Mining Claim Location Notice(s) – Amendment(s) Required

Pursuant to Title 43 Code of Federal Regulations (CFR) 3832.1, the Bureau of Land Management (BLM), Arizona State Office, received your notices of location for recording mining claims. In accordance with 43 CFR 3832.12, the claims listed above cannot be accepted as filed and must be amended as noted below.

AMC435816 is not described with a metes and bounds description. The claim appears to be in the shape of a parallelogram and cannot be accurately plotted without the degree of angle the north and south ends run. Also, the distance north and west from the quarter section marker to the southwest corner of the claim need to be clarified.

In accordance with 43 CFR 3832.12 a lode claim must be described by metes and bounds and include a tie to a permanent monument such as a section quarter corner monument. All claim descriptions must include state, meridian, township, range, section and by aliquot part to the quarter section.

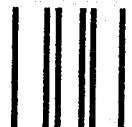

An amendment must be filed for each claim listed above to correct the defects identified. There is a \$10 BLM processing fee for each amendment. The amendments must be received by BLM within 30 days of your receipt of this notice. If the amendments are not received within the 30 day timeframe the mining claims will be declared null and void.

If additional information is required, please contact RéAnn Myers at 602-417-9413. Please include your AMC serial number(s) on all correspondence.

Mining Claim Location Notice(s) – Amendment(s) Required

Pursuant to Title 43 Code of Federal Regulations (CFR) 3832.1, the Bureau of Land Management (BLM), Arizona State Office, received your notices of location for recording mining claims. In accordance with 43 CFR 3832.12, the claims listed above cannot be accepted as filed and must be amended as noted below.

Your lode claim contains an excess width. A lode claim may be no greater than 1,500 feet in length and no greater than 600 feet in width. Your lode claim is described as 1,320 feet in length and 660 feet in width. The map shows the width as 600 feet. If you mistakenly wrote 660 instead of 600 on the description of the claim, you may amend your location notice to correct the error. If it was not a mistake and you intended the claim to be 660 feet in width, you must amend the claim. If you amend your claim, be aware that you cannot take in new ground with an amendment. Therefore, the length of the claim would have to remain 1,320 feet and width would need to be reduced to at least 600 feet.

An amendment must be filed for each claim listed above to correct the defects identified. There is a \$10 BLM processing fee for each amendment. The amendments must be received by BLM within 30 days of your receipt of this notice. If the amendments are not received within the 30 day timeframe the mining claims will be declared null and void.

If additional information is required, please contact RéAnn Myers at 602-417-9413. Please include your AMC serial number(s) on all correspondence.

Mining Claim Location Notice(s) – Amendment(s) Required

Pursuant to Title 43 Code of Federal Regulations (CFR) 3832.1, the Bureau of Land Management (BLM), Arizona State Office, received your notices of location for recording mining claims. In accordance with 43 CFR 3832.12, the claims listed above cannot be accepted as filed and must be amended as noted below.

AMC435816 is not described with a metes and bounds description. The claim appears to be in the shape of a parallelogram and cannot be accurately plotted without the degree of angle the north and south ends run. Also, the distance north and west from the quarter section marker to the southwest corner of the claim need to be clarified.

In accordance with 43 CFR 3832.12 a lode claim must be described by metes and bounds and include a tie to a permanent monument such as a section quarter corner monument. All claim descriptions must include state, meridian, township, range, section and by aliquot part to the quarter section.

An amendment must be filed for each claim listed above to correct the defects identified. There is a \$10 BLM processing fee for each amendment. The amendments must be received by BLM within 30 days of your receipt of this notice. If the amendments are not received within the 30 day timeframe the mining claims will be declared null and void.

If additional information is required, please contact RéAnn Myers at 602-417-9413. Please include your AMC serial number(s) on all correspondence.

Mining Claim Location Notice(s) – Amendment(s) Required

Pursuant to Title 43 Code of Federal Regulations (CFR) 3832.1, the Bureau of Land Management (BLM), Arizona State Office, received your notices of location for recording mining claims. In accordance with 43 CFR 3832.12, the claims listed above cannot be accepted as filed and must be amended as noted below.

Your lode claim contains an excess width. A lode claim may be no greater than 1,500 feet in length and no greater than 600 feet in width. Your lode claim is described as 1,320 feet in length and 660 feet in width. The map shows the width as 600 feet. If you mistakenly wrote 660 instead of 600 on the description of the claim, you may amend your location notice to correct the error. If it was not a mistake and you intended the claim to be 660 feet in width, you must amend the claim. If you amend your claim, be aware that you cannot take in new ground with an amendment. Therefore, the length of the claim would have to remain 1,320 feet and width would need to be reduced to at least 600 feet.

An amendment must be filed for each claim listed above to correct the defects identified. There is a \$10 BLM processing fee for each amendment. The amendments must be received by BLM within 30 days of your receipt of this notice. If the amendments are not received within the 30 day timeframe the mining claims will be declared null and void.
