Mining Claim Location Notice(s) – Amendment(s) Required

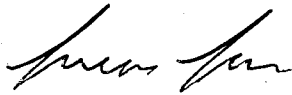

Pursuant to Title 43 Code of Federal Regulations (CFR) 3832.1, the Bureau of Land Management (BLM), Arizona State Office, received your notices of location for recording mining claims. In accordance with 43 CFR 3832.12, the claims listed above cannot be accepted as filed and must be amended as noted below.

Your claims are not described by a metes and bounds description. A metes and bounds description is needed to accurately plot your claims. Please note that GPS coordinates/latitude and longitude coordinates are not accepted by the BLM in place of metes and bounds descriptions and tie-ins for a mining claim. Please refer to the attached metes and bounds sample sheet.

In accordance with 43 CFR 3832.12 a lode claim must be described by metes and bounds and include a tie to a permanent monument such as a section quarter corner monument. All claim descriptions must include state, meridian, township, range, section and by aliquot part to the quarter section.

An amendment must be filed for each claim listed above to correct the defects identified. There is a \$10 BLM processing fee for each amendment. The amendments must be received by BLM within 30 days of your receipt of this notice. If the amendments are not received within the 30-day timeframe the mining claims will be declared null and void.

If additional information is required, please contact Brent Squires at 602-417-9397. Please include your AMC serial number(s) on all correspondence.

Mining Claim Location Notice(s) – Amendment(s) Required

Pursuant to Title 43 Code of Federal Regulations (CFR) 3832.1, the Bureau of Land Management (BLM), Arizona State Office, received your notices of location for recording mining claims. In accordance with 43 CFR 3832.12, the claims listed above cannot be accepted as filed and must be amended as noted below.

Your claims are not described by a metes and bounds description. A metes and bounds description is needed to accurately plot your claims. Please note that GPS coordinates/latitude and longitude coordinates are not accepted by the BLM in place of metes and bounds descriptions and tie-ins for a mining claim. Please refer to the attached metes and bounds sample sheet.

In accordance with 43 CFR 3832.12 a lode claim must be described by metes and bounds and include a tie to a permanent monument such as a section quarter corner monument. All claim descriptions must include state, meridian, township, range, section and by aliquot part to the quarter section.

An amendment must be filed for each claim listed above to correct the defects identified. There is a \$10 BLM processing fee for each amendment. The amendments must be received by BLM within 30 days of your receipt of this notice. If the amendments are not received within the 30-day timeframe the mining claims will be declared null and void.

If additional information is required, please contact Brent Squires at 602-417-9397. Please include your AMC serial number(s) on all correspondence.

RE: AMC 445885 – Amended Location Notice

Dear Mr. Squires,

As you requested per our phone discussion, on 8/30/2018, this letter is to inform you that the Amended Location Notice for AMC 445885 did not change the physical claim location. It only more precisely dimensions and locates the claim, along with correcting an error on the original location notice. Again, there was 'No Change of Location' of the claim or it's monuments in the field.

If you require any additional information, or have any questions, please feel free to contact me at (907) 315-5075.

Sincerely,

Thomas Herschbach, Manager
