DECISION

PAUL B RANGE : The block below contains a list of the claims
PO BOX 1550 : affected.
QUARTZSITE, AZ 85346-1550 :

AMC430125

BACK 20

MINING CLAIMS DECLARED FORFEITED

The mining claims listed above have been declared forfeited as of December 30, 2017, for failure to timely file the required affidavit of labor for the 2017 assessment year.

A small miner's maintenance fee waiver certification was filed for these claims for the 2017 assessment year, which began on September 1, 2016, and ended September 1, 2017. Therefore, pursuant to regulations found at 43 CFR 3835.16 and 3835.31, an affidavit of labor for the 2017 assessment year must have been filed on or before December 30, 2017, along with a \$10 processing fee per claim. Failure to timely file this affidavit and fee constitutes a forfeiture of the claims (43 CFR 3835.91).

Reclamation Requirements

You are required to reclaim all areas disturbed by your activities on lands encompassed by your mining claim(s) and/or site(s). After you complete the reclamation, you must notify the authorized officer of the appropriate surface managing agency so that the authorized officer may conduct a final site inspection and determine whether you may be released from liability. If you fail to reclaim the land to the satisfaction of the authorized officer, the surface management agency may cite you for noncompliance under its surface management regulations.

For land administered by the Bureau of Land Management (BLM), if you fail to reclaim the land to the satisfaction of the authorized officer as required in 43 CFR Subpart 3809, BLM will issue an order of noncompliance under 43 CFR 3809.601(a). If you fail to comply with the noncompliance order, BLM may take further action under 43 CFR 3809.604. Failure to conduct reclamation is a prohibited act that may subject you to criminal penalties. See 43 CFR 3809.605(h) and 43 CFR 3809.700.

Appeal Procedures

This decision may be appealed to the Interior Board of Land Appeals, Office of the Secretary, in accordance with the regulations contained in 43 CFR, Part 4, and the enclosed Form 1842-1. If an appeal is taken, your notice of appeal must be filed in this office (at the above address) within 30 days from receipt of this decision. The appellant has the burden of showing that the decision appealed from is in error.

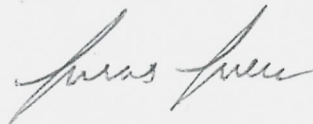

If you wish to file a petition pursuant to regulation 43 CFR 4.21 (58 FR 4939, January 19, 1993) for a stay of the effectiveness of this decision during the time that your appeal is being reviewed by the Board, the petition for a stay must accompany your notice of appeal. A petition for a stay is required to show sufficient justification based on the standards listed below. Copies of the notice of appeal and petition for a stay **must** also be submitted to each party named in this decision and to the Interior Board of Land Appeals and to the appropriate Office of the Solicitor (see 43 CFR 4.413) at the same time the original documents are filed with this office. If you request a stay, you have the burden of proof to demonstrate that a stay should be granted.

Standards for Obtaining a Stay

Except as otherwise provided by law or other pertinent regulation, a petition for a stay of a decision pending appeal shall show sufficient justification based on the following standards:

- (1) The relative harm to the parties if the stay is granted or denied,
- (2) The likelihood of the appellant's success on the merits,
- (3) The likelihood of immediate and irreparable harm if the stay is not granted, and
- (4) Whether the public interest favors granting the stay.

Please include your AMC serial number(s) on all correspondence. If additional information is required, please contact RéAnn Myers at 602-417-9413.

ORDER

Summary

Appellant, Gloria Anderson, appeals and requests a stay of a decision issued by the Bureau of Land Management (BLM) on February 24, 2016. In its decision, BLM stated that mining claims AMC430127 – AMC430129 were forfeited because of an inadequate description of the claims.

Under applicable law, to locate a mining claim, one must describe the exact land claimed. To meet that obligation for unsurveyed land, one must describe the land by metes and bounds description that fixes the position of the claim corners with respect to a specified claim corner. One must also file a visual description, such as a narrative or sketch describing the claim which ties the description to a natural object or other feature. Here, Ms. Anderson did not specify the claim corner in the metes and bounds description; did not include the bearings and distances between the claim corners, and; did not match the distance shown on the map with the distance in the written description. Accordingly, BLM found her location paperwork inadequate, and deemed her claims forfeited. We affirm.

Because Appellant Did Not Properly Describe Her Claims, the Claims Were Forfeited

Appellant filed five notices of location for claims identified as Gully 5 through Gully 9, serialized as AMC430126 to AMC430130. After Appellant filed her notices, BLM sent her a Notice dated December 7, 2015. In the Notice, BLM indicated that amendments to Appellant's location notices were required in order for the claims to be accepted as filed. Specifically, BLM stated:

RECEIVED
 BLM AZ TARRANT FIELD OFFICE
 PHOENIX, ARIZONA
 2016 DEC 28 10:23 AM

2016 DEC 23 3:11 PM

Please note that latitude and longitude coordinates are not accepted for the metes and bounds descriptions of mining claims. AMC430126 through AMC430130: (a) claim corner is not specified for the tie-in in the metes and bounds description; (b) description needs to include the bearings and distances between the claim corners; (c) distance in the written description does not match the distance given on the map.^[1]

In response, Appellant amended her notices of location for two of the claims – AMC430126 and AMC430130. However, Appellant did not amend her notices of location for AMC430127, AMC430128, and AMC430129. Thus on February 24, 2016, BLM issued the decision on appeal, in which is declared these three claims forfeited because Appellant did not provide adequate descriptions of the claims.²

