AMC457124
R-TELL

Mining Claim Location Notice(s) – Amendment(s) Required

Pursuant to Title 43 Code of Federal Regulations (CFR) 3832.1, the Bureau of Land Management (BLM), Arizona State Office, received your notice(s) of location for recording mining claims. In accordance with 43 CFR 3832.12, the claim(s) listed above cannot be accepted as filed and must be amended as noted below.

Your claim encompasses portions of T. 7 S., R. 21 W., sec. 31, lots 1 and 2. A placer claim cannot encompass portions of 2 or more lots. If the lot was 20 acres or less, the placer claim could encompass the whole lot and be described by metes and bounds. If a lot is larger than 20 acres, a 20 acre placer claim could be located completely within the lot and described by metes and bounds. The remaining portion of the lot could then have another placer claim located adjacent to the first claim.

In accordance with 43 CFR 3832.12(c) (1) You must describe placer claims by aliquot part and complete lots using the U.S. Public Land Survey System and its rectangular subdivisions except when placer claims are (i) on unsurveyed Federal lands; (ii) Gulch or bench placer claims; or (iii) Bounded by other mining claims or non-mineral lands. If one of these situations exists, you must describe the lands by protracted survey or by metes and bounds. In all cases, your description of the land must be as compact and regular in form as reasonably possible and should

conform to the U.S. Public Land Survey System and its rectangular subdivisions as much as possible.

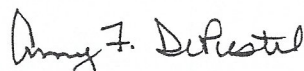

The amendment(s) must provide one of the following:

1. Identify which situation exists that requires this placer mining claim to be located by metes and bounds and provide a metes and bounds description. If you believe the claim is a gulch placer, please provide a) a topographical map and b) the % steepness of the slope. A gulch placer is located on the bed of a river contained within steep, non-mineral canyon walls and the slope should be greater than 60%.
2. Amend the mining claim using the U.S. Public Land Survey System and its rectangular subdivisions and describe the mining claim by aliquot parts and complete lots.

Keep in mind that when amending a mining claim, no new ground can be taken in. A placer mining claim must contain at least 10 acres. Therefore, an amended claim would have to contain at least 10 acres and must be described by aliquot parts. If this cannot be achieved, the claim should be relinquished and a new claim located correctly, rather than amending an incorrectly located claim.

If you are able to correctly amend the claim(s) listed above and decide to do so, there is a \$15 BLM processing fee for each amendment. The amendment(s) must be received by BLM within 30 days of your receipt of this notice. If the amendment(s) is/are not received within the 30-day timeframe the mining claim(s) will be declared null and void ab initio.

If additional information is required, please contact RéAnn Myers at 602-417-9413. Please include your AMC serial number(s) on all correspondence.
