter dated December 12, 2008, you were notified that the waiver submitted for AMC369708 (Big Gold Find #3) lacked the names, addresses, and original signatures of all the listed locators. This office did not receive either the required information to complete the deficient waiver or the maintenance fee payment of \$125 within the 60 day timeframe allowed. Therefore, this claim is declared forfeited.

This decision does not relieve you of the liability for reclamation of all areas disturbed by your activities on lands encompassed by the subject mining claim(s) and/or site(s). After you complete the reclamation, you must notify the authorized officer of the appropriate surface managing agency so that the authorized officer may conduct a final site inspection and determine whether you may be released from liability. If you fail to reclaim the land to the satisfaction of the authorized officer, the surface management agency may cite you for noncompliance under its surface management regulations.

For lands administered by the Bureau of Land Management (BLM), if you fail to reclaim the lands to the satisfaction of the authorized officer as required in 43 CFR Subpart 3809, the BLM will issue an order of noncompliance under 43 CFR 3809.601(a). If you fail to comply with the noncompliance order, the BLM may take further action under 43 CFR 3809.604. Failure to conduct reclamation is a prohibited act that may subject you to criminal penalties. See 43 CFR 3809.605(h) and 43 CFR 3809.700. If your occupancy has been terminated and you fail to remove structures, material, and equipment, and any personal property in accordance with the regulations in 43 CFR 3715.5-1, the BLM may dispose of the property. In accordance with 43 CFR 3715.5-2, you will remain liable for the costs BLM incurs in removing and disposing of the property.

This decision may be appealed to the Interior Board of Land Appeals, Office of the Secretary, in accordance with the regulations contained in 43 CFR Part 4, and the enclosed Form 1842-1. If an appeal is taken, your notice of appeal must be filed in this office (at the above address) within 30 days from receipt of this decision. The appellant has the burden of showing that the decision appealed from is in error.

If you wish to file a petition pursuant to regulation 43 CFR 4.21 (58 FR 4939, January 19, 1993) for a stay of the effectiveness of this decision during the time that your appeal is being reviewed by the Board, the petition for a stay must accompany your notice of appeal. A petition for a stay is required to show sufficient justification based on the standards listed below. Copies of the notice of appeal and petition for a stay must also be submitted to each party named in this decision and to the Interior Board of Land Appeals and to the appropriate Office of the Solicitor (see 43 CFR 4.413) at the same time the original documents are filed with this office. If you request a stay, you have the burden of proof to demonstrate that a stay should be granted.

Standards for Obtaining a Stay

Except as otherwise provided by law or other pertinent regulation, a petition for a stay of a decision pending appeal shall show sufficient justification based on the following standards:

- (1) The relative harm to the parties if the stay is granted or denied,
- (2) The likelihood of the appellant's success on the merits,
- (3) The likelihood of immediate and irreparable harm if the stay is not granted, and,
- (4) Whether the public interest favors granting the stay.

Transfer Not Processed

On May 31, 2007, a Quit Claim Deed (QCD) was received by the Arizona State Office, Bureau of Land Management (BLM), transferring a portion of Big Gold Find #3 (AMC369708) from Eric S. Washington to Matthew and Travis Gosnay.

When a portion of a mining claim is transferred, it is called a segregated mining claim. The portion segregated from the parent claim is given a new AMC number and becomes a separate claim. The fee to file a segregated mining claim is \$25 (\$15 processing fee and \$10 transfer fee). We received only \$10 with your transfer document. When filing a segregated mining claim you are also required to file a copy of the original location notice and a map showing the original claim and depicting which portion of that claim is being segregated. We did not receive these documents with your filing. We also do not accept segregated claims of less than 10 acres in size. The portion identified in the transfer document describes only 1.25+/- acres. Therefore, we cannot process the transfer document received. BLM will retain the non-refundable processing fee received and no further action will be taken on the transfer document.

If additional information is required, please contact Amy Bunda at 602-417-9334. Please include your AMC serial number(s) on all correspondence.

Transfer Not Processed

On March 13, 2007, a Quit Claim Deed (QCD) was received by the Arizona State Office, Bureau of Land Management (BLM), transferring a portion of Big Gold Find #3 (AMC369708), from Eric S. Washington to Willie Thrasher.

When a portion of a mining claim is transferred, it is called a segregated mining claim. The portion segregated from the parent claim is given a new AMC number and becomes a separate claim. The fee to file a segregated mining claim is \$25 (\$15 processing fee and \$10 transfer fee). We received only \$10 with your transfer document. When filing a segregated mining claim you are also required to file a copy of the original location notice and a map showing the original claim and depicting which portion of that claim is being segregated. We did not receive these documents with your filing. We also do not accept segregated claims of less than 10 acres in size. The portion identified in the transfer document describes only 1.25+/- acres. Therefore, we cannot process the transfer document received. BLM will retain the \$10 non-refundable processing fee received and no further action will be taken on the transfer document.

If additional information is required, please contact Amy Bunda at 602-417-9334. Please include your AMC serial number(s) on all correspondence.

December 19, 2007 IBLA 2007-100, et al.) AMC-369714, et al.) ERIC S. W. TURNER) Mining Claims) Decisions Affirmed) Decisions Affirmed ORDER

Eric S. W. Turner has appealed from December 18, 2006, and December 22, 2006, decisions of the Arizona State Office, Bureau of Land Management (BLM). These decisions declared the appellant's Dons Gold (AMC-371736) and Rich Gold #2 (AMC-369714) mining claims forfeited for failure to pay the \$125 per claim maintenance fee or to file a Maintenance Fee Payment Waiver Certification (Waiver Certification) on or before September 1, 2006, for the 2007 assessment year. For the following reasons, BLM's decisions are affirmed.

Under 30 U.S.C. § 28f(a) (2000),² the holder of an unpatented mining claim, mill site, or tunnel site is required to pay a maintenance fee for each claim or site on or before September 1 of each year for the years 2004 through 2008. *See* 43 C.F.R. § 3834.11(a)(2). Payment of the claim maintenance fee is in lieu of the assessment work requirements of the Mining Law of 1872, 30 U.S.C. §§ 28-28e (2000), and the

¹ The Board has docketed appellant's appeals under two separate docket numbers (IBLA 2007-100 and IBLA 2007-101).

² Congress has amended 30 U.S.C. § 28f(a) (2000) twice, specifically by the Department of the Interior and Related Agencies Appropriations Act, 2002, Pub. L. No. 107-63, 115 Stat. 414, 418-19 (2001) (requiring the payment of the claim maintenance fee on or before September 1 of each year for the years 2002 and 2003), and the Department of the Interior and Related Agencies Appropriations Act, 2004, Pub. L. No. 108-108, 117 Stat. 1241, 1245 (2003) (requiring the payment of the claim maintenance fee on or before September 1 of each year for the years 2004 through 2008).

related filing requirements of section 314(a) of the Federal Land Policy and Management Act of 1976 (FLPMA), 43 U.S.C. § 1744(a) (2000), for the upcoming assessment year that begins at noon on September 1 of the year payment is due. *See* 30 U.S.C. § 28f(a) and (b) (2000); 43 C.F.R. § 3834.11(a).

