Mining Claim Location Notice(s) – Amendment(s) Required

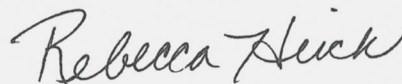

Pursuant to Title 43 Code of Federal Regulations (CFR) 3832.1, the Bureau of Land Management (BLM), Arizona State Office, received your notices of location for recording mining claims. In accordance with 43 CFR 3832.12, the claims listed above cannot be accepted as filed and must be amended as noted below.

1. AMC434573 is not described with a metes and bounds description. The claim cannot be accurately plotted with the land description given.
2. An inadequate map was provided - you must clearly show on a map or sketch the boundaries of the claim. The map should clearly mark the boundaries of both the section and quarter section and should depict where within the quarter section the claim lies. The map should be accurate enough for BLM to identify the mining claims or sites on the ground.

In accordance with 43 CFR 3832.12 a lode claim must be described by metes and bounds and include a tie to a permanent monument such as a section quarter corner monument. All claim descriptions must include state, meridian, township, range, section and by aliquot part to the quarter section.

An amendment must be filed for each claim listed above to correct the defects identified. There is a \$10 BLM processing fee for each amendment. The amendments must be received by BLM within 30 days of your receipt of this notice. If the amendments are not received within the 30 day timeframe the mining claims will be declared null and void.

If additional information is required, please contact RéAnn Myers at 602-417-9413. Please include your AMC serial number(s) on all correspondence.
