Mining Claim Location Notice(s) – Amendment(s) Required

Pursuant to Title 43 Code of Federal Regulations (CFR) 3832.1, the Bureau of Land Management (BLM), Arizona State Office, received your notices of location for recording mining claims. In accordance with 43 CFR 3832.12, the claims listed above cannot be accepted as filed and must be amended as noted below.

Any portion of a mining claim on land subject to a pre-existing highway right-of-way granted per 23 U.S.C. § 317 (1988), the Federal Aid Highway Act, is null and void ab initio. Also, a placer mining claim may not contain noncontiguous tracts of land, 30 U.S.C. § 36 (1988). There is a highway right-of-way, granted under the Federal Aid Highway Act, which cuts through your claim. You must amend your claim so the right-of-way is not crossed and depict on a map that portion you wish to retain. You may file a separate location notice to include the lands relinquished.

In accordance with 43 CFR 3832.12(c) (1) You must describe placer claims by aliquot part and complete lots using the U.S. Public Land Survey System and its rectangular subdivisions except when placer claims are (i) on unsurveyed Federal lands; (ii) Gulch or bench placer claims; or (iii) Bounded by other mining claims or non-mineral lands. If one of these situations exists you must describe the lands by protracted survey or by metes and bounds. In all cases, your description of the land must be as compact and regular in form as reasonably possible and should conform to the U.S. Public Land Survey System and its rectangular subdivisions as much as possible.

\* Disregard notice. claim was processed incorrectly for section 25 but is actually located in section 13 per location notice. Mr. Fischer was notified by phone on 8/17/18 to disregard his notice. Claim was approved in LR2000.

The amendment must provide one of the following:

1. Identify which situation exists that requires this placer mining claim to be located by metes and bounds and provide a metes and bounds description. If you believe the claim is a gulch placer, please provide a) a topographical map and b) the % steepness of the slope. A gulch placer is located on the bed of a river contained within steep, non-mineral canyon walls and the slope should be at least 35% to 60%.
2. Amend the mining claim using the U.S. Public Land Survey System and its rectangular subdivisions and describe the mining claim by aliquot parts and complete lots.

Keep in mind that when amending a mining claim, no new ground can be taken in. A placer mining claim must contain at least 10 acres. Therefore an amended claim would have to contain at least 10 acres and must be described by aliquot parts. If this cannot be achieved, the claim should be relinquished and a new claim located correctly, rather than amending an incorrectly located claim.

If you are able to correctly amend the claims listed above and decide to do so, there is a \$10 BLM processing fee for each amendment. The amendments must be received by BLM within 30 days of your receipt of this notice. If the amendments are not received within the 30 day timeframe the mining claims will be declared null and void.

If additional information is required, please contact Brent Squires at 602-417-9397. Please include your AMC serial number(s) on all correspondence.

Lucas Lucero  
Deputy State Director  
Lands, Minerals and Energy Division