The failure to pay the claim maintenance fee "shall conclusively constitute a forfeiture of the unpatented mining claim, mill or tunnel site by the claimant and the claim shall be deemed null and void by operation of law." 30 U.S.C. § 28i (2000); see 43 C.F.R. §§ 3830.91(a), 3835.92(a). Congress, however, provided the Secretary with discretion to waive the fee for a claimant who certified in writing that on the date the payment was due, the claimant and all related parties held not more than 10 mining claims, mill sites, or tunnel sites, or any combination thereof, on public lands and had performed assessment work required under the Mining Law of 1872, for the preceding assessment year ending at noon on September 1 of the calendar year in which payment of the claim maintenance fee is due. 30 U.S.C. § 28f(d)(1) (2000); see Audrey Bradbury, 160 IBLA 269, 273-74 (2003). BLM implemented this statute with a regulation that requires a claimant to file "BLM's waiver certification form on or before September 1 of each assessment year for which you are seeking a waiver." 43 C.F.R. § 3835.10(a).

Appellant contends that he filed a Waiver Certification, a copy of which he has attached to his notice of appeal. However, the case record contains no evidence that appellant filed the Waiver Certification on or before September 1, 2006, for the 2007 assessment year. Indeed, the record contains a Waiver Certification date-stamped December 26, 2006, months after the required deadline.

The statute is self-operative. As set forth above, it explicitly states that failure to timely pay the required maintenance fee automatically results in forfeiture of the mining claims by operation of law. 30 U.S.C. § 28i (2000). When a claimant fails to timely file a Waiver Certification and no payment has been made, forfeiture results from the statutory directive. *Howard J. Hunt*, 147 IBLA 381, 384 (1999). BLM and this Board are without authority to excuse lack of compliance with the maintenance fee requirement of the Act, to extend the time for compliance, or to afford any relief from the statutory consequences. *Richard W. Cahoon Family Limited Partnership*, 139 IBLA 323, 326 (1997). In the absence of a timely-filed maintenance fee payment or Waiver Certification, BLM properly declared the claims forfeited by operation of law. 43 C.F.R. § 3835.92(a); *see Joe Bob Hall*, 135 IBLA 284, 286 (1996); *Alamo Ranch Co.*, 135 IBLA 61, 76 (1996).

Accordingly, pursuant to the authority delegated to the Board of Land Appeals by the Secretary of the Interior, 43 C.F.R. § 4.1, the decisions appealed from are affirmed.

3800 (AZ-933) AB AMC369714

Gentlemen:

NOTICE OF APPEAL

This is a notice of appeal of the decisions of the above mentioned mining claims declared forfeited.

STATEMENT OF REASONS

The reason for the appeal is that a maintenance fee waiver was indeed filed, a copy of which is enclosed.

I request that the declaration of forfeiture on these two claims be rescinded..

DECISION

WEBSTER BRUCE 3276 JOHNSON AVE MANCHESTER, NJ 8759

: This decision affects those claims shown

in the block below:

AMC369706 4TH GOLD

MINING CLAIMS DECLARED FORFEITED

The mining claims listed above have been declared forfeited for failure to file the required maintenance fee payment or small miner's maintenance fee waiver (waiver).

Claimants are required to pay an annual non-refundable maintenance fee of \$125, or submit a waiver, on or before September 1 of each year. These requirements were established by 30 (United States Code) 28-f-k, as amended, and 43 Code of Federal Regulations (CFR) 3834 and 3835.

Our records do not show receipt of a maintenance fee payment, or waiver received on or before September 1, 2006, for the 2007 assessment year, for the claims listed above. Therefore, the claims are forfeited.

This decision does not relieve you of the liability for reclamation of all areas disturbed by your activities on lands covered by the subject mining claim(s) and/or site(s). After you complete the reclamation, you must notify the authorized officer of the appropriate surface managing agency so that the authorized officer may conduct a final site inspection and determine whether you may be released from liability. If you fail to reclaim the land to the satisfaction of the authorized officer, the surface management agency may cite you for noncompliance under its surface management regulations.

For land administered by the Bureau of Land Management (BLM), if you fail to reclaim the land to the satisfaction of the authorized officer as required in 43 CFR Subpart 3809, BLM will issue an order of noncompliance under 43 CFR 3809.601(a). If you fail to comply with the noncompliance order, BLM may take further action under 43 CFR 3809.604. Failure to conduct reclamation is a prohibited act that may subject you to criminal penalties. See 43 CFR 3809.605(h) and 43 CFR 3809.700.

This decision may be appealed to the Interior Board of Land Appeals, Office of the Secretary, in accordance with the regulations contained in 43 CFR, Part 4, and the enclosed Form 1842-1. If an appeal is taken, your notice of appeal must be filed in this office (at the above address) within 30 days from receipt of this decision. The appellant has the burden of showing that the decision appealed from is in error.

If you wish to file a petition pursuant to regulation 43 CFR 4.21 (58 FR 4939, January 19, 1993) for a stay of the effectiveness of this decision during the time that your appeal is being reviewed by the Board, the petition for a stay must accompany your notice of appeal. A petition for a stay is required to show sufficient justification based on the standards listed below. Copies of the notice of appeal and petition for a stay **must** also be submitted to each party named in this decision and to the Interior Board of Land Appeals and to the appropriate Office of the Solicitor (see 43 CFR 4.413) at the same time the original documents are filed with this office. If you request a stay, you have the burden of proof to demonstrate that a stay should be granted.

Standards for Obtaining a Stay

Except as otherwise provided by law or other pertinent regulation, a petition for a stay of a decision pending appeal shall show sufficient justification based on the following standards:

- (1) The relative harm to the parties if the stay is granted or denied.
- (2) The likelihood of the appellant's success on the merits,
- (3) The likelihood of immediate and irreparable harm if the stay is not granted, and
- (4) Whether the public interest favors granting the stay.

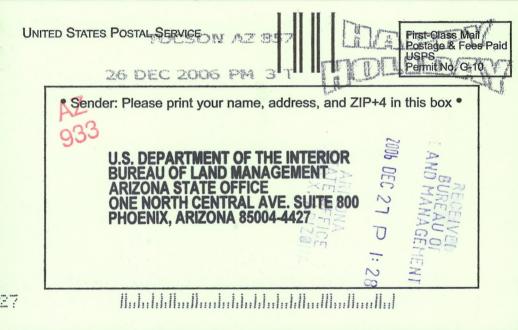

Please include your AMC serial number(s) on all correspondence. If additional information is required, please call Amy Bunda at 602-417-9334.

MATTHEW AND TRAVIS:

Please find enclosed paperwork on your new 1.25+/- acre placer mining claim in Gila County, Arizona: known as Big Gold Find #3 AMC#369708 in N2, NW4, SW4, SW4, NE4 S23, T10N, R9E, Gila and Salt River Baseline and Meridian. Big Gold Find

Enclosed are:

- 1. The notarized deed in your name.
- 3. Maps showing relation of your property to the original lot parcel.
- 4. Copies of any other documents in our file for your reference.

Please note that the county no longer requires mining deeds to be recorded because they are not taxed and thus not reconciled by the assessor's office. Also tax parcel numbers are not issued for mining claims because there is no annual property tax on them. The legal description of your property is the Township and Range description given on the deed.

Should you have any questions, please call or email me.

Thanks again,

Eric Steven Washington-Turner

MAINTENANCE FEE WAIVER CERTIFICATION

SEE INSTRUCTIONS ON PAGE 2

This small miner waiver is filed for the assessment year beginning on September 1, 2019 and ending on September 1, 2. The undersigned and all related parties owned ten or fewer mining claims, mill, or tunnel sites located and maintained on Federal lands in the United States of America on September 1, 2019.

3. The undersigned have performed the assessment work required by law for each mining claim listed prior to filing this waiver and understand that by filing this form, the undersigned must file an affidavit of assessment work with the Bureau of Land Management (BLM) by the December 30th following the filing of this waiver.

