Since local and State laws may vary, you should contact your local and State agencies where the claims are located to ensure all applicable laws and requirements are satisfied.
2. The claimant(s) must fill in the date in paragraph 1 for the applicable assessment year and the county and state where the claims are located.

5. The names and current mailing addresses of the person(s) performing the labor shall be listed in paragraph 3.
6. The name and current mailing address of each owner (claimant) of the claims shall be listed in paragraph 4. The mailing address shall be the owner's address and not the address of an agent or anyone representing the claimant. Be sure to note if there has been a change of address.

8. An exact legible reproduction or duplicate (other than microfilm or other electronic media) of this affidavit or another type of affidavit of assessment work that you file or will file in the county where each claim is located, must be filed with the BLM on or before December 30 of the calendar year in which the assessment year ends. For mill or tunnel sites, a separate notice of intent to hold must be filed with the BLM on or before December 30. Requirements for filing a notice of intent to hold can be found at 43 CFR 3835.33.
9. A processing fee of \$10 for each claim listed must be remitted to the BLM along with this or any other affidavit of assessment work.

## INFORMATION REGARDING LOCATING PLACER MINING CLAIMS

We have received your location notice(s) for placer mining claims. We are sending this information regarding the following claim(s): AMC 412575

The claim(s) is/are not located by aliquot parts using the rectangular survey system.

In accordance with 43 CFR 3832.12(c)(1) Unless the claims are on unsurveyed Federal land, are gulch or bench placer claims, or are bounded by other mining claims or nonmineral lands, the claim(s) should be described by aliquot parts using the rectangular survey system.

✓ The dimensions are incorrect. 2640' x 660'

Using the rectangular survey system the following are examples of correct dimensions for a placer claim: 20 acre claim = 1320 x 660; 40 acre claim = 1320 x 1320; 60 acres claim = 1980 x 1320; 80 acre claim = 2640 x 1320; 160 acre claim = 2640 x 2640

Small aliquot parts are: 10 acres = 660 x 660, or 1320 x 330; 5 acres = 660 x 330; 2.5 acres = 330 x 330

       The claim is located diagonally or in an odd or unusual shape.

A placer claim should not be located in this manner unless it is a gulch or bench placer claim or it is bounded by other mining claims or nonmineral lands. If the claim does fall into one of the categories mentioned, then it should be described using a protracted survey or by metes and bounds.

In accordance with 43 CFR 3832.12 (a) (1) For all claims and sites, you must describe the land by state, meridian, township, range, section and by aliquot part to the quarter section. In all cases, your description of the land must be as compact and regular in form as reasonably possible and should conform to the U.S. Public Land Survey System and its rectangular subdivisions as much as possible.

For placer claims, in accordance with 43 CFR 3832.12(c) (1) You must describe placer claims by aliquot part and complete lots using the U.S. Public Land Survey System and its rectangular subdivisions except when placer claims are -

(i) on unsurveyed Federal lands; (ii) Gulch or bench placer claims; or (iii) Bounded by other mining claims or nonmineral lands

(2) For placer mining claims that are on unsurveyed Federal lands or are gulch or bench placer claims: (i) You must describe the lands by protracted survey if the BLM has a protracted survey of record; or (ii) You may describe the lands by metes and bounds, if a protracted survey is not available or if the land is not amenable to protraction.

If after reading this information, you determine that the claim(s) are located incorrectly, in order to protect your interests, you should amend the claim(s). Please be aware that when amending a claim, you cannot take in any new ground. This may result in a claim that contains significantly less acreage than originally located. If you wish to retain the same acreage, you may want to relocate the claim correctly, rather than amend this claim.

✓ The dimensions are incorrect. 2640' x 660'

Using the rectangular survey system the following are examples of correct dimensions for a placer claim: 20 acre claim = 1320 x 660; 40 acre claim = 1320 x 1320; 60 acres claim = 1980 x 1320; 80 acre claim = 2640 x 1320; 160 acre claim = 2640 x 2640

Small aliquot parts are: 10 acres = 660 x 660, or 1320 x 330; 5 acres = 660 x 330; 2.5 acres = 330 x 330

\_\_\_\_\_ The claim is located diagonally or in an odd or unusual shape.

A placer claim should not be located in this manner unless it is a gulch or bench placer claim or it is bounded by other mining claims or nonmineral lands. If the claim does fall into one of the categories mentioned, then it should be described using a protracted survey or by metes and bounds.

In accordance with 43 CFR 3832.12 (a) (1) For all claims and sites, you must describe the land by state, meridian, township, range, section and by aliquot part to the quarter section. In all cases, your description of the land must be as compact and regular in form as reasonably possible and should conform to the U.S. Public Land Survey System and its rectangular subdivisions as much as possible.

For placer claims, in accordance with 43 CFR 3832.12(c) (1) You must describe placer claims by aliquot part and complete lots using the U.S. Public Land Survey System and its rectangular subdivisions except when placer claims are –

(i) on unsurveyed Federal lands; (ii) Gulch or bench placer claims; or (iii) Bounded by other mining claims or nonmineral lands

(2) For placer mining claims that are on unsurveyed Federal lands or are gulch or bench placer claims: (i) You must describe the lands by protracted survey if the BLM has a protracted survey of record; or (ii) You may describe the lands by metes and bounds, if a protracted survey is not available or if the land is not amenable to protraction.

**If after reading this information, you determine that the claim(s) are located incorrectly, in order to protect your interests, you should amend the claim(s). Please be aware that when amending a claim, you cannot take in any new ground. This may result in a claim that contains significantly less acreage than originally located. If you wish to retain the same acreage, you may want to relocate the claim correctly, rather than amend this claim.**
