Maintenance Fee Waiver Held for Rejection

This office received the Maintenance Fee Waiver Certification (waiver) for the above listed mining claim(s). The waiver is not properly completed and does not meet the annual filing requirements.

In accordance with 43 Code of Federal Regulations (CFR) 3835.10, the name, address, and original signatures of all owners of the mining claim must be included on the waiver form. Please correct the discrepancy as noted below:

The document received expired on October 31, 2016. Please submit the current Form 3830-2 (January 2017), which expires on January 31, 2020.

In order to correct the defect in the waiver, per 43 CFR 3835.93, you must provide this office with the requested information within 60 days of your receipt of this notice. If you are unable to provide this information, you have the option of paying the annual maintenance fee of \$155 per claim (\$155 per 20 acres for placer claims larger than 20 acres). If we do not receive the requested corrections or the maintenance fees within the 60 day time frame, the claim(s) will be declared forfeited and closed.

If additional information is required, please contact Brent Squires at 602-417-9397. Please include your AMC serial number(s) on all correspondence.

Sincerely,

Lucas Lucero

Mining Claim Location Notice(s) - Amendment(s) Required

Pursuant to Title 43 Code of Federal Regulations (CFR) 3832.1, the Bureau of Land Management (BLM), Arizona State Office, received the information you filed on February 11, 2016, to amend the mining claims listed above. In accordance with 43 CFR 3832.12, the information received is incomplete and cannot be accepted as filed to amend to your mining claims.

This office did receive amended maps for your claims along with the \$10 processing fee per claim required for 4 amendments. However, you must file an amended location notice for each claim also. The amended location notice must reflect the changes to the claim dimensions, acreage, and legal description. In addition, you must depict the amended mining claim on the location notice map. Your amended map must depict where the claim lies within the section with the section number written clearly along with the township and range. For your convenience, we have enclosed blank location notices for placer mining claims.

An amendment must be filed for each claim listed above to correct the defects identified. No processing fees are required since those fees were received along with the amended maps on February 11, 2016. The amended location notices must be received by BLM within 30 days of your receipt of this notice. If the amended location notices are not received within the 30 day timeframe the mining claims will be declared null and void.

If additional information is required, please contact Rod Ebert at 602-417-9397. Please include your AMC serial number(s) on all correspondence.

<u>Association Placer Mining Claims</u> <u>Documentation or Amendments Required</u>

The mining claims listed above are association placer mining claims that are over 20 acres in size. The claims were originally located with the required number of locators to meet the 20-acre per locator requirement. However, the claims are now held by a smaller group of claimants than originally located them and are therefore not in compliance with the legal requirements.

By law, each individual claimant is allowed to hold a maximum of 20 acres per claim. A corporation is considered to be a single entity that is allowed to hold a maximum of 20 acres per claim. In accordance with 43 CFR 3833.33 you may transfer, sell, or otherwise convey an association placer mining claim at any time to an equal or greater number of mining claimants. If you want to transfer an association placer claim to an individual or an association that is smaller in number than the association that located the claim you (a) must have discovered a valuable mineral deposit before the transfer; or (b) upon notice from the Bureau of Land Management (BLM), you must reduce the acreage of the claim, if necessary, so that you meet the 20-acre per locator limit.

On June 20, 2014, BLM sent you a notice requesting that you show compliance with 43 CFR 3833.33 by providing either documentation of a discovery of a valuable mineral deposit for each

of the four claims as listed prior to the claims being transferred from the original locators to yourself, or reducing the claim acreage to 20 acres per claim as allowed by law. On July 18, 2014, you provided this office with a document titled "Proof of Discovery" signed by Les Bender and dated February 8, 2005, purportedly written by Les Bender, summarizing the results of the sampling and test results on the listed placer claims.

The BLM determined that the information was insufficient to show that a valuable mineral deposit was discovered prior to the transfer of the claims to you.

Pursuant to 1861 IBLA 227 William Wielgus (09-30-2015), BLM is hereby giving you an opportunity to provide more information to prove discovery prior to the date whereby you obtained the following mining claims:

Claim Name	BLM Claim Number	Location
Open Bucket	AMC369712	T6N R6W, Section 32, NW ¹ / ₄
Rock On	AMC369954	T6N R5W, Section 19, SW ¹ / ₄
Ranger Run	AMC370046	T6N R6W, Section 27, SW ¹ / ₄
Golden Record	AMC370783	T5N R10W, Section 26, SW ¹ / ₄

The "Proof of Discovery" document indicates that five (5) 400 pound samples were taken from each claim at intervals of 1,750 feet to 2,620 feet. There is no indication how these samples were taken or processed or what these samples represent as pertaining to the bulk of material found on the claims. Were the samples taken from the surface, taken from a trench, from a pit, etc.? How far above bedrock were the samples taken? Was the material processed using a dry washer, a trammel, metal detected, panned, etc.? Was the material sampled homogeneous or stratified? Were there boulders present and, if so, what percentage of the material were boulders? What care was taken to ensure accurate samples were taken? How was the weight of each sample determined?

The "Proof of Discovery" document states that a reserve estimate can be done by taking the total acreage in a claim and multiplying it times the value of the related sample. Please provide a reserve estimate for each claim and an explanation how the estimate was derived.

Sample values have little economic meaning unless they are viewed in relation to the cost of recovering the gold. The "Proof of Discovery" document states that "all the land will be worked in the same way as the samples were taken." Please provide a breakdown of the cost to mine the reserves on each claim.

Without this information we cannot determine if the claims are being properly held by a single claimant. Therefore, we are requiring that the above listed information be submitted to this office for review by a mineral examiner.

This required information must be dated **prior** to the date of transfer. If you do not have this information, then you must amend the claims listed above, reducing the acreage to 20 acres per claimant as allowed by law.

We must receive either this additional documentation supporting a discovery of a valuable mineral deposit, or amendments within 30 days of your receipt of this notice. If the required documentation or the amendments are not received within the 30-day timeframe the mining claims will be declared forfeited and void. If amendments are filed, there is a \$10 BLM processing fee for each amendment. The amendments must also be filed with the county.

If additional information is required, please contact Rod Ebert at 602-417-9397. Please include your AMC serial number(s) on all correspondence.

Sincerely,

Rebecca Heick Deputy State Director Lands, Minerals and Energy Division

WILLIAM WIELGUS

IBLA 2015-26

Decided September 30, 2015

AMC 369700

Appeal from a decision of the Arizona State Office, Bureau of Land Management (BLM), declaring unpatented association placer mining claims forfeited for failure to file amended claim notices to comply with the 20-acre per claimant requirement of 43 C.F.R. § 3833.33. AMC369712 *et al.*

Set aside and remanded.

1. Mining Claims: Abandonment--Mining Claims:
Recordation of Affidavit of Assessment Work or Notice of
Intention to Hold--Mining Claims: Rental or Claim
Maintenance Fees: Generally--Mining Claims: Rental or
Claim Maintenance Fees: Small Miner Exemption

The holder of an unpatented mining claim is required to pay a maintenance fee for each claim or site on or before September 1 of each year. The Secretary of the Interior has the discretion to waive the maintenance fee for a claimant who certifies in writing that, on the date the payment is due, the claimant and all related parties hold not more than 10 mining claims, mill sites, tunnel sites, or any combination thereof. If a claimant pays the maintenance fee or files a small miner waiver certificate, the claimant must perform assessment work for each assessment year, and then file evidence of assessment work with the proper BLM office on or before December 30 following the end of that assessment year. These annual filings must be made independent of the claimant's obligation to comply with the limitations placed on the transfer of association placer mining claims by 43 C.F.R. § 3833.33.

2. Mining Claims: Mining Claims--Discovery--Generally: Mining Claims--Determinations of Validity: Mining Claims--Placer Claims

Where a mining claimant submits documentation supporting his claim of a discovery of a valuable mineral deposit on an association mining claim prior to transfer under 43 C.F.R. § 3833.33, and BLM finds that evidence to be insufficient for a finding that there is a discovery, BLM properly affords the claimant further opportunity to submit evidence in support of his claim of discovery. It is premature to summarily void the claims based on the adjudicator's finding of insufficient evidence of discovery.

APPEARANCES: William Wielgus, Wickenburg, Arizona, *pro se*; John L. Gaudio, Esq., Office of the Field Solicitor, U.S. Department of the Interior, Phoenix, Arizona, for the Bureau of Land Management.

OPINION BY ADMINISTRATIVE JUDGE ROBERTS

William Wielgus (Appellant) appeals from and requests a stay of an October 3, 2014, decision of the Arizona State Office, Bureau of Land Management (BLM), declaring the Open Bucket, Rock On, Ranger Run, and Golden Record unpatented association placer mining claims (AMC369712, AMC369954, AMC370046, and AMC370783)¹ forfeited for failure to file amended claim notices to comply with the 20-acre per claimant requirement of 43 C.F.R. § 3833.33. For the following reasons, we set aside BLM's decision and remand for further action consistent with this decision.

See 30 U.S.C. § 36 (2012) ("Legal subdivisions of forty acres may be subdivided into ten-acre tracts; and two or more persons, or associations of persons, having contiguous claims of any size, although such claims may be less than ten acres each, may make joint entry thereof[.]" (emphasis added)); 43 C.F.R. § 3832.12(c) ("If you are describing an association placer claim by metes and bounds, you must meet [the requirements in § 3832.12(c)], according to the number of persons in your association, as described in *Snow Flake Fraction Placer*, 37 Pub. Lands Dec. 250 (1908), in order to keep your claim in compact form and not split Federal lands into narrow, long or irregular shapes[.]"); 43 C.F.R. § 3832.21 (how to locate a lode or placer claim).

Background

Eight co-locators located the four association placer mining claims at issue in November and December of 2005. Each of the eight co-locators located 20 acres in each claim, so that each association placer mining claim contained 160 acres. These locations met the requirements of the Mining Law, which provides that no placer location may include more than 20 acres for each individual claimant, and may not exceed 160 acres for an association of up to eight individual claimants. 30 U.S.C. §§ 35, 36 (2012). Regulations implementing the Mining Law require that upon transfer of an association placer claim to an individual or an association that is smaller in number than the association that located the claim, the transferor must either "have discovered a valuable mineral deposit before the transfer" or, "[upon] notice from BLM . . . reduce the acreage of the claim" to meet the 20-acre per claimant limit. 43 C.F.R. § 3833.33.

In March and April of 2006, the eight original co-locators transferred their interests in the mining claims to Appellant. There is no record that any of the co-locators complied with 43 C.F.R. § 3833.33, there being no evidence in the record that the transferors had "discovered a valuable mineral deposit before the transfer" or reduced the acreage of the claims to meet the 20-acre per claimant limit. 43 C.F.R. § 3833.33. Since becoming sole owner of the mining claims, Appellant has filed maintenance fee waiver certifications (Waiver Certifications), affidavits of performance of assessment work (Affidavits), and the required processing fees for the claims for each assessment year.

On June 20, 2014, BLM sent Appellant a notice requesting him to show compliance with 43 C.F.R. § 3833.33 by providing either documentation of a discovery of a valuable mineral deposit for each of the four claims prior to transfer of the claims to Appellant, or amendments reducing the size of the claims so that they would meet the 20-acre per locator limit. Administrative Record (AR), Tab 5, "Notice: Association Placer Mining Claims Documentation or Amendments Required."

On July 18, 2014, Appellant responded to the notice with a document entitled "Proof of Discovery." AR Tab 4. He stated that "[t]he purpose of this report is to prove 'discovery' of a valuable mineral deposit on the four prospective claims." *Id.* at unpaginated 1. In his submittal, Appellant described in general terms how samples were collected from each of the claims and how they were assayed "using the acid test" for the presence of gold. *Id.* at unp. 1-2. He also discussed in general terms how the claims would be accessed and how any gold found there would be extracted and processed. *Id.* at unp. 2. Appellant stated that "[a] reserve estimate will be done by taking the total acreage in the claim and multiplying it times the value of the sample" which he states "will show that the claim can be used for an extended

period of time." *Id.* He attached maps of the locations on each claim where samples were taken, and results of those samples. *Id.* at unp. 4-7. Last, he attached a signed statement entitled "Results of Sampling Survey" dated February 8, 2005, purportedly written by Les Bender, identified as "V.P. Weaver Mining District," summarizing the results of the sampling and test results.² *Id.* at unp. 8.

In a second notice, dated August 18, 2014, BLM stated that Appellant's response had been examined by a mineral examiner who determined that it was "insufficient to show that a valuable mineral deposit was discovered prior to transfer" of the claims. AR Tab 3 at unp. 3. BLM listed the following specific deficiencies:

No information was provided as to how the samples were taken. No data concerning sample volumes was provided. No information concerning the nature or type of material sampled was provided. The amount of gold recovered per volume or tonnage of material was not provided. No reserve estimates were provided. No deposit boundaries were defined. No operational or development costs were provided.

Id. BLM additionally stated that "[t]here was no information submitted for AMC370783." Id. BLM concluded that Appellant was required to amend each of the four claims to reduce their acreage to comply with the 20-acre claimant requirement. Id. at unp. 1. BLM stated that if Appellant did not file the amendments within 30 days of receipt of the notice, the four mining claims would be declared forfeited and void. Id.

There is no evidence in the record that Appellant amended his claims within the 30-day period. On October 3, 2014, after Appellant failed to amend the mining claims to comply with the 20-acre claimant requirement, BLM issued its decision declaring the claims forfeited. AR Tab 2.

Appellant timely filed a "Request for Appeal" of BLM's decision, which we treat as a Statement of Reasons (SOR) in support of his appeal. AR Tab 1 (Appeal).

The Proof of Discovery and Results of Sampling Survey are handwritten, and the handwriting appears to match that of Appellant's Request for Appeal and other handwritten documents in the record. If the validity of Appellant's claims reaches the contest stage, as discussed *infra* in this opinion, the veracity of the Proof of Discovery Results of Sampling Survey, and the validity of their contents, will be evidentiary matters for resolution at the fact-finding hearing before an Administrative Law Judge. See 43 C.F.R. § 4.452-6.

Appellant does not state that he filed amendments to the claims by the deadline. Instead, he states that he filed Waiver Certifications for the 2007 through 2015 assessment years, and Affidavits for the 2006 through 2014 assessment years, and that BLM accepted payments associated with those filings. *Id.* at unp. 2. He also states that when BLM returned to him date-stamped original copies of the documents he submitted in response to BLM's June 20, 2014, notice, including the document entitled "Proof of Discovery," he believed that BLM had approved those documents. *Id.*

BLM filed an Answer to Appellant's SOR. BLM first acknowledged that Appellant timely filed Waiver Certifications for the 2007 through 2015 assessment years, and Affidavits for the 2006 through 2014 assessment years, but stated that "compliance with those filing requirements exists independent of other requirements for mining claims." Answer at 3. BLM concluded that compliance with annual filing requirements is therefore not relevant to whether BLM's decision was proper. *Id.* BLM then asserted that its date-stamping of submissions does not constitute "approval," and that Appellant should have understood that to be the case when he received BLM's second notice, dated August 18, 2014, notifying him that his date-stamped documents were not sufficient to prove discoveries of valuable mineral deposits on in his claim. *Id.* at 4.³ In this Answer, BLM did not address the merits or sufficiency of Appellant's Proof of Discovery and Results of Sampling Survey.

Analysis

We address Appellant's two arguments in order. First we discuss how his filing of maintenance fee waiver certifications and affidavits of performance of assessment work was necessary, but provided no evidence of the validity of his unpatented mining claims. Second, we discuss whether BLM properly declared the claims forfeited when Appellant failed to reduce the claims to 20 acres in size. Answering the second question requires that we address whether BLM properly concluded that the documentation Appellant submitted in response to BLM's notice was insufficient to show a discovery of a valuable mineral deposit on the claims.

BLM has provided the Board with a copy of a letter dated Nov. 2014, that Appellant sent BLM in response to BLM's Answer. This letter was not sent to the Board, but we will nonetheless consider it as a Reply under 43 C.F.R. § 4.412(d). The letter however, does not add to Appellant's arguments. It reiterates his argument regarding BLM's date-stamping of his documents and questions who determined his information regarding discovery to be insufficient, and why. BLM's Aug. 13, 2014, notice lists the reasons why "Jeff Garrett-Certified Review Mineral Examiner #40" determined Appellant's documentation was insufficient to prove a discovery.

A. Waiver Certifications and Affidavits

[1] Appellant states that he has successfully filed Waiver Certifications and Affidavits for his claims and that BLM has accepted his payments associated with those filings. It appears that Appellant believes that his timely filing of those documents establishes the validity of his mining claims. This is incorrect.

The law governing Waiver Certifications and Affidavits is as follows. The holder of an unpatented mining claim is required to pay a maintenance fee for each claim or site on or before September 1 of each year. 30 U.S.C. § 28f(a) (2012); see 43 C.F.R. § 3834.11(a)(2). Payment of the claim maintenance fee is in lieu of the assessment work requirements of the Mining Law of 1872, 30 U.S.C. §§ 28-28e (2012) (Mining Law), and the related filing requirements of section 314(a) of the Federal Land Policy and Management Act of 1976, 43 U.S.C. § 1744(a) (2012) (FLPMA). 30 U.S.C. § 28f(a) (2012); see 43 C.F.R. § 3834.11(a).

The Mining Law, however, grants the Secretary of the Interior the discretion to waive the maintenance fee for a claimant who certifies in writing that, on the date the payment is due, the claimant and all related parties hold not more than 10 mining claims, mill sites, tunnel sites, or any combination thereof, on public lands (Waiver Certification). 30 U.S.C. § 28f(d) (2012); 43 C.F.R. § 3835.1. A claimant who files a Waiver Certification is required to (1) perform assessment work during the assessment year for which the waiver is granted, and (2) file an affidavit of the assessment work (Affidavit) on or before December 30 of the calendar year in which the assessment year ends. 43 C.F.R. §§ 3835.12, 3835.15, 3835.31(a); see Paul Dickison, 186 IBLA 69, 70-71 (2015); John J. Trautner, 165 IBLA 265, 267 (2005); Earl Riggs, 165 IBLA 36, 39 (2005). A failure to file either document -Waiver Certification or Affidavit - by the applicable deadline results in the affected claims being forfeited and void. See Beverly D. Glass, 167 IBLA 388, 394 (2006) ("Absent submission of a proper maintenance fee payment or waiver request [by the deadline for paying maintenance fees], BLM properly declared the claim forfeited and void by operation of law."); Audrey Bradbury, 160 IBLA 269, 275 (2003) 預ling an Affidavit "is an absolute requirement that cannot be waived" and failure to make the filing automatically results in forfeiture of a claim). See also Paul Dickison, 186 IBLA at 70-71.

The annual filing requirements discussed above are not, however, the only legal requirements that apply to placer mining claims, including the ones it issue in this appeal. The Mining Law also provides that no placer location may include more than 20 acres for each individual claimant, and may not exceed 160 acres for an association of up to eight individual claimants. 30 U.S.C. §§ 35, 36 (2012); 43 C.F.R.

§ 3832.22(b). Upon transfer of an association placer claim to an individual or an association that is smaller in number than the association that located the claim, the transferor must either "have discovered a valuable mineral deposit before the transfer" or, "[upon] notice from BLM . . . reduce the acreage of the claim" to meet the 20-acre per claimant limit. 43 C.F.R. § 3833.33; *see Ulysses Corporation*, 186 IBLA 101, 102 (2015); *Bruce Curtis*, 185 IBLA 371, 372 (2015).

Thus, while Appellant's timely filings of the Waiver Certifications and Affidavits for the mining claims were required under the regulations, those filings were not related to, and cannot be used to establish the validity of his placer claims. acknowledges that Appellant timely filed Waiver Certifications for the 2007 through 2015 assessment years, and Affidavits for the 2006 through 2014 assessment years. However, as BLM correctly notes in its Answer, "compliance with those filing requirements exists independent of other requirements for mining claims." at 3. As discussed above, the annual filing requirements and the limitations on placer claims stem from separate and distinct sections of the Mining Law. U.S.C. § 28f(d) (2012) (maintenance fee and waivers) and 30 U.S.C. §§ 35, 36 (2012) (placer claim acreage limitations). The regulations implementing these statutory requirements are likewise separate and distinct. See 43 C.F.R. §§ 3835.1 through 3835.1, 3835.30 through 3835.33 (maintenance fee waiver and assessment work requirements) and 43 C.F.R. § 3833.33 (requirements for transfers of placer claims). Appellant's compliance with annual filing requirements and payment of applicable processing fees for his small miner waivers and assessment work requirements does not show that Appellant complied with the limitations placed on the transfer of placer claims by 43 C.F.R. § 3833.33. See United States v. Webb, 132 IBLA 152, 169 (1995).4

B. Discovery of a Valuable Mineral Deposit

The key issue here is whether BLM properly deemed Appellant's Proof of Discovery and Results of Sampling Survey inadequate for proving a discovery on his mining claims, and thereafter requiring him to amend his claims to comply with the 20-acre per claimant limit of 43 C.F.R. § 3833.33. As that regulation makes clear,

⁴ Appellant argues that BLM approved the documentation he submitted to prove the discovery of a valuable mineral deposit on the claims by returning date-stamped originals of the same. The return of date-stamped originals does not signify approval. "BLM's acknowledgement and acceptance of filings submitted in accordance with the requirements of 43 U.S.C. § 1744 [2012] do not by themselves 'render valid any claim which would not be otherwise valid under applicable law and [do] not give the owner any rights he is not otherwise entitled to by law." *United States v. Webb.* 132 JBLA at 168 (quoting 43 C.F.R. § 3833.5(a)).

the controlling question is whether there was a discovery of a valuable mineral deposit on the claims prior to transfer to Appellant.

The Board has not resolved the precise question of what procedure BLM must follow in the context of adjudicating an interest in an association mining claim involving 43 C.F.R. § 3833.33. However, the Board has issued several opinions that lead us to remand this case to BLM for further review, in accordance with the discussion below.

The conditions that the claimant must show to prove the discovery of a valuable mineral deposit on an unpatented mining claim are set forth below:

The basic test for determining whether a mining claimant has discovered a valuable mineral deposit on his mining claim is the "prudent man rule." This rule, enunciated in Castle v. Womble, 19 L.D. 455 (1894), states that in order for there to be a discovery, there must be exposed within the limits of the claim minerals of such quality and quantity that a person of ordinary prudence would be justified in the further expenditure of his labor and means with a reasonable prospect of success in developing a valuable mine. The "prudent man rule" is complemented by the "marketability test." Simply stated, in order to establish the existence of a valuable mineral deposit, it must be shown that the mineral can be extracted, removed, and marketed at a profit. United States v. Coleman, 390 U.S. 599 (1968). A valuable mineral deposit has been discovered where "minerals have been found and the evidence is of such a character that a person of ordinary prudence would be justified in the further expenditure of his labor and means, with a reasonable prospect of success, in developing a paying mine." Castle v. Womble, 19 L.D. 455, 457 (1894).

United States v. Crawford, 109 IBLA 264, 268 (1989); see also United States v. E. K. Lehmann & Associates of Montana. Inc. [U.S. v. Lehmann], 161 IBLA 40, 43 (2004).

This Board has addressed the question of whether a valuable mineral deposit has been discovered when a claimant has filed a mineral patent application. E.g., U.S. v. Lehmann, 161 IBLA at 43. In this context, the applicant has the burder of establishing in his application that he has made a valuable mineral discovery.

American Colloid Company, 162 IBLA 158, 172 (2004); Dennis J. Kitts, 84 IBLA 338, 342 (1985) (citing Brattain Contractors. Inc., 37 IBLA 233, 239 (1978)). The Board has also addressed whether a valuable mineral deposit has been discovered when the Government has filed a contest against a claim on the basis of lack of discovery.

