Since local and State laws may vary, you should contact your local and State agencies where the claims are located to ensure all applicable laws and requirements are satisfied.

Dear Mr. Bailey,

On August 20, 2014, the Bureau of Land Management (BLM), Arizona State Office, received your Notice of Intent to Locate Mining Claim (NOITL) under the Stock Raising Homestead Act of 1916, 43 U.S.C. 29, as amended by Public Law 103-23, April 16, 1993.

The notice was assigned serial number AZA36594. You **must** refer to this serial number in any correspondence with the BLM and when filing your new mining claim location notice(s).

When filing a NOITL, both statutory and regulatory requirements must be met. In order for the segregation period to begin, all statutory requirements must be met. On August 25, 2014, your NOITL was reviewed and you were notified by phone that statutory and regulatory information was missing or deficient. On September 3, 2014, this office received the missing information and necessary corrections. Therefore, the 90-day segregation period for this NOITL began September 3, 2014, and will continue for a period of 90 days, ending December 1, 2014.

We received the certified card showing proof of notification of the NOITL to the surface owner. Based on the signature date of August 25, 2014 certified by the United States Post Office, the authorized exploration period for AZA36594 will begin September 24, 2014, and will end December 1, 2014. Any mining claims must be located between these dates.

Claimants are allowed to exercise their federal right of location of claims, and to enter upon land where the surface is private and the minerals are reserved under the Stock Raising Homestead Act of 1916, as amended by Public Law 103-23, April 16, 1993. You may explore for minerals using casual use methods only. No mechanized equipment may be used to explore for minerals or to locate the claims.

The Interior Board of Lands Appeals 162 IBLA 245, 261, addresses recreational mining on Stock Raising Homestead Act (SRHA) lands. The decision states that whatever rights are obtained through location of a mining claim on SRHA lands does not provide... "the claimant with a recreational opportunity that is superior to the uses the owner of the surface might make of the land." The reservation of the right to the mineral estate does not reserve to anyone locating a mining claim a right to recreate on the surface. Before any mining can take place you must either have the permission from the surface owner or have an approved Plan of Operations, pursuant to 43 CFR 3809, from the BLM.

If additional information is required regarding this NOITL, please contact Rod Ebert at 602-417-9397.

Sincerely,

Rebecca Heick
