### Mining Claim Location Notice(s) – Amendment(s) Required

Pursuant to Title 43 Code of Federal Regulations (CFR) 3832.1, the Bureau of Land Management (BLM), Arizona State Office, received your notices of location for recording mining claims. In accordance with 43 CFR 3832.12, the claims listed above cannot be accepted as filed and must be amended as noted below.

- The claims are not described with a proper metes and bounds description. A proper metes and bounds description is required to accurately determine the location of the claims.
- On AMC439443 there is a discrepancy between the written legal land descriptions and the map. The written description states the claim is in T. 23 N., R. 17 W., sec. 29, NW1/4 and SW1/4; sec. 30, NE1/4. The map shows the claim in T. 23 N., R. 17 W., sec. 29, NW1/4 and SW1/4. Please correct either the map or the written description.

In accordance with 43 CFR 3832.12 a lode claim must be described by metes and bounds and include a tie to a permanent monument such as a section quarter corner monument. All claim descriptions must include state, meridian, township, range, section and by aliquot part to the quarter section.

An amendment must be filed for each claim listed above to correct the defects identified. There is a \$10 BLM processing fee for each amendment. The amendments must be received by BLM within 30 days of your receipt of this notice. If the amendments are not received within the 30-day timeframe the mining claims will be declared null and void.

If additional information is required, please contact RéAnn Myers at 602-417-9413. Please include your AMC serial number(s) on all correspondence.

Pursuant to Title 43 Code of Federal Regulations 3832.1, this office received your notice(s) of location for recordation of mining claims. However, portions of the lode mining claim(s) listed above appear to lie within lands that are not open to location for the following reason:

- AMC439441 - The claim is partially located on land that is patented and therefore not open to location. The Federal Government does not administer the surface or subsurface estate. Patent # 42120 dated April 19, 1905 and Patent #42116 dated April 19, 1905.
- AMC 439440 - The claim is partially located on land that is owned by the State of Arizona and therefore not open to location. The Federal Government does not administer the surface or subsurface estate.
- AMC439446 - The claim is partially located on land that is not open to location. The surface was reconveyed to the U.S. but the subsurface was retained by the grantor.

Therefore, although the claim(s) has/have been recorded, you have acquired no rights on any portion of the subject mining claim(s) that lie within these lands. Enclosed for reference is a copy of the Master Title Plat.

If additional information is required, please contact RéAnn Myers at 602-417-9413. Please include your AMC serial number(s) on all correspondence.
