### Mining Claims Declared Forfeited Required Amendment Not Filed

In accordance with 43 CFR 3830.94, the mining claims listed above are hereby declared forfeited for the reason indicated below.

A Notice requiring that the claims listed above be amended was mailed to the above address by certified mail. The amendment(s) were required to be filed within 30 days of the date the Notice was either received or returned to this office unclaimed or undeliverable. The 30 day timeframe allowed has expired and no amendment(s) have been received.

This decision does not relieve you of the liability for reclamation of all areas disturbed by your activities on land encompassed by your mining claim(s) and/or site(s). After you complete the reclamation, you must notify the authorized officer of the appropriate surface managing agency so that the authorized officer may conduct a final site inspection and determine whether you may be released from liability. If you fail to reclaim the land to the satisfaction of the authorized officer, the surface management agency may cite you for noncompliance under its surface management regulations.

For land administered by the Bureau of Land Management (BLM), if you fail to reclaim the land to the satisfaction of the authorized officer as required in 43 CFR Subpart 3809, the BLM will issue an order of noncompliance under 43 CFR 3809.601(a). If you fail to comply with the noncompliance order, the BLM may take further action under 43 CFR 3809.604. Failure to conduct reclamation is a prohibited act that may subject you to criminal penalties. See

43 CFR 3809.605(h) and 43 CFR 3809.700. If your occupancy has been terminated and you fail to remove structures, material, and equipment, and any personal property in accordance with the regulations in 43 CFR 3715.5-1, the BLM may dispose of the property. In accordance with 43 CFR 3715.5-2, you will remain liable for the costs the BLM incurs in removing and disposing of the property.

### Appeal Procedures

This decision may be appealed to the Interior Board of Land Appeals, Office of the Secretary, in accordance with the regulations contained in 43 CFR, Part 4 and the enclosed Form 1842-1. If an appeal is taken, your notice of appeal must be filed in this office (at the above address) within 30 days from receipt of this decision. The appellant has the burden of showing that the decision appealed from is in error.

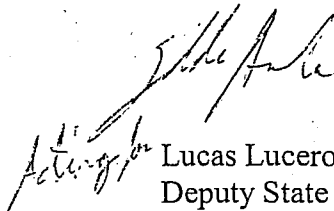

If you wish to file a petition pursuant to regulation 43 CFR 4.21 (58 FR 4939, January 19, 1993), for a stay of the effectiveness of this decision during the time that your appeal is being reviewed by the Board, the petition for a stay must accompany your notice of appeal. A petition for a stay is required to show sufficient justification based on the standards listed below. Copies of the notice of appeal and petition for a stay must also be submitted to each party named in this decision and to the Interior Board of Land Appeals and to the appropriate Office of the Solicitor (see 43 CFR 4.413) at the same time the original documents are filed with this office. If you request a stay, you have the burden of proof to demonstrate that a stay should be granted.

### Standards for Obtaining a Stay

Except as otherwise provided by law or other pertinent regulation, a petition for a stay of a decision pending appeal shall show sufficient justification based on the following standards:

- (1) The relative harm to the parties if the stay is granted or denied,
- (2) The likelihood of the appellant's success on the merits,
- (3) The likelihood of immediate and irreparable harm if the stay is not granted, and
- (4) Whether the public interest favors granting the stay.

If additional information is required, please contact RéAnn Myers at 602-417-9413. Please include your AMC serial number(s) on all correspondence.

### Mining Claim Location Notice(s) – Amendment(s) Required

Pursuant to Title 43 Code of Federal Regulations (CFR) 3832.1, the Bureau of Land Management (BLM), Arizona State Office, received your notices of location for recording mining claims. In accordance with 43 CFR 3832.12, the claims listed above cannot be accepted as filed and must be amended as noted below.

1. The placer mining claim is a diagonal. Cadastral research shows some portion of the canyon walls greater than 20-30 degrees. However, there is a significant portion of the north line of the claim that shows an approximate 10 degree slope. Therefore, per George Kendall, 184 IBLA 71, 83n.18 (2013) and David C. and Debra J. Knight Living Trust, 187 IBLA 116, (2016-20), the claim is not accepted as meeting the criteria of a gulch placer.
2. Also, your placer mining claim is 1,450 feet. You would have to reduce this placer mining claim to 1,320 feet and cannot take in any new ground.

