Mining Claim Location Notice(s) – Amendment(s) Required

Pursuant to Title 43 Code of Federal Regulations (CFR) 3832.1, this office received your notices of location for recording mining claims. In accordance with 43 CFR 3832.12, the claims listed above cannot be accepted as filed and must be amended as noted below.

Must file an amendment for AMC411025 – AMC411029 (Silverstone 4 – 7). AMC411025, AMC411026, AMC411028 & AMC411029 must reduce the size of the claims down to 1320' X 600'. You have lode dimensions (600' X 1500'). You can't increase the 600' to 660' because you would be taking in new ground. A typical 20 acre placer claim is 660' X 1320', all placer claims should be described by legal land description unless encumbered by private land or other encumbrance i.e. active unpatented mining claims. AMC411027 must reduce down to 1200' X 660'. In this case the claim is encumbered by a patented mining claim and is therefore ok to have the 1200'. All of the claims listed must have the dimensions in feet on the maps.

You must file an amendment for each claim listed above to correct the defects identified. There is a \$10 BLM processing fee for each amendment. We must receive the amendments within 30 days of your receipt of this notice. If the amendments are not received within the 30-day timeframe the mining claims will be declared null and void.