The undersigned understand that if the assessment work obligation has not yet come due under 30 U.S.C. 28 (for those claims in their first assessment year only), a notice of intent to hold reciting this condition must be recorded by the December 30th following the filing of this waiver.

The undersigned understand that mill and tunnel sites may also be listed on this waiver and be waived from payment of the maintenance fee, and that a notice of intent to hold for these sites is required to be filed with the BLM by the December 30th following the filing of this waiver.

The undersigned understand and acknowledge that pursuant to 43 U.S.C. 1212 and 18 U.S.C. 1001, the filing or recording of a false, fictitious, or fraudulent document with the BLM may result in a fine of up to \$250,000, a prison term not to exceed five years, or both.

INSTRUCTIONS

- 1. This certification is made under the provisions of 43 U.S.C. § 1744 and 30 U.S.C. §28-28k and the regulations thereunder (43 CFR Part 3830).
- 2. The claimant(s) must fill in the dates in paragraph 1 for the beginning and ending of the assessment year for which this waiver is sought.
- 3. The claimant(s) must fill in the date in paragraph 2 for the beginning of the assessment year for which this waiver is sought.
- 4. All claim and site names and BLM serial numbers must be listed for the mining claims, mill sites, and tunnel sites for which the waiver is sought.
- 5. All owners of the mining claims, mill sites, and tunnel sites and their addresses must be given.
- 6. This waiver form must be signed by all the claimants or their designated agent, in original form. If an agent is designated, a notarized designation of agent, signed by all of the claimants with proper address given, must be submitted with this waiver.
- 7. This form must be filed no later than September 1st for the upcoming assessment year in the BLM State Office where the mining claims or sites are recorded, or the waiver cannot be granted by the BLM. (Example: To obtain a waiver for the assessment year 2012, which begins on September 1, 2011, you must qualify for and file for a waiver no later than September 1, 2011, in the proper BLM State Office.)
- 8. For all mining claims which require assessment work, you must record an affidavit of labor on or before the December 30th immediately following the filing of this waiver. For all other mining claims or sites waived, you must record a notice of intent to hold on or before the December 30th immediately following the filing of this waiver.
- 9. Mill and tunnel sites may also be listed on this waiver and be waived from payment of the maintenance fee. A notice of intent to hold for these sites is required to be filed by the December 30th following the filing of this waiver.

INSTRUCTIONS

- 1. This certification is made under the provisions of 43 U.S.C. § 1744 and 30 U.S.C. §28-28k and the regulations thereunder (43 CFR Part 3830).
- 2. The claimant(s) must fill in the dates in paragraph 1 for the beginning and ending of the assessment year for which this waiver is sought.
- 3. The claimant(s) must fill in the date in paragraph 2 for the beginning of the assessment year for which this waiver is sought,
- All claim and site names and BLM serial numbers must be listed for the mining claims, mill sites, and tunnel sites for which the waiver is sought.
- All owners of the mining claims, mill sites, and tunnel sites and their addresses must be given.

false, fictitious or fraudulent statements or representations as to any matter within its jurisdiction.

- This waiver form must be signed by all the claimants or their designated agent, in original form. If an agent is designated, a notarized designation of agent, signed by all of the claimants with proper address given, must be submitted with this waiver.
- This form must be filed no later than September 1st for the upcoming assessment year in the BLM State Office where the mining claims or sites are recorded, or the waiver cannot be granted by the BLM. (Example: To obtain a waiver for the assessment year 2012, which begins on September 1, 2011, you must qualify for and file for a waiver no later than September 1, 2011, in the proper BLM State Office.)
- 8. For all mining claims which require assessment work, you must record an affidavit of labor on or before the December 30th immediately following the filing of this waiver. For all other mining claims or sites waived, you must record a notice of intent to hold on or before the December 30th immediately following the filing of this waiver. 1944
- 9. Mill and tunnel sites may also be listed on this waiver and be waived from payment of the maintenance fee. A notice of intent to hold for these sites is required to be filed by the December 30th following the filing of this waiver.

This small miner waiver is filed for the assessment year beginning on September 1, 2014 and ending on September 1,

The undersigned and all related parties owned ten or fewer mining claims, mill, or tunnel sites located and maintained on Federal lands in the United States of America on September 1,

The undersigned have performed the assessment work required by law for each mining claim listed prior to filing this waiver and understand that by filing this form,

the undersigned must file an affidavit of assessment work with the Bureau of Land Management (BLM) by the December 30th following the filing of this waiver.

The undersigned understand that if the assessment work obligation has not yet come due under 30 U.S.C. 28 (for those claims in their first assessment year only), a notice of intent to hold reciting this condition must be recorded by the December 30th following the filing of this waiver.

The undersigned understand that mill and tunnel sites may also be listed on this waiver and be waived from payment of the maintenance fee, and that a notice of intent to hold for these sites is required to be filed with the BLM by the December 30th following the filing of this waiver.

The undersigned understand and acknowledge that pursuant to 43 U.S.C. 1212 and 18 U.S.C. 1001, the filing or recording of a false, fictitious, or fraudulent document with the BLM may result in a fire of up to \$250,000, a prison term not to exceed five years, or both.

The mining claims, mill or tunnel sites for which this waiver from payment of the maintenance fees is requested are:

INSTRUCTIONS

- 1. This certification is made under the provisions of 43 U.S.C. § 1744 and 30 U.S.C. §28-28k and the regulations thereunder (43 CFR Part 3830).
- 2. The claimant(s) must fill in the dates in paragraph 1 for the beginning and ending of the assessment year for which this waiver is sought.
- 3. The claimant(s) must fill in the date in paragraph 2 for the beginning of the assessment year for which this waiver is sought.
- 4. All claim and site names and BLM serial numbers must be listed for the mining claims, mill sites, and tunnel sites for which the waiver is sought.
- 5. All owners of the mining claims, mill sites, and tunnel sites and their addresses must be given.
- 6. This waiver form must be signed by all the claimants or their designated agent, in original form. If an agent is designated, a notarized designation of agent, signed by all of the claimants with proper address given, must be submitted with this waiver.
- 7. This form must be filed no later than September 1st for the upcoming assessment year in the BLM State Office where the mining claims or sites are recorded, or the waiver cannot be granted by the BLM. (Example: To obtain a waiver for the assessment year 2012, which begins on September 1, 2011, you must qualify for and file for a waiver no later than September 1, 2011, in the proper BLM State Office.)
- 8. For all mining claims which require assessment work, you must record an affidavit of labor on or before the December 30th immediately following the filing of this waiver. For all other mining claims or sites waived, you must record a notice of intent to hold on or before the December 30th immediately following the filing of this waiver.
- 9. Mill and tunnel sites may also be listed on this waiver and be waived from payment of the maintenance fee. A notice of intent to hold for these sites is required to be filed by the December 30th following the filing of this waiver.

FOR OFFICIAL USE ONLY

Mr. Wieglus,

On July 18, 2014, our office received your Maintenance Fee Waiver Certification. Unfortunately the form is expired and a current form is required to be filed. I have enclosed the current form. I have also enclosed a copy of the form you sent to us. Please complete it and send it to our office before September 1, 2014 so it may be processed.

