- For all mining claims which require assessment work, you must record an affidavit of labor on or before the December 30th immediately following the filing of this waiver. **NOTICE/BURDEN HOURS STATEMENT**

The Privacy Act of 1974, as amended, and the regulation in 43 CFR 2.48(d) provide that you be furnished the following information in connection with the information required by this certification of waiver from rental fees.

**AUTHORITY:** 30 U.S.C. 28-28k; 43 U.S.C. 1201, 1457, 1740, and 1744; and 43 CFR 3830.

**PRINCIPLE PURPOSE:** This information is to be used to verify that the owner(s) (claimants) of a mining claim has complied with 30 U.S.C. 28f and is entitled to perform assessment work in lieu of paying the maintenance fee for the mining claims listed on this form.

**ROUTINE USE:** (1) Adjudication of the claimant(s) certification of waiver from paying the maintenance fee otherwise required by 30 U.S.C. 28f. (2) Disclosure may be made to appropriate Federal agencies when location is made within the agency's geographic area of responsibility. (3) Information from the record and/or the record will be transferred to the appropriate Federal, State, or local agency, or a member of the public in response to a specific request for pertinent information. (4) Information may also be provided to the Department of Justice or in a proceeding before a court or adjudicative body; or to Federal, State, local or foreign agencies when needed for enforcement of civil or criminal codes or applicable regulations concerning title rights upon the public land.

**EFFECT OF NOT PROVIDING INFORMATION:** Disclosure of this information is required by 30 U.S.C. 28f and 43 CFR Part 3830 for those qualified claimants wishing to take the small miner waiver allowed. Failure to supply the information required in this form to support the claimants certification of waiver from payment of the otherwise required maintenance fees will result in the waiver being disallowed and the mining claims subject to forfeiture by BLM under 30 U.S.C. 28i.

The Paperwork Reduction Act of 1995 requires us to inform you that: This information is being collected to allow the BLM to determine if you qualify for a waiver from the payment of \$100 per mining claim or site maintenance fee established in 30 U.S.C. 28f and the implementing regulations at 43 CFR 3830. A response to this request is required in accordance with the statute to obtain your benefit.

## DEPARTMENT OF THE INTERIOR

### Bureau of Land Management

#### Preparation of Resource Management Plan Amendments and an Environmental Impact Statement; Northeast Resource Area, et al.

**AGENCY:** Bureau of Land Management (BLM), Department of the Interior.

**ACTION:** Notice of intent to prepare amendments to five Resource Management Plans (RMPs) and an Environmental Impact Statement (EIS) for the Northeast, Kremmling, Little Snake, Glenwood Springs, and San Juan Resource Areas.

**SUMMARY:** The Colorado State Office hereby gives notice of its intent to prepare an EIS and amendments to five RMPs. The five Resource Areas contain approximately five million acres of public lands and public minerals underlying private lands. The primary purpose of the amendments is to incorporate the latest BLM program guidance (BLM Manual section 1624.2) for fluid minerals. This guidance includes the use of a "Reasonably Foreseeable Development" scenario, identification of cumulative impacts, and evaluation of the effectiveness of stipulations.

The proposed planning action will result in a determination as to which public lands and minerals should be made available for oil and gas development through leasing, and what lease stipulations may be necessary to protect other resource values.

The issues anticipated include:

1. Determining if existing lease stipulations are proper and sufficient to protect other resource values.
2. Determining if there is additional federal mineral estate that should be considered for oil and gas leasing.
3. The cumulative impacts of oil and gas development.
4. Clarification of stipulations applied at lease issuance and conditions of approval applied to subsequent development activities.

5. Lease stipulations necessary to protect wildlife, fragile soils, water resources and other resource values.

6. The impact of lease stipulations on oil and gas development.

The proposed planning criteria used to address these issues are summarized below:

1. Consult with appropriate representatives of the oil and gas industry to identify mineral potential.
2. Apply applicable laws and regulations to identify land eligible for leasing.
3. Assess the suitability of the land to incur oil and gas development, and the availability of the resource for development.
4. Compare the public values of oil and gas development with the public values of other alternative uses which may be precluded or impacted.

Alternatives proposed for consideration include:

1. No action defined as a continuation of current management.
2. Standard lease terms only.
3. Preferred alternative—to be defined by management following consultations with staff and the public.

The plan amendments will be prepared using a variety of resource specialists including persons trained in geology, hydrology, soils, air, wildlife, range, recreation, realty, surface protection, and economics.

**DATES:** Public comment on the proposed issues, planning criteria, alternatives and resource disciplines will be accepted for 30 days following publication of this Notice. In addition, public scoping meetings will be scheduled for late March and early April. At least two weeks advance notice of the time and dates of these meetings will be provided. Additional public participation opportunities will be provided through formal public hearings on the draft EIS and requests for written comments.

**ADDRESSES:** Comments should be addressed to Greg Shoop, Bureau of Land Management, 2850 Youngfield Street, Lakewood, Colorado 80215.

**FOR FURTHER INFORMATION CONTACT:** Greg Shoop, CO-922, telephone cml. (303) 236-1787 or FTS 776-1787.

Dated: March 7, 1989.