This matter concerns how one properly locates a mining claim, an issue governed by regulations promulgated by BLM. Under the relevant part of those regulations, to locate a claim one must establish “the exterior lines of a mining claim . . . on lands open to mineral entry to identify the exact land claimed.”³ To identify the exact land claimed, the regulations require that for unsurveyed lands, as in this matter, a claimant “provide a metes and bounds description that fixes the position of the claim corners with respect to a specified claim corner, discovery monument, or official survey monument.”⁴ As part of the description, one must include either a topographical map published by the U.S. Geological Survey with a depiction of the claim, which shows its boundaries accurately enough for BLM to identify the claim on the ground, or a “narrative or sketch describing the claim . . . and tying the description to a natural object, permanent monument or topographic, hydrographic, or man-made feature.”⁵ If a claimant does not comply with these requirements, the claim is forfeited.⁶

Appellant did not adequately follow the regulatory guidelines on describing her claims, as reflected in BLM’s Notice. The record shows that Appellant’s location notices for the claims at issue were identified by longitude and latitude, not metes and bounds, did not include reference to corner markers, and the descriptions in the narrative text did not match the descriptions of the claim on the associated sketches

of the claims.⁷ Each notice of location is two pages. On the first page, there is a text description of the claim. On the second page, a sketch of the claim. For example, in the location notice for claim AMC430127, Appellant refers to “Latitude 38° 42’ 55.24 N Longitude 114° 18’ 55.46 W,” and does not provide a metes and bounds description. Appellant also writes that the claim is “4000 feet in a SE direction from the stream junction,” but on the sketch there is no reference to 4,000 feet or a depiction of the stream junction. Similarly, the notice for AMC430128 uses latitude and longitude, rather than metes and bounds, to describe the location of the claim, and the text description refers to a “SE corner start[ing] 700 feet north,” but the associated sketch has no such reference. And on the notice for AMC430129, the text reference is to “2,100 feet in a SE direction from the stream junction,” but the sketch does not include a reference to 2,100 feet or a depiction of the stream junction. In short, the record evidence shows that BLM correctly found that Appellant did not properly identify her claims as required by regulation and therefore found her claims forfeited.⁸

On appeal, Appellant does not argue that she amended her descriptions to include the information identified as necessary by the regulations. Rather, Appellant argues she did not realize from BLM’s Notice that the claims identified as “AMC430126 – AMC430130” and as “Gully #5 – Gully #9” referred to five claims. She claims she thought the decision referred only to two of her claims, AMC430126 and AMC430130 (Gully 5 and Gully 9). Accordingly, Appellant argues she only amended her claims for AMC430126 and AMC430130. Appellant states that in doing so, she “was following the instructions of a BLM employee,” who “interpreted the letter the same as I did that it pertained to two claims not five claims.”⁹

Appellant has the burden of showing that BLM’s decision is not supported by a rational basis or does not comply with the governing law.¹⁰ She does not meet this burden. The notice BLM sent Appellant provided reasonable notice that all five claims were at issue. The claims were not only identified as “AMC430126 – AMC430130,” in the caption to the notice, but also as “AMC430126 through AMC430130,” in the body of the Notice. Under the circumstances, we find the Notice to clearly cover all five claims. Moreover, even if a BLM employee told Appellant that BLM’s Notice encompassed two, rather than all five, claims, this would have been inconsistent with the requirements for location under the regulations and therefore could not bind the bureau.¹¹

I interpreted that the letter pertained to two claims.

In the BLM office we had questions about filling out the form properly. We spoke to the person working and she called Rod Ebert to come down to the lobby to answer the questions that she was not able to answer. After Rod looked at the three items we had redone. The two claims listed above and one that was on a separate letter in my husbands name. Rod stated that it looked like we had a grasp on the correct way to fill out the form and would be able to finish without his help.

I spoke to the person working after he worked and mentioned that we had three other claims that would need to be corrected. We had wanted to correct them at the same time. She stated that we should wait for the letter fro the BLM for the other three claims to file the amendment. She interpreted the letter the same as I did that it pertained to two claims not five claims.

I was following the instructions of a BLM employee and only filed the two amendments that were requested.

About three weeks later Rod Ebert called me to find out why I did not file amendments on all five claims. He seemed concerned. I stated that I had read the letter that it pertained to only two claims and that the staff in the loby had interpreted it the same way. We discussed that he made a statement that we could finish the rest on our own. I remember him making that statement and thought he did not realize he had seen all of the ones we needed to do. He admitted to me that at least one other person had the same interpretation in the past when the claims in a numerical order were listed with a - and only the first and last were listed instead of all of the calims being listed. We also discussed that I was given the wrong information and that the people working in the lobby helping miners did not understand that a - would mean a series of numbers instead of a seperation of claim numbers and how would I be expected to have that knowledge if the employees working for the BLM did not.

We had several phone calls back and forth that day. He told me that my only option was to appeal the decision.

I (We) intend to hold the claims(s) and/or site(s) listed below for the calendar year 2015, and I (We) have filed or will file a Notice of Intent to Hold in the county where the claim (s) is located.

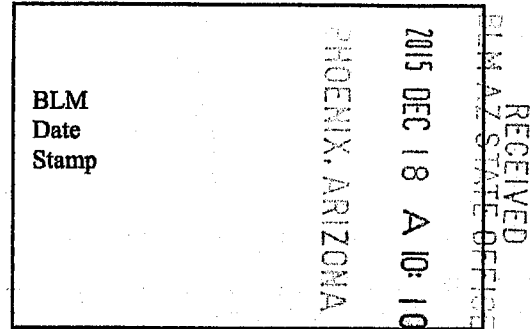

Reason for filing a Notice of Intent to Hold instead of an assessment work filing (check one):

- Maintenance fee was paid to maintain claim(s) during this assessment year.
- Mill or tunnel sites.
- Claim(s) was located during the current assessment year.
- BLM has deferred assessment work (attach copy of decision granting deferment, or pending petition for deferment including date petition was filed.)
