## NOTE TO FILE AMC452779

### Notarized Bona Fide Statements

I called and spoke with Vivian Angerami on Wednesday, September 4, 2019. I informed her that she cannot be the one to notarize the affidavits because that would be considered a conflict of interest, due to the fact that she is also listed as a mining claimant on AMC452779.

I asked that she submit new bona fide statements for her group of claimants.

I also told her that the correct verbiage for the date the affidavit was signed and notarized is not written on the statements.

She stated that the date appearing under the words "County of Maricopa" is the date that they were signed:

The affidavits for Joseph and Vivian Angerami, Robert Vaage and Cynthia Thomas, listed the date 12-6-18.

The affidavit for James Angerami reads Dec 7, **2020**.

The affidavit for Paul Angerami reads Dec 7, 2018.

The affidavit for Sallyann Martinez reads 8-25-2019.

I mentioned to her that Jose Martinez is not listed as a mining claimant on AMC452779.

She thought that just by her adding on his name to the List of mining claimants, and sending in his bona fide statement, dated 12-6-18; that Jose would be added onto the claim. I told her no it does not work that way. She said she accidentally left off his name when she first re-filed this claim.

I told her that she still needs to amend the claim down from being 140 acres in size to 120 acres in size. And if she still needs the 20 acres that she is removing, she can file a separate claim for that portion.

I explained to her that if we do not receive timely filed bona fide notarized statements from each of the mining claimants, that she would again be required to reduce the claim down. It would depend on how many notarized statements we receive.

### Locator Requirements for Association Placer Mining Claims Additional Information Required

The Bureau of Land Management (BLM) Arizona State Office received the location notice(s) for the association placer mining claim(s) listed above. You are included as a locator of the claim(s).

You must be qualified to locate an association placer mining claim and your mining claim must conform to the requirements of Federal law, 30 U.S.C. 35, 36, and regulations at 43 CFR 3832.22. These laws allow the location of placer mining claims greater than 20 acres so long as each of the locators has a bona fide interest in the claims, and has located the claims independently, for their own self-interest, and in good faith. The law is well established that a person cannot use the names of his friends, relatives, employees or club members as locators in order to locate for his own benefit a greater area of placer ground than is allowable by law. A company or corporation is considered to be one entity, entitled to locate claims of no more than 20 acres in size. Any claim located using dummy locators is not a valid mining claim.

By recording these location notices with the BLM you are representing to the United States government that you meet the qualifications for locating an association placer claim and that you are not using the names of other persons as dummy locators to locate more than 20 acres per claim for your own benefit. In accordance with 43 CFR 3830.9, if you file a document that you know contains false, erroneous, or fictitious information or statements, you may be subject to criminal penalties under 18 U.S.C. 1001 and 43 U.S.C. 1212. The maximum penalty is 5 years in prison and/or a fine of \$250,000.

In accordance with 43 CFR 1822.10, all documents required to be filed with the BLM must contain the applicant's (claimant's) legal name and current address. Additionally, 43 CFR 3833.11 (b)(2) requires that a certificate of location of a mining claim or site contain the names and current mailing addresses of the locators of the claim.

In accordance with 43 CFR 3830.3, an agent may locate mining claims on your behalf as long as they are duly constituted and appointed.

Before we can complete the recordation of your association placer mining claims, we will need the following information:

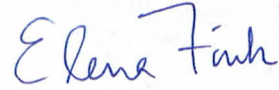

A signed and notarized statement from each claimant that says: "I (enter claimant's name) authorized and am aware that I am listed as a locator on the location notice for AMC (enter claim numbers). I have a bona fide interest in these claims and I located the claims independently, for my own self-interest and in good faith. I certify that these claims are in no way being located for the benefit of a company, corporation, or another individual in order to gain additional acreage they are not entitled to in accordance with the law."

The claimants of the above named mining claim(s) are hereby afforded 30 days from receipt of this Notice in which to furnish the requested information. Failure to do so will subject the recordation of these claims to further adjudication which may result in a partial rejection of the recordation and a reduction in acreage claimed.