- 2. The claimant(s) must fill in the dates in paragraph 1 for the beginning and ending of the assessment year for which this waiver is sought.
- 3. The claimant(s) must fill in the date in paragraph 2 for the beginning of the assessment year for which this waiver is sought.
- 4. All claim and site names and Bureau of Land Management (BLM) serial numbers must be listed for the mining claims, mill sites, and tunnel sites for which the waiver is sought.
- 5. All owners of the mining claims, mill sites, and tunnel sites and their addresses must be given.
- 6. This waiver form must be signed by all the claimants or their designated agent, in original form. If an agent is designated, a notarized designation of agent, signed by all of the claimants with proper address given, must be submitted with this waiver.
- 7. This form must be filed no later than September 1st for the upcoming assessment year in the BLM State Office where the mining claims or sites are recorded, or the waiver cannot be granted by the BLM. (Example: to obtain a waiver for the assessment year 2000, which begins at noon on September 1999, you must qualify for and file for a waiver no later than September 1, 1999, in the proper BLM State Office).
- 8. For all mining claims which require assessment work, you must record an affidavit of labor on or before the December 30th immediately following the filing of this waiver. For all other mining claims or sites waived, you must record a notice of intent to hold on or before the December 30th immediately following the filing of this waiver.
- Mill and tunnel sites may also be listed upon this waiver and be waived from payment of the maintenance fee. A notice of intent to hold for these sites is required to be filled by the December 30th following the filing of this waiver.

I (We) intend to hold the claims(s) and/or site(s) listed below for the calendar year 20___ file a Notice of Intent to Hold in the county where the claim (s) is located.

Reason for filing a Notice of Intent to Hold instead of an assessment work filing (check one):

Maintenance fee was paid to maintain claim(s) during this assessment year. Mill or tunnel sites.

Claim(s) was located during the current assessment year.

BLM has deferred assessment work (attach copy of decision granting deferment, or pending petition for deferment including date petition was filed.)

INSTRUCTIONS

- This certification is made under the provisions of § 1744 of Title 43 and § 28-28k of Title 30 of the United States Code; and the regulations thereunder (43 CFR Part 3830).
- The claimant(s) must fill in the dates in paragraph 1 for the beginning and ending of the assessment year for which this waiver is sought.
- The claimant(s) must fill in the date in paragraph 2 for the beginning of the assessment year for which this waiver is sought.
- All claim and site names and Bureau of Land Management (BLM) serial numbers must be listed for the mining claims, mill sites, and tunnel sites for which the waiver is sought.
- All owners of the mining claims, mill sites, and tunnel sites and their addresses must be given.
- 6. This waiver form must be signed by all the claimants or their designated agent, in original form. If an agent is designated, a notarized designation of agent, signed by all of the claimants with proper address given, must be submitted with this waiver.
- 7. This form must be filed no later than September 1st for the upcoming assessment year in the BLM State Office where the mining claims or sites are recorded, or the waiver cannot be granted by the BLM. (Example: to obtain a waiver for the assessment year 2000, which begins at noon on September 1, 1999, you must qualify for and file for a waiver no later than September 1, 1999, in the proper BLM State Office).
- 8. For all mining claims which require assessment work, you must record an affidavit of labor on or before the December 30th immediately following the filing of this waiver. For all other mining claims or sites waived, you must record a notice of intent to hold on or before the December 30th immediately following the filing of this waiver.
- Mill and tunnel sites may also be listed upon this waiver and be waived from
 payment of the maintenance fee. A notice of intent to hold for these sites is
 required to be filed by the December 30th following the filing of this waiver.

NOTICE/BURDEN HOURS STATEMENT

The Privacy Act of 1974, as amended, and the regulation in 43 CFR 2.48(d) provide that you be furnished the following information in connection with the information required by this certification of waiver from rental fees.

AUTHORITY: 30 U.S.C. 28-28k; 43 U.S.C. 1201, 1457, 1740, and 1744; and 43 CFR 3830.

PRINCIPLE PURPOSE: This information is to be used to verify that the owner(s) (claimants) of a mining claim has complied with 30 U.S.C. 28f and is entitled to perform assessment work in lieu of paying the maintenance fee for the mining claims listed on this form.

ROUTINE USE: (1) Adjudication of the claimant(s) certification of waiver from paying the maintenance fee otherwise required by 30 U.S.C. 28f. (2) Disclosure may be made to appropriate Federal agencies when location is made within the agency's geographic area of responsibility. (3) Information from the record ant/or the record will be transferred to the appropriate Federal, State, or local agency, or a member of the public in response to a specific request for pertinent information. (4) Information may also be provided to the Department of Justice or in a proceeding before a court or adjudicative body; or to Federal, State, local or foreign agencies when needed for enforcement of civil or criminal codes or applicable regulations concerning title rights upon the public land.

EFFECT OF NOT PROVIDING INFORMATION: Disclosure of this information is required by 30 U.S.C. 28f and 43 CFR Part 3830 for those qualified claimants wishing to take the small miner waiver allowed. Failure to supply the information required in this form to support the claimants certification of waiver from payment of the otherwise required maintenance fees will result in the waiver being disallowed and the mining claims subject to forfeiture by BLM under 30 U.S.C. 28i.

The Paperwork Reduction Act of 1995 requires us to inform you that:

This information is being collected to allow the BLM to determine if you qualify for a waiver from the payment of \$100 per mining claim or site maintenance fee established in 30 USC. 28f and the implementing regulations at 43 CFR 3830. A response to this request is required in accordance with the statute to obtain your benefit.

BLM would like you to know that you do not have to respond to this, or any other, Federal agency-sponsored information collection unless it displays a currently valid OMB control number.

Public reporting burden for this form is estimated to average 20 minutes (.33 hours) per response, including time to review instructions, gathering and maintaining data, and completing and reviewing the form. Direct comments regarding this burden estimate, or any other aspect of this form, to the U.S. Department of the Interior, Bureau of Land Management, (1004-0114) Bureau Information Collection Clearance Officer (WO-630), Mail Stop 401 LS, 1849 C St, N.W., Washington, D.C. 20240.

Request for Disposition of Multiple Payment

According to our records, the 2009 maintenance fee payment for the mining claim(s) listed above was/were paid by the two parties listed above. Bureau of Land Management (BLM) cannot retain multiple maintenance fee payments for a mining claim.

We require written notification regarding the disposition of your payment. We can keep your payment for the 2009 assessment year, refund your payment, or apply it to the next assessment year (2010 maintenance fee that is due on or before September 1, 2009).

Please respond within 30 days of your receipt of this notice, addressing your own payment only. If we do not receive a response from either party within those 30 days, the payment received first will be kept and the other refunded. If only one request is received, that request will be honored. If we receive conflicting requests from both parties, the following priority will be applied: If only one party is listed in BLM records as a claim owner, their request will be honored. If both or neither parties are listed as claim owners, priority will be given to the payment received first. The case file will be noted that both payments were timely received.

If additional information is required, please contact Tony Smith at 602-417-9355. Please include your AMC serial numbers on all correspondence.

Sincerely,

/S/ Alvin Burch

- This certification is made under the provisions of § 1744 of Title 43 and § 28-28k of Title 30 of the United States Code; and the regulations thereunder (43 CFR Part 3830).
- The claimant(s) must fill in the dates in paragraph 1 for the beginning and ending of the assessment year for which this waiver is sought.
- The claimant(s) must fill in the date in paragraph 2 for the beginning of the assessment year for which this waiver is sought.
- All claim and site names and Bureau of Land Management (BLM) serial numbers must be listed for the mining claims, mill sites, and tunnel sites for which the waiver is sought.
- All owners of the mining claims, mill sites, and tunnel sites and their addresses must be given.
- 6. This waiver form must be signed by all the claimants or their designated agent, in original form. If an agent is designated, a notarized designation of agent, signed by all of the claimants with proper address given, must be submitted with this waiver.
- 7. This form must be filed no later than September 1st for the upcoming assessment year in the BLM State Office where the mining claims or sites are recorded, or the waiver cannot be granted by the BLM. (Example: to obtain a waiver for the assessment year 2000, which begins at noon on September 1, 1999, you must qualify for and file for a waiver no later than September 1, 1999, in the proper BLM State Office).
- 8. For all mining claims which require assessment work, you must record an affidavit of labor on or before the December 30th immediately following the filing of this waiver. For all other mining claims or sites waived, you must record a notice of intent to hold on or before the December 30th immediately following the filing of this waiver.
- Mill and tunnel sites may also be listed upon this waiver and be waived from
 payment of the maintenance fee. A notice of intent to hold for these sites is
 required to be filed by the December 30th following the filing of this waiver.

