I've done a review of BLM internet records that you might find of interest.

I ran a "Geo Index" report in BLM's mining claim database for claims located in Mohave County, Arizona. The generated LR2000 report listed your Boulder lode (AMC 418084). I reviewed the land status of the legal description listed for the claim. If the legal description is correct, it's possible BLM can declare the claim Null and Void Ab Initio.

LR2000 shows the claim lying in the NE¼, Sec. 3, T. 15 N., R. 20 W., G&SRM. The land status records for this township shows that Sec. 3 was included in Railroad Grant Patent 879795 issued September 18, 1922. The patent did not reserve minerals to the United States. Sec. 3 was reacquired by the U.S. and the notation for the deed on the Master Title Plat (MTP) does not indicate if mineral rights were acquired. Such "silence" can mean one of three things:

1. The notation is wrong
2. The U.S. acquired no mineral rights
3. The deed is 'silent' about mineral rights so the MTP is too

This last is the one seen most often in older deeds and it means that if the grantor held mineral rights they were conveyed to the United States. BLM has abstracted the deed in the Status database and the AZPHX 082286/___/01 serial page just shows that surface rights were reacquired. If the U.S. did not acquire locatable mineral rights then your claim can be declared null and void. If you read the PHX 082286 deed that was signed April 11, 1946, you may be able to tell if minerals were conveyed for Sec. 3. It's available for inspection at BLM's Arizona State Office or they will sell you a copy for \$1.10 per page.

Some folks have issues with railroad grants because Congress specified in the granting legislation that grants to the railroads did not include mineral land. While mineral lands were excluded from the grants, the Supreme Court later

RECEIVED
BLM AZ STATE OFFICE
2011 MAR 17 P 3:08
PHOENIX, ARIZONA

ruled that the issued patents were themselves proof that the patented land was non-mineral on the date the patent issued. There is no stated nor implied reservation or exclusion of mineral lands from Railroad Grant patents.

I can identify areas closed to mining location, PL 359 areas potentially closed to mining location, and SRHE patents open to location (where the United States still owns the minerals) on copies of BLM's Master Title Plats. I can draw the location of active mining claims on the plats. I can point out Department of the Interior decisions addressing land open or closed to mining location or the requirements for filing mining claim documents. I can review and analyze public records at the California State Office or Nevada State Office. I charge \$25 per hour. I also provide instruction on accessing and interpreting BLM records. I charge \$50 for the first 3 hours for 1 or 2 people. I can provide instruction for larger groups for \$50 per hour. Just be aware that you can get some of the same information and instruction for free from the BLM public room along with free copies of regulations, forms, etc.

I retired from BLM in 2010. My experience covers other states' records. I've given formal training on California, Nevada, Utah, and Montana land status records and I've used Arizona and Washington records on the job. In fact my first BLM job was building land status records for California and Washington.

Understand that I am not a filing service. I do not act as an agent nor can I give you definitive instructions on locating and operating mining claims. I certainly don't know state law. I'm not a geologist. I have a records' background and I was a Realty Specialist for BLM. Later, I adjudicated rights-of-way, Oil and Gas Leases, and withdrawals. I worked as a mining claim adjudicator but it was only for 4 months and it was all on overtime. I did officially check the land status for all new California mining claims for 4 years under procedures set by Rose Fairbanks - supervisor of the Mining Claim Recordation section. But I was never part of that section. I've worked extensively in and with BLM's Public Room and trained hundreds of folks to use BLM records.

NOTICE/BURDEN HOURS STATEMENT

The Privacy Act of 1974, as amended, and the regulation in 43 CFR 2.48(d) provide that you be furnished the following information in connection with the information required by this certification of waiver from rental fees.

AUTHORITY: 30 U.S.C. 28-28k; 43 U.S.C. 1201, 1457, 1740, and 1744; and 43 CFR 3830.

PRINCIPLE PURPOSE: This information is to be used to verify that the owner(s) (claimants) of a mining claim has complied with 30 U.S.C. 28f and is entitled to perform assessment work in lieu of paying the maintenance fee for the mining claims listed on this form.

ROUTINE USE: (1) Adjudication of the claimant(s) certification of waiver from paying the maintenance fee otherwise required by 30 U.S.C. 28f. (2) Disclosure may be made to appropriate Federal agencies when location is made within the agency's geographic area of responsibility. (3) Information from the record and/or the record will be transferred to the appropriate Federal, State, or local agency, or a member of the public in response to a specific request for pertinent information. (4) Information may also be provided to the Department of Justice or in a proceeding before a court or adjudicative body: of to Federal, State, local or foreign agencies when needed for enforcement of civil or criminal codes or applicable regulations concerning title rights upon the public land.

EFFECT OF NOT PROVIDING INFORMATION: Disclosure of this information is required by 30 U.S.C. 28f and 43 CFR Part 3830 for those qualified claimants wishing to take the small miner waiver allowed. Failure to supply the information required in this form to support the claimants certification of waiver from payment of the otherwise required maintenance fees will result in the waiver being disallowed and the mining claims subject to forfeiture by BLM under 30 U.S.C. 28i.

The Paperwork Reduction Act of 1995 requires us to inform you that: This information is being collected to allow the BLM to determine if you qualify for a waiver from the payment of \$100 per mining claim or site maintenance fee established in 30 U.S.C. 28f and the implementing regulations at 43 CFR 3830. A response to this request is required in accordance with the statute to obtain your benefit.

BLM would like you to know that you do not have to respond to this, or any other, Federal agency-sponsored information collection unless it displays a currently valid OMB control number.

Public reporting burden for this form is estimated to average 20 minutes (.33 hours) per response, including time to review instructions, gathering and maintaining data, and completing and reviewing the form. Direct comments regarding this burden estimate, or any other aspect of this form, to the U.S. Department of the Interior, Bureau of Land Management, (1004-0114) Bureau Information Collection Clearance Officer (WO-630), Mail Stop 401 LS, 1849 C St. N.W., Washington, D.C. 20240.
