Association Placer Mining Claims Documentation or Amendments Required

The mining claims listed above are association placer mining claims that are over 20 acres in size. The claims were originally located with the required number of locators to meet the 20-acre per locator requirement. However, the claims are now held by a smaller group of claimants than originally located them and are therefore not in compliance with the legal requirements.

By law, each individual claimant is allowed to hold a maximum of 20 acres per claim. A corporation is considered to be a single entity that is allowed to hold a maximum of 20 acres per claim. In accordance with 43 CFR 3833.33 you may transfer, sell, or otherwise convey an association placer mining claim at any time to an equal or greater number of mining claimants. If you want to transfer an association placer claim to an individual or an association that is smaller in number than the association that located the claim you (a) must have discovered a valuable mineral deposit before the transfer; or (b) upon notice from the Bureau of Land Management (BLM), you must reduce the acreage of the claim, if necessary, so that you meet the 20-acre per locator limit.

On March 29, 2012, the BLM sent you a notice requesting that you show compliance with 43 CFR 3833.33 by providing either documentation of a discovery of a valuable mineral deposit, for each of the five claims listed above, prior to the claims being transferred on February 22, 2010, from the original locators to Placer Mining Corporation, and on February 23, 2012, from Placer Mining Corporation to Jackpot Minerals LLC., or reducing the claim acreage to 20 acres per claim as allowed by law.

On April 16, 2012, information was provided to this office with the intent to show that a valuable mineral deposit existed on the claims prior to the transfers.

The BLM determined that the information was incomplete to show that a valuable mineral deposit existed prior to the transfer of the claims to you.

The BLM is hereby giving you an opportunity to provide more information to prove discovery prior to the date whereby the following claims were transferred to a smaller number of claimants:

| Claim Name | TOTAL ACRES | BLM Claim Number | Location: Gila and Salt River Meridian |
|------------|-------------|------------------|---|
| NINE EAST | 160 | AMC376850 | T. 3N., R.18W., sec. 9, SE¼. 7 |
| NINE WEST | 160 | AMC376851 | T. 3N., R.18W., sec. 9, SW¼. 7 |
| PLOMOSA 9 | 160 | AMC396777 | T. 3N., R.18W., sec. 9, NW¼. 7 |
| JACKPOT | 140 | AMC396778 | T. 3N., R.18W., sec. 4, SW¼. 6 |
| PLOMOSA 4 | 130 | AMC396779 | T. 3N., R.18W., sec. 4, SE¼. 4 |

As stated in the attached Certified Review Mineral Examiner memorandum, the claimant should fully describe the reasons why the deposit claimed is believed to be a valuable mineral deposit. This should include sufficient details so that a mineral examiner can determine that the claim owner had a reasonable prospect of success in developing placer gold deposit at the time of transfer. Information or additional information is needed on the following:

- General Geology: complete description of general geology
- Economic Geology: complete description of economic geology and mineralization
- Description of Mineral Deposit: complete description of mineral deposit as to quantity and quality (ore reserves by grade)
- Mining Method: description of mining and extraction method
- Economic Analysis: economic analysis, including actual or estimated mining, processing and other costs, value or price of the gold recovered and estimated profitability, including estimated costs of reclamation as may be required under law or regulation

 PHOENIX, ARIZONA
 JUL 28 9 15 AM '12

Without this information we cannot determine if the claims are being properly held by a smaller number of claimants than required to meet the 1 claimant per each 20 acres of the claim requirement. Therefore, we are requiring that the above listed information be submitted to this office for review by a mineral examiner.

This required information must be dated prior to the date of transfer. If you do not have this information, then you must amend the claims listed above, reducing the acreage to 20 acres per claimant as allowed by law.

We must receive either this additional documentation supporting a discovery of a valuable mineral deposit, or amendments within 30 days of your receipt of this notice. If the required documentation or the amendments are not received within the 30-day timeframe the mining claims will be declared forfeited and void. If amendments are filed, there is a \$10 BLM processing fee for each amendment. The amendments must also be filed with the county.

If additional information is required, please contact Pauline Brown at 602-417-9360. Please include your AMC serial number(s) on all correspondence.