NOTICE/BURDEN HOURS STATEMENT

The Privacy Act of 1974, as amended, and the regulation in 43 CFR 2.48(d) provide that you be furnished the following information in connection with the information required by this certification of waiver from rental fees.

AUTHORITY: 30 U.S.C. 28-28k; 43 U.S.C. 1201, 1457, 1740, and 1744; and 43 CFR 3830.

PRINCIPLE PURPOSE: This information is to be used to verify that the owner(s) (claimants) of a mining claim has complied with 30 U.S.C. 28f and is entitled to perform assessment work in lieu of paying the maintenance fee for the mining claims listed on this form.

ROUTINE USE: (1)Adjudication of the claimant(s) certification of waiver from paying the maintenance fee otherwise required by 30 U.S.C. 28f. (2) Disclosure may be made to appropriate Federal agencies when location is made within the agency's geographic area of responsibility. (3) Information from the record and/or the record will be transferred to the appropriate Federal, State, or local agency, or a member of the public in response to a specific request for pertinent information. (4) Information may also be provided to the Department of Justice or in a proceeding before a court or adjudicative body; or to Federal, State, local or foreign agencies when needed for enforcement of civil or criminal codes or applicable regulations concerning title rights upon the public land.

EFFECT OF NOT PROVIDING INFORMATION: Disclosure of this information is required by 30 U.S.C. 28f and 43 CFR Part 3830 for those qualified claimants wishing to take the small miner waiver allowed. Failure to supply the information required in this form to support the claimants certification of waiver from payment of the otherwise required maintenance fees will result in the waiver being disallowed and the mining claims subject to forfeiture by BLM under 30 U.S.C. 28i.

The Paperwork Reduction Act of 1995 requires us to inform you that:

This information is being collected to allow the BLM to determine if you qualify for a waiver from the payment of \$100 per mining claim or site maintenance fee established in 30 U.S.C. 28f and the implementing regulations at 43 CFR 3830. A response to this request is required in accordance with the statute to obtain your benefit

BLM would like you to know that you do not have to respond to this, or any other, Federal agency-sponsored information collection unless it displays a currently valid OMB control number.

Public reporting burden for this form is estimated to average 8 minutes (0.133 hours) per response, including time to review instructions, gathering and maintaining data, and completing and reviewing the form. Direct comments regarding this burden estimate, or any other aspect of this form, to the U.S. Department of the Interior, Bureau of Land Management, (1004-0114) Bureau Information Collection Clearance Officer (WO-630), Mail Stop 401 LS, 1849 C St, N.W., Washington, D.C. 20240.

INSTRUCTIONS

- This certification is made under the provisions of § 1744 of Title 43 and § 28-28k of Title 30 of the United States Code; and the regulations thereunder (43 CFR Part 3830).
- The claimant(s) must fill in the dates in paragraph 1 for the beginning and ending of the assessment year for which this waiver is sought.
- The claimant(s) must fill in the date in paragraph 2 for the beginning of the assessment year for which this waiver is sought.
- All claim and site names and Bureau of Land Management (BLM) serial numbers must be listed for the mining claims, mill sites, and tunnel sites for which the waiver is sought.
- All owners of the mining claims, mill sites, and tunnel sites and their addresses must be given.
- 6. This waiver form must be signed by all the claimants or their designated agent, in original form. If an agent is designated, a notarized designation of agent, signed by all of the claimants with proper address given, must be submitted with this waiver.
- 7. This form must be filed no later than September 1st for the upcoming assessment year in the BLM State Office where the mining claims or sites are recorded, or the waiver cannot be granted by the BLM. (Example: to obtain a waiver for the assessment year 2000, which begins at noon on September 1, 1999, you must qualify for and file for a waiver no later than September 1, 1999, in the proper BLM State Office).
- 8. For all mining claims which require assessment work, you must record an affidavit of labor on or before the December 30th immediately following the filing of this waiver. For all other mining claims or sites waived, you must record a notice of intent to hold on or before the December 30th immediately following the filing of this waiver.
- Mill and tunnel sites may also be listed upon this waiver and be waived from
 payment of the maintenance fee. A notice of intent to hold for these sites is
 required to be filed by the December 30th following the filing of this waiver.

NOTICE/BURDEN HOURS STATEMENT

The Privacy Act of 1974, as amended, and the regulation in 43 CFR 2.48(d) provide that you be furnished the following information in connection with the information required by this certification of waiver from rental fees.

AUTHORITY: 30 U.S.C. 28-28k; 43 U.S.C. 1201, 1457, 1740, and 1744; and 43 CFR 3830.

PRINCIPLE PURPOSE: This information is to be used to verify that the owner(s) (claimants) of a mining claim has complied with 30 U.S.C. 28f and is entitled to perform assessment work in lieu of paying the maintenance fee for the mining claims listed on this form.

ROUTINE USE: (1) Adjudication of the claimant(s) certification of waiver from paying the maintenance fee otherwise required by 30 U.S.C. 28f. (2) Disclosure may be made to appropriate Federal agencies when location is made within the agency's geographic area of responsibility. (3) Information from the record and/or the record will be transferred to the appropriate Federal, State, or local agency, or a member of the public in response to a specific request for pertinent information. (4) Information may also be provided to the Department of Justice or in a proceeding before a court or adjudicative body; or to Federal, State, local or foreign agencies when needed for enforcement of civil or criminal codes or applicable regulations concerning title rights upon the public land.

EFFECT OF NOT PROVIDING INFORMATION: Disclosure of this information is required by 30 U.S.C. 28f and 43 CFR Part 3830 for those qualified claimants wishing to take the small miner waiver allowed. Failure to supply the information required in this form to support the claimants certification of waiver from payment of the otherwise required maintenance fees will result in the waiver being disallowed and the mining claims subject to forfeiture by BLM under 30 U.S.C. 28i.

The Paperwork Reduction Act of 1995 requires us to inform you that:

This information is being collected to allow the BLM to determine if you qualify for a waiver from the payment of \$100 per mining claim or site maintenance fee established in 30 U.S.C. 28f and the implementing regulations at 43 CFR 3830. A response to this request is required in accordance with the statute to obtain your benefit.

BLM would like you to know that you do not have to respond to this, or any other, Federal agency-sponsored information collection unless it displays a currently valid OMB control number.

Public reporting burden for this form is estimated to average 8 minutes (0.133 hours) per response, including time to review instructions, gathering and maintaining data, and completing and reviewing the form. Direct comments regarding this burden estimate, or any other aspect of this form, to the U.S. Department of the Interior, Bureau of Land Management, (1004-0114) Bureau Information Collection Clearance Officer (WO-630), Mail Stop 401 LS, 1849 C St, N.W., Washington, D.C. 20240.