In accordance with 43 CFR 3832.12(c) (1) You must describe placer claims by aliquot part and complete lots using the U.S. Public Land Survey System and its rectangular subdivisions except when placer claims are (i) on unsurveyed Federal lands; (ii) Gulch or bench placer claims; or (iii) Bounded by other mining claims or nonmineral lands. If one of these situations exists you must describe the lands by protracted survey or by metes and bounds. In all cases, your description of the land must be as compact and regular in form as reasonably possible and should conform to the U.S. Public Land Survey System and its rectangular subdivisions as much as possible.

426120  
414394

Yellow paper handout  
Same (this)

The only placer is  
AMC 438332  
Ruff Hill Mine R26-217

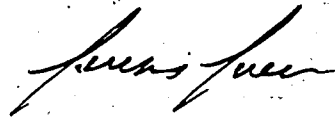

The amendment must provide one of the following:

1. Identify which situation exists that requires this placer mining claim to be located by metes and bounds and provide a metes and bounds description; or
2. Amend the mining claim using the U.S. Public Land Survey System and its rectangular subdivisions and describe the mining claim by aliquot parts and complete lots.

Keep in mind that when amending a mining claim, no new ground can be taken in. A placer mining claim must contain at least 10 acres. Therefore an amended claim would have to contain at least 10 acres and must be described by aliquot parts. If this cannot be achieved, the claim should be relinquished and a new claim located correctly, rather than amending an incorrectly located claim.

If you are able to correctly amend the claims listed above and decide to do so, there is a \$10 BLM processing fee for each amendment. The amendments must be received by BLM within 30 days of your receipt of this notice. If the amendments are not received within the 30 day timeframe the mining claims will be declared null and void.

If additional information is required, please contact Rod Ebert at 602-417-9397. Please include your AMC serial number(s) on all correspondence.

In accordance with 43 CFR 3832.12(c) (1) You must describe placer claims by aliquot part and complete lots using the U.S. Public Land Survey System and its rectangular subdivisions except when placer claims are (i) on unsurveyed Federal lands; (ii) Gulch or bench placer claims; or (iii) Bounded by other mining claims or nonmineral lands. If one of these situations exists you must describe the lands by protracted survey or by metes and bounds. In all cases, your description of the land must be as compact and regular in form as reasonably possible and should conform to the U.S. Public Land Survey System and its rectangular subdivisions as much as possible.

*The only placer is  
AMC 438332, Ruff Hill Mine  
RE 6-2-17*

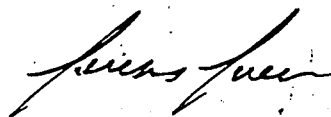

The amendment must provide one of the following:

1. Identify which situation exists that requires this placer mining claim to be located by metes and bounds and provide a metes and bounds description; or
2. Amend the mining claim using the U.S. Public Land Survey System and its rectangular subdivisions and describe the mining claim by aliquot parts and complete lots.

Keep in mind that when amending a mining claim, no new ground can be taken in. A placer mining claim must contain at least 10 acres. Therefore an amended claim would have to contain at least 10 acres and must be described by aliquot parts. If this cannot be achieved, the claim should be relinquished and a new claim located correctly, rather than amending an incorrectly located claim.

If you are able to correctly amend the claims listed above and decide to do so, there is a \$10 BLM processing fee for each amendment. The amendments must be received by BLM within 30 days of your receipt of this notice. If the amendments are not received within the 30 day timeframe the mining claims will be declared null and void.

If additional information is required, please contact Rod Ebert at 602-417-9397. Please include your AMC serial number(s) on all correspondence.

You could record the direction like this, ***“the NW corner of my claim is 550 feet south and 1200 feet east of the NW corner of section 20, T32N, R50E”***.

With this method, no angles or degrees are needed!  
And we assume you mean “True” North.

# Or, you can use the cadastral survey information.

- From the NE corner of section 29, go 650 feet along the section line in a southerly direction.
- The east boundary of the claim is adjacent to the section line.