E.g., United States v. Carlwood Development, Inc., 177 IBLA 119 (2009); United States v. Crawford, 109 IBLA 264 (1989).

The burdens of proof are different in patent application cases and Government contest cases, as follows:

When the Government contests a mining claim based on a charge of lack of discovery of a valuable mineral deposit, it bears the initial burden of going forward to establish a prima facie case in support of that charge, whereupon the claimant has the ultimate burden of persuasion to overcome that case by a preponderance of the evidence. *See Hallenbeck v. Kleppe*, 590 F.2d 852, 856 (10th Cir. 1979); *United States v. Winkley*, 160 IBLA [126,] 142-43 [(2003)]; *United States v. Bechthold*, 25 IBLA [77,] 82 [(1976)]. The burden is different, however, for the contestee when a contest is filed as the result of a patent application. In such a situation, it is well settled that the Government must make a prima facie case in support of its charges and that, upon such a showing, the claimant must establish that the claim is valid, even apart from the issues raised in the prima facie case. *United States v. Mannix*, 50 IBLA 110, 112 (1980).

United States v. Miller, 165 IBLA 342, 356 (2005); see also United States v. Carlwood Development, Inc., 177 IBLA at 128; United States v. Crawford, 109 IBLA at 268.

The present case involves neither a patent application nor a Government contest. The regulation provides that the claimant "must have discovered a valuable mineral deposit before the transfer." 43 C.F.R. § 3833.33. In order for Appellant to retain all four claims with 160 acres as located, the burden is properly placed on him to show in the first instance that there was a discovery. This approach places Appellant's case more in line with patent application cases, in which the Board has followed the following standard for evaluating evidence submitted in support of a discovery :

An applicant has an obligation to support his application for mineral patent with sufficient descriptive information and data to permit the BLM mineral examiner, on review in his office, to conclude that each claim was valid and that all prerequisites for patent had been met, subject only to *confirmation* upon field examination. In short, the patent applicant must make a *prima facie* showing that he is entitled to the patent he seeks. This is a reasonable requirement because, otherwise, BLM would be obligated to waste the valuable time of its mineral examiners to conduct costly field examinations based upon

information which did not even show the patent application to be meritorious on its face.

Dennis J. Kitts, 84 IBLA at 343 (emphasis in original).

In *Kitts*, BLM rejected the mineral patent application as inadequate because the applicant failed to provide information necessary to prove discovery of a valuable mineral deposit. We noted that the appellant "provided no meaningful description of the geology on the claims or in the general area; no substantial description of the quantity and quality of the ore alleged discovered; no description of the discovery points; no description of the samples taken in terms of their location, size, the sampling technique employed, or the means of their evaluation," in addition to other deficiencies in the patent application. *Id.* at 342-43. In the absence of that information, we upheld BLM's decision summarily rejecting the patent information for lack of necessary information. *Id.* at 343.

In *G. Donald Massey*, 114 IBLA 209 (1990), we affirmed BLM's authority to request detailed information upon application for a patent application for a placer claim like the ones at issue here. That information included "a detailed showing as to the nature of the mineral deposit, the methods for mining, processing, and transporting the raw material, and the estimated profitability of the mining operation " *G. Donald Massey*, 114 IBLA at 210-11. We found that "BLM could justifiably require a mineral patent applicant to provide information intended to aid the mineral examiner in determining whether the mining claim contains a valuable mineral deposit." *Id.* at 214 (quoting 43 C.F.R. § 3863.1-3(a)).

We upheld BLM's decision to reject a patent application for a lode mining claim in *Karen Lynne Smith Harper*, 126 IBLA 301 (1993), for comparable reasons. In that case, BLM notified the appellant that her patent application was missing several items required by the applicable regulation, including evidence of a valuable mineral deposit within the claim. *Id.* at 301-02 (citing 43 C.F.R. § 3862.1). BLM subsequently rejected the patent application when the appellant failed to provide the requested information. We held that BLM properly rejected the appellant's mining claim patent application because she failed to submit the supporting information requested. *Id.* at 303.

In contrast, we have reversed BLM decisions rejecting patent applications in cases where appellants, in the agency's opinion, had provided insufficient evidence of discovery of a valuable mineral deposit. For example, in *Brattain Contractors Unc.*, 37 IBLA at 240-41, we reversed BLM's decision rejecting a patent application in the absence of information proving discovery. We "observe[d] that if the BLM adjudicator is not satisfied with the evidence of discovery submitted with the patent.

application he has a right to so advise the applicant and request further evidence," at which point it would be "incumbent on the applicant to cooperate in providing such evidence in support of its own application so as to resolve any deficiencies and to facilitate the process." *Id.* at 240. However, we stated that it would be at that point "premature to reject the patent application on the adjudicator's finding of insufficient evidence of discovery." *Id.* On the contrary, we stated that "[b]efore there can be any final disposition of a mineral patent application which is otherwise acceptable, there must be a mineral examination of the subject claims for the purpose, inter alia, of obtaining evidence tending either to confirm or refute the allegation that qualifying discoveries have been made." *Id.*

At the point that a mineral examination is done, and it yields evidence that supports BLM's position that no discovery has been made, it would be appropriate for BLM to initiate an administrative mining contest proceeding to challenge the validity of the claim. *Id.* BLM may initiate contest proceedings "for any cause affecting the legality or validity of any entry or settlement or mining claim." 43 C.F.R. § 4.451-1. Mining contest challenges are brought before Administrative Law Judges ("ALJs") in the Hearing Division, who hold evidentiary hearings and issue decisions concerning the validity of mining claims. 43 C.F.R. §§ 4.452-1 through 4.452-8. Those decisions may be appealed to this Board. 43 C.F.R. § 4.452-9.

In *Brattain Contractors*, we held that a contest proceeding was necessary when BLM concluded, based upon a mineral examination, that there is a lack of discovery, and the appellant refused to withdraw his patent application. We stated: "BLM may not summarily reject the application on any finding of disputed fact. This is because the validity or invalidity of the claims is the ultimate issue in the contest proceeding" *Brattain Contractors Inc.*, 37 IBLA at 240. We explained that a contest proceeding was required because "if a charge of 'no discovery' is finally proven in a proper proceeding, then not only must the patent application be rejected, the claims must be held to be null and void." *Id.* We further noted:

The issue involved herein, i.e., the existence of a discovery at a specified date, is manifestly one of substance going to the validity of the claims or parts thereof, and is thus resolvable against the claimant only after affording the applicant notice and an opportunity for hearing on disputed issues of fact.

Id. at 241 n.2.

We affirmed this result in *United States Steel Corp.*, 52 IBLA 319, 324 (1981), stating that *Brattain* "makes it clear that a mineral patent application may not be summarily rejected on the basis of the lack of discovery of a valuable mineral deposit without affording the applicant notice and an opportunity for hearing on the disputed issues of fact." We further stated in that case that "if BLM considered that the record provided insufficient evidence of discovery, it should have initiated a contest proceeding. Rejection of the patent applications was improper." *Id.* at 325.

The above discussion shows that two groups of cases exist within our precedent pertaining to proof of discovery in mineral patent applications. In the first group, the Board upheld BLM decisions summarily dismissing patent applications when appellants failed to provide information required to support their patent applications. *Kitts* appears to be unique in this group in that BLM rejected the patent application without first affording the applicant an opportunity to submit additional documentation in support of a discovery. In the second group, the Board reversed BLM decisions dismissing patent applications on the basis of insufficient evidence of discovery, holding that a contest proceeding was required.

We recognized and identified these two groups of cases in American Colloid Company, 162 IBLA 158, 176-77 (2004). In that case, we examined the records in the appeals at issue "to determine where they fall on the line of cases in which BLM appropriately concludes that summary dismissal of the patent applications was appropriate versus those where lack of proof of a discovery would require a contest initiated by BLM." 162 IBLA at 176. Each patent application involved in *American* Colloid Company "was accompanied by a discussion of drilling and sample data, maps identifying the locations on each mining claim where the samples were taken, and a visual depiction on a map of ACC's inference of a bentonite zone within the contours of each claim based on that data." Id. In addition, other record documents provided additional information regarding particular sample locations. On this record, we were unwilling to "affirm that the patent applications must be summarily rejected . . . on the basis of BLM's complaints regarding the sufficiency of that data." Id. We further contrasted the discovery dispute with "technical deficiencies like untimeliness." failure to provide required statements or documents, use of unsupported price estimates, or omission of labor costs in the economic analysis involved in the cases" in which we upheld BLM's summary dismissal of patent applications. Id. a 176.77. We accordingly concluded that "[a]s in Brattain Contractors, Inc., 37 IBLA at 249-41 the parties['] arguments present[ed] disputed issues of fact requiring a contest hearing before BLM [could] reject the patent application." Id. at 176 (citing United States Steek) Corp., 52 IBLA at 325).

As noted, the Board stated in *Brattain* that it would be proper for the BLM adjudicator to request further evidence of discovery, and that it would be premature to

reject the patent application based strictly on insufficient evidence in the patent application. 37 IBLA at 240. We believe that the present appeal presents a situation that is more in common with the appeals in American Colloid Company and Brattain Contractors, Inc., than with those in which BLM was justified in summarily dismissing patent applications. We recognize the line dividing the two groups of cases may not appear terribly distinct. For example, much of the information lacking in Dennis J. Kitts, 84 IBLA 338, in which we upheld BLM's summary dismissal, pertained to the question of whether there was a discovery of a valuable mineral deposit. Similarly, a paucity of information contributed significantly to the factual dispute regarding discovery in Brattain Contractors, Inc., 37 IBLA 233, where we reversed BLM's summary dismissal. Nonetheless, here Appellant has provided sample locations, analysis, and a purported expert who provided evidence supporting discovery. is comparable to the "discussion of drilling and sample data, maps identifying the locations on each mining claim where the samples were taken, and a visual depiction on a map of ACC's inference of a bentonite zone within the contours of each claim based on that data" accompanying the patent applications in American Colloid Company. 162 IBLA at 176. We are not faulting BLM's conclusion that Appellant's information was insufficient for a finding that there was a discovery of a valuable mineral deposit on the subject claims. However, we cannot affirm BLM's decision to void Appellant's claims in the absence of an opportunity to submit additional information to support a discovery.

[2] As was the case with the patent application at issue in *Brattain*, "[t]he issue involved herein, i.e., the existence of a discovery at a specified date, is manifestly one of substance going to the validity of the claims or parts thereof" *Brattain Contractors, Inc.*, 37 IBLA at 241 n.2. We therefore follow *Brattain* and reiterate that "if the BLM adjudicator is not satisfied with the evidence of discovery submitted . . . he has a right to so advise the applicant and request further evidence" at which point it would be "incumbent on the applicant to cooperate in providing such evidence in support of its own application so as to resolve any deficiencies and to facilitate the process." *Id.* at 240.

BLM's actions in the cases we have discussed supports our conclusion that Appellant has submitted sufficient information to warrant an opportunity to submit additional documentation. In the majority of those cases, the agency provided appellants multiple opportunities to submit information proving discovery. For example, American Colloid Company failed to submit any economic analysis that would "allow a mineral specialist to determine whether a valuable mineral deposit had been found" in its initial patent application. *American Colloid Company*, 162 IBLA at 160. The BLM field offices involved in that case repeatedly requested that information, specifying particular analyses and costs that the agency needed for confirming discovery. *Id.* at 161-63. The Appellant provided the requested

information approximately 2 to $2\frac{1}{2}$ months later, at which point BLM requested additional information. *Id.* at 163-65. Only after American Colloid Company responded to that request did BLM reject the patent applications because the information submitted was "incomplete and inadequate" such that the "mineral report for each patent application could not be completed based on the submitted information." *Id.* at 167, 169. BLM's efforts to obtain information necessary to process the patent application in that case conformed to the agency's Manual, in which it states that the agency will reject applications when applicants fail to submit additional information within reasonable timeframes. BLM Manual 3860.06B.

Based on the facts of this case, which are in many respects unique, we conclude that BLM should not have summarily required Appellant to reduce the acreage of his claims in this case. As a matter of due process, BLM should have requested more information from Appellant regarding discovery, to the extent it was lacking. We accordingly set aside BLM's decision and remand the case for BLM to provide Appellant with the opportunity to prove a discovery prior to the date he obtained the claims at issue.

Therefore, pursuant to the authority delegated to the Board of Land Appeals by the Secretary of the Interior, 43 C.F.R. § 4.1, the decision appealed from is set aside and remanded for further action consistent with this decision.

Association Placer Mining Claims Documentation or Amendments Required

The mining claims listed above are association placer mining claims that are over 20 acres in size. The claims were originally located with the required number of locators to meet the 20-acre per locator requirement. However, the claims are now held by a smaller group of claimants than originally located them and are therefore not in compliance with the legal requirements.

By law, each individual claimant is allowed to hold a maximum of 20 acres per claim. A corporation is considered to be a single entity that is allowed to hold a maximum of 20 acres per claim. In accordance with 43 CFR 3833.33 you may transfer, sell, or otherwise convey an association placer mining claim at any time to an equal or greater number of mining claimants. If you want to transfer an association placer claim to an individual or an association that is smaller in number than the association that located the claim you (a) must have discovered a valuable mineral deposit before the transfer; or (b) upon notice from the Bureau of Land Management (BLM), you must reduce the acreage of the claim, if necessary, so that you meet the 20-acre per locator limit.

On June 20, 2014, BLM sent you a notice requesting that you show compliance with 43 CFR 3833.33 by providing either documentation of a discovery of a valuable mineral deposit for each

of the four claims as listed prior to the claims being transferred from the original locators to yourself, or reducing the claim acreage to 20 acres per claim as allowed by law. On July 18, 2014, you provided this office with a document titled "Proof of Discovery" signed by Les Bender and dated February 8, 2005, purportedly written by Les Bender, summarizing the results of the sampling and test results on the listed placer claims.

The BLM determined that the information was insufficient to show that a valuable mineral deposit was discovered prior to the transfer of the claims to you.

Pursuant to 1861 IBLA 227 William Wielgus (09-30-2015), BLM is hereby giving you an opportunity to provide more information to prove discovery prior to the date whereby you obtained the following mining claims:

Claim Name	BLM Claim Number	Location	
Open Bucket	AMC369712	T6N R6W, Section 32, NW ¹ / ₄	
Rock On	AMC369954	T6N R5W, Section 19, SW1/4	
Ranger Run	AMC370046	T6N R6W, Section 27, SW ¹ / ₄	
Golden Record	AMC370783	T5N R10W, Section 26, SW ¹ / ₄	

The "Proof of Discovery" document indicates that five (5) 400 pound samples were taken from each claim at intervals of 1,750 feet to 2,620 feet. There is no indication how these samples were taken or processed or what these samples represent as pertaining to the bulk of material found on the claims. Were the samples taken from the surface, taken from a trench, from a pit, etc.? How far above bedrock were the samples taken? Was the material processed using a dry washer, a trammel, metal detected, panned, etc.? Was the material sampled homogeneous or stratified? Were there boulders present and, if so, what percentage of the material were boulders? What care was taken to ensure accurate samples were taken? How was the weight of each sample determined?

The "Proof of Discovery" document states that a reserve estimate can be done by taking the total acreage in a claim and multiplying it times the value of the related sample. Please provide a reserve estimate for each claim and an explanation how the estimate was derived.

Sample values have little economic meaning unless they are viewed in relation to the cost of recovering the gold. The "Proof of Discovery" document states that "all the land will be worked in the same way as the samples were taken." Please provide a breakdown of the cost to mine the reserves on each claim.

Without this information we cannot determine if the claims are being properly held by a single claimant. Therefore, we are requiring that the above listed information be submitted to this office for review by a mineral examiner.

This required information must be dated **prior** to the date of transfer. If you do not have this information, then you must amend the claims listed above, reducing the acreage to 20 acres per claimant as allowed by law.

We must receive either this additional documentation supporting a discovery of a valuable mineral deposit, or amendments within 30 days of your receipt of this notice. If the required documentation or the amendments are not received within the 30-day timeframe the mining claims will be declared forfeited and void. If amendments are filed, there is a \$10 BLM processing fee for each amendment. The amendments must also be filed with the county.

If additional information is required, please contact Rod Ebert at 602-417-9397. Please include your AMC serial number(s) on all correspondence.

To: Rebecca Heiche Fron William R Nielgus 9014 OCT 23 ₽ 4:17 PHOENIX. ARIZONA I received your letter on Oct 7, 14 concerning my low mining claims. The pertinent part of your letter states; you received a Notice requiring that the claims fested above be amended due to make Occeage. The 30 day timeframe allowed has enjured Nothing could befarther from the buth "I This is Johat actually occurred and have the green Return / Receift / Bequested wards to back up everything that follows ! In July I sent in the Warrer and the Afilant for my claims for 2015 along with the far bequired like I have done for the past seven years There has never been a problem with what I have done in the part of your accepted my money. I received a lettel te BLM's rep Rod Elect sugina that all of a pudden weighting you have agreed with was wrong & all the money you decepted was not an assestance (WHY) It faid & could remedy his problem in 1 of 2 ways. Firstly It could amend my claim to 20 access before I filed the claims it would take precidence and I could keep the claims just as they were & did have what was required by the 1874 Mening Town made by a Mil Jes Behder who had over to years experience and then was the VP of the Weaver Mining District 6 at a cost of #1500

the survey was made 2014/00000 flaim to power up. it worth while occording to the 12 product person interpretation of the 1812 Mining laws for verification. I sent a copy of the survey back to the BLM In a few days I received a stamped of approved copy of the Wairel as tanged & approved copy of Officiant, and a stamped & pproved copy This pathe pame as what had occurred for the past seven years, and the BLM took my MONEY! any legal attricts will testify in a court of law that deceptance of a monetary fee is their acceptance of the transaction, and it would be illegal for they one to accept a fee & then seneng. on the transaction Client a week later & received a letterfrom Le ann Meyers saying it was infortunate that the expired Waver form waspent and could t please softhis current Zoils copy that she inclosed. I resent the Waiver form & received It stamped and approved at this point I had all that I had ever needed in the past stamped of approved of was acceptable to send what I had to the Maucopa exorder just Qo I had done for the last some years. If my one at the fith had my problems with my claim and wanted anything else done why disa't I receive their objection when I received the survey that was stamped topproved or when I received this re-probinities Warner form stamped & approved and, you Took My MONEY (

I anyone had any questions or objections to what I had done, why didn't they tell me before they accepted my money for me to thanh that someone is hiding something or not telling me weighting never occurred to me because I had received everything stanged and approved exactly that which was done for the past seven years, AND, YOU TOOK RIY MONEY, I have all the stamped & approved documents I will send you copies of anything I have Claime also please grant a stay until your answer is determined because there three two small desert communities that I work closely with and there are souple who will be caused hardship our relationshy cannot continue. <u>Mining Claims Declared Forfeited</u> <u>Excess Acres</u>

In accordance with 43 CFR 3830.94, the mining claims listed above are hereby declared forfeited for the reason indicated below.

You received a Notice requiring that the claims listed above be amended due to excess acres. The amendments were required to be filed within 30 days of the date you received the Notice. The 30 day timeframe allowed has expired and no amendments have been received.

This decision does not relieve you of the liability for reclamation of all areas disturbed by your activities on land encompassed by your mining claim(s) and/or site(s). After you complete the reclamation, you must notify the authorized officer of the appropriate surface managing agency so that the authorized officer may conduct a final site inspection and determine whether you may be released from liability. If you fail to reclaim the land to the satisfaction of the authorized officer, the surface management agency may cite you for noncompliance under its surface management regulations.

For land administered by the Bureau of Land Management (BLM), if you fail to reclaim the land to the satisfaction of the authorized officer as required in 43 CFR Subpart 3809, the BLM will issue an order of noncompliance under 43 CFR 3809.601(a). If you fail to comply with the noncompliance order, the BLM may take further action under 43 CFR 3809.604. Failure to conduct reclamation is a prohibited act that may subject you to criminal penalties. See 43 CFR 3809.605(h) and 43 CFR 3809.700. If your occupancy has been terminated and you fail

Appeal Procedures

This decision may be appealed to the Interior Board of Land Appeals, Office of the Secretary, in accordance with the regulations contained in 43 CFR, Part 4 and the enclosed Form 1842-1. If an appeal is taken, your notice of appeal must be filed in this office (at the above address) within 30 days from receipt of this decision. The appellant has the burden of showing that the decision appealed from is in error.

If you wish to file a petition pursuant to regulation 43 CFR 4.21 (58 FR 4939, January 19, 1993), for a stay of the effectiveness of this decision during the time that your appeal is being reviewed by the Board, the petition for a stay must accompany your notice of appeal. A petition for a stay is required to show sufficient justification based on the standards listed below. Copies of the notice of appeal and petition for a stay must also be submitted to each party named in this decision and to the Interior Board of Land Appeals and to the appropriate Office of the Solicitor (see 43 CFR 4.413) at the same time the original documents are filed with this office. If you request a stay, you have the burden of proof to demonstrate that a stay should be granted.

Standards for Obtaining a Stay

Except as otherwise provided by law or other pertinent regulation, a petition for a stay of a decision pending appeal shall show sufficient justification based on the following standards:

- (1) The relative harm to the parties if the stay is granted or denied,
- (2) The likelihood of the appellant's success on the merits,
- (3) The likelihood of immediate and irreparable harm if the stay is not granted, and
- (4) Whether the public interest favors granting the stay.

MUST AMEND DUE TO EXCESS ACREAGE

You received a Notice to inform you that the mining claims listed above are association placer mining claims that are over 20 acres in size and are currently held by a smaller number of claimants than is permitted by law, unless there was a discovery of a valuable mineral deposit prior to the date of transfer. The Notice required that you provide documentation to support a discovery of a valuable mineral deposit or amend the claims to comply with the 20-acre per claimant requirement.

In response to the Notice, you submitted documentation you believe shows such a discovery. The documentation has been examined by a mineral examiner and it has been determined that the submitted documentation is insufficient and does not include the information requested. (See enclosed comment from mineral examiner.) Therefore, BLM is requiring that the acreage of the above listed mining claims be reduced to comply with the 20-acre per claimant requirement.

There is a \$10 BLM processing fee for each amendment. We must receive the amendments within 30 days of receipt of this notice. If the amendments are not received within the 30 day timeframe the mining claims will be declared forfeited and void.

If additional information is required, please contact Rod Ebert at 602-417-9397. Please include your AMC serial number(s) on all correspondence.

On 04/07/06 AMC370046 was transferred from the original Association Placer locators to William Wielgus. On 03/22/06 AMC370783 was transferred from the original Association Placer locators to William Wielgus. To show compliance with 43 CFR 3833.33, i.e. ..."must have discovered a valuable mineral deposit before the transfer..." the current claimant provided information intended to show that a valuable mineral deposit existed on the claim prior to transfer of the association placer from the original locators to the current claimant.

The information provided was an apparent affidavit signed by Les Bender, dated 2/8/05. The subject claims were located in November and December of 2005. Mr. Bender's document provided information indicating that five 10'x10' samples (samples were shown as having been taken from each corner and the center of each association claim) had been taken from AMC369706, AMC369954, and AMC370046 respectively and provided sampling data indicating ounces of gold per sample taken.

There was no information submitted for AMC370783.

No information was provided as to how the samples were taken. No data concerning sample volumes was provided. No information concerning the nature or type of material sampled was provided. The amount of gold recovered per volume or tonnage of material was not provided. No reserve estimates were provided. No deposit boundaries were defined. No operational or development costs were provided.

