Mining Claim Location Notice(s) - Amendment(s) Required

Pursuant to Title 43 Code of Federal Regulations (CFR) 3832.1, the Bureau of Land Management (BLM), Arizona State Office, received your notices of location for recording mining claims. In accordance with 43 CFR 3832.12, the claims listed above cannot be accepted as filed and must be amended as noted below.

Your mining claim location notices have 2 deficiencies: (1) inadequate legal descriptions were provided. We cannot determine where the claims are located. You must describe the claims by state, meridian, township, range, section, complete lots, and by aliquot part. These claims could be described by simple aliquot part legal description, however, proper format was not used. Therefore, informational sheets have been enclosed as a guide for writing the proper legal descriptions for your mining claims; (2) The maps provided are inadequate. You must clearly show on a map or sketch the boundaries of the claims. The map should clearly mark the boundaries of both the section and quarter section and should depict where within the quarter section the claim lies. The map should be accurate enough for BLM to identify the mining claims or sites on the ground. Blank claim maps have been included so that you can accurately depict your claims. The legal description for each mining claim must match the depiction on the map.

An amendment must be filed for each claim listed above to correct the defects identified. There is a \$10 BLM processing fee for each amendment. The amendments must be received by BLM

within 30 days of your receipt of this notice. If the amendments are not received within the 30 day timeframe the mining claims will be declared null and void.

If additional information is required, please contact Rod Ebert at 602-417-9397. Please include your AMC serial number(s) on all correspondence.

ATTN: Rod Ebert

I, Massih Kharazmi, by filing the Location Notice Amendment for the above-referenced claims, aim to clarify and confirm their locations per filed amendments. I further confirm that the original intended location of the Coyote Two claim (AMC429450) is and always was according to the Amendment of Location Notice.

The map drawn on the September 22, 2014 Location Notice was wrongly indicated (marked SW instead of the S1/2 of the COYOTE ONE, NW1/4 NW1/4). COYOTE ONE and COYOTE TWO are adjacent and these are the claim locations as originally intended. Thank you for your attention in this matter!
