### Mining Claim Location Notice(s) – Amendment(s) Required

Pursuant to Title 43 Code of Federal Regulations (CFR) 3832.1, the Bureau of Land Management (BLM), Arizona State Office, received your notices of location for recording mining claims. In accordance with 43 CFR 3832.12, the claims listed above cannot be accepted as filed and must be amended as noted below.

1. The legal land description information does not match what is depicted on the map. You must either amend the land description or file a corrected map.
2. It is unclear as to where the Placer claims are situated, the notice states the SW quarter of the SE quarter and also the NE quarter of the NW quarter of section 28.
3. The Map depicts the Power Stroke #1 and #2 claims within in the SW quarter of section 28, the Power Stroke #3 claim within the NW quarter of section 28, and the Power Stroke #4 claim appears to be depicted within the NE and SE quarters of section 29.
4. The map provided is inadequate. A well-defined map must be provided which would clearly show the footage and boundaries of the claim. The map should clearly mark the boundaries of both the section and quarter section and should depict where within the quarter section the claim lies.

An amendment must be filed for each claim listed above to correct the defects identified. There is a \$10 BLM processing fee for each amendment. The amendments must be received by BLM within 30 days of your receipt of this notice. If the amendments are not received within the 30 day timeframe the mining claims will be declared null and void.
