2014 Maintenance Fees Due on Claims under a Waiver

A Maintenance Fee Waiver Certification (small miner waiver) was filed for the 2014 assessment year for the mining claims listed above. Since the commencement of the 2014 assessment year on September 1, 2013, one of the owners or related parties of these mining claims has acquired and now holds in excess of 10 mining claims nationwide.

In accordance with 43 CFR 3835.1, to qualify for a small miner waiver you and all related parties must hold no more than a total of 10 mining claims or sites nationwide. As defined at 43 CFR 3830.5, "related party means: a) the spouse and dependent children of the claimant as defined in section 152 of the Internal Revenue Code of 1986 [26 U.S.C. section 152]; or, b) a person who controls, is controlled by, or is under common control with the claimant." Under 43 CFR 3830.5, "Control means actual control, legal control, or the power to exercise control, through or by common directors, officers, stockholders, a voting trust, or a holding company or Investment Company, or any other means."

Charles Weinheimer is the President of Quartzsite Metal Detecting Club and is therefore, within the meaning of Bureau of Land Management (BLM) regulations, considered to be a related party to the Quartzsite Metal Detecting Club. Charles Weinheimer and his wife Janice located 8 new

mining claims after September 1, 2013. These related parties now own a total of 15 mining claims and therefore no longer qualify for a small miner waiver.

Therefore, in accordance with 43 CFR 3835.20, and *Randi Rovetto, Et Al.*, 177 IBLA 257, the 2014 small miner waiver filed for the above listed mining claims is immediately cancelled and the 2014 Maintenance Fees of \$140 per claim per 20 acres or portion thereof, are now due. The BLM must receive the 2014 maintenance fee for these mining claims on or before September 1, 2014. If we do not receive the fees within this timeframe, the claims will be forfeited and closed. At that same time (on or before September 1, 2014) the maintenance fees for the 2015 assessment year will also be due on these claims and the 8 new claims that were located.

When paying the fees please specify which assessment year is being paid so we can apply the fees accurately to the claims. Please also include an explanation as to why the fees for the assessment year that has already begun are being paid; e.g., the claim owner no longer qualified for a small miner waiver.

If additional information is required, please contact Amy Thrower at 602-417-9334. Please include your AMC serial numbers on all correspondence.

Sincerely,

A handwritten signature in cursive script that reads "Rebecca Heick".

Mining Claim Location Notice – Amendment Required

Pursuant to Title 43 Code of Federal Regulations (CFR) 3832.1, this office received your notices of location for recording the mining claims listed above. In accordance with 43 CFR 3832.12, the claims listed above cannot be accepted as filed and must be amended as noted below.

You must be qualified to locate an association placer mining claim and your mining claim must conform to the requirements of Federal law, 30 U.S.C. 35, 36, and regulations at 43 CFR 3832.22. These laws allow the location of placer mining claims greater than 20 acres so long as each of the locators has a bona fide interest in the claims, and has located the claims independently, for their own self-interest, and in good faith. The law is well established that a person cannot use the names of his friends, relatives, or employees as locators in order to locate for his own benefit a greater area of placer ground than is allowable by law. Any claim located using dummy locators is not a valid mining claim.

The mining claims filed are Granite #1 (AMC411908) has 40 acres with 3 locators, Granite #2 has 160 acres with nine locators and Jumping Jack #2 has ~~43.99~~ ^{22.29} acres with three locators.

A corporation is considered to be a single entity that can hold only 20 acres in a single claim. 43 CFR 3832.22(b) (2). You cannot list as an additional locator on the same association placer claim anyone who has control in the corporation, or is an officer or partner in the corporation, or is related to the corporation or its officers, in order to benefit or gain more acreage than is allowable by law for one entity. Each individual or entity must be independent of the other and locating for their own self-interest.

Based on a review of the documents and information available, it appears that these three mining claims were located for the benefit of Quartzsite Metal Detecting Club, and additional club members' names were used in order to gain more acreage than is allowable by law for a single entity. It is the Bureau of Land Management's (BLM) conclusion that these mining claims were not located properly and contain excess acreage, in violation of 43 C.F.R. 3832.22. The BLM is therefore requiring that these claims be amended, reducing each claim to 20 acres, which is allowable by law for a corporation.

There is a \$10 BLM processing fee for an amendment. We must receive the amendments within 30 days of your receipt of this notice. If the amendments are not received within the 30-day timeframe the mining claims will be declared null and void.

If additional information is required, please contact Tony Smith at 602-417-9355. Please include your AMC serial number(s) on all correspondence.