The information submitted was insufficient to show that a valuable mineral deposit was discovered prior to transfer.

The information submitted was insufficient to show that a valuable mineral deposit was discovered prior to transfer.

Proof of Discovery The purpose of this report is to prove discovery of a valuable mineral disjosit on the four prospective claims that PLM to be known as SN built, ENSW 19, GNEW 32, and GNEW 27 for the purpose of this report. A complete discreption of the claims can be found on the notice of intent to bfiled storthy by the prospective owner. Proving up " a mening claim can mean different things to different Jeople. However all work must be done according to the equirements of the BLM, \$3CK 3333 33 and the 1872 Moning flavs. Whether mining with a metal detector or pesing a trommed and Obygons her the end result promitted is the same for all clarms, The Pull purpose is to prove that minerals have been found muthin The boundaries of the mining claim and that the judence is such that a person of ordinary prudence would be furtified in the further expenditures of lation and means with a resonable prospect of Success In developing a mine. This means that the mine diposit must be marketable, of such value that it can be mened, removed, and sold at a profit, The best way to insure the presence of a mineral deposit is adequate sampling. In this case it so to come from five one-kalf names any large rocks or 5 - one quarter for penuples, four of which one located 10 feet from each corner and one quarter ton sample from the chater of the claim (same for all claims) a typical map of the four claims follows. The pamysling amounts and values would follow that and a comments pection will peries the results and indicate whether such claim is proven up and a condidate to be bought. The amounts of gold, along with anything else of value (silver, of per, to) will be recorded. The where freed of gold for the wish mones anything less than , the books of spot will be subtracted from the result.

The fineness of goldshall be done using the acid test an all filings taken from pamples it if \$0 % of agua Begin dissolves 85% but not 80% gold sample, you know there is more than 80% and less than 85 % in the semple. a small percentage will be sent to a lab to verify the finding a reserve estimate will be done by taking the total acreage in the claim and multiplying it times the value of the sample. This will show that the claim can be used for an extended period of time. a cut off of p. 1 owner of gold per parysle, since locations on the claim wary along with surface condition this is a large inough sample to show the fearability of mining. The development of these claims are minimal, Since all four claims are fairly level, access by already susting dict roads make all aleas available to a 4x4 whisle, Since sampling has been done, no further exploration is required. all the land will be worked in the same way as the sangeles were taken. No pondo are required since the desert lends itself to dignoshing and metal detecting and obtaining water would be preparate and pronecessary. No stripping will be done and if a good pocket is found it will be dug out and minerals removed and then covered over in the same day. No plant is small and mobile and is already owned by the prospective miner. Even of someone else were to which to mine similar chains, a decent metal detector can be purchased for less than a thous and dollars. Most of the time if squipment is not alused it can be sold for 50 to 75 % of purchase price. Small trommely and trywashers com be leased for 100/ month (after & Deent security deposit, which is easily covered by the material pold from the claim if it is worth living.

There is no cost to operating a metal detector, except for some good hard work.

Before going on to the specifics of samples values one further note phould be accounted for Black pand recovery from my mining venture with the resovery pales on the Pollowing pages can augment the total withithe refinement of black pand. It can add 10% extrate the values pleasure, I ball bearing mill can be used \$ then the rebusing fine gold can be removed on a small stracker lattle, I have found 2 places where the whole process can be done for 50 per ton of black pand which is minor to the total value and added.

Association Placer Mining Claims Documentation or Amendments Required

The mining claims listed above are association placer mining claims that are over 20 acres in size. The claims were originally located with the required number of locators to meet the 20-acre per locator requirement. However, the claims are now held by a smaller group of claimants than originally located them and are therefore not in compliance with the legal requirements.

By law, each individual claimant is allowed to hold a maximum of 20 acres per claim. A corporation is considered to be a single entity that is allowed to hold a maximum of 20 acres per claim. In accordance with 43 CFR 3833.33 you may transfer, sell, or otherwise convey an association placer mining claim at any time to an equal or greater number of mining claimants. If you want to transfer an association placer claim to an individual or an association that is smaller in number than the association that located the claim you (a) must have discovered a valuable mineral deposit before the transfer; or (b) upon notice from BLM, you must reduce the acreage of the claim, if necessary, so that you meet the 20-acre per locator limit.

In reviewing the case file for these claims it was noted that at the time of transfer to an individual or smaller number of locators than originally located the claims, BLM did not receive documentation supporting that a discovery of a valuable mineral deposit was made. Without this

documentation we cannot determine if the claims are being properly held by the correct number of claimants. Therefore, we are requiring that the appropriate documentation be submitted to BLM. We are enclosing a guide to clarify what documentation must be provided to BLM to support the discovery of a valuable mineral deposit.

If you have the required documentation, dated **prior** to the date of transfer, you may file it with this office for review. If you do not have the proper documentation, you must amend the claims listed above, reducing the acreage to 20 acres per claimant, as is allowed by law.

We must receive either documentation supporting a discovery of a valuable mineral deposit, or amendments within 30 days of your receipt of this notice. If the required documentation or the amendments are not received within the 30-day timeframe the mining claims will be declared forfeited and void. If amendments are filed, there is a \$10 BLM processing fee for each amendment. The amendments must also be filed with the county.

If additional information is required, please contact Rod Ebert at 602-417-9397. Please include your AMC serial number(s) on all correspondence.

Rebecca Heick

REQUIREMENTS FOR TRANSFERRING ASSOCIATION PLACER MINING CLAIMS

Under the Mining Law of 1872, 30 U.S.C. 36, an "association of persons" may locate placer mining claims in excess of 20 acres in size. The Bureau of Land Management's (BLM) regulations at 43 CFR 3833.33(a) allow mining claimants to transfer or convey an association placer claim to a smaller number of owners than originally located the claim, including a single owner, under certain conditions.

What are the restrictions on transferring or conveying an association placer mining claim to a smaller number of owners than originally located the claim?

Under the BLM's regulations at 43 CFR 3833.33(a), it is permissible to transfer or convey an association placer claim over 20 acres in size to a smaller number of owners than originally locate the claim only if a "discovery of a valuable mineral deposit" was made within the limits of the claim prior to the date of transfer.

What does "discovery of a valuable mineral deposit" mean?

For purposes of the Mining Law, "discovery of a valuable mineral deposit" means that minerals have been found within the boundaries of the mining claim and that the evidence is of such a character that a person of ordinary prudence would be justified in the further expenditure of his labor and means, with a reasonable prospect of success, in developing a valuable mine.

In addition, for a discovery to exist the deposit must be marketable; that is, of such value that it can be mined, removed and disposed of at a profit.

A discovery has not been made until sufficient work has been done to show that the material can be produced and sold at a profit under conditions present at the time of transfer. The mineral deposit possessing in and of itself a present or prospective value for mining purposes must be actually and physically exposed in sufficient quantities to justify development of the mining claim through actual mining operations. If the deposit requires additional exploration to delineate the ore reserves and determine grade or quality before development may be confidently started, a discovery has not been made.

Sampling must have occurred on the subject claim. You will need several quantitative samples to adequately show a discovery of an association placer mining claim. Sampling should be done at as many places on the claim as may be necessary to establish the continuity and extent of the deposit. Until sampling has been completed, it is rarely possible to develop anything more than an informed guess as to the nature of any deposit. There must be something beyond a mere surmise, speculation, belief, or geological theory or impression of the existence of minerals on a mining claim to constitute a discovery of a valuable mineral deposit that would satisfy the regulations for transferring or conveying an association placer mining claim. Mere indications of existence of minerals within the boundaries of the claim or on adjoining lands are not sufficient to support a discovery of a valuable mineral deposit.

What information should I provide to the BLM to support that my association placer mining claim(s) had a discovery of a valuable mineral deposit at the time of transfer or conveyance?

Although the BLM's analysis is made on a case-by-case basis, the following information will be helpful to the BLM to support that a discovery of a valuable mineral deposit existed on the association placer mining claim(s) prior to the date of transfer.

- 2. Sampling information
 - a. Map showing sampling locations

MINING CLAIMS DECLARED FORFEIT

The mining claims listed above have been declared forfeit as of September 1, 2013, for failure to timely file the required maintenance fee payment or small miner's maintenance fee waiver (waiver).

Claimants are required to pay an annual non-refundable maintenance fee of \$140 per 20 acres, or submit a waiver, on or before September 1 of each year. (In accordance with 43 CFR 1822.14, because September 1, 2013, fell on a Sunday and Monday was a holiday, the payment was due the next business day, September 3, 2013.) These requirements were established by 30 U.S.C. 28f-l, as amended, and 43 Code of Federal Regulations (CFR) 3834 and 3835.

Our records do not show receipt of a maintenance fee payment or small miner waiver filed on or before the due date. Therefore, the claims listed above are forfeit.

This decision does not relieve you of the liability for reclamation of all areas disturbed by your activities on lands covered by the subject mining claim(s) and/or site(s). After you complete the reclamation, you must notify the authorized officer of the appropriate surface managing agency so that the authorized officer may conduct a final site inspection and determine whether you may be released from liability. If you fail to reclaim the land to the satisfaction of the authorized officer, the surface management agency may cite you for noncompliance under its surface management regulations.

For land administered by the Bureau of Land Management (BLM), if you fail to reclaim the land to the satisfaction of the authorized officer as required in 43 CFR Subpart 3809, BLM will issue an order of noncompliance under 43 CFR 3809.601(a). If you fail to comply with the non-compliance order, BLM may take further action under 43 CFR 3809.604. Failure to conduct reclamation is a prohibited act that may subject you to criminal penalties. See 43 CFR 3809.605(h) and 43 CFR 3809.700.

Appeal Procedures

This decision may be appealed to the Interior Board of Land Appeals, Office of the Secretary, in accordance with the regulations contained in 43 CFR, Part 4, and the enclosed Form 1842-1. If an appeal is taken, your notice of appeal must be filed in this office (at the above address) within 30 days from receipt of this decision. The appellant has the burden of showing that the decision appealed from is in error.

If you wish to file a petition pursuant to regulation 43 CFR 4.21 (58 FR 4939, January 19, 1993) for a stay of the effectiveness of this decision during the time that your appeal is being reviewed by the Board, the petition for a stay must accompany your notice of appeal. A petition for a stay is required to show sufficient justification based on the standards listed below. Copies of the notice of appeal and petition for a stay **must** also be submitted to each party named in this decision and to the Interior Board of Land Appeals and to the appropriate Office of the Solicitor (see 43 CFR 4.413) at the same time the original documents are filed with this office. If you request a stay, you have the burden of proof to demonstrate that a stay should be granted.

Standards for Obtaining a Stay

Except as otherwise provided by law or other pertinent regulation, a petition for a stay of a decision pending appeal shall show sufficient justification based on the following standards:

- (1) The relative harm to the parties if the stay is granted or denied,
- (2) The likelihood of the appellant's success on the merits,
- (3) The likelihood of immediate and irreparable harm if the stay is not granted, and
- (4) Whether the public interest favors granting the stay.

Please include your AMC serial number(s) on all correspondence. If additional information is required, please call Pauline Brown at 602-417-9360.

For land administered by the Bureau of Land Management (BLM), if you fail to reclaim the land to the satisfaction of the authorized officer as required in 43 CFR Subpart 3809, BLM will issue an order of noncompliance under 43 CFR 3809.601(a). If you fail to comply with the noncompliance order, BLM may take further action under 43 CFR 3809.604. Failure to conduct reclamation is a prohibited act that may subject you to criminal penalties. See 43 CFR 3809.605(h) and 43 CFR 3809.700.

This decision may be appealed to the Interior Board of Land Appeals, Office of the Secretary, in accordance with the regulations contained in 43 CFR, Part 4, and the enclosed Form 1842-1. If an appeal is taken, your notice of appeal must be filed in this office (at the above address) within 30 days from receipt of this decision. The appellant has the burden of showing that the decision appealed from is in error.

If you wish to file a petition pursuant to regulation 43 CFR 4.21 (58 FR 4939, January 19, 1993) for a stay of the effectiveness of this decision during the time that your appeal is being reviewed by the Board, the petition for a stay must accompany your notice of appeal. A petition for a stay is required to show sufficient justification based on the standards listed below. Copies of the notice of appeal and petition for a stay must also be submitted to each party named in this decision and to the Interior Board of Land Appeals and to the appropriate Office of the Solicitor (see 43 CFR 4.413) at the same time the original documents are filed with this office. If you request a stay, you have the burden of proof to demonstrate that a stay should be granted.

Standards for Obtaining a Stay

Except as otherwise provided by law or other pertinent regulation, a petition for a stay of a decision pending appeal shall show sufficient justification based on the following standards:

- (1) The relative harm to the parties if the stay is granted or denied,
- (2) The likelihood of the appellant's success on the merits,
- (3) The likelihood of immediate and irreparable harm if the stay is not granted, and
- (4) Whether the public interest favors granting the stay.

This decision affects those claims shown in the block below

AMC370777, 371108 WHITE GOLD, VULTURE #5

MINING CLAIMS DECLARED FORFEITED

The mining claim(s) listed above have been declared forfeited for failure to file the required maintenance fee payment or small miner's maintenance fee waiver (waiver).

Claimants are required to pay an annual non-refundable maintenance fee of \$125, or submit a waiver, on or before September 1 of each year. These requirements were established by Title 30 United States Code (U.S.C.) 28-f-k, as amended, and Title 43 Code of Federal Regulations (CFR) 3834 and 3835.

A small miner's maintenance fee waiver was timely received; however, our records do not show receipt of an affidavit of labor on or before December 30, 2008. Therefore, the mining claims listed above are declared forfeited.

This decision does not relieve you of the liability for reclamation of all areas disturbed by your activities on lands encompassed by the subject mining claim(s) and/or site(s). After you complete the reclamation, you must notify the authorized officer of the appropriate surface managing agency so that the authorized officer may conduct a final site inspection and determine whether you may be released from liability.

ORDER

Walter Chadde has appealed from and petitioned for a stay of an April 4, 2008, decision of the Arizona State Office, Bureau of Land Management (BLM), declaring the Gimme Some association placer mining claim (AMC 370787) forfeited for failure to pay the \$125 per claim maintenance fee or to file a Maintenance Fee Payment Waiver Certification (Waiver Certification) on or before September 1, 2007, for the 2008 assessment year.

Because the record shows that appellant failed to pay the fee or file a Waiver Certification on or before September 1, 2007, we affirm BLM's decision and deny the petition for stay as moot.

Under 30 U.S.C. § 28f(a) (2000),² the holder of an unpatented mining claim, mill site, or tunnel site is required to pay a maintenance fee for each claim or site on or before September 1 of each year for the years 2004 through 2008. *See* 43 C.F.R. § 3834.11(a)(2). Payment of the claim maintenance fee is in lieu of the assessment work requirements of the Mining Law of 1872, 30 U.S.C. §§ 28-28e (2000), and the related filing requirements of section 314(a) of the Federal Land Policy and

Although BLM's decision states that the maintenance fee documents were due on Sept. 1, 2007, that day was a Saturday. The next business day was Tuesday, Sept. 4, 2007, Sept. 3 being Labor Day, a Federal holiday.

² Congress has amended 30 U.S.C. § 28f(a) (2000) twice in Department of the Interior and Related Agencies Appropriations Acts. The first, Pub. L. No. 107-63, 115 Stat. 414, 418-19 (2001), required payment of the claim maintenance fee on or before Sept. 1 of each year for the years 2002 and 2003, and the second, Pub. L. No. 108-108, 117 Stat. 1241, 1245 (2003), required payment of the claim maintenance fee on or before Sept. 1 of each year for the years 2004 through 2008.

The failure to pay the claim maintenance fee "shall conclusively constitute a forfeiture of the unpatented mining claim, mill or tunnel site by the claimant and the claim shall be deemed null and void by operation of law." 30 U.S.C. § 28i (2000); see 43 C.F.R. §§ 3830.91(a), 3835.92(a). Congress, however, provided the Secretary with discretion to waive the fee for a claimant who certified in writing that on the date the payment was due, the claimant and all related parties held not more than 10 mining claims, mill sites, or tunnel sites, or any combination thereof, on public lands and had performed assessment work required under the Mining Law of 1872, for the preceding assessment year ending at noon on September 1 of the calendar year in which payment of the claim maintenance fee is due. 30 U.S.C. § 28f(d)(1) (2000); see Audrey Bradbury, 160 IBLA 269, 273-74 (2003). BLM implemented this statute with a regulation that requires a claimant to file "BLM's waiver certification form on or before September 1 of each assessment year for which you are seeking a waiver." 43 C.F.R. § 3835.10(a).

Eight co-claimants located the claim on December 12, 2005, and filed a copy of the location notice with BLM for recordation on March 15, 2006. On August 4, 2006, they all quitclaimed their interest in the claim to appellant. On August 25, 2006, appellant timely filed a Waiver Certification with BLM for the 2007 assessment year. He also submitted an affidavit of labor for the 2006 assessment year, although such document was not required because the Mining Law does not require the performance of assessment work in the assessment year in which the claim was located, in this case the 2006 assessment year. *See* 43 C.F.R. § 3835.14(b) (claimant must file a notice of intent to hold, not an affidavit of labor, "on or before the December 30 immediately following the September 1st for which you applied for a waiver").

The case record does not contain a Waiver Certification filed on or before September 1, 2007, and no maintenance fee was paid on or before that date for the 2008 assessment year. The record contains a copy of an envelope postmarked September 10, 2007, in which BLM apparently received from appellant, on September 13, 2007, an affidavit of labor for the claim and check for \$10.00 for the filing fee.

On appeal, appellant admits that he may not have submitted a 2008 Waiver Certification, but also suggests that it may have been included with his affidavit of labor and that BLM lost it. However, the absence of a legally significant document from BLM's public records gives rise to the presumption that it was never filed with

RECEIVED B.L.M. AZ STATE OFFICE

2008 AUG 14 A 7 22

BLM, since Federal Government employees are presumed to have properly performed their official duties and not lost or misplaced such a document. *John J. Trautner*, 165 IBLA 265, 270 (2005), and cases cited therein. Appellant offers no evidence to rebut this presumption.

Furthermore, even if appellant had submitted a Waiver Certification in the envelope postmarked September 10, 2007, the filing was untimely and the claim would be forfeited. The regulation at 43 C.F.R. § 3830.5 defines "[f]iled" as either received by BLM by the due date or postmarked by the due date and received within 15 days thereafter. Appellant's envelope was postmarked well after the due date.

BLM and this Board are without authority to excuse lack of compliance with the maintenance fee requirement of the Act, to extend the time for compliance, or to afford any relief from the statutory consequences. *Richard W. Cahoon Family Limited Partnership*, 139 IBLA 323, 326 (1997). In the absence of a timely-filed maintenance fee payment or Waiver Certification, BLM properly declared the claim forfeited by operation of law. 43 C.F.R. § 3835.92(a); *see Joe Bob Hall*, 135 IBLA 284, 286 (1996); *Alamo Ranch Co.*, 135 IBLA 61, 76 (1996).

Accordingly, pursuant to the authority delegated to the Board of Land Appeals by the Secretary of the Interior, 43 C.F.R. § 4.1, the decision is affirmed. The petition for stay is denied as moot.

NOTICE OF APPEAL

RE: #3800 (AZ-933) TSAM C 370774

In regards to claim: AMC370787

"Gimme Some", owner: Walter Chadde
Appellant.

Appellant purchased this 160 acre claim via E-Bay in August 2006 for USD \$1500.00 and recorded this ownership with a deed in Yavapai USD \$1500.00 and recorded this ownership with a deed in Yavapai County, Arizona.

Thus, this claim is real property and involuntary forfiture without just compensation, or "seizure" without due process, or the unusual of punishment of forfiture due to a lost form, (while the filing fee was paid attachment one) or the administrative process instead of a jury trial - since the value in contraversy exceeds twenty dollars, is in violation of the Constitutional Amendments below:

VISCOUNT OF THE PERSON OF THE

rules of the common law.

Amendment VIII

Excessive bail shall not be required, nor excessive fines imposed, nor cruel and <u>unusual punishments</u> inflicted.

1) Sequence of Events:

Appellant filled a timely notorized affidavit of assessment work with a \$10.00 fee. This was recorded and the appelants check for \$10.00 (attachment one) was

cashed verifying that the annual work assessment was accepted and all was in order. Attachment one shows the cashed check as de jure acceptance of the small maintenance fee waiver by the BLM.

Appellant was not notified by the BLM that anything was unacceptable until April 2008, a full seven months after the BLM cashed my filing fee to show de jure

acceptance of appellants "affidavit of assesment".

A phone call to appellant, by Tony Smith, claimed that seven months prior I did not file a form 3830-2, which is a kind of "envelope" for the "affidavit" which I did file and pay the fee.

Form 3830-2 requires no notorizations, no filing fee, in fact it is redundant. The "affidavit" Form MCF108, and should be abolished by the paperwork act of 1995. Even if the absence of this form had any relevance to the affected, affidavit by the applicant should have been notified in Sept. of 2007 and at worse been "denied qualification of the waiver" and accessed the \$125.00 fee in timely manner.

Appellant further admits that he cannot prove he mailed the form 3830-2 to the BLM, yet the other possibilities below exist:

- 1) The form was lost in the mail
- 2) The form was lost by the BLM

Nevertheless if this form was of any importance to the "affidavit" applellant should have been notified in Sept. 2007 that his affidavit was not acceptable and he was being accessed the \$125.00 fee.

Instead, the check to the BLM (attachment) was cashed and the BLM acceptance stamps were placed on the "Affidavit".

Further a current form 3830-2 was filled for 2008 and accepted by BLM along with a current "affidavit" also accepted. See attachment two. Appellant is current with fulfillment of this claim and seizure forfiture attempt of 2007 should be annulled.

RECEIVED B.L.M. AZ STATE OFFICE

2008 AUG 14 A 7 23

Summary:

Appellant has had his property seized and forfeited because of an insignificant form was lost either by the appellant, the US Mail, or the BLM itself. To lose real property for such a "reason" is totally absurd and in violation of all the Bill of Rights amendments listed above.

This appeal should restore appellants mining claim and for the public good prevent the BLM ruling by fiat in future and subject itself to the constitution law of the United States.

Petition for Stay

RE: #3800 (AZ-933) TSAM C 370774

In regards to claim: AMC370787

"Gimme Some", owner: Walter Chadde

Appellant.

A stay for implementing the fortitures of my property AMC370787 "Gimme Some" should be granted based on reasons below:

- 1) The relative harm to the parties if stay is granted or denied. Appellant would suffer the lost of use of this mining claim and the value of the claim.
- 2) The likilihood of the appellant's success on the merits. Appellant believes the forfiture is in violation of the Amendments IV, V, VII, and VIII of the U.S. Constitution and in time will be vindicated.
- 3) The likilihood of immediate and irrepairable harm if the stay is not granted. Appellant claim could be open for claim by another party and he will never be able to redeem it even if he is successful with this appeal.
- 4) Whether the public interest favors granting the stay. The rule of constitutional law in in the public interest. Action must be taken to prevent the BLM from ruling by fiat and seizing property for petty, trivial reasons and violating the people's Bill of Rights to the U.S. Constitution.

The mining claims listed above have been declared forfeited for failure to file the required maintenance fee payment or small miner's maintenance fee waiver (waiver).

Claimants are required to pay an annual non refundable maintenance fee of \$125, or submit a waiver, on or before September 1 of each year. These requirements were established by 30 (United States Code) 28-f-k, as amended, and 43 Code of Federal Regulations (CFR) 3834 and 3835.