INSTRUCTIONS

- This certification is made under the provisions of § 1744 of Title 43 and § 28-28k of Title 30 of the United States Code; and the regulations thereunder (43 CFR Part 3830)
- 2. The claimant(s) must fill in the dates in paragraph 1 for the beginning and ending of the assessment year for which this waiver is sought.
- The claimant(s) must fill in the date in paragraph 2 for the beginning of the assessment year for which this waiver is sought.
- All claim and site names and Bureau of Land Management (BLM) serial numbers must be listed for the mining claims, mill sites, and tunnel sites for which the waiver is sought.
- All owners of the mining claims, mill sites, and tunnel sites and their addresses must be given.
- This waiver form must be signed by all the claimants or their designated agent, in original form. If an agent is designated, a notarized designation of agent, signed by all of the claimants with proper address given, must be submitted with this waiver.
- 7. This form must be filed no later than September 1st for the upcoming assessment year in the BLM State Office where the mining claims or sites are recorded, or the waiver cannot be granted by the BLM. (Example: to obtain a waiver for the assessment year 2000, which begins at noon on September 1, 1999, you must qualify for and file for a waiver no later than September 1, 1999, in the proper BLM State Office).
- 8. For all mining claims which require assessment work, you must record an affidavit of labor on or before the December 30th immediately following the filing of this waiver. For all other mining claims or sites waived, you must record a notice of intent to hold on or before the December 30th immediately following the filing of this waiver.
- Mill and tunnel sites may also be listed upon this waiver and be waived from payment of the maintenance fee. A notice of intent to hold for these sites is required to be filed by the December 30th following the filing of this waiver.

NOTICE/BURDEN HOURS STATEMENT

The Privacy Act of 1974, as amended, and the regulation in 43 CFR 2.48(d) provide that you be furnished the following information in connection with the information required by this certification of waiver from rental fees.

AUTHORITY: 30 U.S.C. 28-28k; 43 U.S.C. 1201, 1457, 1740, and 1744; and 43 CFR 3830.

PRINCIPLE PURPOSE: This information is to be used to verify that the owner(s) (claimants) of a mining claim has complied with 30 U.S.C. 28f and is entitled to perform assessment work in lieu of paying the maintenance fee for the mining claims listed on this form.

ROUTINE USE: (1) Adjudication of the claimant(s) certification of waiver from paying the maintenance fee otherwise required by 30 U.S.C. 28f. (2) Disclosure may be made to appropriate Federal agencies when location is made within the agency's geographic area of responsibility. (3) Information from the record and/or the record will be transferred to the appropriate Federal, State, or local agency, or a member of the public in response to a specific request for pertinent information. (4) Information may also be provided to the Department of Justice or in a proceeding before a court or adjudicative body; or to Federal, State, local or foreign agencies when needed for enforcement of civil or criminal codes or applicable regulations concerning title rights upon the public land.

EFFECT OF NOT PROVIDING INFORMATION: Disclosure of this information is required by 30 U.S.C. 28f and 43 CFR Part 3830 for those qualified claimants wishing to take the small miner waiver allowed. Failure to supply the information required in this form to support the claimants certification of waiver from payment of the otherwise required maintenance fees will result in the waiver being disallowed and the mining claims subject to forfeiture by BLM under 30 U.S.C. 28i.

The Paperwork Reduction Act of 1995 requires us to inform you that:

This information is being collected to allow the BLM to determine if you qualify for a waiver from the payment of \$100 per mining claim or site maintenance fee established in 30 U.S.C. 28f and the implementing regulations at 43 CFR 3830. A response to this request is required in accordance with the statute to obtain your benefit.

BLM would like you to know that you do not have to respond to this, or any other, Federal agency-sponsored information collection unless it displays a currently valid OMB control number.

Public reporting burden for this form is estimated to average 20 minutes (.33 hours) per response, including time to review instructions, gathering and maintaining data, and completing and reviewing the form. Direct comments regarding this burden estimate, or any other aspect of this form, to the U.S. Department of the Interior, Bureau of Land Management, (1004-0114) Bureau Information Collection Clearance Officer (WO-630), Mail Stop 401 LS, 1849 C St, N.W., Washington, D.C. 20240.

INSTRUCTIONS

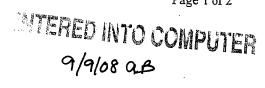

- 1. This certification is made under the provisions of §1744 of Title 43 and § 28-28k of Title 30 of the United States Code; and the regulations thereunder (43 CFR Part 3830).
- 2. The claimant(s) must fill in the dates in paragraph 1 for the beginning and ending of the assessment year for which this waiver is sought.
- 3. The claimant(s) must fill in the date in paragraph 2 for the beginning of the assessment year for which this waiver is sought.
- 4. All claim and site names and Bureau of Land Management (BLM) serial numbers must be listed for the mining claims, mill sites, and tunnel sites for which the waiver is sought.
- 5. All owners of the mining claims, mill sites, and tunnel sites and their addresses must be given.
- 6. This waiver form must be signed by all the claimants or their designated agent, in original form. If an agent is designated, a notarized designation of agent, signed by all of the claimants with proper address given, must be submitted with this waiver.
- 7. This form must be filed no later than September 1st for the upcoming assessment year in the BLM State Office where the mining claims or sites are recorded, or the waiver cannot be granted by the BLM. (Example: to obtain a waiver for the assessment year 2000, which begins at noon on September 1, 1999, you must qualify for and file for a waiver no later than September 1, 1999, in the proper BLM State Office).
- 8. For all mining claims which require assessment work, you must record an affidavit of labor on or before the December 30th immediately following the filing of this waiver. For all other mining claims or sites waived, you must record a notice of intent to hold on or before the December 30th immediately following the filing of this waiver.
- 9. Mill and tunnel sites may also be listed upon this waiver and be waived from payment of the maintenance fee. A notice of intent to hold for these sites is required to be filed by the December 30th following the filing of this waiver.

Additional Information Required

On August 13, and 27, 2007, we received Maintenance Fee Waiver Certifications (small miner wavier) and Affidavits of Labor for the 107 mining claims, including the 4 small miner waivers for the 20 claims denied in our Decision dated November 5, 2007. "Miners Creek, Jack Tucker" paid

the fees for the Affidavits of Labor for all 107 claims. The same person appears to have completed all of the documents. Lisa Tucker, who we understand is the wife of Jack Tucker, notarized all of the Affidavit of Labor. 34 of the 50 listed owners of these claims gave P.O. Box 265, Wickenburg, Arizona 85358, as their address, including Miners Creek and Jack Tucker, who is the owner of Miners Creek. As shown on the attachment, the Miners Creek website states that Miners Creek has over 60 mining claims in 6 states, 50 of which are in Arizona. These facts require us to request additional information in order to verify the validity of the small miner waivers submitted for the 87 claims listed above.

In accordance with 43 CFR 3835.1(b), to qualify for a small miner waiver, you and all related parties must hold or control no more than a total of 10 mining claims or sites nationwide. As defined at 43 CFR 3830.5, "related party means: a) the spouse and dependent children of the claimant as defined in section 152 of the Internal Revenue Code of 1986 [26 U.S.C. section 152]; or, b) A person who controls, is controlled by, or is under common control with the claimant." "Control means actual control, legal control, or the power to exercise control, through or by common directors, officers, stockholders, a voting trust, or a holding company or investment company, or any other means."

