### Association Placer Mining Claims Documentation or Amendments Required

The mining claims listed above are association placer mining claims that are over 20 acres in size. The claims were originally located with the required number of locators to meet the 20-acre per locator requirement. However, the claims are now held by a smaller group of claimants than originally located them and are therefore not in compliance with the legal requirements.

By law, each individual claimant is allowed to hold a maximum of 20 acres per claim. A corporation is considered to be a single entity that is allowed to hold a maximum of 20 acres per claim. In accordance with 43 CFR 3833.33 you may transfer, sell, or otherwise convey an association placer mining claim at any time to an equal or greater number of mining claimants. If you want to transfer an association placer claim to an individual or an association that is smaller in number than the association that located the claim you (a) must have discovered a valuable mineral deposit before the transfer; or (b) upon notice from the Bureau of Land Management (BLM), you must reduce the acreage of the claim, if necessary, so that you meet the 20-acre per locator limit.

In reviewing the case file for these claims it was noted that at the time of transfer to an individual or smaller number of locators than originally located the claims, BLM did not receive documentation supporting that a discovery of a valuable mineral deposit was made. Without this

*Amended on 9/2/14 - Reduced Acreage to 40 acres.  
RH3121775*

documentation we cannot determine if the claims are being properly held by the correct number of claimants. Therefore, we are requiring that the appropriate documentation be submitted to BLM. We are enclosing a list to clarify what documentation must be provided to BLM to support the discovery of a valuable mineral deposit.

If you have the required documentation, dated **prior** to the date of transfer, you may file it with this office for review by a mineral examiner. If you do not have the proper documentation, you must amend the claims listed above, reducing the acreage to 20 acres per claimant, as is allowed by law.

We must receive either documentation supporting a discovery of a valuable mineral deposit, or amendments within 30 days of your receipt of this notice. If the required documentation or the amendments are not received within the 30-day timeframe the mining claims will be declared forfeited and void. If amendments are filed, there is a \$10 BLM processing fee for each amendment. The amendments must also be filed with the county.

If additional information is required, please contact Pauline Brown at 602-417-9360. Please include your AMC serial number(s) on all correspondence.

Sincerely,

Rebecca Heick