An affidavit of assessment work for the subject mining claims was timely received; however, our records do not show receipt of a waiver or a maintenance fee payment on or before September 1, 2007, for the 2008 assessment year. Therefore, the mining claims listed above are declared forfeited.

This decision does not relieve you of the liability for reclamation of all areas disturbed by your activities on lands encompassed by the subject mining claim(s) and/or site(s). After you complete the reclamation, you must notify the authorized officer of the appropriate surface managing agency so that

the authorized officer may conduct a final site inspection and determine whether you may be released from liability. If you fail to reclaim the land to the satisfaction of the authorized officer, the surface management agency may cite you for noncompliance under its surface management regulations.

For land administered by the Bureau of Land Management (BLM), if you fail to reclaim the land to the satisfaction of the authorized officer as required in 43 CFR Subpart 3809, BLM will issue an order of noncompliance under 43 CFR 3809.601(a). If you fail to comply with the noncompliance order, BLM may take further action under 43 CFR 3809.604. Failure to conduct reclamation is a prohibited act that may subject you to criminal penalties. See 43 CFR 3809.605(h) and 43 CFR 3809.700.

This decision may be appealed to the Interior Board of Land Appeals, Office of the Secretary, in accordance with the regulations contained in 43 CFR, Part 4, and the enclosed Form 1842-1. If an appeal is taken, your notice of appeal must be filed in this office (at the above address) within 30 days from receipt of this decision. The appellant has the burden of showing that the decision appealed from is in error.

If you wish to file a petition pursuant to regulation 43 CFR 4.21 (58 FR 4939, January 19, 1993) for a stay of the effectiveness of this decision during the time that your appeal is being reviewed by the Board, the petition for a stay must accompany your notice of appeal. A petition for a stay is required to show sufficient justification based on the standards listed below. Copies of the notice of appeal and petition for a stay must also be submitted to each party named in this decision and to the Interior Board of Land Appeals and to the appropriate Office of the Solicitor (see 43 CFR 4.413) at the same time the original documents are filed with this office. If you request a stay, you have the burden of proof to demonstrate that a stay should be granted.

Standards for Obtaining a Stay

Except as otherwise provided by law or other pertinent regulation, a petition for a stay of a decision pending appeal shall show sufficient justification based on the following standards:

- (1) The relative harm to the parties if the stay is granted or denied,
- (2) The likelihood of the appellant's success on the merits,
- (3) The likelihood of immediate and irreparable harm if the stay is not granted, and
- (4) Whether the public interest favors granting the stay.

INSTRUCTIONS

- This certification is made under the provisions of § 1744 of Title 43 and § 28-28k of Title 30 of the United States Code; and the regulations thereunder (43 CER Part 3830)
- The claimant(s) must fill in the dates in paragraph 1 for the beginning and ending of the assessment year for which this waiver is sought.
- The claimant(s) must fill in the date in paragraph 2 for the beginning of the assessment year for which this waiver is sought.
- All claim and site names and Bureau of Land Management (BLM) serial numbers must be listed for the mining claims, mill sites, and tunnel sites for which the waiver is sought.
- All owners of the mining claims, mill sites, and tunnel sites and their addresses must be given.
- 6. This waiver form must be signed by all the claimants or their designated agent, in original form. If an agent is designated, a notarized designation of agent, signed by all of the claimants with proper address given, must be submitted with this waiver.
- 7. This form must be filed no later than September 1st for the upcoming assessment year in the BLM State Office where the mining claims or sites are recorded, or the waiver cannot be granted by the BLM. (Example: to obtain a waiver for the assessment year 2000, which begins at noon on September 1, 1999, you must qualify for and file for a waiver no later than September 1, 1999, in the proper BLM State Office).
- 8. For all mining claims which require assessment work, you must record an affidavit of labor on or before the December 30th immediately following the filing of this waiver. For all other mining claims or sites waived, you must record a notice of intent to hold on or before the December 30th immediately following the filing of this waiver.
- 9. Mill and tunnel sites may also be listed upon this waiver and be waived from payment of the maintenance fee. A notice of intent to hold for these sites is required to be filed by the December 30th following the filing of this waiver.

NOTICE/BURDEN HOURS STATEMENT

The Privacy Act of 1974, as amended, and the regulation in 43 CFR 2.48(d) provide that you be furnished the following information in connection with the information required by this certification of waiver from rental fees.

AUTHORITY: 30 U.S.C. 28-28k; 43 U.S.C. 1201, 1457, 1740, and 1744; and 43 CFP 3830

PRINCIPLE PURPOSE: This information is to be used to verify that the owner(s) (claimants) of a mining claim has complied with 30 U.S.C. 28f and is entitled to perform assessment work in lieu of paying the maintenance fee for the mining claims listed on this form.

ROUTINE USE: (1) Adjudication of the claimant(s) certification of waiver from paying the maintenance fee otherwise required by 30 U.S.C. 28f. (2) Disclosure may be made to appropriate Federal agencies when location is made within the agency's geographic area of responsibility. (3) Information from the record and/or the record will be transferred to the appropriate Federal, State, or local agency, or a member of the public in response to a specific request for pertinent information. (4) Information may also be provided to the Department of Justice or in a proceeding before a court or adjudicative body; or to Federal, State, local or foreign agencies when needed for enforcement of civil or criminal codes or applicable regulations concerning title rights upon the public land.

EFFECT OF NOT PROVIDING INFORMATION: Disclosure of this information is required by 30 U.S.C. 28f and 43 CFR Part 3830 for those qualified claimants wishing to take the small miner waiver allowed. Failure to supply the information required in this form to support the claimants certification of waiver from payment of the otherwise required maintenance fees will result in the waiver being disallowed and the mining claims subject to forfeiture by BLM under 30 U.S.C. 28i.

The Paperwork Reduction Act of 1995 requires us to inform you that:

This information is being collected to allow the BLM to determine if you qualify for a waiver from the payment of \$100 per mining claim or site maintenance fee established in 30 U.S.C. 28f and the implementing regulations at 43 CFR 3830. A response to this request is required in accordance with the statute to obtain your benefit.

BLM would like you to know that you do not have to respond to this, or any other, Federal agency-sponsored information collection unless it displays a currently valid OMB control number.

Public reporting burden for this form is estimated to average 20 minutes (.33 hours) per response, including time to review instructions, gathering and maintaining data, and completing and reviewing the form. Direct comments regarding this burden estimate, or any other aspect of this form, to the U.S. Department of the Interior, Bureau of Land Management, (1004-0114) Bureau Information Collection Clearance Officer (WO-630), Mail Stop 401 LS, 1849 C St, N.W., Washington, D.C. 20240.

ORDER

Walter Chadde has appealed from and petitioned for a stay of an April 4, 2008, decision of the Arizona State Office, Bureau of Land Management (BLM), declaring the Gimme Some association placer mining claim (AMC 370787) forfeited for failure to pay the \$125 per claim maintenance fee or to file a Maintenance Fee Payment Waiver Certification (Waiver Certification) on or before September 1, 2007, for the 2008 assessment year.

Because the record shows that appellant failed to pay the fee or file a Waiver Certification on or before September 1, 2007, we affirm BLM's decision and deny the petition for stay as moot.

Under 30 U.S.C. § 28f(a) (2000), the holder of an unpatented mining claim, mill site, or tunnel site is required to pay a maintenance fee for each claim or site on or before September 1 of each year for the years 2004 through 2008. *See* 43 C.F.R. § 3834.11(a)(2). Payment of the claim maintenance fee is in lieu of the assessment work requirements of the Mining Law of 1872, 30 U.S.C. §§ 28-28e (2000), and the related filing requirements of section 314(a) of the Federal Land Policy and

Although BLM's decision states that the maintenance fee documents were due on Sept. 1, 2007, that day was a Saturday. The next business day was Tuesday, Sept. 4, 2007, Sept. 3 being Labor Day, a Federal holiday.

² Congress has amended 30 U.S.C. § 28f(a) (2000) twice in Department of the Interior and Related Agencies Appropriations Acts. The first, Pub. L. No. 107-63, 115 Stat. 414, 418-19 (2001), required payment of the claim maintenance fee on or before Sept. 1 of each year for the years 2002 and 2003, and the second, Pub. L. No. 108-108, 117 Stat. 1241, 1245 (2003), required payment of the claim maintenance fee on or before Sept. 1 of each year for the years 2004 through 2008.

Management Act of 1976 (FLPMA), 43 U.S.C. § 1744(a) (2000), for the upcoming assessment year that begins at noon on September 1 of the year payment is due. *See* 30 U.S.C. § 28f(a) and (b) (2000); 43 C.F.R. § 3834.11(a).

The failure to pay the claim maintenance fee "shall conclusively constitute a forfeiture of the unpatented mining claim, mill or tunnel site by the claimant and the claim shall be deemed null and void by operation of law." 30 U.S.C. § 28i (2000); see 43 C.F.R. §§ 3830.91(a), 3835.92(a). Congress, however, provided the Secretary with discretion to waive the fee for a claimant who certified in writing that on the date the payment was due, the claimant and all related parties held not more than 10 mining claims, mill sites, or tunnel sites, or any combination thereof, on public lands and had performed assessment work required under the Mining Law of 1872, for the preceding assessment year ending at noon on September 1 of the calendar year in which payment of the claim maintenance fee is due. 30 U.S.C. § 28f(d)(1) (2000); see Audrey Bradbury, 160 IBLA 269, 273-74 (2003). BLM implemented this statute with a regulation that requires a claimant to file "BLM's waiver certification form on or before September 1 of each assessment year for which you are seeking a waiver." 43 C.F.R. § 3835.10(a).

Eight co-claimants located the claim on December 12, 2005, and filed a copy of the location notice with BLM for recordation on March 15, 2006. On August 4, 2006, they all quitclaimed their interest in the claim to appellant. On August 25, 2006, appellant timely filed a Waiver Certification with BLM for the 2007 assessment year. He also submitted an affidavit of labor for the 2006 assessment year, although such document was not required because the Mining Law does not require the performance of assessment work in the assessment year in which the claim was located, in this case the 2006 assessment year. *See* 43 C.F.R. § 3835.14(b) (claimant must file a notice of intent to hold, not an affidavit of labor, "on or before the December 30 immediately following the September 1st for which you applied for a waiver").

The case record does not contain a Waiver Certification filed on or before September 1, 2007, and no maintenance fee was paid on or before that date for the 2008 assessment year. The record contains a copy of an envelope postmarked September 10, 2007, in which BLM apparently received from appellant, on September 13, 2007, an affidavit of labor for the claim and check for \$10.00 for the filing fee.

On appeal, appellant admits that he may not have submitted a 2008 Waiver Certification, but also suggests that it may have been included with his affidavit of labor and that BLM lost it. However, the absence of a legally significant document from BLM's public records gives rise to the presumption that it was never filed with

BLM, since Federal Government employees are presumed to have properly performed their official duties and not lost or misplaced such a document. *John J. Trautner*, 165 IBLA 265, 270 (2005), and cases cited therein. Appellant offers no evidence to rebut this presumption.

Furthermore, even if appellant had submitted a Waiver Certification in the envelope postmarked September 10, 2007, the filing was untimely and the claim would be forfeited. The regulation at 43 C.F.R. § 3830.5 defines "[f]iled" as either received by BLM by the due date or postmarked by the due date and received within 15 days thereafter. Appellant's envelope was postmarked well after the due date.

BLM and this Board are without authority to excuse lack of compliance with the maintenance fee requirement of the Act, to extend the time for compliance, or to afford any relief from the statutory consequences. *Richard W. Cahoon Family Limited Partnership*, 139 IBLA 323, 326 (1997). In the absence of a timely-filed maintenance fee payment or Waiver Certification, BLM properly declared the claim forfeited by operation of law. 43 C.F.R. § 3835.92(a); *see Joe Bob Hall*, 135 IBLA 284, 286 (1996); *Alamo Ranch Co.*, 135 IBLA 61, 76 (1996).

Accordingly, pursuant to the authority delegated to the Board of Land Appeals by the Secretary of the Interior, 43 C.F.R. § 4.1, the decision is affirmed. The petition for stay is denied as moot.

NOTICE OF APPEAL

RE: #3800 (AZ-933) TSAM C 370774

In regards to claim: AMC370787

"Gimme Some", owner: Walter Chadde

Appellant.

Appellant purchased this 160 acre claim via E-Bay in August 2006 for USD \$1500.00 and recorded this ownership with a deed in Yavapai County, Arizona.

Thus, this claim is real property and involuntary forfiture without just compensation, or "seizure" without due process, or the unusual of punishment of forfiture due to a lost form, (while the filing fee was paid - attachment one) or the administrative process instead of a jury trial - since the value in contraversy exceeds twenty dollars, is in violation of the Constitutional Amendments below:

Amendment IV

The right of the people to be secure in their person, houses, papers and effects, against <u>unreasonable searches and seizures</u>, shall not be violated, and no warrents

shall issue, but upon probable cause, supported by oath or affirmation, and particularly describing the place to be searched, and the person or things to be seized.

Amendment V

No person shall be held to answer for a capital, or otherwise infamous crime, unless

on a presentment or indictment of a grand jury, except in cases arising in the land

or naval forces, or in the militia, when in actual service in time of war or public danger; nor shall any person be subject for the same offense to be twice put in jeopardy of life or limb; nor shall be compelled in any criminal case to be a witness

against himself, <u>nor be deprived of life, liberty, or property, without due process</u> <u>of</u>

law; nor shall private property be taken for public use, without due compensation.

Amendment VII

In suits at common law, where the value in controversy shall exceed twenty dollars,

the right of trial by jury shall be preserved, and no fact tried by a jury, shall be otherwise reexamined in any court of the United States, than according to the

RECEIVED BLM AZ STATE OFFICE rules of the common law.

Amendment VIII

Excessive bail shall not be required, nor excessive fines imposed, nor cruel and unusual punishments inflicted.

1) Sequence of Events:

Appellant filled a timely notorized affidavit of assessment work with a \$10.00 fee. This was recorded and the appelants check for \$10.00 (attachment) fee. This was recorded and the appelants check for \$10.00 (attachment one)

cashed verifying that the annual work assessment was accepted and all was in order. Attachment one shows the cashed check as de jure acceptance of the small maintenance fee waiver by the BLM.

Appellant was not notified by the BLM that anything was unacceptable until April 2008, a full seven months after the BLM cashed my filing fee to show de jure

acceptance of appellants "affidavit of assesment".

A phone call to appellant, by Tony Smith, claimed that seven months prior I did not file a form 3830-2, which is a kind of "envelope" for the "affidavit" which I did file and pay the fee.

Form 3830-2 requires no notorizations, no filing fee, in fact it is redundant. The "affidavit" Form MCF108, and should be abolished by the paperwork act of 1995. Even if the absence of this form had any relevance to the affected, affidavit by the applicant should have been notified in Sept. of 2007 and at worse been "denied qualification of the waiver" and accessed the \$125.00 fee in timely manner.

Appellant further admits that he cannot prove he mailed the form 3830-2 to the BLM, yet the other possibilities below exist:

- 1) The form was lost in the mail
- 2) The form was lost by the BLM

Nevertheless if this form was of any importance to the "affidavit" applellant should have been notified in Sept. 2007 that his affidavit was not acceptable and he was being accessed the \$125.00 fee. Instead, the check to the BLM (attachment) was cashed and the BLM acceptance stamps were placed on the "Affidavit".

Further a current form 3830-2 was filled for 2008 and accepted by BLM along with a current "affidavit" also accepted. See attachment two. Appellant is current with fulfillment of this claim and seizure forfiture attempt of 2007 should be annulled.

Summary:

Appellant has had his property seized and forfeited because of an insignificant form was lost either by the appellant, the US Mail, or the BLM itself. To lose real property for such a "reason" is totally absurd and in violation of all the Bill of Rights amendments listed above.

This appeal should restore appellants mining claim and for the public good prevent the BLM ruling by fiat in future and subject itself to the constitution law of the United States.

Petition for Stay

RE: #3800 (AZ-933) TSAM C 370774

In regards to claim: AMC370787

"Gimme Some", owner: Walter Chadde

Appellant.

A stay for implementing the fortitures of my property AMC370787 "Gimme Some" should be granted based on reasons below :

- 1) The relative harm to the parties if stay is granted or denied. Appellant would suffer the lost of use of this mining claim and the value of the claim.
- 2) The likilihood of the appellant's success on the merits. Appellant believes the forfiture is in violation of the Amendments IV, V, VII, and VIII of the U.S. Constitution and in time will be vindicated.
- 3) The likilihood of immediate and irrepairable harm if the stay is not granted.

 Appellant claim could be open for claim by another party and he will never be able to redeem it even if he is successful with this appeal.
- 4) Whether the public interest favors granting the stay. The rule of constitutional law in in the public interest. Action must be taken to prevent the BLM from ruling by fiat and seizing property for petty, trivial reasons and violating the people's Bill of Rights to the U.S. Constitution.

DECISION

CHADDE WALTER 33575 S TOPAZ RD	:	This decision af in the block belo		ose cla	aims shov	vn

	ING CLAIMS RED FORFEI	_	ARIZONA	P 1: 42	VED TE OFFICE	

The mining claims listed above have been declared forfeited for failure to file the required maintenance fee payment or small miner's maintenance fee waiver (waiver).

Claimants are required to pay an annual non refundable maintenance fee of \$125, or submit a waiver, on or before September 1 of each year. These requirements were established by 30 (United States Code) 28-f-k, as amended, and 43 Code of Federal Regulations (CFR) 3834 and 3835.

An affidavit of assessment work for the subject mining claims was timely received; however, our records do not show receipt of a waiver or a maintenance fee payment on or before September 1, 2007, for the 2008 assessment year. Therefore, the mining claims listed above are declared forfeited.

This decision does not relieve you of the liability for reclamation of all areas disturbed by your activities on lands encompassed by the subject mining claim(s) and/or site(s). After you complete the reclamation, you must notify the authorized officer of the appropriate surface managing agency so that

the authorized officer may conduct a final site inspection and determine whether you may be released from liability. If you fail to reclaim the land to the satisfaction of the authorized officer, the surface management agency may cite you for noncompliance under its surface management regulations.

For land administered by the Bureau of Land Management (BLM), if you fail to reclaim the land to the satisfaction of the authorized officer as required in 43 CFR Subpart 3809, BLM will issue an order of noncompliance under 43 CFR 3809.601(a). If you fail to comply with the noncompliance order, BLM may take further action under 43 CFR 3809.604. Failure to conduct reclamation is a prohibited act that may subject you to criminal penalties. See 43 CFR 3809.605(h) and 43 CFR 3809.700.

This decision may be appealed to the Interior Board of Land Appeals, Office of the Secretary, in accordance with the regulations contained in 43 CFR, Part 4, and the enclosed Form 1842-1. If an appeal is taken, your notice of appeal must be filed in this office (at the above address) within 30 days from receipt of this decision. The appellant has the burden of showing that the decision appealed from is in error.

If you wish to file a petition pursuant to regulation 43 CFR 4.21 (58 FR 4939, January 19, 1993) for a stay of the effectiveness of this decision during the time that your appeal is being reviewed by the Board, the petition for a stay must accompany your notice of appeal. A petition for a stay is required to show sufficient justification based on the standards listed below. Copies of the notice of appeal and petition for a stay must also be submitted to each party named in this decision and to the Interior Board of Land Appeals and to the appropriate Office of the Solicitor (see 43 CFR 4.413) at the same time the original documents are filed with this office. If you request a stay, you have the burden of proof to demonstrate that a stay should be granted.

Standards for Obtaining a Stay

Except as otherwise provided by law or other pertinent regulation, a petition for a stay of a decision pending appeal shall show sufficient justification based on the following standards:

- (1) The relative harm to the parties if the stay is granted or denied,
- (2) The likelihood of the appellant's success on the merits,
- (3) The likelihood of immediate and irreparable harm if the stay is not granted, and
- (4) Whether the public interest favors granting the stay.

Please include your AMC serial number(s) on all correspondence. If additional information is required, please call Tony Smith at 602-417-9355.

- The claimant(s) must fill in the dates in paragraph 1 for the beginning and ending of the assessment year for which this waiver is sought.
- The claimant(s) must fill in the date in paragraph 2 for the beginning of the assessment year for which this waiver is sought.
- All claim and site names and Bureau of Land Management (BLM) serial numbers must be listed for the mining claims, mill sites, and tunnel sites for which the waiver is sought.
- All owners of the mining claims, mill sites, and tunnel sites and their addresses must be given.
- 6. This waiver form must be signed by all the claimants or their designated agent, in original form. If an agent is designated, a notarized designation of agent, signed by all of the claimants with proper address given, must be submitted with this waiver.
- 7. This form must be filed no later than September 1st for the upcoming assessment year in the BLM State Office where the mining claims or sites are recorded, or the waiver cannot be granted by the BLM. (Example: to obtain a waiver for the assessment year 2000, which begins at noon on September 1, 1999, you must qualify for and file for a waiver no later than September 1, 1999, in the proper BLM State Office).
- 8. For all mining claims which require assessment work, you must record an affidavit of labor on or before the December 30th immediately following the filing of this waiver. For all other mining claims or sites waived, you must record a notice of intent to hold on or before the December 30th immediately following the filing of this waiver.
- 9. Mill and tunnel sites may also be listed upon this waiver and be waived from payment of the maintenance fee. A notice of intent to hold for these sites is required to be filed by the December 30th following the filing of this waiver.

NOTICE/BURDEN HOURS STATEMENT

The Privacy Act of 1974, as amended, and the regulation in 43 CFR 2.48(d) provide that you be furnished the following information in connection with the information required by this certification of waiver from rental fees.

AUTHORITY: 30 U.S.C. 28-28k; 43 U.S.C. 1201, 1457, 1740, and 1744; and 43 CFR 3830.

PRINCIPLE PURPOSE: This information is to be used to verify that the owner(s) (claimants) of a mining claim has complied with 30 U.S.C. 28f and is entitled to perform assessment work in lieu of paying the maintenance fee for the mining claims listed on this form.

ROUTINE USE: (1)Adjudication of the claimant(s) certification of waiver from paying the maintenance fee otherwise required by 30 U.S.C. 28f. (2) Disclosure may be made to appropriate Federal agencies when location is made within the agency's geographic area of responsibility. (3) Information from the record and/or a member of the public in response to a specific request for pertinent information. (4) Information may also be provided to the Department of Justice or in a proceeding before a court or adjudicative body; or to Federal, State, local or foreign agencies when needed for enforcement of civil or criminal codes or applicable regulations concerning title rights upon the public land.

EFFECT OF NOT PROVIDING INFORMATION: Disclosure of this information is required by 30 U.S.C. 28f and 43 CFR Part 3830 for those qualified claimants wishing to take the small miner waiver allowed. Failure to supply the information required in this form to support the claimants certification of waiver from payment of the otherwise required maintenance fees will result in the waiver being disallowed and the mining claims subject to forfeiture by BLM under 30 U.S.C. 28i.

The Paperwork Reduction Act of 1995 requires us to inform you that:

This information is being collected to allow the BLM to determine if you qualify for a waiver from the payment of \$100 per mining claim or site maintenance fee established in 30 U.S.C. 28f and the implementing regulations at 43 CFR 3830. A response to this request is required in accordance with the statute to obtain your benefit.

BLM would like you to know that you do not have to respond to this, or any other, Federal agency-sponsored information collection unless it displays a currently valid OMB control number.

