Mining Claim Location Notice(s) – Amendment(s) Required

Pursuant to Title 43 Code of Federal Regulations (CFR) 3832.1, the Bureau of Land Management (BLM), Arizona State Office, received your notices of location for recording mining claims. In accordance with 43 CFR 3832.12, the claims listed above cannot be accepted as filed and must be amended as noted below.

The claim is not described with a proper metes and bounds description. A proper metes and bounds description is required to accurately determine the location of the claim. We are not able to use Global Positioning System (GPS) coordinates for conversion and are, therefore, unable to plot your claim from the description and map you provided.

In accordance with 43 CFR 3832.12 a lode claim must be described by metes and bounds and include a tie to a permanent monument such as a section quarter corner monument. All claim descriptions must include state, meridian, township, range, section and by aliquot part to the quarter section.

An amendment must be filed for each claim listed above to correct the defects identified. There is a \$10 BLM processing fee for each amendment. The amendments must be received by BLM within 30 days of your receipt of this notice. If the amendments are not received within the 30-day timeframe the mining claims will be declared null and void.

If additional information is required, please contact RéAnn Myers at 602-417-9413. Please include your AMC serial number(s) on all correspondence.
