### DECISION VACATED

The decision dated November 13, 2014, declaring the above listed claims forfeited due to the maintenance fee waiver not containing a signature of the mining claim owner is hereby vacated.

Upon further investigation, we've obtained proof of a signed valid waiver and receipt of all required documents on or before the due date. Our records have been updated to show the claims in a current status.

Enclosed is a copy of the statement from the Bureau of Land Management (BLM) employee who received a valid waiver (form expired August 31, 2013, but was still accepted for the 2015 assessment year) stating that the claim owner was informed the form was expired and a new form needed to be completed, the presented expired waiver, and the submitted waiver. The BLM Arizona was accepting the expired August 31, 2013 forms due to the website being updated with the new form after the start of the filing season.

If additional information is required, please contact RéAnn Myers at 602-417-9413. Please include your AMC serial number(s) on all correspondence.

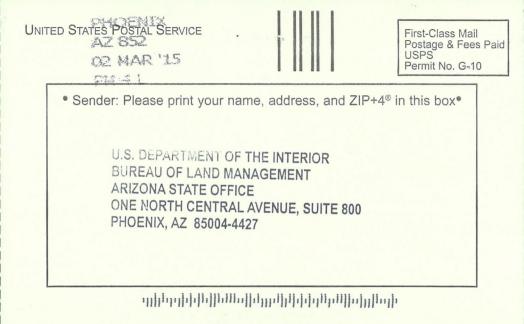

Sincerely,

> <u>Maintenance Fee Waiver Certifications Denied</u> <u>Mining Claims Declared Forfeit</u>

The Maintenance Fee Waiver Certification (small miner waiver) filed for the 2015 assessment year, for the mining claims listed above, is denied. Because the waiver is denied and because the required maintenance fee payments due on or before September 1, 2014, were not paid, these claims are declared forfeit.

By September 1 of each year, claimants must pay an annual maintenance fee of \$155 per 20 acres or portion thereof, in accordance with Title 43 Code of Federal Regulations (CFR) 3000.12(a), 3830.21, and 3834.11(a)(2), or submit a <u>valid</u> waiver, in accordance with 43 CFR 3835.1, 3835.10, and 3835.11. In accordance with 43 CFR 1822.14, because September 1, 2014, fell on a holiday, the payment was due the next business day, September 2, 2014.

We did receive your small miner waiver in a timely manner, however, the document received was not a certification that was properly executed for the 2015 assessment year, and is therefore not valid. The waiver does not contain a signature.

2. Article Number

The regulations require a claimant seeking a waiver to file an annual certification of his qualifications for the waiver that contains a current signature that was executed for the specific assessment year for which the waiver is requested. In accordance with *Thomas L. Carufel*, 155 IBLA 340-345 (2001), while some unintentional omissions on a waiver may be curable, those omissions which affect "the heart of the certification process," such as failure to file a contemporaneously signed certification of claimant's qualifications executed in support of the specific application for waiver for an assessment year goes to the heart of the waiver certification process and is therefore not curable.

#### **Reclamation Requirements**

This decision does not relieve you of the liability for reclamation of all areas disturbed by your activities on lands covered by the subject mining claim(s) and/or site(s). After you complete the reclamation, you must notify the authorized officer of the appropriate surface managing agency so that the authorized officer may conduct a final site inspection and determine whether you may be released from liability. If you fail to reclaim the land to the satisfaction of the authorized officer, the surface management agency may cite you for noncompliance under its surface management regulations.

For land administered by the Bureau of Land Management (BLM), if you fail to reclaim the land to the satisfaction of the authorized officer as required in 43 CFR Subpart 3809, the BLM will issue an order of noncompliance under 43 CFR 3809.601(a). If you fail to comply with the noncompliance order, the BLM may take further action under 43 CFR 3809.604. Failure to conduct reclamation is a prohibited act that may subject you to criminal penalties. (See 43 CFR 3809.605(h) and 43 CFR 3809.700)

#### **Appeal Procedures**

This decision may be appealed to the Interior Board of Land Appeals, Office of the Secretary, in accordance with the regulations contained in 43 CFR Part 4, and the enclosed Form 1842-1. If an appeal is taken, your notice of appeal must be filed in this office (at the above address) within 30 days from receipt of this decision. The appellant has the burden of showing that the decision appealed from is in error.

If you wish to file a petition pursuant to regulation 43 CFR 4.21 (58 FR 4939, January 19, 1993) for a stay of the effectiveness of this decision during the time that your appeal is being reviewed by the Board, the petition for a stay must accompany your notice of appeal. A petition for a stay is required to show sufficient justification based on the standards listed below. Copies of the notice of appeal and petition for a stay must also be submitted to each party named in this decision and to the Interior Board of Land Appeals and to the appropriate Office of the Solicitor (see 43 CFR 4.413) at the same time the original documents are filed with this office. If you request a stay, you have the burden of proof to demonstrate that a stay should be granted.

Except as otherwise provided by law or other pertinent regulation, a petition for a stay of a decision pending appeal shall show sufficient justification based on the following standards:

(1) The relative harm to the parties if the stay is granted or denied,

(2) The likelihood of the appellant's success on the merits,

(3) The likelihood of immediate and irreparable harm if the stay is not granted, and

(4) Whether the public interest favors granting the stay.

Please include your AMC serial number(s) on all correspondence. If additional information is required, please contact RéAnn Myers at 602-417-9413.

Sincerely,

Rebecca Heick

Re: Abandonment of Two Unpatented Mining Claims

To Whom It May Concern:

I am writing this letter on behalf of Donald E. Holcomb, Jr. Effective as of August 30, 2012, Mr. Holcomb has asked me to inform you that he abandoned the following two unpatented lode claim filings currently of record with the Bureau of Land Management:

- 1. Commissary #3, AMC 407670, section 17, Township 13 North, Range 3 West, Yavapai County, Arizona
- 2. Flour Gold #7, AMC 407675, sections 17, 18, Township 13 North, Range 3 West, Yavapai County, Arizona

Nothing in this letter should be construed as indicating Mr. Holcomb's intent to abandon any other unpatented mining claim not listed above, nor should it be construed to indicate abandonment of any other unpatented mining claim to the extent such claim area might overlap the same land area included within the filings listed above.

Please place a copy of this letter in each of BLM's files for these two claims and change the status of these claims to "inactive" in BLM's record-keeping systems. If you require further information from Mr. Holcomb, please do not hesitate to contact me.

Sincerely,

Hide Van Quathern