Public reporting burden for this form is estimated to average 20 minutes (.33 hours) per response, including time to review instructions, gathering and maintaining data, and completing and reviewing the form. Direct comments regarding this burden estimate, or any other aspect of this form, to the U.S. Department of the Interior, Bureau of Land Management, (1004-0114) Bureau Information Collection Clearance Officer (WO-630), Mail Stop 401 LS, 1849 C St., NW., Washington, D.C. 20240.

MINING CLAIMS DECLARED FORFEITED

The mining claims listed above have been declared forfeited for failure to file the required maintenance fee payment or small miner's maintenance fee waiver (waiver).

Claimants are required to pay an annual non-refundable maintenance fee of \$125, or submit a waiver, on or before September 1 of each year. These requirements were established by 30 (United States Code) 28-f-k, as amended, and 43 Code of Federal Regulations (CFR) 3834 and 3835.

An affidavit of assessment work for the subject mining claims was timely received; however, our records do not show receipt of a waiver or a maintenance fee payment on or before September 1, 2007, for the 2008 assessment year. Therefore, the mining claims listed above are declared forfeited.

This decision does not relieve you of the liability for reclamation of all areas disturbed by your activities on lands encompassed by the subject mining claim(s) and/or site(s). After you complete the reclamation, you must notify the authorized officer of the appropriate surface managing agency so that

the authorized officer may conduct a final site inspection and determine whether you may be released from liability. If you fail to reclaim the land to the satisfaction of the authorized officer, the surface management agency may cite you for noncompliance under its surface management regulations.

For land administered by the Bureau of Land Management (BLM), if you fail to reclaim the land to the satisfaction of the authorized officer as required in 43 CFR Subpart 3809, BLM will issue an order of noncompliance under 43 CFR 3809.601(a). If you fail to comply with the noncompliance order, BLM may take further action under 43 CFR 3809.604. Failure to conduct reclamation is a prohibited act that may subject you to criminal penalties. See 43 CFR 3809.605(h) and 43 CFR 3809.700.

This decision may be appealed to the Interior Board of Land Appeals, Office of the Secretary, in accordance with the regulations contained in 43 CFR, Part 4, and the enclosed Form 1842-1. If an appeal is taken, your notice of appeal must be filed in this office (at the above address) within 30 days from receipt of this decision. The appellant has the burden of showing that the decision appealed from is in error.

If you wish to file a petition pursuant to regulation 43 CFR 4.21 (58 FR 4939, January 19, 1993) for a stay of the effectiveness of this decision during the time that your appeal is being reviewed by the Board, the petition for a stay must accompany your notice of appeal. A petition for a stay is required to show sufficient justification based on the standards listed below. Copies of the notice of appeal and petition for a stay must also be submitted to each party named in this decision and to the Interior Board of Land Appeals and to the appropriate Office of the Solicitor (see 43 CFR 4.413) at the same time the original documents are filed with this office. If you request a stay, you have the burden of proof to demonstrate that a stay should be granted.

Standards for Obtaining a Stay

Except as otherwise provided by law or other pertinent regulation, a petition for a stay of a decision pending appeal shall show sufficient justification based on the following standards:

- (1) The relative harm to the parties if the stay is granted or denied,
- (2) The likelihood of the appellant's success on the merits,
- (3) The likelihood of immediate and irreparable harm if the stay is not granted, and
- (4) Whether the public interest favors granting the stay.

Please include your AMC serial number(s) on all correspondence. If additional information is required, please call Tony Smith at 602-417-9355.

Maintenance Fee Waiver Certifications Denied Mining Claims Declared Forfeited

A notice, dated November 7, 2007, was sent to you requesting additional information regarding 87 mining claims for which Maintenance Fee Waiver Certifications (waivers) for the 2008 assessment year were filed. The information was required to be provided within 60 days of your receipt of the notice or the waivers would be denied and the claims would be declared forfeited. We received the requested information from David G. Jones regarding his nine claims (AMC361189, 364283, 364284, 365247, 365248, 369710, 369951, 369956, and 371720). Therefore, his claims have been removed from the list. We did not receive the requested information on the other 78 claims within the 60-day timeframe, which ended January 6, 2008. Therefore, the waivers are denied, and the 78 mining claims listed above are hereby declared forfeited.

This decision does not relieve you of the liability for reclamation of all areas disturbed by your activities on lands covered by the subject mining claim(s) and/or site(s). After you complete the reclamation, you must notify the authorized officer of the appropriate surface managing agency so that the authorized officer may conduct a final site inspection and determine whether you may be released from liability.

If you fail to reclaim the land to the satisfaction of the authorized officer, the surface management agency may cite you for noncompliance under its surface management regulations. For land administered by the Bureau of Land Management (BLM), if you fail to reclaim the land to the satisfaction of the authorized officer as required in 43 C.F.R. Subpart 3809, BLM will issue an order of noncompliance under 43 C.F.R. 3809.601(a). If you fail to comply with the noncompliance order, BLM may take further action under 43 C.F.R. 3809.604.

Failure to conduct reclamation is a prohibited act that may subject you to criminal penalties. See 43 C.F.R. 3809.605(h) and 43 C.F.R. 3809.700. This decision may be appealed to the Interior Board of Land Appeals, Office of the Secretary, in accordance with the regulations contained in 43 C.F.R., Part 4, and the enclosed Form 1842-1. If an appeal is taken, your notice of appeal must be filed in this office (at the above address) within 30 days from receipt of this decision. The appellant has the burden of showing that the decision appealed from is in error.

If you wish to file a petition pursuant to regulation 43 C.F.R. 4.21 (58 FR 4939, January 19, 1993) for a stay of the effectiveness of this decision during the time that your appeal is being reviewed by the Board, the petition for a stay must accompany your notice of appeal. A petition for a stay is required to show sufficient justification based on the standards listed below. Copies of the notice of appeal and petition for a stay must also be submitted to each party named in this decision and to the Interior Board of Land Appeals and to the appropriate Office of the Solicitor (see 43 C.F.R. 4.413) at the same time the original documents are filed with this office. If you request a stay, you have the burden of proof to demonstrate that a stay should be granted.

Standards for Obtaining a Stay

Except as otherwise provided by law or other pertinent regulation, a petition for a stay of a decision pending appeal shall show sufficient justification based on the following standards:

- (1) The relative harm to the parties if the stay is granted or denied,
- (2) The likelihood of the appellant's success on the merits,
- (3) The likelihood of immediate and irreparable harm if the stay is not granted, and
- (4) Whether the public interest favors granting the stay.

If you have any questions about this Decision, please contact Amy Bunda at 602-417-9334. Please include your AMC serial number(s) on all correspondence.

MINING CLAIMS DECLARED FORFEITED

The mining claims listed above have been declared forfeited for failure to file the required maintenance fee payment or small miner's maintenance fee waiver (waiver).

Claimants are required to pay an annual non-refundable maintenance fee of \$125, or submit a waiver, on or before September 1 of each year. These requirements were established by 30 (United States Code) 28-f-k, as amended, and 43 Code of Federal Regulations (CFR) 3834 and 3835.

An affidavit of assessment work for the subject mining claims was timely received; however, our records do not show receipt of a waiver or a maintenance fee payment on or before September 1, 2007, for the 2008 assessment year. Therefore, the mining claims listed above are declared forfeited.

This decision does not relieve you of the liability for reclamation of all areas disturbed by your activities on lands encompassed by the subject mining claim(s) and/or site(s). After you complete the reclamation, you must notify the authorized officer of the appropriate surface managing agency so that

the authorized officer may conduct a final site inspection and determine whether you may be released from liability. If you fail to reclaim the land to the satisfaction of the authorized officer, the surface management agency may cite you for noncompliance under its surface management regulations.

For land administered by the Bureau of Land Management (BLM), if you fail to reclaim the land to the satisfaction of the authorized officer as required in 43 CFR Subpart 3809, BLM will issue an order of noncompliance under 43 CFR 3809.601(a). If you fail to comply with the noncompliance order, BLM may take further action under 43 CFR 3809.604. Failure to conduct reclamation is a prohibited act that may subject you to criminal penalties. See 43 CFR 3809.605(h) and 43 CFR 3809.700.

This decision may be appealed to the Interior Board of Land Appeals, Office of the Secretary, in accordance with the regulations contained in 43 CFR, Part 4, and the enclosed Form 1842-1. If an appeal is taken, your notice of appeal must be filed in this office (at the above address) within 30 days from receipt of this decision. The appellant has the burden of showing that the decision appealed from is in error.

If you wish to file a petition pursuant to regulation 43 CFR 4.21 (58 FR 4939, January 19, 1993) for a stay of the effectiveness of this decision during the time that your appeal is being reviewed by the Board, the petition for a stay must accompany your notice of appeal. A petition for a stay is required to show sufficient justification based on the standards listed below. Copies of the notice of appeal and petition for a stay must also be submitted to each party named in this decision and to the Interior Board of Land Appeals and to the appropriate Office of the Solicitor (see 43 CFR 4.413) at the same time the original documents are filed with this office. If you request a stay, you have the burden of proof to demonstrate that a stay should be granted.

Standards for Obtaining a Stay

Except as otherwise provided by law or other pertinent regulation, a petition for a stay of a decision pending appeal shall show sufficient justification based on the following standards:

- (1) The relative harm to the parties if the stay is granted or denied,
- (2) The likelihood of the appellant's success on the merits,
- (3) The likelihood of immediate and irreparable harm if the stay is not granted, and
- (4) Whether the public interest favors granting the stay.

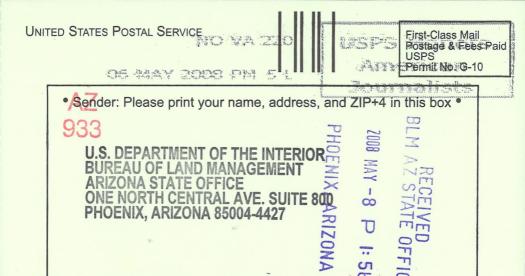

Please include your AMC serial number(s) on all correspondence. If additional information is required, please call Tony Smith at 602-417-9355.

<u>Maintenance Fee Waiver Certifications Denied</u> <u>Mining Claims Declared Forfeited</u>

The maintenance fee waiver certifications (small miner waivers) filed for the twenty claims listed above are denied. Because the waivers are denied and because the required maintenance fee payments due on or before September 1, 2007, were not paid, these claims are declared forfeited.

By September 1 of each year, claimants must pay an annual maintenance fee of \$125, in accordance with 43 C.F.R. 3000.12(a), 3830.21, and 3834.11(a)(2), or submit a valid waiver, in accordance with 43 C.F.R. 3835.1, 3835.10, and 3835.11. On August 27, 2007, we received

2 small miner waivers from Miners Creek covering 6 claims (AMC367202, AMC368609, AMC369022, AMC369023, AMC370741, and AMC370776), 1 small miner waiver from Gold Rush Mining covering 9 claims (AMC374698 through AMC374700, AMC374703 through AMC374705, and AMC375986 through AMC374988), and 1 small miner waiver from Jack Tucker covering 5 claims (AMC356037, AMC355449, AMC355909, AMC356109, and AMC357043). The waivers from Miners Creek and Gold Rush Mining were not signed. We did not receive the maintenance fees for these 20 claims on or before September 1, 2007.

To qualify for a small miner waiver, you and all related parties must hold no more than a total of 10 mining claims or sites nationwide. 43 C.F.R. 3835.1(b) and 3835.11(a)(1). "Related party means a) the spouse and dependent children of the claimant as defined in section 152 of the Internal Revenue Code of 1986 [26 U.S.C. section 152]; or, b) a person who controls, is controlled by, or is under common control with the claimant." "Control means actual control, legal control, or the power to exercise control, through or by common directors, officers, stockholders, a voting trust, or a holding company or investment company, or any other means." 43 C.F.R. 3830.5. The attached Arizona Corporation Commission documentation shows that Jack Tucker is the owner of both Miners Creek and Gold Rush Mining Company. Because Jack Tucker is in control of all of these 20 claims, you are not eligible for small miner waivers under 43 C.F.R. 3835.1(b) and 3835.11(a)(1).

In accordance with 43 C.F.R. 3835.92(d), because you and related parties submitted small miner waiver requests for more than 10 mining claims or sites and failed to pay the maintenance fee for each claim or site on or before the due date, you forfeit the mining claims or sites and may be subject to criminal penalties under 18 U.S.C. 1001.

This decision does not relieve you of the liability for reclamation of all areas disturbed by your activities on lands covered by the subject mining claim(s) and/or site(s). After you complete the reclamation, you must notify the authorized officer of the appropriate surface managing agency so that the authorized officer may conduct a final site inspection and determine whether you may be released from liability. If you fail to reclaim the land to the satisfaction of the authorized officer, the surface management agency may cite you for noncompliance under its surface management regulations. For land administered by the Bureau of Land Management (BLM), if you fail to reclaim the land to the satisfaction of the authorized officer as required in 43 C.F.R. Subpart 3809, BLM will issue an order of noncompliance under 43 C.F.R. 3809.601(a). If you fail to comply with the noncompliance order, BLM may take further action under 43 C.F.R. 3809.604. Failure to conduct reclamation is a prohibited act that may subject you to criminal penalties. See 43 C.F.R. 3809.605(h) and 43 C.F.R. 3809.700.

This decision may be appealed to the Interior Board of Land Appeals, Office of the Secretary, in accordance with the regulations contained in 43 C.F.R., Part 4 and the enclosed Form 1842-1. If an appeal is taken, your notice of appeal must be filed in this office (at the above address) within 30 days from receipt of this decision. The appellant has the burden of showing that the decision appealed from is in error.

If you wish to file a petition pursuant to regulation 43 C.F.R. 4.21 (58 FR 4939, January 19, 1993) for a stay of the effectiveness of this decision during the time that your appeal is being reviewed by the Board, the petition for a stay must accompany your notice of appeal. A petition

for a stay is required to show sufficient justification based on the standards listed below. Copies of the notice of appeal and petition for a stay must also be submitted to each party named in this decision and to the Interior Board of Land Appeals and to the appropriate Office of the Solicitor (see 43 C.F.R. 4.413) at the same time the original documents are filed with this office. If you request a stay, you have the burden of proof to demonstrate that a stay should be granted.

Standards for Obtaining a Stay

Except as otherwise provided by law or other pertinent regulation, a petition for a stay of a decision pending appeal shall show sufficient justification based on the following standards:

- (1) The relative harm to the parties if the stay is granted or denied,
- (2) The likelihood of the appellant's success on the merits,
- (3) The likelihood of immediate and irreparable harm if the stay is not granted, and
- (4) Whether the public interest favors granting the stay.

Maintenance Fee Waiver Certifications Denied Mining Claims Declared Forfeited

The maintenance fee waiver certifications (small miner waivers) filed for the twenty claims listed above are denied. Because the waivers are denied and because the required maintenance fee payments due on or before September 1, 2007, were not paid, these claims are declared forfeited.

By September 1 of each year, claimants must pay an annual maintenance fee of \$125, in accordance with 43 C.F.R. 3000.12(a), 3830.21, and 3834.11(a)(2), or submit a valid waiver, in accordance with 43 C.F.R. 3835.1, 3835.10, and 3835.11. On August 27, 2007, we received

2 small miner waivers from Miners Creek covering 6 claims (AMC367202, AMC368609, AMC369022, AMC369023, AMC370741, and AMC370776), 1 small miner waiver from Gold Rush Mining covering 9 claims (AMC374698 through AMC374700, AMC374703 through AMC374705, and AMC375986 through AMC374988), and 1 small miner waiver from Jack Tucker covering 5 claims (AMC356037, AMC355449, AMC355909, AMC356109, and AMC357043). The waivers from Miners Creek and Gold Rush Mining were not signed. We did not receive the maintenance fees for these 20 claims on or before September 1, 2007.

To qualify for a small miner waiver, you and all related parties must hold no more than a total of 10 mining claims or sites nationwide. 43 C.F.R. 3835.1(b) and 3835.11(a)(1). "Related party means a) the spouse and dependent children of the claimant as defined in section 152 of the Internal Revenue Code of 1986 [26 U.S.C. section 152]; or, b) a person who controls, is controlled by, or is under common control with the claimant." "Control means actual control, legal control, or the power to exercise control, through or by common directors, officers, stockholders, a voting trust, or a holding company or investment company, or any other means." 43 C.F.R. 3830.5. The attached Arizona Corporation Commission documentation shows that Jack Tucker is the owner of both Miners Creek and Gold Rush Mining Company. Because Jack Tucker is in control of all of these 20 claims, you are not eligible for small miner waivers under 43 C.F.R. 3835.1(b) and 3835.11(a)(1).

In accordance with 43 C.F.R. 3835.92(d), because you and related parties submitted small miner waiver requests for more than 10 mining claims or sites and failed to pay the maintenance fee for each claim or site on or before the due date, you forfeit the mining claims or sites and may be subject to criminal penalties under 18 U.S.C. 1001.

This decision does not relieve you of the liability for reclamation of all areas disturbed by your activities on lands covered by the subject mining claim(s) and/or site(s). After you complete the reclamation, you must notify the authorized officer of the appropriate surface managing agency so that the authorized officer may conduct a final site inspection and determine whether you may be released from liability. If you fail to reclaim the land to the satisfaction of the authorized officer, the surface management agency may cite you for noncompliance under its surface management regulations. For land administered by the Bureau of Land Management (BLM), if you fail to reclaim the land to the satisfaction of the authorized officer as required in 43 C.F.R. Subpart 3809, BLM will issue an order of noncompliance under 43 C.F.R. 3809.601(a). If you fail to comply with the noncompliance order, BLM may take further action under 43 C.F.R. 3809.604. Failure to conduct reclamation is a prohibited act that may subject you to criminal penalties. See 43 C.F.R. 3809.605(h) and 43 C.F.R. 3809.700.

This decision may be appealed to the Interior Board of Land Appeals, Office of the Secretary, in accordance with the regulations contained in 43 C.F.R., Part 4 and the enclosed Form 1842-1. If an appeal is taken, your notice of appeal must be filed in this office (at the above address) within 30 days from receipt of this decision. The appellant has the burden of showing that the decision appealed from is in error.

If you wish to file a petition pursuant to regulation 43 C.F.R. 4.21 (58 FR 4939, January 19, 1993) for a stay of the effectiveness of this decision during the time that your appeal is being reviewed by the Board, the petition for a stay must accompany your notice of appeal. A petition

for a stay is required to show sufficient justification based on the standards listed below. Copies of the notice of appeal and petition for a stay must also be submitted to each party named in this decision and to the Interior Board of Land Appeals and to the appropriate Office of the Solicitor (see 43 C.F.R. 4.413) at the same time the original documents are filed with this office. If you request a stay, you have the burden of proof to demonstrate that a stay should be granted.

Standards for Obtaining a Stay

Except as otherwise provided by law or other pertinent regulation, a petition for a stay of a decision pending appeal shall show sufficient justification based on the following standards:

- (1) The relative harm to the parties if the stay is granted or denied,
- (2) The likelihood of the appellant's success on the merits,
- (3) The likelihood of immediate and irreparable harm if the stay is not granted, and
- (4) Whether the public interest favors granting the stay.

Please include your AMC serial number(s) on all correspondence. If additional information is required, please call Amy Bunda at 602-417-9334.

DECISION

STRAND THOMAS 5304 TRIMOTOR CT FAIR OAKS, CA 95628

This decision affects those claims shown

in the block below:

IR OAKS, CA 93028

AMC370775 GOLDEN NUGGET #4

MINING CLAIMS DECLARED FORFEITED

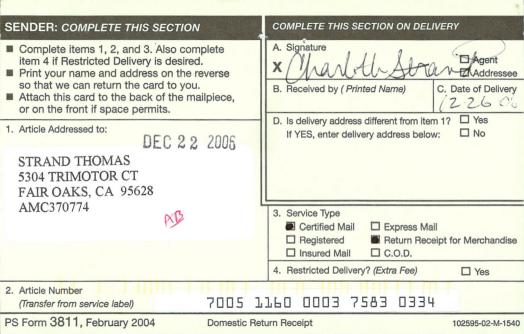

The mining claims listed above have been declared forfeited for failure to file the required maintenance fee payment or small miner's maintenance fee waiver (waiver).

Claimants are required to pay an annual non-refundable maintenance fee of \$125, or submit a waiver, on or before September 1 of each year. These requirements were established by 30 (United States Code) 28-f-k, as amended, and 43 Code of Federal Regulations (CFR) 3834 and 3835.

Our records do not show receipt of a maintenance fee payment, or waiver received on or before September 1, 2006, for the 2007 assessment year, for the claims listed above. Therefore, the claims are forfeited.

This decision does not relieve you of the liability for reclamation of all areas disturbed by your activities on lands covered by the subject mining claim(s) and/or site(s). After you complete the reclamation, you must notify the authorized officer of the appropriate surface managing agency so that the authorized officer may conduct a final site inspection and determine whether you may be released from liability. If you fail to reclaim the land to the satisfaction of the authorized officer, the surface management agency may cite you for noncompliance under its surface management regulations.

PHOENIX, ARIZONA 85004-4427

For land administered by the Bureau of Land Management (BLM), if you fail to reclaim the land to the satisfaction of the authorized officer as required in 43 CFR Subpart 3809, BLM will issue an order of noncompliance under 43 CFR 3809.601(a). If you fail to comply with the noncompliance order, BLM may take further action under 43 CFR 3809.604. Failure to conduct reclamation is a prohibited act that may subject you to criminal penalties. See 43 CFR 3809.605(h) and 43 CFR 3809.700.

This decision may be appealed to the Interior Board of Land Appeals, Office of the Secretary, in accordance with the regulations contained in 43 CFR, Part 4, and the enclosed Form 1842-1. If an appeal is taken, your notice of appeal must be filed in this office (at the above address) within 30 days from receipt of this decision. The appellant has the burden of showing that the decision appealed from is in error.

If you wish to file a petition pursuant to regulation 43 CFR 4.21 (58 FR 4939, January 19, 1993) for a stay of the effectiveness of this decision during the time that your appeal is being reviewed by the Board, the petition for a stay must accompany your notice of appeal. A petition for a stay is required to show sufficient justification based on the standards listed below. Copies of the notice of appeal and petition for a stay **must** also be submitted to each party named in this decision and to the Interior Board of Land Appeals and to the appropriate Office of the Solicitor (see 43 CFR 4.413) at the same time the original documents are filed with this office. If you request a stay, you have the burden of proof to demonstrate that a stay should be granted.

Standards for Obtaining a Stay

Except as otherwise provided by law or other pertinent regulation, a petition for a stay of a decision pending appeal shall show sufficient justification based on the following standards:

- (1) The relative harm to the parties if the stay is granted or denied,
- (2) The likelihood of the appellant's success on the merits,
- (3) The likelihood of immediate and irreparable harm if the stay is not granted, and
- (4) Whether the public interest favors granting the stay.

Please include your AMC serial number(s) on all correspondence. If additional information is required, please call Amy Bunda at 602-417-9334.

MAINTENANCE FEE WAIVER CERTIFICATION

SEE INSTRUCTIONS ON PAGE 2

This small miner waiver is filed for the assessment year beginning on September 1, 2019 and ending on September 1, 2. The undersigned and all related parties owned ten or fewer mining claims, mill, or tunnel sites located and maintained on Federal lands in the United States of America on September 1, 2019.

3. The undersigned have performed the assessment work required by law for each mining claim listed prior to filing this waiver and understand that by filing this form, the undersigned must file an affidavit of assessment work with the Bureau of Land Management (BLM) by the December 30th following the filing of this waiver.

The undersigned understand that if the assessment work obligation has not yet come due under 30 U.S.C. 28 (for those claims in their first assessment year only), a notice of intent to hold reciting this condition must be recorded by the December 30th following the filing of this waiver.