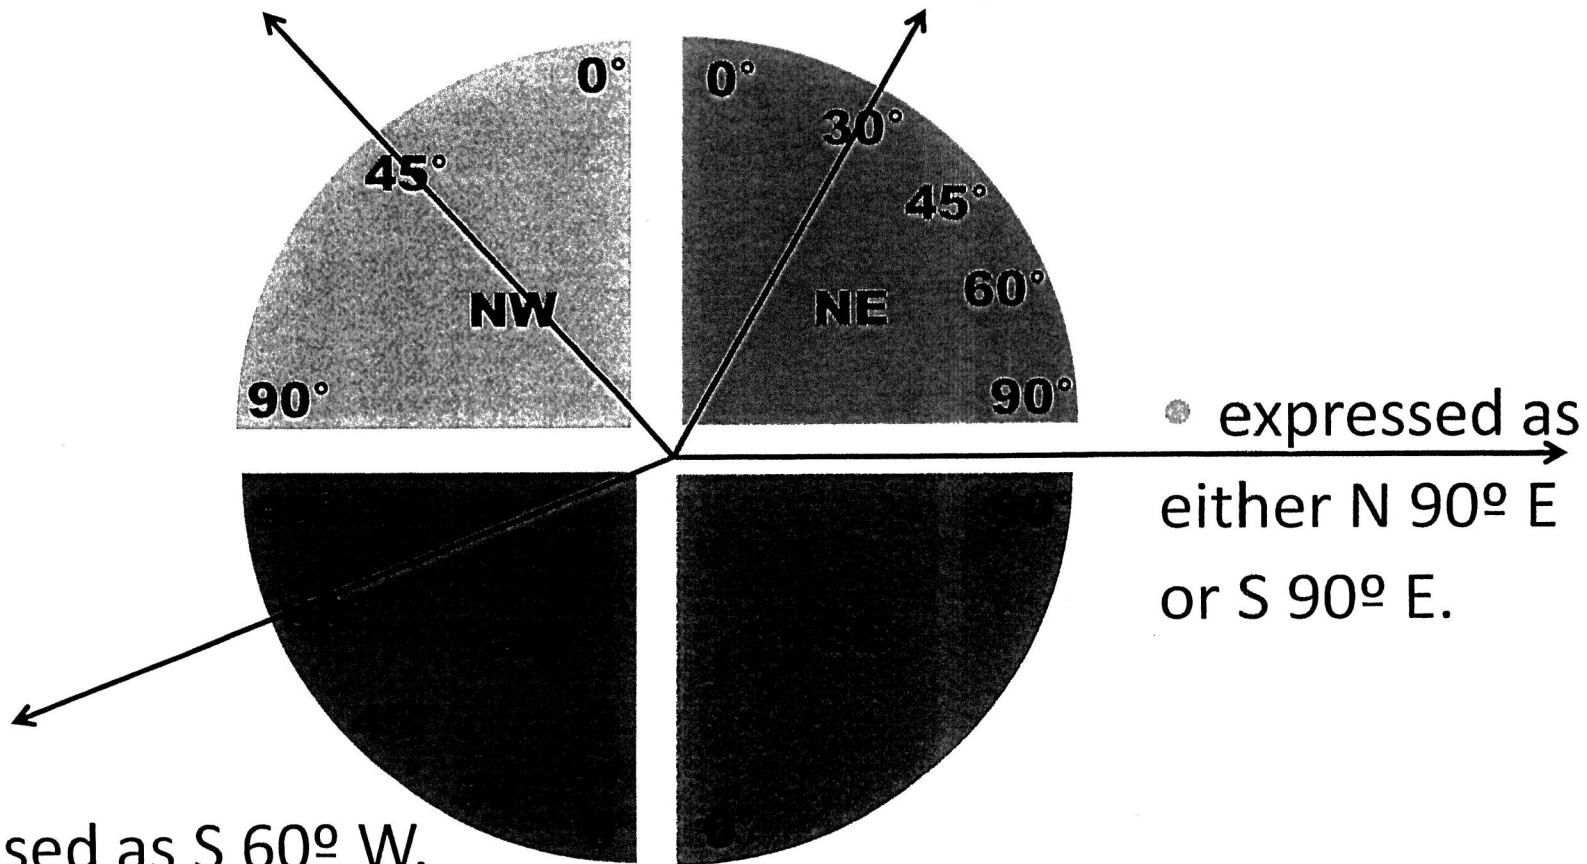

- At the SE corner of the claim, deflect 90° and go 600 feet to the SW corner.

