### Mining Claim Location Notice(s) – Amendment(s) Required

Pursuant to Title 43 Code of Federal Regulations (CFR) 3832.1, the Bureau of Land Management (BLM), Arizona State Office, received your notices of location for recording mining claims. In accordance with 43 CFR 3832.12, the claims listed above cannot be accepted as filed and must be amended as noted below.

The claims are not in aliquot parts. To be in aliquot parts, the claims would need to be reduced by 10 feet on the west side and 320 feet on the east side. The claims would then be 10 acre claims 1,320 feet x 330 feet. The southeast corners of the claims would be located as follows:

AMC437146 would be 2,640 feet west from the southeast corner of T. 9 N., R. 2 E., sec 8.

AMC437147 would be 1,980 feet west from the southeast corner of T. 9 N., R. 2 E., sec 8.

AMC437148 would be 1,980 feet west from the southeast corner of T. 9 N., R. 2 E., sec 8.

AMC437149 would be 1,320 feet west from the southeast corner of T. 9 N., R. 2 E., sec 8.

To fill in the space left by the amendments, you could file two new 10 acre claims 1,320 feet x 330 feet.

In accordance with 43 CFR 3832.12(c) (1) You must describe placer claims by aliquot part and complete lots using the U.S. Public Land Survey System and its rectangular subdivisions except when placer claims are (i) on unsurveyed Federal lands; (ii) Gulch or bench placer claims; or (iii) Bounded by other mining claims or nonmineral lands. If one of these situations exists you must describe the lands by protracted survey or by metes and bounds. In all cases, your description of the land must be as compact and regular in form as reasonably possible and should conform to the U.S. Public Land Survey System and its rectangular subdivisions as much as possible.

The amendment must provide one of the following:

1. Identify which situation exists that requires this placer mining claim to be located by metes and bounds and provide a metes and bounds description; or
2. Amend the mining claim using the U.S. Public Land Survey System and its rectangular subdivisions and describe the mining claim by aliquot parts and complete lots.

Keep in mind that when amending a mining claim, no new ground can be taken in. A placer mining claim must contain at least 10 acres. Therefore an amended claim would have to contain at least 10 acres and must be described by aliquot parts. If this cannot be achieved, the claim should be relinquished and a new claim located correctly, rather than amending an incorrectly located claim.

If you are able to correctly amend the claims listed above and decide to do so, there is a \$10 BLM processing fee for each amendment. The amendments must be received by BLM within 30 days of your receipt of this notice. If the amendments are not received within the 30 day timeframe the mining claims will be declared null and void.

If additional information is required, please contact RéAnn Myers at 602-417-9413. Please include your AMC serial number(s) on all correspondence.
