AGENCY: Bureau of Land Management (BLM), Department of the Interior.
ACTION: Notice of intent to prepare amendments to five Resource Management Plans (RMPs) and an Environmental Impact Statement (EIS) for the Northeast, Kremmling, Little Snake, Glenwood Springs, and San Juan Resource Areas.

The five Resource Areas contain approximately five million acres of public lands and public minerals underlying private lands. The primary purpose of the amendments is to incorporate the latest BLM program guidance (BLM Manual section 1624.2) for fluid minerals. This guidance includes the use of a "Reasonably Foreseeable Development" scenario, identification of cumulative impacts, and evaluation of the effectiveness of stipulations.

The proposed planning action will result in a determination as to which public lands and minerals should be made available for oil and gas development through leasing, and what lease stipulations may be necessary to protect other resource values.

The issues anticipated include:

1. Determining if existing lease stipulations are proper and sufficient to protect other resource values.
2. Determining if there is additional federal mineral estate that should be considered for oil and gas leasing.
3. The cumulative impacts of oil and gas development.
4. Clarification of stipulations applied at lease issuance and conditions of approval applied to subsequent development activities.

5. Lease stipulations necessary to protect wildlife, fragile soils, water resources and other resource values.

6. The impact of lease stipulations on oil and gas development.

The proposed planning criteria used to address these issues are summarized below:

1. Consult with appropriate representatives of the oil and gas industry to identify mineral potential.
2. Apply applicable laws and regulations to identify land eligible for leasing.
3. Assess the suitability of the land to incur oil and gas development, and the availability of the resource for development.
4. Compare the public values of oil and gas development with the public values of other alternative uses which may be precluded or impacted.

Alternatives proposed for consideration include:

1. No action defined as a continuation of current management.
2. Standard lease terms only.
3. Preferred alternative—to be defined by management following consultations with staff and the public.

The plan amendments will be prepared using a variety of resource specialists including persons trained in geology, hydrology, soils, air, wildlife, range, recreation, realty, surface protection, and economics.

DATES: Public comment on the proposed issues, planning criteria, alternatives and resource disciplines will be accepted for 30 days following publication of this Notice. In addition, public scoping meetings will be scheduled for late March and early April. At least two weeks advance notice of the time and dates of these meetings will be provided. Additional public participation opportunities will be provided through formal public hearings on the draft EIS and requests for written comments.

ADDRESSES: Comments should be addressed to Greg Shoop, Bureau of Land Management, 2850 Youngfield Street, Lakewood, Colorado 80215.