The undersigned understand that mill and tunnel sites may also be listed on this waiver and be waived from payment of the maintenance fee, and that a notice of intent to hold for these sites is required to be filed with the BLM by the December 30th following the filing of this waiver.

The undersigned understand and acknowledge that pursuant to 43 U.S.C. 1212 and 18 U.S.C. 1001, the filing or recording of a false, fictitious, or fraudulent document with the BLM may result in a fine of up to \$250,000, a prison term not to exceed five years, or both.

INSTRUCTIONS

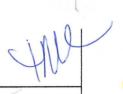

- 1. This certification is made under the provisions of 43 U.S.C. § 1744 and 30 U.S.C. §28-28k and the regulations thereunder (43 CFR Part 3830).
- 2. The claimant(s) must fill in the dates in paragraph 1 for the beginning and ending of the assessment year for which this waiver is sought.
- 3. The claimant(s) must fill in the date in paragraph 2 for the beginning of the assessment year for which this waiver is sought.
- 4. All claim and site names and BLM serial numbers must be listed for the mining claims, mill sites, and tunnel sites for which the waiver is sought.
- 5. All owners of the mining claims, mill sites, and tunnel sites and their addresses must be given.
- 6. This waiver form must be signed by all the claimants or their designated agent, in original form. If an agent is designated, a notarized designation of agent, signed by all of the claimants with proper address given, must be submitted with this waiver.
- 7. This form must be filed no later than September 1st for the upcoming assessment year in the BLM State Office where the mining claims or sites are recorded, or the waiver cannot be granted by the BLM. (Example: To obtain a waiver for the assessment year 2012, which begins on September 1, 2011, you must qualify for and file for a waiver no later than September 1, 2011, in the proper BLM State Office.)
- 8. For all mining claims which require assessment work, you must record an affidavit of labor on or before the December 30th immediately following the filing of this waiver. INSTRUCTIONS

- 1. This certification is made under the provisions of 43 U.S.C. § 1744 and 30 U.S.C. §28-28k and the regulations thereunder (43 CFR Part 3830).
- 2. The claimant(s) must fill in the dates in paragraph 1 for the beginning and ending of the assessment year for which this waiver is sought.
- 3. The claimant(s) must fill in the date in paragraph 2 for the beginning of the assessment year for which this waiver is sought.
- 4. All claim and site names and BLM serial numbers must be listed for the mining claims, mill sites, and tunnel sites for which the waiver is sought.
- 5. All owners of the mining claims, mill sites, and tunnel sites and their addresses must be given.
- 6. This waiver form must be signed by all the claimants or their designated agent, in original form. If an agent is designated, a notarized designation of agent, signed by all of the claimants with proper address given, must be submitted with this waiver.
- 7. This form must be filed no later than September 1st for the upcoming assessment year in the BLM State Office where the mining claims or sites are recorded, or the waiver cannot be granted by the BLM. (Example: To obtain a waiver for the assessment year 2012, which begins on September 1, 2011, you must qualify for and file for a waiver no later than September 1, 2011, in the proper BLM State Office.)
- 8. For all mining claims which require assessment work, you must record an affidavit of labor on or before the December 30th immediately following the filing of this waiver. For all other mining claims or sites waived, you must record a notice of intent to hold on or before the December 30th immediately following the filing of this waiver.
- 9. Mill and tunnel sites may also be listed on this waiver and be waived from payment of the maintenance fee. A notice of intent to hold for these sites is required to be filed by the December 30th following the filing of this waiver.

18 U.S.C. 1001 and 43 U.S.C. 1212 make it a crime for any person knowingly and willfully to make to any department or agency of the United States any false, fictitious or fraudulent statements or representations as to any matter within its jurisdiction.

INSTRUCTIONS

- 1. This certification is made under the provisions of 43 U.S.C. § 1744 and 30 U.S.C. §28-28k and the regulations thereunder (43 CFR Part 3830).
- The claimant(s) must fill in the dates in paragraph 1 for the beginning and ending of the assessment year for which this waiver is sought.
- 3. The claimant(s) must fill in the date in paragraph 2 for the beginning of the assessment year for which this waiver is sought,
- 4. All claim and site names and BLM serial numbers must be listed for the mining claims, mill sites, and tunnel sites for which the waiver is sought.
- 5. All owners of the mining claims, mill sites, and tunnel sites and their addresses must be given.
- 6. This waiver form must be signed by all the claimants or their designated agent, in original form. If an agent is designated, a notarized designation of agent, signed by all of the claimants with proper address given, must be submitted with this waiver.
- 7. This form must be filed no later than September 1st for the upcoming assessment year in the BLM State Office where the mining claims or sites are recorded, or the waiver cannot be granted by the BLM. (Example: To obtain a waiver for the assessment year 2012, which begins on September 1, 2011, you must qualify for and file for a waiver no later than September 1, 2011, in the proper BLM State Office.)
- 8. For all mining claims which require assessment work, you must record an affidavit of labor on or before the December 30th immediately following the filing of this waiver. For all other mining claims or sites waived, you must record a notice of intent to hold on or before the December 30th immediately following the filing of this waiver.
- 9. Mill and tunnel sites may also be listed on this waiver and be waived from payment of the maintenance fee. A notice of intent to hold for these sites is required to be filed by the December 30th following the filing of this waiver.

MAINTENANCE FEE WAIVER CERTIFICATION SEE INSTRUCTIONS ON PAGE 2

This small miner waiver is filed for the assessment year beginning on September 1, 2015 and ending on September 1,

The undersigned and all related parties and deep ten or fewer mining claims, mill, or tunnel sites located and maintained on Federal lands in the United States of America on September 1,

The undersigned have performed the assessment work required by law for each mining claim listed prior to filing this waiver and understand that by filing this form, the undersigned must file an affidavit of assessment work with the Bureau of Land Management (BLM) by the December 30th following the filing of this waiver.

The undersigned understand that if the assessment work obligation has not yet come due under 30 U.S.C. 28 (for those claims in their first assessment year only), a notice of intent to hold reciting this condition must be recorded by the December 30th following the filing of this waiver.

The undersigned understand that mill and tunnel sites may also be listed on this waiver and be waived from payment of the maintenance fee, and that a notice of intent to hold for these sites is required to be filed with the BLM by the December 30th following the filing of this waiver.

The undersigned understand and acknowledge that pursuant to 43 U.S.C. 1212 and 18 U.S.C. 1001, the filing or recording of a false, fictitious, or fraudulent document with the BLM may result in a fine of up to \$250,000, a prison term not to exceed five years, or both.

BLM Serial No. AMC#367725

(REF also claims: ORMC#160393, ORMC#160404, AMC#369644, AMC#370780, AMC#370782)

The following named claim is held and claimed by the owner(s) for the valuable mineral contained

Therein: The owner(s) intend to continue development of the claim.

The reason that the annual assessment work has not been performed is:

I have been paying the maintenance fees in order to hold the claim(s) until which time I was able to work them myself. Because congress raised maintenance fees this year on compound claims (claims of multiple 20-acre single claims), and five (5) of my six (6) claims are 160-acre compound claims, my maintenance fees grew 8-fold this year. Due to financial constraints I was unable to continue to hold the claims in this manner.

After consulting with a member of the BLM office in Portland, OR it was suggested that I could file this INTENT TO HOLD while transferring the ownership of these claims to someone more capable of performing the needed assessment work at this time. I have consulted with my attorney who confirms this action should be sufficient.

It is my intention to transfer ownership of these claims to Willow Coberly, 32039 MacLagan Rd, Tangent, OR 97389 as she is in a position to direct the needed assessment work. Upon receipt of verification that the waivers I filed prior to 1 September, 2012 my plan is to file Quit Claim Deeds with the various counties where these claims reside. That process is under way now. Ms Coberly will file copies of those Quit Claim Deeds with your office(s) once they have been registered.

NOTICE OF INTENT TO HOLD

BLM Serial No. AMC#370780

(REF also claims: ORMC#160393, ORMC#160404, AMC#367725, AMC#369644, AMC#370782)

The following named claim is held and claimed by the owner(s) for the valuable mineral contained

Therein: The owner(s) intend to continue development of the claim.

The reason that the annual assessment work has not been performed is:

I have been paying the maintenance fees in order to hold the claim(s) until which time I was able to work them myself. Because congress raised maintenance fees this year on compound claims (claims of multiple 20-acre single claims), and five (5) of my six (6) claims are 160-acre compound claims, my maintenance fees grew 8-fold this year. Due to financial constraints I was unable to continue to hold the claims in this manner.

After consulting with a member of the BLM office in Portland, OR it was suggested that I could file this INTENT TO HOLD while transferring the ownership of these claims to someone more capable of performing the needed assessment work at this time. I have consulted with my attorney who confirms this action should be sufficient.

It is my intention to transfer ownership of these claims to Willow Coberly, 32039 MacLagan Rd, Tangent, OR 97389 as she is in a position to direct the needed assessment work. Upon receipt of verification that the waivers I filed prior to 1 September, 2012 my plan is to file Quit Claim Deeds with the various counties where these claims reside. That process is under way now. Ms Coberly will file copies of those Quit Glaim Deeds with your office(s) once they have been registered.

INSTRUCTIONS

- 1. This certification is made under the provisions of 43 U.S.C. § 1744 and 30 U.S.C. §28-28k and the regulations thereunder (43 CFR Part 3830).
- The claimant(s) must fill in the dates in paragraph 1 for the beginning and ending of the assessment year for which this waiver is sought.
- 3. The claimant(s) must fill in the date in paragraph 2 for the beginning of the assessment year for which this waiver is sought.
- 4. All claim and site names and BLM serial numbers must be listed for the mining claims, mill sites, and tunnel sites for which the waiver is sought.
- 5. All owners of the mining claims, mill sites, and tunnel sites and their addresses must be given. 6. This waiver form must be signed by all the claimants or their designated agent, in original form. If an agent is designated, a notarized designation of
- agent, signed by all of the claimants with proper address given, must be submitted with this waiver.
- 7. This form must be filed no later than September 1st for the upcoming assessment year in the BLM State Office where the mining claims or sites are recorded, or the waiver cannot be granted by the BLM. (Example: To obtain a waiver for the assessment year 2012, which begins on September 1, 2011, you must qualify for and file for a waiver no later than September 1, 2011, in the proper BLM State Office.)
- 8. For all mining claims which require assessment work, you must record an affidavit of labor on or before the December 30th immediately following the filing of this waiver. For all other mining claims or sites waived, you must record a notice of intent to hold on or before the December 30th immediately following the filing of this waiver.
- Mill and tunnel sites may also be listed on this waiver and be waived from payment of the maintenance fee. A notice of intent to hold for these sites is required to be filed by the December 30th following the filing of this waiver.

NOTICES

The Privacy Act and 43 CFR 2.48(d) require that you be furnished the following information in connection with the information requested by this form.

AUTHORITY: 30 U.S.C. 28f and 43 CFR part 3835 permit collection of the information requested by this form.

PRINCIPAL PURPOSE: The BLM will use the information you provide to verify that the owner(s) (claimants(s)) of a mining claim has/have complied with 30 U.S.C. 28f and 43 CFR part 3835 and is/are entitled to perform assessment work in lieu of paying the maintenance fee for the mining claims listed on this form.

ROUTINE USES: The BLM will only disclose this information in accordance with the provisions at 43 CFR 2.56(b) and (c). EFFECT OF NOT PROVIDING INFORMATION: Disclosure of the requested information is required by 30 U.S.C. 28f and 43 CFR part 3835 for those claimants qualified to request the small miner waiver allowed. Failure to submit all the requested information or to complete this form will delay the BLM's processing of the form and may preclude the BLM's acceptance of the maintenance fee waiver request, which may result in forfeiture of the mining claim or site by the claimant.

The Paperwork Reduction Act requires us to inform you that:

The BLM collects this information to determine whether or not you are qualified for waiver of maintenance fees. Submission of the requested information is necessary to obtain or retain a benefit.

You do not have to respond to this or any other Federal agency-sponsored information collection unless it displays a currently valid OMB control number.

BURDEN HOURS STATEMENT: Public reporting burden for this form is estimated to average 20 minutes per response, including the time for reviewing instructions, gathering and maintaining data, and completing and reviewing the form. You may submit comments regarding the burden estimate or any other aspect of this form to: U.S. Department of the Interior, Bureau of Land Management (1004-0114), Bureau Information Collection Clearance Officer (WO-630), Mail Stop 401 LS, 1849 C St., N.W., Washington, D.C. 20240.

MINING CLAIMS DECLARED FORFEITED

The mining claims listed above have been declared forfeited for failure to file the required maintenance fee payment or small miner's maintenance fee waiver (waiver).

Claimants are required to pay an annual non-refundable maintenance fee of \$140, or submit a waiver, on or before September 1 of each year. These requirements were established by 30 (United States Code) 28-f-k, as amended, and 43 Code of Federal Regulations (CFR) 3834 and 3835.

Our records do not show receipt of a maintenance fee payment, or waiver received on or before September 1, 2009, for the 2010 assessment year, for the claims listed above. Therefore, the claims are forfeited.

This decision does not relieve you of the liability for reclamation of all areas disturbed by your activities on lands covered by the subject mining claim(s) and/or site(s). After you complete the

This decision does not relieve you of the liability for reclamation of all areas disturbed by your activities on lands covered by the subject mining claim(s) and/or site(s). After you complete the reclamation, you must notify the authorized officer of the appropriate surface managing agency so that the authorized officer may conduct a final site inspection and determine whether you may be released from liability.

If you fail to reclaim the land to the satisfaction of the authorized officer, the surface management agency may cite you for noncompliance under its surface management regulations.

For land administered by the Bureau of Land Management (BLM), if you fail to reclaim the land to the satisfaction of the authorized officer as required in 43 CFR Subpart 3809, BLM will issue an order of noncompliance under 43 CFR 3809.601(a). If you fail to comply with the noncompliance order, BLM may take further action under 43 CFR 3809.604. Failure to conduct reclamation is a prohibited act that may subject you to criminal penalties. See 43 CFR 3809.605(h) and 43 CFR

This decision may be appealed to the Interior Board of Land Appeals, Office of the Secretary, in accordance with the regulations contained in 43 CFR, Part 4, and the enclosed Form 1842-1. If an appeal is taken, your notice of appeal must be filed in this office (at the above address) within 30 days from receipt of this decision. The appellant has the burden of showing that the decision appealed from is in error.

If you wish to file a petition pursuant to regulation 43 CFR 4.21 (58 FR 4939, January 19, 1993) for a stay of the effectiveness of this decision during the time that your appeal is being reviewed by the Board, the petition for a stay must accompany your notice of appeal. A petition for a stay is required to show sufficient justification based on the standards listed below. Copies of the notice of appeal and petition for a stay must also be submitted to each party named in this decision and to the Interior Board of Land Appeals and to the appropriate Office of the Solicitor (see 43 CFR 4.413) at the same time the original documents are filed with this office. If you request a stay, you have the burden of proof to demonstrate that a stay should be granted.

Standards for Obtaining a Stay

Except as otherwise provided by law or other pertinent regulation, a petition for a stay of a decision pending appeal shall show sufficient justification based on the following standards:

(1) The relative harm to the parties if the stay is granted or denied,

(2) The likelihood of the appellant's success on the merits,

(3) The likelihood of immediate and irreparable harm if the stay is not granted, and

(4) Whether the public interest favors granting the stay.

MAINTENANCE FEE WAIVER CERTIFICATION

SEE INSTRUCTIONS ON REVERSE

- 1. This small miner waiver is filed for the assessment year beginning at noon on September 1, 2009 and ending at noon on September 1, 2010.

 2. The undersigned and all related parties owned ten or fewer mining claims, mill, or tunnel sites located and maintained on Federal lands in the United States of America on September 1, 2009.
- The undersigned have performed the assessment work required by law for each mining claim listed prior to filing this waiver and understand that by filing this form; an affidavit of assessment work must be recorded by the December 30th following the filing of this waiver.
- 4. The undersigned understand that if the assessment work obligation has not yet come due under 30 U.S.C. 28 (for those claims in their first assessment year only); a notice of intent to hold reciting this condition **must** be recorded by the December 30th following the filing of this waiver.
- 5. The undersigned understand that mill and tunnel sites may also be listed upon this waiver and be waived from payment of the maintenance fee; and that a notice of intent to hold for these sites is required to be recorded by the December 30th immediately following the filing of this waiver.
- The undersigned understand and acknowledge that pursuant to 43 U.S.C. 1212 and 18 U.S.C. 1001; the filing or recording of a false, fictitious, or fraudulent document with the Bureau of Land Management may result in a fine of up to \$250,000, a prison term not to exceed five years, or both.
- 7. The mining claims, mill or tunnel sites for which this waiver from payment of the maintenance fees is requested are:

INSTRUCTIONS

- This certification is made under the provisions of § 1744 of Title 43 and § 28-28k of Title 30 of the United States Code; and the regulations thereunder (43 CFR Part 3830).
- The claimant(s) must fill in the dates in paragraph 1 for the beginning and ending of the assessment year for which this waiver is sought.
- The claimant(s) must fill in the date in paragraph 2 for the beginning of the assessment year for which this waiver is sought.
- All claim and site names and Bureau of Land Management (BLM) serial numbers must be listed for the mining claims, mill sites, and tunnel sites for which the waiver is sought.
- All owners of the mining claims, mill sites, and tunnel sites and their addresses must be given.
- 6. This waiver form must be signed by all the claimants or their designated agent, in original form. If an agent is designated, a notarized designation of agent, signed by all of the claimants with proper address given, must be submitted with this waiver.
- 7. This form must be filed no later than September 1st for the upcoming assessment year in the BLM State Office where the mining claims or sites are recorded, or the waiver cannot be granted by the BLM. (Example: to obtain a waiver for the assessment year 2000, which begins at noon on September 1, 1999, you must qualify for and file for a waiver no later than September 1, 1999, in the proper BLM State Office).
- 8. For all mining claims which require assessment work, you must record an affidavit of labor on or before the December 30th immediately following the filing of this waiver. For all other mining claims or sites waived, you must record a notice of intent to hold on or before the December 30th immediately following the filing of this waiver.
- 9. Mill and tunnel sites may also be listed upon this waiver and be waived from payment of the maintenance fee. A notice of intent to hold for these sites is required to be filed by the December 30th following the filing of this waiver.

NOTICE/BURDEN HOURS STATEMENT

The Privacy Act of 1974, as amended, and the regulation in 43 CFR 2.48(d) provide that you be furnished the following information in connection with the information required by this certification of waiver from rental fees.

AUTHORITY: 30 U.S.C. 28-28k; 43 U.S.C. 1201, 1457, 1740, and 1744; and 43 CFR 3830.

PRINCIPLE PURPOSE: This information is to be used to verify that the owner(s) (claimants) of a mining claim has complied with 30 U.S.C. 28f and is entitled to perform assessment work in lieu of paying the maintenance fee for the mining claims listed on this form.

ROUTINE USE: (1)Adjudication of the claimant(s) certification of waiver from paying the maintenance fee otherwise required by 30 U.S.C. 28f. (2) Disclosure may be made to appropriate Federal agencies when location is made within the agency's geographic area of responsibility. (3) Information from the record and/or the record will be transferred to the appropriate Federal, State, or local agency, or a member of the public in response to a specific request for pertinent information. (4) Information may also be provided to the Department of Justice or in a proceeding before a court or adjudicative body; or to Federal, State, local or foreign agencies when needed for enforcement of civil or criminal codes or applicable regulations concerning title rights upon the public land.

EFFECT OF NOT PROVIDING INFORMATION: Disclosure of this information is required by 30 U.S.C. 28f and 43 CFR Part 3830 for those qualified claimants wishing to take the small miner waiver allowed. Failure to supply the information required in this form to support the claimants certification of waiver from payment of the otherwise required maintenance fees will result in the waiver being disallowed and the mining claims subject to forfeiture by BLM under 30 U.S.C. 28i.

The Paperwork Reduction Act of 1995 requires us to inform you that:

This information is being collected to allow the BLM to determine if you qualify for a waiver from the payment of \$100 per mining claim or site maintenance fee established in 30 U.S.C. 28f and the implementing regulations at 43 CFR 3830. A response to this request is required in accordance with the statute to obtain your benefit.

BLM would like you to know that you do not have to respond to this, or any other, Federal agency-sponsored information collection unless it displays a currently valid OMB control number.

Public reporting burden for this form is estimated to average 8 minutes (0.133 hours) per response, including time to review instructions, gathering and maintaining data, and completing and reviewing the form. Direct comments regarding this burden estimate, or any other aspect of this form, to the U.S. Department of the Interior, Bureau of Land Management, (1004-0114) Bureau Information Collection Clearance Officer (WO-630), Mail Stop 401 LS, 1849 C St, N.W., Washington, D.C. 20240.

INSTRUCTIONS

- This certification is made under the provisions of § 1744 of Title 43 and § 28-28k of Title 30 of the United States Code; and the regulations thereunder (43 CFR Part 3830)
- The claimant(s) must fill in the dates in paragraph 1 for the beginning and ending of the assessment year for which this waiver is sought.
- 3. The claimant(s) must fill in the date in paragraph 2 for the beginning of the assessment year for which this waiver is sought.
- All claim and site names and Bureau of Land Management (BLM) serial numbers must be listed for the mining claims, mill sites, and tunnel sites for which the waiver is sought.
- All owners of the mining claims, mill sites, and tunnel sites and their addresses must be given.
- 6. This waiver form must be signed by all the claimants or their designated agent, in original form. If an agent is designated, a notarized designation of agent, signed by all of the claimants with proper address given, must be submitted with this waiver.
- 7. This form must be filed no later than September 1st for the upcoming assessment year in the BLM State Office where the mining claims or sites are recorded, or the waiver cannot be granted by the BLM. (Example: to obtain a waiver for the assessment year 2000, which begins at noon on September 1, 1999, you must qualify for and file for a waiver no later than September 1, 1999, in the proper BLM State Office).
- 8. For all mining claims which require assessment work, you must record an affidavit of labor on or before the December 30th immediately following the filing of this waiver. For all other mining claims or sites waived, you must record a notice of intent to hold on or before the December 30th immediately following the filing of this waiver.
- Mill and tunnel sites may also be listed upon this waiver and be waived from
 payment of the maintenance fee. A notice of intent to hold for these sites is
 required to be filed by the December 30th following the filing of this waiver.

NOTICE/BURDEN HOURS STATEMENT

The Privacy Act of 1974, as amended, and the regulation in 43 CFR 2.48(d) provide that you be furnished the following information in connection with the information required by this certification of waiver from rental fees.

AUTHORITY: 30 U.S.C. 28-28k; 43 U.S.C. 1201, 1457, 1740, and 1744; and 43 CFR 3830

PRINCIPLE PURPOSE: This information is to be used to verify that the owner(s) (claimants) of a mining claim has complied with 30 U.S.C. 28f and is entitled to perform assessment work in lieu of paying the maintenance fee for the mining claims listed on this form.

ROUTINE USE: (1) Adjudication of the claimant(s) certification of waiver from paying the maintenance fee otherwise required by 30 U.S.C. 28f. (2) Disclosure may be made to appropriate Federal agencies when location is made within the agency's geographic area of responsibility. (3) Information from the record and/or the record will be transferred to the appropriate Federal, State, or local agency, or a member of the public in response to a specific request for pertinent information. (4) Information may also be provided to the Department of Justice or in a proceeding before a court or adjudicative body; or to Federal, State, local or foreign agencies when needed for enforcement of civil or criminal codes or applicable regulations concerning title rights upon the public land.