Explanation of mapping discrepancies

When filing the original maps and location notice for the Goliath #1, #2 lode mines there was a misunderstanding about what was a  $\frac{1}{4}$  section and a  $\frac{1}{2}$  section. The current map depicts the actual location in the proper section quarter. We thought the  $\frac{1}{2}$  was a quarter section and after review with BLM official for the amendment we made the corrections. We have not encompassed any new ground or changed any monuments on the ground to increase the size of the claims.

Explanation of mapping discrepancies

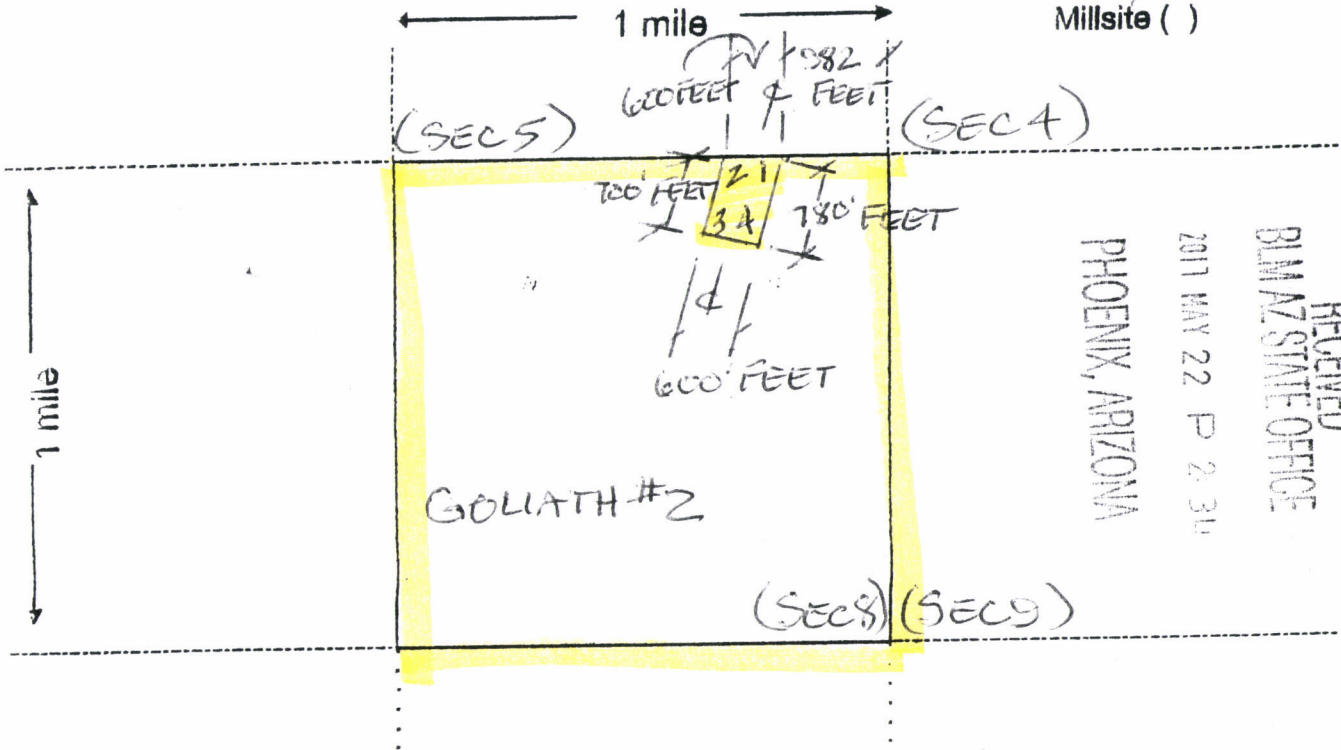

When filing the original maps and location notice for the Goliath #1, #2 lode mines there was a misunderstanding about what was a  $\frac{1}{4}$  section and a  $\frac{1}{2}$  section. The current map depicts the actual location in the proper section quarter. We thought the  $\frac{1}{2}$  was a quarter section and after review with BLM official for the amendment we made the corrections. We have not encompassed any new ground or changed any monuments on the ground to increase the size of the claims.
