Locator Requirements for Association Placer Mining Claims Additional Information Required

The Bureau of Land Management (BLM) Arizona State Office received the location notice(s) for the association placer mining claim(s) listed above. You are included as a locator of the claim(s).

You must be qualified to locate an association placer mining claim and your mining claim must conform to the requirements of Federal law, 30 U.S.C. 35, 36, and regulations at 43 CFR 3832.22. These laws allow the location of placer mining claims greater than 20 acres so long as each of the locators has a bona fide interest in the claims, and has located the claims independently, for their own self-interest, and in good faith. The law is well established that a person cannot use the names of his friends, relatives, or employees as locators in order to locate for his own benefit a greater area of placer ground than is allowable by law. A company or corporation is considered to be one entity, entitled to locate claims of no more than 20 acres in size. Any claim located using dummy locators is not a valid mining claim.

By recording these location notices with the BLM you are representing to the United States government that you meet the qualifications for locating an association placer claim and that you are not using the names of other persons as dummy locators to locate more than 20 acres per claim for your own benefit. In accordance with 43 CFR 3830.9, if you file a document that you know contains false, erroneous, or fictitious information or statements, you may be subject to criminal penalties under 18 U.S.C. 1001 and 43 U.S.C. 1212. The maximum penalty is 5 years in prison and/or a fine of \$250,000.

In accordance with 43 CFR 1822.10, all documents required to be filed with the BLM must contain the applicant's (claimant's) legal name and current address. Additionally, 43 CFR 3833.11 (b)(2) requires that a certificate of location of a mining claim or site contain the names and current mailing addresses of the locators of the claim.

In accordance with 43 CFR 3830.3, an agent may locate mining claims on your behalf as long as they are duly constituted and appointed.

Before we can complete the recordation of your association placer mining claims, we will need the following information:

A signed and notarized statement from each claimant that says: "I (enter claimant's name) authorized and am aware that I am listed as a locator on the location notice for AMC (enter claim numbers). I have a bona fide interest in these claims and I located the claims independently, for my own self-interest and in good faith. I certify that these claims are in no way being located for the benefit of a company, corporation, or another individual in order to gain additional acreage they are not entitled to in accordance with the law." 2) A legal document from each claimant (such as a notarized power of attorney) showing that the person signing the location notice is acting on their behalf as their duly constituted and appointed agent or authorized representative.

The claimants of the above named mining claim(s) are hereby afforded 30 days from receipt of this Notice in which to furnish the requested information. Failure to do so will subject the recordation of these claims to further adjudication which may result in a partial rejection of the recordation and a reduction in acreage claimed.

If, after reviewing the information in this letter you determine that you do not, in fact, qualify to locate an association placer mining claim, please relinquish the association placer mining claims and relocate as an individual placer mining claim under 43 CFR 3832.22(b).

In accordance with 43 CFR 3833.33, you may transfer, sell, or otherwise convey an association placer mining claim at any time to an equal or greater number of mining claimants. If you want to transfer an association placer claim to an individual or an association that is smaller in number than the association that located the claim, a) you must have discovered a valuable mineral deposit before the transfer; or b) upon notice from the BLM, you must reduce the acreage of the claim, if necessary, so that you meet the 20-acre per locator limit. Per 43 CFR 3830.5, a discovery means that you have found a valuable mineral deposit. Any association placer claim transferred that does not meet these requirements is not a valid mining claim.

If you have any questions, please contact Tony Smith at 602-417-9355.

BLACK ROCK

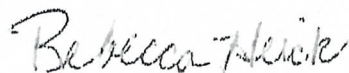

Mining Claim Location Notice(s) – Amendment(s) Required

Pursuant to Title 43 Code of Federal Regulations (CFR) 3832.1, this office received your notices of location for recording mining claims. In accordance with 43 CFR 3832.12, the claims listed above cannot be accepted as filed and must be amended as noted below.

The claim BLACK ROCK (AMC411560) was not located by legal land description in aliquot part. The claim is too long for 4 locators. Per 43 Code of Federal Regulations 3832.12(c)(3)(ii) A location by 3 or 4 persons must fit within the exterior boundaries of 2 square 40-acre contiguous parcels (2640' X 1320'). In all cases, the description must be as compact and regular in form as possible. The claim must be amended to 3300' X 1000'. You can't take in new ground with an amendment so you need to leave the width at 1000'. You need to furnish a new map showing where your claim is located in the section to the quarter section with the new dimensions of your claim on the map. Write "Amendment" at the top of the location notice, include your AMC serial number and use the original location date on the amendment. Put a note with your amendment: Attention Tony Smith.

You must file an amendment for each claim listed above to correct the defects identified. There is a \$10 BLM processing fee for each amendment. We must receive the amendments within 30 days of your receipt of this notice. If the amendments are not received within the 30-day timeframe the mining claims will be declared null and void.

If additional information is required, please contact Tony Smith 602-417-9355. Please include your AMC serial number(s) on all correspondence.

Mining Claim Location Notices – Corrections Required

Pursuant to Title 43 Code of Federal Regulations (CFR) 3832.1, this office received your notice(s) of location for recordation of mining claims. In accordance with 43 CFR 3832.11 and 3832.12, the claim(s) listed above are not properly located. Because they are not properly located we cannot record them as filed. They must be corrected as noted below or they will be declared null and void ab initio.