If, after reviewing the information in this letter you determine that you do not, in fact, qualify to locate an association placer mining claim, please relinquish the association placer mining claims and relocate as an individual placer mining claim under 43 CFR 3832.22(b).

In accordance with 43 CFR 3833.33, you may transfer, sell, or otherwise convey an association placer mining claim at any time to an equal or greater number of mining claimants. If you want to transfer an association placer claim to an individual or an association that is smaller in number than the association that located the claim, a) you must have discovered a valuable mineral deposit before the transfer (documentation will be requested); or b) upon notice from the BLM, you must reduce the acreage of the claim, if necessary, so that you meet the 20-acre per locator limit. Per 43 CFR 3830.5, a discovery means that you have found a valuable mineral deposit. Any association placer claim transferred that does not meet these requirements is not a valid mining claim.

If additional information is required, please contact Pauline Brown at 602-417-9360. Please include your AMC serial number(s) on all correspondence.

### Locator Requirements for Association Placer Mining Claims Additional Information Required

The Bureau of Land Management (BLM) Arizona State Office received the location notice(s) for the association placer mining claim(s) listed above. You are included as a locator of the claim(s).

You must be qualified to locate an association placer mining claim and your mining claim must conform to the requirements of Federal law, 30 U.S.C. 35, 36, and regulations at 43 CFR 3832.22. These laws allow the location of placer mining claims greater than 20 acres so long as each of the locators has a bona fide interest in the claims, and has located the claims independently, for their own self-interest, and in good faith. The law is well established that a person cannot use the names of his friends, relatives, employees or club members as locators in order to locate for his own benefit a greater area of placer ground than is allowable by law. A company or corporation is considered to be one entity, entitled to locate claims of no more than 20 acres in size. Any claim located using dummy locators is not a valid mining claim.

By recording these location notices with the BLM you are representing to the United States government that you meet the qualifications for locating an association placer claim and that you are not using the names of other persons as dummy locators to locate more than 20 acres per claim for your own benefit. In accordance with 43 CFR 3830.9, if you file a document that you know contains false, erroneous, or fictitious information or statements, you may be subject to criminal penalties under 18 U.S.C. 1001 and 43 U.S.C. 1212. The maximum penalty is 5 years in prison and/or a fine of \$250,000.

In accordance with 43 CFR 1822.10, all documents required to be filed with the BLM must contain the applicant's (claimant's) legal name and current address. Additionally, 43 CFR 3833.11 (b)(2) requires that a certificate of location of a mining claim or site contain the names and current mailing addresses of the locators of the claim.

In accordance with 43 CFR 3830.3, an agent may locate mining claims on your behalf as long as they are duly constituted and appointed.

Before we can complete the recordation of your association placer mining claims, we will need the following information:

A signed and notarized statement from each claimant that says: "I (enter claimant's name) authorized and am aware that I am listed as a locator on the location notice for AMC (enter claim numbers). I have a bona fide interest in these claims and I located the claims independently, for my own self-interest and in good faith. I certify that these claims are in no way being located for the benefit of a company, corporation, or another individual in order to gain additional acreage they are not entitled to in accordance with the law."

The claimants of the above named mining claim(s) are hereby afforded 30 days from receipt of this Notice in which to furnish the requested information. Failure to do so will subject the recordation of these claims to further adjudication which may result in a partial rejection of the recordation and a reduction in acreage claimed.

If, after reviewing the information in this letter you determine that you do not, in fact, qualify to locate an association placer mining claim, please relinquish the association placer mining claims and relocate as an individual placer mining claim under 43 CFR 3832.22(b).

In accordance with 43 CFR 3833.33, you may transfer, sell, or otherwise convey an association placer mining claim at any time to an equal or greater number of mining claimants. If you want to transfer an association placer claim to an individual or an association that is smaller in number than the association that located the claim, a) you must have discovered a valuable mineral deposit before the transfer (documentation will be requested); or b) upon notice from the BLM, you must reduce the acreage of the claim, if necessary, so that you meet the 20-acre per locator limit. Per 43 CFR 3830.5, a discovery means that you have found a valuable mineral deposit. Any association placer claim transferred that does not meet these requirements is not a valid mining claim.