EFFECT OF NOT PROVIDING INFORMATION: Disclosure of this information is required by 30 U.S.C. 28f and 43 CFR Part 3830 for those qualified claimants wishing to take the small miner waiver allowed. Failure to supply the information required in this form to support the claimants certification of waiver from payment of the otherwise required maintenance fees will result in the waiver being disallowed and the mining claims subject to forfeiture by BLM under 30 U.S.C. 28i.

The Paperwork Reduction Act of 1995 requires us to inform you that:

This information is being collected to allow the BLM to determine if you qualify for a waiver from the payment of \$100 per mining claim or site maintenance fee established in 30 U.S.C. 28f and the implementing regulations at 43 CFR 3830. A response to this request is required in accordance with the statute to obtain your benefit.

BLM would like you to know that you do not have to respond to this, or any other, Federal agency-sponsored information collection unless it displays a currently valid OMB control number.

Public reporting burden for this form is estimated to average 20 minutes (.33 hours) per response, including time to review instructions, gathering and maintaining data, and completing and reviewing the form. Direct comments regarding this burden estimate, or any other aspect of this form, to the U.S. Department of the Interior, Bureau of Land Management, (1004-0114) Bureau Information Collection Clearance Officer (WO-630), Mail Stop 401 LS, 1849 C St, N.W., Washington, D.C. 20240.

Additional Information Required

On August 13, and 27, 2007, we received Maintenance Fee Waiver Certifications (small miner wavier) and Affidavits of Labor for the 107 mining claims, including the 4 small miner waivers for the 20 claims denied in our Decision dated November 5, 2007. "Miners Creek, Jack Tucker" paid

the fees for the Affidavits of Labor for all 107 claims. The same person appears to have completed all of the documents. Lisa Tucker, who we understand is the wife of Jack Tucker, notarized all of the Affidavit of Labor. 34 of the 50 listed owners of these claims gave P.O. Box 265, Wickenburg, Arizona 85358, as their address, including Miners Creek and Jack Tucker, who is the owner of Miners Creek. As shown on the attachment, the Miners Creek website states that Miners Creek has over 60 mining claims in 6 states, 50 of which are in Arizona. These facts require us to request additional information in order to verify the validity of the small miner waivers submitted for the 87 claims listed above.

In accordance with 43 CFR 3835.1(b), to qualify for a small miner waiver, you and all related parties must hold or control no more than a total of 10 mining claims or sites nationwide. As defined at 43 CFR 3830.5, "related party means: a) the spouse and dependent children of the claimant as defined in section 152 of the Internal Revenue Code of 1986 [26 U.S.C. section 152]; or, b) A person who controls, is controlled by, or is under common control with the claimant." "Control means actual control, legal control, or the power to exercise control, through or by common directors, officers, stockholders, a voting trust, or a holding company or investment company, or any other means."

In order to verify who is in control of these mining claims we request the following information:

1. Confirmation of a current valid address for each of the following 34 listed owners who all gave P.O. Box 265, Wickenburg, Arizona 85358 as their address:

Adam Brown	Frank Crepezzi	Joe Rogan	Lisa Brown	Penny Brown
Andy La Russa	George Hansen	John Wall	Mark Davis	Richard Davis
Anthony Hansen	J. B. Tucker	Jon Giovanni	Michael Kent	Robert Morris
April Eidson	Jack Tucker	Keith Morris	Mike Tucker	Samantha Hayes
Carol Davis	Jane Lee	Kellie McAllister	Miners Creek	Steven Morris
David Lee	Jason Brown	Leslie Wall	Morris Stevens	Thomas Lee
Derek Carter	Jenny Lee	Lisa Antell	Nicole Morris	

2. A notarized statement from the 47 owners listed below stating that they are in sole control of their claims:

Adam Brown	David Zink	Kellie McAllister	Penny Brown
Andy La Russa	Derek Carter	Leslie Wall	Penny Crepezzi
Anthony Crepezzi	Frank Crepezzi	Lisa Antell	Richard Davis
Anthony Hansen	George Hansen	Lisa Brown	Robert McAllister
April Eidson	J. B. Tucker	Lucille McAllister	Robert Morris
Brandy Tucker	Jane Lee	Mark Davis	Russell Parken
Carol Davis	Jason Brown	Max Strickman	Samantha Brown
Dale McAllister	Jenny Lee	Michael Kent	Samantha Hayes
Daniel Rose	Joe Rogan	Mike Tucker	Steve McAllister
✓ David Jones	John Wall	Morris Stevens	Steven Morris
David Lee	Jon Giovanni	Nicole Morris	Thomas Lee
David Tucker	Keith Morris	Paul Bryan	

- 3. A notarized statement from each of the following five groups of people, describing the relationship among the people in each group. All related parties, as defined above, can only own 10 claims total, nationwide.
 - A) David, Brandy, Jack, J. B., and Mike Tucker
 - B) Penny, Lisa, Adam, Samantha and Jason Brown
 - C) Lucille, Robert, Dale, Steve, and Kellie McAllister and Paul Bryan
 - D) David, Jane, Thomas, and Jenny Lee
 - E) Penny, Anthony and Frank Crepezzi
- 4. Written clarification regarding whether J. B. Tucker is Jack Tucker.

12A A.R.S. 41-328B requires a notary public to be an impartial witness and also specifically prohibits a notary public from notarizing the signature of any person who is related by marriage. In accordance with this Arizona statute, please do not allow Lisa Tucker to notarize the notarized statements that we are requesting.

Please provide the documents requested within 60 days of receipt of this letter. If we do not receive the requested information the small miner waivers will be denied and the claims will be forfeited.

If you have any questions about this Notice, please contact Amy Bunda at 602-417-9334. Please include your AMC serial number(s) on all correspondence.

INSTRUCTIONS

- This certification is made under the provisions of § 1744 of Title 43 and § 28-28k of Title 30 of the United States Code; and the regulations thereunder (43 CFR Part 3830).
- The claimant(s) must fill in the dates in paragraph 1 for the beginning and ending of the assessment year for which this waiver is sought.
- The claimant(s) must fill in the date in paragraph 2 for the beginning of the assessment year for which this waiver is sought.
- All claim and site names and Bureau of Land Management (BLM) serial numbers must be listed for the mining claims, mill sites, and tunnel sites for which the waiver is sought.
- All owners of the mining claims, mill sites, and tunnel sites and their addresses must be given.
- This waiver form must be signed by all the claimants or their designated agent, in original form. If an agent is designated, a notarized designation of agent, signed by all of the claimants with proper address given, must be submitted with this waiver.
- 7. This form **must** be filed no later than September 1st for the upcoming assessment year in the BLM State Office where the mining claims or sites are recorded, or the waiver cannot be granted by the BLM. (Example: to obtain a waiver for the assessment year 2000, which begins at noon on September 1, 1999, you **must** qualify for and file for a waiver no later than September 1, 1999, in the proper BLM State Office).
- 8. For all mining claims which require assessment work, you must record an affidavit of labor on or before the December 30th immediately following the filing of this waiver. For all other mining claims or sites waived, you must record a notice of intent to hold on or before the December 30th immediately following the filing of this waiver.
- 9. Mill and tunnel sites may also be listed upon this waiver and be waived from payment of the maintenance fee. A notice of intent to hold for these sites is required to be filed by the December 30th following the filing of this waiver.

NOTICE/BURDEN HOURS STATEMENT

The Privacy Act of 1974, as amended, and the regulation in 43 CFR 2.48(d) provide that you be furnished the following information in connection with the information required by this certification of waiver from rental fees.

AUTHORITY: 30 U.S.C. 28-28k; 43 U.S.C. 1201, 1457, 1740, and 1744; and 43 CFR 3830.

PRINCIPLE PURPOSE: This information is to be used to verify that the owner(s) (claimants) of a mining claim has complied with 30 U.S.C. 28f and is entitled to perform assessment work in lieu of paying the maintenance fee for the mining claims listed on this form.

ROUTINE USE: (1)Adjudication of the claimant(s) certification of waiver from paying the maintenance fee otherwise required by 30 U.S.C. 28f. (2) Disclosure may be made to appropriate Federal agencies when location is made within the agency's geographic area of responsibility. (3) Information from the record and/or the record will be transferred to the appropriate Federal, State, or local agency, or a member of the public in response to a specific request for pertinent information. (4) Information may also be provided to the Department of Justice or in a proceeding before a court or adjudicative body; or to Federal, State, local or foreign agencies when needed for enforcement of civil or criminal codes or applicable regulations concerning title rights upon the public land.

EFFECT OF NOT PROVIDING INFORMATION: Disclosure of this information is required by 30 U.S.C. 28f and 43 CFR Part 3830 for those qualified claimants wishing to take the small miner waiver allowed. Failure to supply the information required in this form to support the claimants certification of waiver from payment of the otherwise required maintenance fees will result in the waiver being disallowed and the mining claims subject to forfeiture by BLM under 30 U.S.C. 28i.

The Paperwork Reduction Act of 1995 requires us to inform you that:

This information is being collected to allow the BLM to determine if you qualify for a waiver from the payment of \$100 per mining claim or site maintenance fee established in 30 U.S.C. 28f and the implementing regulations at 43 CFR 3830. A response to this request is required in accordance with the statute to obtain your benefit.

BLM would like you to know that you do not have to respond to this, or any other, Federal agency-sponsored information collection unless it displays a currently valid OMB control number.

Public reporting burden for this form is estimated to average 8 minutes (0.133 hours) per response, including time to review instructions, gathering and maintaining data, and completing and reviewing the form. Direct comments regarding this burden estimate, or any other aspect of this form, to the U.S. Department of the Interior, Bureau of Land Management, (1004-0114) Bureau Information Collection Clearance Officer (WO-630), Mail Stop 401 LS, 1849 C St, N.W., Washington, D.C. 20240.

#### INSTRUCTIONS

- This certification is made under the provisions of § 1744 of Title 43 and § 28-28k of Title 30 of the United States Code; and the regulations thereunder (43 CFR Part 3830).
- The claimant(s) must fill in the dates in paragraph 1 for the beginning and ending of the assessment year for which this waiver is sought.
- The claimant(s) must fill in the date in paragraph 2 for the beginning of the assessment year for which this waiver is sought.
- All claim and site names and Bureau of Land Management (BLM) serial numbers must be listed for the mining claims, mill sites, and tunnel sites for which the waiver is sought.
- All owners of the mining claims, mill sites, and tunnel sites and their addresses must be given.
- This waiver form must be signed by all the claimants or their designated agent, in original form. If an agent is designated, a notarized designation of agent, signed by all of the claimants with proper address given, must be submitted with this waiver.
- 7. This form must be filed no later than September 1st for the upcoming assessment year in the BLM State Office where the mining claims or sites are recorded, or the waiver cannot be granted by the BLM. (Example: to obtain a waiver for the assessment year 2000, which begins at noon on September 1, 1999, you must qualify for and file for a waiver no later than September 1, 1999, in the proper BLM State Office).
- 8. For all mining claims which require assessment work, you must record an affidavit of labor on or before the December 30th immediately following the filing of this waiver. For all other mining claims or sites waived, you must record a notice of intent to hold on or before the December 30th immediately following the filing of this waiver.
- Mill and tunnel sites may also be listed upon this waiver and be waived from
  payment of the maintenance fee. A notice of intent to hold for these sites is
  required to be filed by the December 30th following the filing of this waiver.

## NOTICE/BURDEN HOURS STATEMENT

The Privacy Act of 1974, as amended, and the regulation in 43 CFR 2.48(d) provide that you be furnished the following information in connection with the information required by this certification of waiver from rental fees.

AUTHORITY: 30 U.S.C. 28-28k; 43 U.S.C. 1201, 1457, 1740, and 1744; and 43

PRINCIPLE PURPOSE: This information is to be used to verify that the owner(s) (claimants) of a mining claim has complied with 30 U.S.C. 28f and is entitled to perform assessment work in lieu of paying the maintenance fee for the mining claims listed on this form.

ROUTINE USE: (1)Adjudication of the claimant(s) certification of waiver from paying the maintenance fee otherwise required by 30 U.S.C. 28f. (2) Disclosure may be made to appropriate Federal agencies when location is made within the agency's geographic area of responsibility. (3) Information from the record and/or the record will be transferred to the appropriate Federal, State, or local agency, or a member of the public in response to a specific request for pertinent information. (4) Information may also be provided to the Department of Justice or in a proceeding before a court or adjudicative body; or to Federal, State, local or foreign agencies when needed for enforcement of civil or criminal codes or applicable regulations concerning title rights upon the public land. applicable regulations concerning title rights upon the public land.

EFFECT OF NOT PROVIDING INFORMATION: Disclosure of this information is required by 30 U.S.C. 28f and 43 CFR Part 3830 for those qualified claimants wishing to take the small miner waiver allowed. Failure to supply the information required in this form to support the claimants certification of waiver from payment of the otherwise required maintenance fees will result in the waiver being disallowed and the mining claims subject to forfeiture by BLM under 30 U.S.C. 28i.

The Paperwork Reduction Act of 1995 requires us to inform you that:

This information is being collected to allow the BLM to determine if you qualify for a waiver from the payment of \$100 per mining claim or site maintenance fee established in 30 U.S.C. 28f and the implementing regulations at 43 CFR 3830. #### INSTRUCTIONS

- This certification is made under the provisions of § 1744 of Title 43 and § 28-28k of Title 30 of the United States Code; and the regulations thereunder (43 CFR Part 3830).
- 2. The claimant(s) must fill in the dates in paragraph 1 for the beginning and ending of the assessment year for which this waiver is sought.
- The claimant(s) must fill in the date in paragraph 2 for the beginning of the assessment year for which this waiver is sought.
- All claim and site names and Bureau of Land Management (BLM) serial numbers must be listed for the mining claims, mill sites, and tunnel sites for which the waiver is sought.
- All owners of the mining claims, mill sites, and tunnel sites and their addresses must be given.
- 6. This waiver form must be signed by all the claimants or their designated agent, in original form. If an agent is designated, a notarized designation of agent, signed by all of the claimants with proper address given, must be submitted with this waiver.
- 7. This form must be filed no later than September 1st for the upcoming assessment year in the BLM State Office where the mining claims or sites are recorded, or the waiver cannot be granted by the BLM. (Example: to obtain a waiver for the assessment year 2000, which begins at noon on September 1, 1999, you must qualify for and file for a waiver no later than September 1, 1999, in the proper BLM State Office).
- 8. For all mining claims which require assessment work, you must record an affidavit of labor on or before the December 30th immediately following the filing of this waiver. For all other mining claims or sites waived, you must record a notice of intent to hold on or before the December 30th immediately following the filing of this waiver.
- Mill and tunnel sites may also be listed upon this waiver and be waived from payment of the maintenance fee. A notice of intent to hold for these sites is required to be filed by the December 30th following the filing of this waiver.

#### NOTICE/BURDEN HOURS STATEMENT

The Privacy Act of 1974, as amended, and the regulation in 43 CFR 2.48(d) provide that you be furnished the following information in connection with the information required by this certification of waiver from rental fees.

**AUTHORITY: 30** U.S.C. 28-28k; 43 U.S.C. 1201, 1457, 1740, and 1744; and 43 CFR 3830.

PRINCIPLE PURPOSE: This information is to be used to verify that the owner(s) (claimants) of a mining claim has complied with 30 U.S.C. 28f and is entitled to perform assessment work in lieu of paying the maintenance fee for the mining claims listed on this form.

ROUTINE USE: (1)Adjudication of the claimant(s) certification of waiver from paying the maintenance fee otherwise required by 30 U.S.C. 28f. (2) Disclosure may be made to appropriate Federal agencies when location is made within the agency's geographic area of responsibility. (3) Information from the record and/or the record will be transferred to the appropriate Federal, State, or local agency, or a member of the public in response to a specific request for pertinent information. (4) Information may also be provided to the Department of Justice or in a proceeding before a court or adjudicative body; or to Federal, State, local or foreign agencies when needed for enforcement of civil or criminal codes or applicable regulations concerning title rights upon the public land.

EFFECT OF NOT PROVIDING INFORMATION: Disclosure of this information is required by 30 U.S.C. 28f and 43 CFR Part 3830 for those qualified claimants wishing to take the small miner waiver allowed. Failure to supply the information required in this form to support the claimants certification of waiver from payment of the otherwise required maintenance fees will result in the waiver being disallowed and the mining claims subject to forfeiture by BLM under 30 U.S.C. 28i.

The Paperwork Reduction Act of 1995 requires us to inform you that:

This information is being collected to allow the BLM to determine if you qualify for a waiver from the payment of \$100 per mining claim or site maintenance fee established in 30 U.S.C. 28f and the implementing regulations at 43 CFR 3830. A response to this request is required in accordance with the statute to obtain your benefit.

BLM would like you to know that you do not have to respond to this, or any other, Federal agency-sponsored information collection unless it displays a currently valid OMB control number.

Public reporting burden for this form is estimated to average 8 minutes (0.133 hours) per response, including time to review instructions, gathering and maintaining data, and completing and reviewing the form. Direct comments regarding this burden estimate, or any other aspect of this form, to the U.S. Department of the Interior, Bureau of Land Management, (1004-0114) Bureau Information Collection Clearance Officer (WO-630), Mail Stop 401 LS, 1849 C St, N.W., Washington, D.C. 20240.

#### INSTRUCTIONS

- This certification is made under the provisions of § 1744 of Title 43 and § 28-28k of Title 30 of the United States Code; and the regulations thereunder (43 CFR Part 3830).
- 2. The claimant(s) must fill in the dates in paragraph 1 for the beginning and ending of the assessment year for which this waiver is sought.
- The claimant(s) must fill in the date in paragraph 2 for the beginning of the assessment year for which this waiver is sought.
- All claim and site names and Bureau of Land Management (BLM) serial numbers must be listed for the mining claims, mill sites, and tunnel sites for which the waiver is sought.
- All owners of the mining claims, mill sites, and tunnel sites and their addresses must be given.
- 6. This waiver form must be signed by all the claimants or their designated agent, in original form. If an agent is designated, a notarized designation of agent, signed by all of the claimants with proper address given, must be submitted with this waiver.
- 7. This form must be filed no later than September 1st for the upcoming assessment year in the BLM State Office where the mining claims or sites are recorded, or the waiver cannot be granted by the BLM. (Example: to obtain a waiver for the assessment year 2000, which begins at noon on September 1, 1999, you must qualify for and file for a waiver no later than September 1, 1999, in the proper BLM State Office).
- 8. For all mining claims which require assessment work, you must record an affidavit of labor on or before the December 30th immediately following the filing of this waiver. For all other mining claims or sites waived, you must record a notice of intent to hold on or before the December 30th immediately following the filing of this waiver.
- Mill and tunnel sites may also be listed upon this waiver and be waived from payment of the maintenance fee. A notice of intent to hold for these sites is required to be filed by the December 30th following the filing of this waiver.

#### NOTICE/BURDEN HOURS STATEMENT

The Privacy Act of 1974, as amended, and the regulation in 43 CFR 2.48(d) provide that you be furnished the following information in connection with the information required by this certification of waiver from rental fees.

**AUTHORITY: 30** U.S.C. 28-28k; 43 U.S.C. 1201, 1457, 1740, and 1744; and 43 CFR 3830.

PRINCIPLE PURPOSE: This information is to be used to verify that the owner(s) (claimants) of a mining claim has complied with 30 U.S.C. 28f and is entitled to perform assessment work in lieu of paying the maintenance fee for the mining claims listed on this form.

ROUTINE USE: (1) Adjudication of the claimant(s) certification of waiver from paying the maintenance fee otherwise required by 30 U.S.C. 28f. (2) Disclosure may be made to appropriate Federal agencies when location is made within the agency's geographic area of responsibility. (3) Information from the record and/or the record will be transferred to the appropriate Federal, State, or local agency, or a member of the public in response to a specific request for pertinent information. (4) Information may also be provided to the Department of Justice or in a proceeding before a court or adjudicative body; or to Federal, State, local or foreign agencies when needed for enforcement of civil or criminal codes or applicable regulations concerning title rights upon the public land.

EFFECT OF NOT PROVIDING INFORMATION: Disclosure of this information is required by 30 U.S.C. 28f and 43 CFR Part 3830 for those qualified claimants wishing to take the small miner waiver allowed. Failure to supply the information required in this form to support the claimants certification of waiver from payment of the otherwise required maintenance fees will result in the waiver being disallowed and the mining claims subject to forfeiture by BLM under 30 U.S.C. 28i.

The Paperwork Reduction Act of 1995 requires us to inform you that:

This information is being collected to allow the BLM to determine if you qualify for a waiver from the payment of \$100 per mining claim or site maintenance fee established in 30 U.S.C. 28f and the implementing regulations at 43 CFR 3830. A response to this request is required in accordance with the statute to obtain your benefit

BLM would like you to know that you do not have to respond to this, or any other, Federal agency-sponsored information collection unless it displays a currently valid OMB control number.

Public reporting burden for this form is estimated to average 8 minutes (0.133 hours) per response, including time to review instructions, gathering and maintaining data, and completing and reviewing the form. Direct comments regarding this burden estimate, or any other aspect of this form, to the U.S. Department of the Interior, Bureau of Land Management, (1004-0114) Bureau Information Collection Clearance Officer (WO-630), Mail Stop 401 LS, 1849 C St, N.W., Washington, D.C. 20240.

# UNITED STATES DEPARTMENT OF THE INTERIOR BUREAU OF LAND MANAGEMENT

FORM APPROVED OMB NO. 1004-0114 Expires: December 31, 2006

# SEE INSTRUCTIONS ON REVERSE AMO 370 738

1. This small miner waiver is filed for the assessment year beginning at noon on September 1,  $\frac{2006}{}$  and ending at noon on September 1,  $\frac{2007}{}$ 

2. The undersigned and all related parties owned ten or fewer mining claims, mill, or tunnel sites located and maintained on Federal lands in the United States of America on September 1, 2006.

3. The undersigned have performed the assessment work required by law for each mining claim listed prior to filing this waiver and understand that by filing this form; an affidavit of assessment work must be recorded by the December 30th following the filing of this waiver.

4. The undersigned understand that if the assessment work obligation has not yet come due under 30 U.S.C. 28 (for those claims in their first assessment year only); a notice of intent to hold reciting this condition must be recorded by the December 30th following the filing of this waiver.

5. The undersigned understand that mill and tunnel sites may also be listed upon this waiver and be waived from payment of the maintenance fee; and that a notice of intent to hold for these sites is required to be recorded by the December 30th immediately following the filing of this waiver.

6. The undersigned understand and acknowledge that pursuant to 43 U.S.C. 1212 and 18 U.S.C. 1001; the filing or recording of a false, fictitious, or fraudulent document with the Bureau of Land Management may result in a fine of up to \$250,000, a prison term not to exceed five years, or both.

7. The mining claims, mill or tunnel sites for which this waiver from payment of the maintenance fees is requested are:

#### INSTRUCTIONS

- This certification is made under the provisions of § 1744 of Title 43 and § 28-28k of Title 30 of the United States Code; and the regulations thereunder (43 CFR Part 3830).
- The claimant(s) must fill in the dates in paragraph 1 for the beginning and ending of the assessment year for which this waiver is sought.
- The claimant(s) must fill in the date in paragraph 2 for the beginning of the assessment year for which this waiver is sought.
- All claim and site names and Bureau of Land Management (BLM) serial numbers must be listed for the mining claims, mill sites, and tunnel sites for which the waiver is sought.
- All owners of the mining claims, mill sites, and tunnel sites and their addresses must be given.
- 6. This waiver form must be signed by all the claimants or their designated agent, in original form. If an agent is designated, a notarized designation of agent, signed by all of the claimants with proper address given, must be submitted with this waiver.
- 7. This form **must** be filed no later than September 1st for the upcoming assessment year in the BLM State Office where the mining claims or sites are recorded, or the waiver cannot be granted by the BLM. (Example: to obtain a waiver for the assessment year 2000, which begins at noon on September 1, 1999, you **must** qualify for and file for a waiver no later than September 1, 1999, in the proper BLM State Office).
- 8. For all mining claims which require assessment work, you **must** record an affidavit of labor on or before the December 30th immediately following the filing of this waiver. For all other mining claims or sites waived, you must record a notice of intent to hold on or before the December 30th immediately following the filing of this waiver.
- Mill and tunnel sites may also be listed upon this waiver and be waived from
  payment of the maintenance fee. A notice of intent to hold for these sites is
  required to be filed by the December 30th following the filing of this waiver.

#### NOTICE/BURDEN HOURS STATEMENT

The Privacy Act of 1974, as amended, and the regulation in 43 CFR 2.48(d) provide that you be furnished the following information in connection with the information required by this certification of waiver from rental fees.

**AUTHORITY: 30** U.S.C. 28-28k; 43 U.S.C. 1201, 1457, 1740, and 1744; and 43 CFR 3830.

PRINCIPLE PURPOSE: This information is to be used to verify that the owner(s) (claimants) of a mining claim has complied with 30 U.S.C. 28f and is entitled to perform assessment work in lieu of paying the maintenance fee for the mining claims listed on this form.

ROUTINE USE: (1) Adjudication of the claimant(s) certification of waiver from paying the maintenance fee otherwise required by 30 U.S.C. 28f. (2) Disclosure may be made to appropriate Federal agencies when location is made within the agency's geographic area of responsibility. (3) Information from the record and/or the record will be transferred to the appropriate Federal, State, or local agency, or a member of the public in response to a specific request for pertinent information. (4) Information may also be provided to the Department of Justice or in a proceeding before a court or adjudicative body; or to Federal, State, local or foreign agencies when needed for enforcement of civil or criminal codes or applicable regulations concerning title rights upon the public land.

EFFECT OF NOT PROVIDING INFORMATION: Disclosure of this information is required by 30 U.S.C. 28f and 43 CFR Part 3830 for those qualified claimants wishing to take the small miner waiver allowed. Failure to supply the information required in this form to support the claimants certification of waiver from payment of the otherwise required maintenance fees will result in the waiver being disallowed and the mining claims subject to forfeiture by BLM under 30 U.S.C. 28i.

The Paperwork Reduction Act of 1995 requires us to inform you that:

This information is being collected to allow the BLM to determine if you qualify for a waiver from the payment of \$100 per mining claim or site maintenance fee established in 30 U.S.C. 28f and the implementing regulations at 43 CFR 3830. A response to this request is required in accordance with the statute to obtain your benefit.

BLM would like you to know that you do not have to respond to this, or any other, Federal agency-sponsored information collection unless it displays a currently valid OMB control number.

Public reporting burden for this form is estimated to average 8 minutes (0.133 hours) per response, including time to review instructions, gathering and maintaining data, and completing and reviewing the form. Direct comments regarding this burden estimate, or any other aspect of this form, to the U.S. Department of the Interior, Bureau of Land Management, (1004-0114) Bureau Information Collection Clearance Officer (WO-630), Mail Stop 401 LS, 1849 C St, N.W., Washington, D.C. 20240.

FORM APPROVED OMB NO. 1004-0114 Expires: December 31, 2006

SEE INSTRUCTIONS ON REVERSE

1. This small miner waiver is filed for the assessment year beginning at noon on September 1, 2006 and ending at noon on September 1, 2007

 The undersigned and all related parties owned ten or fewer mining claims, mill, or tunnel sites located and maintained on Federal lands in the United States of America on September 1, 2006.

3. The undersigned have performed the assessment work required by law for each mining claim listed prior to filing this waiver and understand that by filing this form; an affidavit of assessment work must be recorded by the December 30th following the filing of this waiver.

4. The undersigned understand that if the assessment work obligation has not yet come due under 30 U.S.C. 28 (for those claims in their first assessment year only); a notice of intent to hold reciting this condition must be recorded by the December 30th following the filing of this waiver.

5. The undersigned understand that mill and tunnel sites may also be listed upon this waiver and be waived from payment of the maintenance fee; and that a notice of intent to hold for these sites is required to be recorded by the December 30th immediately following the filing of this waiver.

6. The undersigned understand and acknowledge that pursuant to 43 U.S.C. 1212 and 18 U.S.C. 1001; the filing or recording of a false, fictitious, or fraudulent document with the Bureau of Land Management may result in a fine of up to \$250,000, a prison term not to exceed five years, or both.

7. The mining claims, mill or tunnel sites for which this waiver from payment of the maintenance fees is requested are:

### INSTRUCTIONS

- This certification is made under the provisions of § 1744 of Title 43 and § 28-28k of Title 30 of the United States Code; and the regulations thereunder (43 CFR Part 3830).
- The claimant(s) must fill in the dates in paragraph 1 for the beginning and ending of the assessment year for which this waiver is sought.
- The claimant(s) must fill in the date in paragraph 2 for the beginning of the assessment year for which this waiver is sought.
- All claim and site names and Bureau of Land Management (BLM) serial numbers must be listed for the mining claims, mill sites, and tunnel sites for which the waiver is sought.
- All owners of the mining claims, mill sites, and tunnel sites and their addresses must be given.
- 6. This waiver form must be signed by all the claimants or their designated agent, in original form. If an agent is designated, a notarized designation of agent, signed by all of the claimants with proper address given, must be submitted with this waiver.
- 7. This form must be filed no later than September 1st for the upcoming assessment year in the BLM State Office where the mining claims or sites are recorded, or the waiver cannot be granted by the BLM. (Example: to obtain a waiver for the assessment year 2000, which begins at noon on September 1, 1999, you must qualify for and file for a waiver no later than September 1, 1999, in the proper BLM State Office).
- 8. For all mining claims which require assessment work, you must record an affidavit of labor on or before the December 30th immediately following the filing of this waiver. For all other mining claims or sites waived, you must record a notice of intent to hold on or before the December 30th immediately following the filing of this waiver.
- Mill and tunnel sites may also be listed upon this waiver and be waived from payment of the maintenance fee. A notice of intent to hold for these sites is required to be filed by the December 30th following the filing of this waiver.

#### NOTICE/BURDEN HOURS STATEMENT

The Privacy Act of 1974, as amended, and the regulation in 43 CFR 2.48(d) provide that you be furnished the following information in connection with the information required by this certification of waiver from rental fees.

AUTHORITY: 30 U.S.C. 28-28k; 43 U.S.C. 1201, 1457, 1740, and 1744; and 43 CFR 3830.

PRINCIPLE PURPOSE: This information is to be used to verify that the owner(s) (claimants) of a mining claim has complied with 30 U.S.C. 28f and is entitled to perform assessment work in lieu of paying the maintenance fee for the mining claims listed on this form.

ROUTINE USE: (1)Adjudication of the claimant(s) certification of waiver from paying the maintenance fee otherwise required by 30 U.S.C. 28f. (2) Disclosure may be made to appropriate Federal agencies when location is made within the agency's geographic area of responsibility. (3) Information from the record and/or the record will be transferred to the appropriate Federal, State, or local agency, or a member of the public in response to a specific request for pertinent information. (4) Information may also be provided to the Department of Justice or in a proceeding before a court or adjudicative body; or to Federal, State, local or foreign agencies when needed for enforcement of civil or criminal codes or applicable regulations concerning title rights upon the public land.

EFFECT OF NOT PROVIDING INFORMATION: Disclosure of this information is required by 30 U.S.C. 28f and 43 CFR Part 3830 for those qualified claimants wishing to take the small miner waiver allowed. Failure to supply the information required in this form to support the claimants certification of waiver from payment of the otherwise required maintenance fees will result in the waiver being disallowed and the mining claims subject to forfeiture by BLM under 30 U.S.C. 28i.

The Paperwork Reduction Act of 1995 requires us to inform you that:

This information is being collected to allow the BLM to determine if you qualify for a waiver from the payment of \$100 per mining claim or site maintenance fee established in 30 U.S.C. 28f and the implementing regulations at 43 CFR 3830. A response to this request is required in accordance with the statute to obtain your benefit

BLM would like you to know that you do not have to respond to this, or any other, Federal agency-sponsored information collection unless it displays a currently valid OMB control number.

Public reporting burden for this form is estimated to average 8 minutes (0.133 hours) per response, including time to review instructions, gathering and maintaining data, and completing and reviewing the form. Direct comments regarding this burden estimate, or any other aspect of this form, to the U.S. Department of the Interior, Bureau of Land Management, (1004-0114) Bureau Information Collection Clearance Officer (WO-630), Mail Stop 401 LS, 1849 C St, N.W., Washington, D.C. 20240.

### MAINTENANCE FEE WAIVER CERTIFICATION

### SEE INSTRUCTIONS ON REVERSE

- 1. This small miner waiver is filed for the assessment year beginning at noon on September 1, 2006 and ending at noon on September 1, 2007.
- 2. The undersigned and all related parties owned ten or fewer mining claims, mill, or tunnel sites located and maintained on Federal lands in the United States of America on September 1, 2006.
- 3. The undersigned have performed the assessment work required by law for each mining claim listed prior to filing this waiver and understand that by filing this form; an affidavit of assessment work must be recorded by the December 30th following the filing of this waiver.
- 4. The undersigned understand that if the assessment work obligation has not yet come due under 30 U.S.C. 28 (for those claims in their first assessment year only); a notice of intent to hold reciting this condition **must** be recorded by the December 30th following the filing of this waiver.
- 5. The undersigned understand that mill and tunnel sites may also be listed upon this waiver and be waived from payment of the maintenance fee; and that a notice of intent to hold for these sites is required to be recorded by the December 30th immediately following the filing of this waiver.
- 6. The undersigned understand and acknowledge that pursuant to 43 U.S.C. 1212 and 18 U.S.C. 1001; the filing or recording of a false, fictitious, or fraudulent document with the Bureau of Land Management may result in a fine of up to \$250,000, a prison term not to exceed five years, or both.
- 7. The mining claims, mill or tunnel sites for which this waiver from payment of the maintenance fees is requested are:

### INSTRUCTIONS

- This certification is made under the provisions of § 1744 of Title 43 and § 28-28k of Title 30 of the United States Code; and the regulations thereunder (43 CFR Part 3830).
- The claimant(s) must fill in the dates in paragraph 1 for the beginning and ending of the assessment year for which this waiver is sought.
- 3. The claimant(s) must fill in the date in paragraph 2 for the beginning of the assessment year for which this waiver is sought.
- All claim and site names and Bureau of Land Management (BLM) serial numbers must be listed for the mining claims, mill sites, and tunnel sites for which the waiver is sought.
- 5. All owners of the mining claims, mill sites, and tunnel sites and their addresses must be given.
- 6. This waiver form must be signed by all the claimants or their designated agent, in original form. If an agent is designated, a notarized designation of agent, signed by all of the claimants with proper address given, must be submitted with this waiver.
- 7. This form **must** be filed no later than September 1st for the upcoming assessment year in the BLM State Office where the mining claims or sites are recorded, or the waiver cannot be granted by the BLM. (Example: to obtain a waiver for the assessment year 2000, which begins at noon on September 1, 1999, you **must** qualify for and file for a waiver no later than September 1, 1999, in the proper BLM State Office).
- 8. For all mining claims which require assessment work, you must record an affidavit of labor on or before the December 30th immediately following the filing of this waiver. For all other mining claims or sites waived, you must record a notice of intent to hold on or before the December 30th immediately following the filing of this waiver.
- Mill and tunnel sites may also be listed upon this waiver and be waived from payment of the maintenance fee. A notice of intent to hold for these sites is required to be filed by the December 30th following the filing of this waiver.

### NOTICE/BURDEN HOURS STATEMENT

The Privacy Act of 1974, as amended, and the regulation in 43 CFR 2.48(d) provide that you be furnished the following information in connection with the information required by this certification of waiver from rental fees.

**AUTHORITY:** 30 U.S.C. 28-28k; 43 U.S.C. 1201, 1457, 1740, and 1744; and 43 CER 3830

PRINCIPLE PURPOSE: This information is to be used to verify that the owner(s) (claimants) of a mining claim has complied with 30 U.S.C. 28f and is entitled to perform assessment work in lieu of paying the maintenance fee for the mining claims listed on this form.

ROUTINE USE: (1)Adjudication of the claimant(s) certification of waiver from paying the maintenance fee otherwise required by 30 U.S.C. 28f. (2) Disclosure may be made to appropriate Federal agencies when location is made within the agency's geographic area of responsibility. (3) Information from the record and/or the record will be transferred to the appropriate Federal, State, or local agency, or a member of the public in response to a specific request for pertinent information. (4) Information may also be provided to the Department of Justice or in a proceeding before a court or adjudicative body; or to Federal, State, local or foreign agencies when needed for enforcement of civil or criminal codes or applicable regulations concerning title rights upon the public land.

EFFECT OF NOT PROVIDING INFORMATION: Disclosure of this information is required by 30 U.S.C. 28f and 43 CFR Part 3830 for those qualified claimants wishing to take the small miner waiver allowed. Failure to supply the information required in this form to support the claimants certification of waiver from payment of the otherwise required maintenance fees will result in the waiver being disallowed and the mining claims subject to forfeiture by BLM under 30 U.S.C. 28i.

The Paperwork Reduction Act of 1995 requires us to inform you that:

This information is being collected to allow the BLM to determine if you qualify for a waiver from the payment of \$100 per mining claim or site maintenance fee established in 30 U.S.C. 28f and the implementing regulations at 43 CFR 3830. A response to this request is required in accordance with the statute to obtain your benefit.

BLM would like you to know that you do not have to respond to this, or any other, Federal agency-sponsored information collection unless it displays a currently valid OMB control number.

Public reporting burden for this form is estimated to average 8 minutes (0.133 hours) per response, including time to review instructions, gathering and maintaining data, and completing and reviewing the form. Direct comments regarding this burden estimate, or any other aspect of this form, to the U.S. Department of the Interior, Bureau of Land Management, (1004-0114) Bureau Information Collection Clearance Officer (WO-630), Mail Stop 401 LS, 1849 C St, N.W., Washington, D.C. 20240

#### INSTRUCTIONS

- This certification is made under the provisions of § 1744 of Title 43 and § 28-28k of Title 30 of the United States Code; and the regulations thereunder (43 CFR Part 3830).
- The claimant(s) must fill in the dates in paragraph 1 for the beginning and ending of the assessment year for which this waiver is sought.
- The claimant(s) must fill in the date in paragraph 2 for the beginning of the assessment year for which this waiver is sought.
- All claim and site names and Bureau of Land Management (BLM) serial numbers must be listed for the mining claims, mill sites, and tunnel sites for which the waiver is sought.
- All owners of the mining claims, mill sites, and tunnel sites and their addresses must be given.
- This waiver form must be signed by all the claimants or their designated agent, in original form. If an agent is designated, a notarized designation of agent, signed by all of the claimants with proper address given, must be submitted with this waiver.
- 7. This form must be filed no later than September 1st for the upcoming assessment year in the BLM State Office where the mining claims or sites are recorded, or the waiver cannot be granted by the BLM. (Example: to obtain a waiver for the assessment year 2000, which begins at noon on September 1, 1999, you must qualify for and file for a waiver no later than September 1, 1999, in the proper BLM State Office).
- 8. For all mining claims which require assessment work, you must record an affidavit of labor on or before the December 30th immediately following the filing of this waiver. For all other mining claims or sites waived, you must record a notice of intent to hold on or before the December 30th immediately following the filing of this waiver.
- 9. Mill and tunnel sites may also be listed upon this waiver and be waived from payment of the maintenance fee. A notice of intent to hold for these sites is required to be filed by the December 30th following the filing of this waiver.

#### NOTICE/BURDEN HOURS STATEMENT

The Privacy Act of 1974, as amended, and the regulation in 43 CFR 2.48(d) provide that you be furnished the following information in connection with the information required by this certification of waiver from rental fees.

AUTHORITY: 30 U.S.C. 28-28k; 43 U.S.C. 1201, 1457, 1740, and 1744; and 43 CFR 3830.

PRINCIPLE PURPOSE: This information is to be used to verify that the owner(s) (claimants) of a mining claim has complied with 30 U.S.C. 28f and is entitled to perform assessment work in lieu of paying the maintenance fee for the mining claims listed on this form.

ROUTINE USE: (1)Adjudication of the claimant(s) certification of waiver from paying the maintenance fee otherwise required by 30 U.S.C. 28f. (2) Disclosure may be made to appropriate Federal agencies when location is made within the agency's geographic area of responsibility. (3) Information from the record and/or the record will be transferred to the appropriate Federal, State, or local agency, or a member of the public in response to a specific request for pertinent information. (4) Information may also be provided to the Department of Justice or in a proceeding before a court or adjudicative body; or to Federal, State, local or foreign agencies when needed for enforcement of civil or criminal codes or applicable regulations concerning title rights upon the public land.

EFFECT OF NOT PROVIDING INFORMATION: Disclosure of this information is required by 30 U.S.C. 28f and 43 CFR Part 3830 for those qualified claimants wishing to take the small miner waiver allowed. Failure to supply the information required in this form to support the claimants certification of waiver from payment of the otherwise required maintenance fees will result in the waiver being disallowed and the mining claims subject to forfeiture by BLM under 30 U.S.C. 28i.

The Paperwork Reduction Act of 1995 requires us to inform you that:

This information is being collected to allow the BLM to determine if you qualify for a waiver from the payment of \$100 per mining claim or site maintenance fee established in 30 U.S.C. 28f and the implementing regulations at 43 CFR 3830. A response to this request is required in accordance with the statute to obtain your benefit.

BLM would like you to know that you do not have to respond to this, or any other, Federal agency-sponsored information collection unless it displays a currently valid OMB control number.

Public reporting burden for this form is estimated to average 8 minutes (0.133 hours) per response, including time to review instructions, gathering and maintaining data, and completing and reviewing the form. Direct comments regarding this burden estimate, or any other aspect of this form, to the U.S. Department of the Interior, Bureau of Land Management, (1004-0114) Bureau Information Collection Clearance Officer (WO-630), Mail Stop 401 LS, 1849 C St, N.W., Washington, D.C. 20240.

### INSTRUCTIONS

- This certification is made under the provisions of § 1744 of Title 43 and § 28-2k of Title 30 of the United States Code; and the regulations thereunder (43 CFR Part 3830).
- The claimant(s) must fill in the dates in paragraph 1 for the beginning and ending of the assessment year for which this waiver is sought.
- The claimant(s) must fill in the date in paragraph 2 for the beginning of the assessment year for which this waiver is sought.
- 4. All claim and site names and Bureau of Land Management (BLM) serial numbers must be listed for the mining claims, mill sites, and tunnel sites for which the waiver is sought
- 5. All owners of the mining claims, mill sites, and tunnel sites and their addresses must be given.
- 6. This waiver form must be signed by all the claimants or their designated agent, in original form. If an agent is designated, a notarized designation of agent, signed by all of the claimants with proper address given, must be submitted with this waiver.
- 7. This form **must** be filed no later than September 1st for the upcoming assessment year in the BLM State Office where the mining claims or sites are recorded, or the waiver cannot be granted by the BLM. (Example: to obtain a waiver for the assessment year 2000, which begins at noon on September 1, 1999, you **must** qualify for and file for a waiver no later than September 1, 1999, in the proper BLM State Office).
- 8. For all mining claims which require assessment work, you must record an affidavit of labor on or before the December 30th immediately following the filing of this waiver. For all other mining claims or sites waived, you must record a notice of intent to hold on or before the December 30th immediately following the filing of this waiver.
- Mill and tunnel sites may also be listed upon this waiver and be waived from
  payment of the maintenance fee. A notice of intent to hold for these sites is
  required to be filed by the December 30th following the filing of this waiver.

#### NOTICE/BURDEN HOURS STATEMENT

The Privacy Act of 1974, as amended, and the regulation in 43 CFR 2.48(d) provide that you be furnished the following information in connection with the information required by this certification of waiver from rental fees.

**AUTHORITY:** 30 U.S.C. 28-28k; 43 U.S.C. 1201, 1457, 1740, and 1744; and 43 CFR 3830.

PRINCIPLE PURPOSE: This information is to be used to verify that the owner(s) (claimants) of a mining claim has complied with 30 U.S.C. 28f and is entitled to perform assessment work in lieu of paying the maintenance fee for the mining claims listed on this form.

ROUTINE USE: (1) Adjudication of the claimant(s) certification of waiver from paying the maintenance fee otherwise required by 30 U.S.C. 28f. (2) Disclosure may be made to appropriate Federal agencies when location is made within the agency's geographic area of responsibility. (3) Information from the record and/or the record will be transferred to the appropriate Federal, State, or local agency, or a member of the public in response to a specific request for pertinent information. (4) Information may also be provided to the Department of Justice or in a proceeding before a court or adjudicative body; or to Federal, State, local or foreign agencies when needed for enforcement of civil or criminal codes or applicable regulations concerning title rights upon the public land.

EFFECT OF NOT PROVIDING INFORMATION: Disclosure of this information is required by 30 U.S.C. 28f and 43 CFR Part 3830 for those qualified claimants wishing to take the small miner waiver allowed. Failure to supply the information required in this form to support the claimants certification of waiver from payment of the otherwise required maintenance fees will result in the waiver being disallowed and the mining claims subject to forfeiture by BLM under 30 U.S.C. 28i.

The Paperwork Reduction Act of 1995 requires us to inform you that:

This information is being collected to allow the BLM to determine if you qualify for a waiver from the payment of \$100 per mining claim or site maintenance fee established in 30 U.S.C. 28f and the implementing regulations at 43 CFR 3830. A response to this request is required in accordance with the statute to obtain your benefit.

BLM would like you to know that you do not have to respond to this, or any other, Federal agency-sponsored information collection unless it displays a currently valid OMB control number.

Public reporting burden for this form is estimated to average 8 minutes (0.133 hours) per response, including time to review instructions, gathering and maintaining data, and completing and reviewing the form. Direct comments regarding this burden estimate, or any other aspect of this form, to the U.S. Department of the Interior, Bureau of Land Management, (1004-0114) Bureau Information Collection Clearance Officer (WO-630), Mail Stop 401 LS, 1849 C St, N.W., Washington, D.C. 20240.

Tony Smith:

Per our telephone conversation 3-26-08, attached find the canceled check [copy] cashed by BLM on September 17, 2007

to prove that I filed and paid for the maintenance fee waiver. If there was any problem

it should have been brought to my attention then [Sept.2007] by not cashing the check. Cashing the check is proof de jure of acceptance of the waiver although I would have paid the

\$125 to hold my claim. I have been going out there to work the claim with a metal detector on average of once a month.

Let me know if this solves the problem. I will not be tricked out of this claim and will notify my elected representatives if this continues. This is my claim and I can prove it in a court of law.

Walter Chadde 33575 S. Topaz Rd. Black Canyon City, AZ 85324

NOTE: FOUND THIS 3830-2 IN MY FILES. IT IS NOT STAMPED ON BACK, COULD BE THAT I DID NEGLECT TO MAIL IT OFF TO OU BUT IT COULD ALSO BE THAT YOU RETURNED ME AS \$ 15 AND YOU NEGLECTED TO STAMP Please let me Know - 909-167-5231