In order to verify who is in control of these mining claims we request the following information:

1. Confirmation of a current valid address for each of the following 34 listed owners who all gave P.O. Box 265, Wickenburg, Arizona 85358 as their address:

Adam Brown	Frank Crepezzi	Joe Rogan	Lisa Brown	Penny Brown
Andy La Russa	George Hansen	John Wall	Mark Davis	Richard Davis
Anthony Hansen	J. B. Tucker	Jon Giovanni	Michael Kent	Robert Morris
April Eidson	Jack Tucker	Keith Morris	Mike Tucker	Samantha Hayes
Carol Davis	Jane Lee	Kellie McAllister	Miners Creek	Steven Morris
David Lee	Jason Brown	Leslie Wall	Morris Stevens	Thomas Lee
Derek Carter	Jenny Lee	Lisa Antell	Nicole Morris	

2. A notarized statement from the 47 owners listed below stating that they are in sole control of their claims:

Adam Brown	David Zink	Kellie McAllister	Penny Brown
Andy La Russa	Derek Carter	Leslie Wall	Penny Crepezzi
Anthony Crepezzi	Frank Crepezzi	Lisa Antell	Richard Davis
Anthony Hansen	George Hansen	Lisa Brown	Robert McAllister
April Eidson	J. B. Tucker	Lucille McAllister	Robert Morris
Brandy Tucker	Jane Lee	Mark Davis	Russell Parken
Carol Davis	Jason Brown	Max Strickman	Samantha Brown
Dale McAllister	Jenny Lee	Michael Kent	Samantha Hayes
Daniel Rose	Joe Rogan	Mike Tucker	Steve McAllister
/David Jones	John Wall	Morris Stevens	Steven Morris
David Lee	Jon Giovanni	Nicole Morris	Thomas Lee
David Tucker	Keith Morris	Paul Bryan	
		-	

- 3. A notarized statement from each of the following five groups of people, describing the relationship among the people in each group. All related parties, as defined above, can only own 10 claims total, nationwide.
 - A) David, Brandy, Jack, J. B., and Mike Tucker
 - B) Penny, Lisa, Adam, Samantha and Jason Brown
 - C) Lucille, Robert, Dale, Steve, and Kellie McAllister and Paul Bryan
 - D) David, Jane, Thomas, and Jenny Lee
 - E) Penny, Anthony and Frank Crepezzi
- 4. Written clarification regarding whether J. B. Tucker is Jack Tucker.

12A A.R.S. 41-328B requires a notary public to be an impartial witness and also specifically prohibits a notary public from notarizing the signature of any person who is related by marriage. In accordance with this Arizona statute, please do not allow Lisa Tucker to notarize the notarized statements that we are requesting.

Please provide the documents requested within 60 days of receipt of this letter. If we do not receive the requested information the small miner waivers will be denied and the claims will be forfeited.

If you have any questions about this Notice, please contact Amy Bunda at 602-417-9334. Please include your AMC serial number(s) on all correspondence.

INSTRUCTIONS

(City)

 This certification is made under the provisions of § 1744 of Title 43 and § 28-28k of Title 30 of the United States Code; and the regulations thereunder (43 CFR Part 3830).

(Street or P.O. Box)

- The claimant(s) must fill in the dates in paragraph 1 for the beginning and ending of the assessment year for which this waiver is sought.
- The claimant(s) must fill in the date in paragraph 2 for the beginning of the assessment year for which this waiver is sought.
- All claim and site names and Bureau of Land Management (BLM) serial numbers must be listed for the mining claims, mill sites, and tunnel sites for which the waiver is sought.
- 5. All owners of the mining claims, mill sites, and tunnel sites and their addresses must be given.
- 6. This waiver form must be signed by all the claimants or their designated agent, in original form. If an agent is designated, a notarized designation of agent, signed by all of the claimants with proper address given, must be submitted with this waiver.
- 7. This form must be filed no later than September 1st for the upcoming assessment year in the BLM State Office where the mining claims or sites are recorded, or the waiver cannot be granted by the BLM. (Example: to obtain a waiver for the assessment year 2000, which begins at noon on September 1, 1999, you must qualify for and file for a waiver no later than September 1, 1999, in the proper BLM State Office).

(State)

- 8. For all mining claims which require assessment work, you must record an affidavit of labor on or before the December 30th immediately following the filing of this waiver. For all other mining claims or sites waived, you must record a notice of intent to hold on or before the December 30th immediately following the filing of this waiver.
- Mill and tunnel sites may also be listed upon this waiver and be waived from payment of the maintenance fee. A notice of intent to hold for these sites is required to be filed by the December 30th following the filing of this waiver.

NOTICE/BURDEN HOURS STATEMENT

The Privacy Act of 1974, as amended, and the regulation in 43 CFR 2.48(d) provide that you be furnished the following information in connection with the information required by this certification of waiver from rental fees.

AUTHORITY: 30 U.S.C. 28-28k; 43 U.S.C. 1201, 1457, 1740, and 1744; and 43 CFR 3830.

PRINCIPLE PURPOSE: This information is to be used to verify that the owner(s) (claimants) of a mining claim has complied with 30 U.S.C. 28f and is entitled to perform assessment work in lieu of paying the maintenance fee for the mining claims listed on this form.

ROUTINE USE: (1)Adjudication of the claimant(s) certification of waiver from paying the maintenance fee otherwise required by 30 U.S.C. 28f. (2) Disclosure may be made to appropriate Federal agencies when location is made within the agency's geographic area of responsibility. (3) Information from the record and/or the record will be transferred to the appropriate Federal, State, or local agency, or a member of the public in response to a specific request for pertinent information. (4) Information may also be provided to the Department of Justice or in a proceeding before a court or adjudicative body; or to Federal, State, local or foreign agencies when needed for enforcement of civil or criminal codes or applicable regulations concerning title rights upon the public land.

EFFECT OF NOT PROVIDING INFORMATION: Disclosure of this information is required by 30 U.S.C. 28f and 43 CFR Part 3830 for those qualified claimants wishing to take the small miner waiver allowed. Failure to supply the information required in this form to support the claimants certification of waiver from payment of the otherwise required maintenance fees will result in the waiver being disallowed and the mining claims subject to forfeiture by BLM under 30 U.S.C. 28i.

The Paperwork Reduction Act of 1995 requires us to inform you that:

This information is being collected to allow the BLM to determine if you qualify for a waiver from the payment of \$100 per mining claim or site maintenance fee established in 30 U.S.C. 28f and the implementing regulations at 43 CFR 3830. A response to this request is required in accordance with the statute to obtain your benefit.

BLM would like you to know that you do not have to respond to this, or any other, Federal agency-sponsored information collection unless it displays a currently valid OMB control number.

Public reporting burden for this form is estimated to average 8 minutes (0.133 hours) per response, including time to review instructions, gathering and maintaining data, and completing and reviewing the form. Direct comments regarding this burden estimate, or any other aspect of this form, to the U.S. Department of the Interior, Bureau of Land Management, (1004-0114) Bureau Information Collection Clearance Officer (WO-630), Mail Stop 401 LS, 1849 C St, N.W., Washington, D.C. 20240.

- Mill and tunnel sites may also be listed upon this waiver and be waived from payment of the maintenance fee. A notice of intent to hold for these sites is required to be filed by the December 30th following the filing of this waiver.

NOTICE/BURDEN HOURS STATEMENT

The Privacy Act of 1974, as amended, and the regulation in 43 CFR 2.48(d) provide that you be furnished the following information in connection with the information required by this certification of waiver from rental fees.

AUTHORITY: 30 U.S.C. 28-28k; 43 U.S.C. 1201, 1457, 1740, and 1744; and 43 CFR 3830.