If additional information is required, please contact Pauline Brown at 602-417-9360. Please include your AMC serial number(s) on all correspondence.

### Locator Requirements for Association Placer Mining Claims Additional Information Required

The Bureau of Land Management (BLM) Arizona State Office received the location notice(s) for the association placer mining claim(s) listed above. You are included as a locator of the claim(s).

You must be qualified to locate an association placer mining claim and your mining claim must conform to the requirements of Federal law, 30 U.S.C. 35, 36, and regulations at 43 CFR 3832.22. These laws allow the location of placer mining claims greater than 20 acres so long as each of the locators has a bona fide interest in the claims, and has located the claims independently, for their own self-interest, and in good faith. The law is well established that a person cannot use the names of his friends, relatives, employees or club members as locators in order to locate for his own benefit a greater area of placer ground than is allowable by law. A company or corporation is considered to be one entity, entitled to locate claims of no more than 20 acres in size. Any claim located using dummy locators is not a valid mining claim.

By recording these location notices with the BLM you are representing to the United States government that you meet the qualifications for locating an association placer claim and that you are not using the names of other persons as dummy locators to locate more than 20 acres per claim for your own benefit. In accordance with 43 CFR 3830.9, if you file a document that you know contains false, erroneous, or fictitious information or statements, you may be subject to criminal penalties under 18 U.S.C. 1001 and 43 U.S.C. 1212. The maximum penalty is 5 years in prison and/or a fine of \$250,000.

In accordance with 43 CFR 1822.10, all documents required to be filed with the BLM must contain the applicant's (claimant's) legal name and current address. Additionally, 43 CFR 3833.11 (b)(2) requires that a certificate of location of a mining claim or site contain the names and current mailing addresses of the locators of the claim.

In accordance with 43 CFR 3830.3, an agent may locate mining claims on your behalf as long as they are duly constituted and appointed.

Before we can complete the recordation of your association placer mining claims, we will need the following information:

A signed and notarized statement from each claimant that says: "I (enter claimant's name) authorized and am aware that I am listed as a locator on the location notice for AMC (enter claim numbers). I have a bona fide interest in these claims and I located the claims independently, for my own self-interest and in good faith. I certify that these claims are in no way being located for the benefit of a company, corporation, or another individual in order to gain additional acreage they are not entitled to in accordance with the law."

The claimants of the above named mining claim(s) are hereby afforded 30 days from receipt of this Notice in which to furnish the requested information. Failure to do so will subject the recordation of these claims to further adjudication which may result in a partial rejection of the recordation and a reduction in acreage claimed.

If, after reviewing the information in this letter you determine that you do not, in fact, qualify to locate an association placer mining claim, please relinquish the association placer mining claims and relocate as an individual placer mining claim under 43 CFR 3832.22(b).

In accordance with 43 CFR 3833.33, you may transfer, sell, or otherwise convey an association placer mining claim at any time to an equal or greater number of mining claimants. If you want to transfer an association placer claim to an individual or an association that is smaller in number than the association that located the claim, a) you must have discovered a valuable mineral deposit before the transfer (documentation will be requested); or b) upon notice from the BLM, you must reduce the acreage of the claim, if necessary, so that you meet the 20-acre per locator limit. Per 43 CFR 3830.5, a discovery means that you have found a valuable mineral deposit. Any association placer claim transferred that does not meet these requirements is not a valid mining claim.

If additional information is required, please contact Pauline Brown at 602-417-9360. Please include your AMC serial number(s) on all correspondence.

A handwritten signature in cursive script that reads "Elena Fink".

# The United States of America,

To all to whom these presents shall come, Greeting:

WHEREAS, under the provisions of Section 8 of the Act of June 28, 1934 (48 Stat. 1269), entitled "An Act To stop injury to the public grazing lands by preventing overgrazing and soil deterioration, to provide for their orderly use, improvement, and development, to stabilize the livestock industry dependent upon the public range, and for other purposes," as amended by Section 3 of the Act of June 26, 1936 (49 Stat. 1976), the State of Arizona, in exchange for certain other lands situated in said State, has selected the following described tract of land:
