Mining Claim Location Notice(s) – Amendment(s) Required

Pursuant to Title 43 Code of Federal Regulations (CFR) 3832.1, the Bureau of Land Management (BLM), Arizona State Office, received your notices of location for recording mining claims. In accordance with 43 CFR 3832.12, the claims listed above cannot be accepted as filed and must be amended as noted below.

The claims are partially located on land that is patented and therefore not open to location. The Federal Government does not administer the surface or subsurface estate. Patent #44323, dated October 20, 1906. Any portion of the mining claim on the patented land is null and void ab initio.

A placer claim may not contain noncontiguous tracts of land, 30 U.S.C. § 36 (1988). The patented land cuts through your claim. You must amend your claim so that the patent is not crossed and depict on a map which portion you wish to retain. You may file a separate notice to include the lands relinquished.

In accordance with 43 CFR 3832.12(c) (1) You must describe placer claims by aliquot part and complete lots using the U.S. Public Land Survey System and its rectangular subdivisions except when placer claims are (i) on unsurveyed Federal lands; (ii) Gulch or bench placer claims; or (iii) Bounded by other mining claims or non-mineral lands. If one of these situations exists you must describe the lands by protracted survey or by metes and bounds. In all cases, your description of the land must be as compact and regular in form as reasonably possible and should conform to the U.S. Public Land Survey System and its rectangular subdivisions as much as possible.

The amendment must provide one of the following:

1. Identify which situation exists that requires this placer mining claim to be located by metes and bounds and provide a metes and bounds description. If you believe the claim is a gulch placer, please provide a) a topographical map and b) the % steepness of the slope. A gulch placer is located on the bed of a river contained within steep, non-mineral canyon walls and the slope should be at least 35% to 60%.
2. Amend the mining claim using the U.S. Public Land Survey System and its rectangular subdivisions and describe the mining claim by aliquot parts and complete lots.

Keep in mind that when amending a mining claim, no new ground can be taken in. A placer mining claim must contain at least 10 acres. Therefore an amended claim would have to contain at least 10 acres and must be described by aliquot parts. If this cannot be achieved, the claim should be relinquished and a new claim located correctly, rather than amending an incorrectly located claim.

If you are able to correctly amend the claims listed above and decide to do so, there is a \$10 BLM processing fee for each amendment. The amendments must be received by BLM within 30 days of your receipt of this notice. If the amendments are not received within the 30 day timeframe the mining claims will be declared null and void.

If additional information is required, please contact RéAnn Myers at 602-417-9413. Please include your AMC serial number(s) on all correspondence.

Dear Staff:

Pursuant to your Certified Mail No. 9214 8901 9403 8304 3283 38 that we received on 2/17/18, we have amended our AMC442455 RM-5 placer mining claim. This claim occupies 10 acres in the SW1/4 of Section 26, Township 10 North, Range 5 West, G&SRM, in Yavapai County, Arizona. No portion of this claim is located on the surrounding patented lode mining claims.

As I explained to Ms Re'Ann Myers of your Arizona State Office during our telephone conversation on 2/7/18, the patented lode mining claims that surround the RM placer mining claims are owned by our client in Dallas, Texas. Our geologists and staff have spent nearly two years conducting geologic mapping, rock & soil geochemical sampling, and bulk placer sampling on the patented claims owned by our client. We staked the RM placer claims at his request and his expense, and will be conveying these claims to a holding company that he is currently forming, and these claims will become part of his Rincon Mine Project. Please find enclosed our check # 8873 in the amount of \$10.00 to cover the processing fees for the enclosed amendment of the RM-5 claim.

Please return the enclosed certified copies to our mailing address shown below. Thank you very much.