1. There is no signature on the location notice BLACK ROCK 2. At least one locator or an agent must sign the location notice. Jesse Soto needs to sign the location notice for BLACK ROCK 2. We need a legal document from each claimant (such as a notarized power of attorney) showing that the person signing the location notice is acting on their behalf as their duly constituted and appointed agent or authorized representative. 2. An inadequate map was provided - you must clearly show on a map or sketch the boundaries of the claim with the length and width written on the map. Your map of the claim appears to be almost 160 acres when looking at the scale and size. Submit a corrected map showing the size of the claim to be closer to 79.92 acres. You may keep the same measurements but in the future the dimensions of a placer mining claim should be shown by legal land description. Read the furnished attachment. When writing the legal description at the bottom of the map you should also include what quarter section or sections the claim encompasses. 3. Write "Correction" at the top of the location

notice and include your AMC serial number on the corrected location notice. There is no fee for filing a corrected document. Put attention Tony Smith on a note inside with the documents.

You must provide the requested information for each claim listed above to correct the defects. Please do this by providing a copy of your location notice with the appropriate corrections, and note at the top of the form that it is a "Corrected Copy of Location Notice". If it is only the map that is missing or needs to be corrected, please provide the map. If the information is not received within the 30-day timeframe, the mining claims will be declared null and void ab initio.

If additional information is required, please contact Tony Smith at 602-417-9355. Please include your AMC serial number(s) on all correspondence.

This is an optional form that may be used to satisfy the requirements for the Bureau of Land Management (BLM) under the provisions of 43 U.S.C. §1744 and 30 U.S.C. §28-28d and the regulations thereunder (43 CFR part 3835). Since local and State laws may vary, you should contact your local and State agencies where the claims are located to ensure all applicable laws and requirements are satisfied.
2. The claimant(s) must fill in the date in paragraph 1 for the applicable assessment year and the county and state where the claims are located.
3. All claim names, BLM serial numbers, legal descriptions, and original county recording information must be listed for the claims pertaining to this assessment notice.
4. The claimant(s) must complete paragraph 2 listing all labor or improvements which was performed on or did benefit the subject mining claims. The value and date of the labor or improvements must also be listed. The total amount of labor or improvements can be listed, but the total expenditure must equal at least \$100 for each claim.
5. The names and current mailing addresses of the person(s) performing the labor shall be listed in paragraph 3.
6. The name and current mailing address of each owner (claimant) of the claims shall be listed in paragraph 4. The mailing address shall be the owner's address and not the address of an agent or anyone representing the claimant. Be sure to note if there has been a change of address.

8. An exact legible reproduction or duplicate (other than microfilm or other electronic media) of this affidavit or another type of affidavit of assessment work that you file or will file in the county where each claim is located, must be filed with the BLM on or before December 30 of the calendar year in which the assessment year ends. NOTICES

THE PRIVACY ACT and 43 CFR 2.223(d) require that you be furnished with the following information in connection with the information requested by this form.

AUTHORITY: 30 U.S.C. §28-28d and 43 CFR part 3835 permit collection of the information requested by this form.

ROUTINE USES: The BLM will only disclose this information in accordance with the provisions at 43 CFR 2.231(b) and (c).

EFFECT OF NOT PROVIDING INFORMATION: Disclosure of the requested information is required by 30 U.S.C. § 28-28d and 43 CFR part 3835 for claimants qualified to perform assessment work in lieu of paying the maintenance fee. INFORMATION REGARDING LOCATING PLACER MINING CLAIMS

We have received your location notice(s) for placer mining claims. We are sending this information regarding the following claim(s): AMC _____

The claim(s) is/are not located by aliquot parts using the rectangular survey system.

In accordance with 43 CFR 3832.12(c)(1) Unless the claims are on unsurveyed Federal land, are gulch or bench placer claims, or are bounded by other mining claims or nonmineral lands, the claim(s) should be described by aliquot parts using the rectangular survey system

☒ The dimensions are incorrect. _____

Using the rectangular survey system the following are examples of correct dimensions for a placer claim: 20 acre claim = 1320 x 660; 40 acre claim = 1320 x 1320; 60 acres claim = 1980 x 1320; 80 acre claim = 2640 x 1320; 160 acre claim = 2640 x 2640

Small aliquot parts are: 10 acres = 660 x 660, or 1320 x 330; 5 acres = 660 x 330; 2.5 acres = 330 x 330

_____ The claim is located diagonally or in an odd or unusual shape.

A placer claim should not be located in this manner unless it is a gulch or bench placer claim or it is bounded by other mining claims or nonmineral lands. If the claim does fall into one of the categories mentioned, then it should be described using a protracted survey or by metes and bounds.

In accordance with 43 CFR 3832.12 (a) (1) For all claims and sites, you must describe the land by state, meridian, township, range, section and by aliquot part to the quarter section. In all cases, your description of the land must be as compact and regular in form as reasonably possible and should conform to the U.S. Public Land Survey System and its rectangular subdivisions as much as possible.

For placer claims, in accordance with 43 CFR 3832.12(c) (1) You must describe placer claims by aliquot part and complete lots using the U.S. Public Land Survey System and its rectangular subdivisions except when placer claims are –

(i) on unsurveyed Federal lands; (ii) Gulch or bench placer claims; or (iii) Bounded by other mining claims or nonmineral lands

(2) For placer mining claims that are on unsurveyed Federal lands or are gulch or bench placer claims: (i) You must describe the lands by protracted survey if the BLM has a protracted survey of record; or (ii) You may describe the lands by metes and bounds, if a protracted survey is not available or if the land is not amenable to protraction.

If after reading this information, you determine that the claim(s) are located incorrectly, in order to protect your interests, you should amend the claim(s). Please be aware that when amending a claim, you cannot take in any new ground. This may result in a claim that contains significantly less acreage than originally located. If you wish to retain the same acreage, you may want to relocate the claim correctly, rather than amend this claim.