PRINCIPLE PURPOSE: This information is to be used to verify that the owner(s) (claimants) of a mining claim has complied with 30 U.S.C. 28f and is entitled to perform assessment work in lieu of paying the maintenance fee for the mining claims listed on this form.

ROUTINE USE: (1)Adjudication of the claimant(s) certification of waiver from paying the maintenance fee otherwise required by 30 U.S.C. 28f. (2) Disclosure may be made to appropriate Federal agencies when location is made within the agency's geographic area of responsibility. (3) Information from the record and/or the record will be transferred to the appropriate Federal, State, or local agency, or a member of the public in response to a specific request for pertinent information. (4) Information may also be provided to the Department of Justice or in a proceeding before a court or adjudicative body; or to Federal, State, local or foreign agencies when needed for enforcement of civil or criminal codes or applicable regulations concerning title rights upon the public land.

EFFECT OF NOT PROVIDING INFORMATION: Disclosure of this information is required by 30 U.S.C. 28f and 43 CFR Part 3830 for those qualified claimants wishing to take the small miner waiver allowed. Failure to supply the information required in this form to support the claimants certification of waiver from payment of the otherwise required maintenance fees will result in the waiver being disallowed and the mining claims subject to forfeiture by BLM under 30 U.S.C. 28i.

The Paperwork Reduction Act of 1995 requires us to inform you that:

This information is being collected to allow the BLM to determine if you qualify for a waiver from the payment of \$100 per mining claim or site maintenance fee established in 30 U.S.C. 28f and the implementing regulations at 43 CFR 3830. A response to this request is required in accordance with the statute to obtain your benefit.

BLM would like you to know that you do not have to respond to this, or any other, Federal agency-sponsored information collection unless it displays a currently valid OMB control number.

Public reporting burden for this form is estimated to average 8 minutes (0.133 hours) per response, including time to review instructions, gathering and maintaining data, and completing and reviewing the form. Direct comments regarding this burden estimate, or any other aspect of this form, to the U.S. Department of the Interior, Bureau of Land Management, (1004-0114) Bureau Information Collection Clearance Officer (WO-630), Mail Stop 401 LS, 1849 C St, N.W., Washington, D.C. 20240.

NOTICE/BURDEN HOURS STATEMENT

The Privacy Act of 1974, as amended, and the regulation in 43 CFR 2.48(d) provide that you be furnished the following information in connection with the information required by this certification of waiver from rental fees.

AUTHORITY: 30 U.S.C. 28-28k; 43 U.S.C. 1201, 1457, 1740, and 1744; and 43 CFR 3830.

PRINCIPLE PURPOSE: This information is to be used to verify that the owner(s) (claimants) of a mining claim has complied with 30 U.S.C. 28f and is entitled to perform assessment work in lieu of paying the maintenance fee for the mining claims listed on this form.

ROUTINE USE: (1)Adjudication of the claimant(s) certification of waiver from paying the maintenance fee otherwise required by 30 U.S.C. 28f. (2) Disclosure may be made to appropriate Federal agencies when location is made within the agency's geographic area of responsibility. (3) Information from the record and/or the record will be transferred to the appropriate Federal, State, or local agency, or a member of the public in response to a specific request for pertinent information. (4) Information may also be provided to the Department of Justice or in a proceeding before a court or adjudicative body; or to Federal, State, local or foreign agencies when needed for enforcement of civil or criminal codes or applicable regulations concerning title rights upon the public land.

EFFECT OF NOT PROVIDING INFORMATION: Disclosure of this information is required by 30 U.S.C. 28f and 43 CFR Part 3830 for those qualified claimants wishing to take the small miner waiver allowed. Failure to supply the information required in this form to support the claimants certification of waiver from payment of the otherwise required maintenance fees will result in the waiver being disallowed and the mining claims subject to forfeiture by BLM under 30 U.S.C. 28i.

The Paperwork Reduction Act of 1995 requires us to inform you that:

This information is being collected to allow the BLM to determine if you qualify for a waiver from the payment of \$100 per mining claim or site maintenance fee established in 30 U.S.C. 28f and the implementing regulations at 43 CFR 3830. A response to this request is required in accordance with the statute to obtain your benefit.

BLM would like you to know that you do not have to respond to this, or any other, Federal agency-sponsored information collection unless it displays a currently valid OMB control number.

Public reporting burden for this form is estimated to average 8 minutes (0.133 hours) per response, including time to review instructions, gathering and maintaining data, and completing and reviewing the form. Direct comments regarding this burden estimate, or any other aspect of this form, to the U.S. Department of the Interior, Bureau of Land Management, (1004-0114) Bureau Information Collection Clearance Officer (WO-630), Mail Stop 401 LS, 1849 C St, N.W., Washington, D.C. 20240.

Memo to File(s): 7/29/14

From: Jeff Garrett-Certified Review Mineral Examiner #40

Subject: Compliance with 43 CFR 3833.33

RE: AMC369706; AMC369954; AMC370046; AMC370783

On 03/08/06 AMC369706 and AMC369954 were transferred from the original Association Placer locators to William Wielgus. On 04/07/06 AMC370046 was transferred from the original Association Placer locators to William Wielgus. On 03/22/06 AMC370783 was transferred from the original Association Placer locators to William Wielgus. To show compliance with 43 CFR 3833.33, i.e. ..."must have discovered a valuable mineral deposit before the transfer..." the current claimant provided information intended to show that a valuable mineral deposit existed on the claim prior to transfer of the association placer from the original locators to the current claimant.

The information provided was an apparent affidavit signed by Les Bender, dated 2/8/05. The subject claims were located in November and December of 2005. Mr. Bender's document provided information indicating that five 10'x10' samples (samples were shown as having been taken from each corner and the center of each association claim) had been taken from AMC369706, AMC369954, and AMC370046 respectively and provided sampling data indicating ounces of gold per sample taken.

There was no information submitted for AMC370783.

No information was provided as to how the samples were taken. No data concerning sample volumes was provided. No information concerning the nature or type of material sampled was provided. The amount of gold recovered per volume or tonnage of material was not provided. No reserve estimates were provided. No deposit boundaries were defined. No operational or development costs were provided.

The information submitted was insufficient to show that a valuable mineral deposit was discovered prior to transfer.

Proof of Discovery The purpose of this report is to prove "discovery of a valuable mineral dejosit on the four peros pecture clauses that PLM to be known as SN built, ENSW 19, GNEW 32, and GNEW 27 for the purpose of this report. A complete discription of the claims can be found on the notice of intent to bfiled storthy by the prospective owner. Proving up " a mening claim can mean different things to different feefle. However all work must be done according to the equirements of the DLM, 43CFF 3333 33 and the 1872 Mming flavs. Whether mining with a metal detector or rising a trommed and Obywaster the indresult promitted is the same for all clarms, The full purpose is to prove that minerals have been found within The boundaries of the mining claim and that the judence is such that a person of ordinary prudence would be justified in the further expenditures of latin and means with a resonable prospect of Success in developing a mine. This means that the mines diposit must be marketable, of such value that it can be mened, removed, and sold at a profit, The best way to grave the presence of a mineral deposit is adequate sampling. In this case it so to come from five one-half numes any large rocks or 5 - one quarter ton semples, four of which our located 10 feet from each corner and one quarter ton sample from the chater of the claim (same for all claims) a typical map of the four claims follows. The pamysling amounts and values would follow that and a comments pection will review the results and indicate whether such claim is proven up and a condidate to be bought. The amounts of gold, along with anything else of value (silver, of per, to) will be recorded. The where freed of gold for the wish mones anything less than , the toots of spot will be subtacted from the result.
