AMC448767

MSM #1

Mining Claims Declared Forfeited Excess Acres

In accordance with 43 CFR 3830.94, the mining claims listed above are hereby declared forfeited for the reason indicated below.

You received a Notice requiring that the claims listed above be amended due to excess acres or that documentation be submitted supporting discovery of a valuable mineral deposit prior to the date of transfer. The amendments or documentation were required to be filed within 30 days of the date you received the Notice. Documentation purporting discovery of a valuable mineral deposit prior to the date of transfer was received February 20, 2020. A review of the documentation was performed by a Certified Mineral Mine Inspector who determined that the information was incomplete to show that a valuable mineral deposit existed prior to the transfer.

You received a Notice providing you the opportunity to submit more information to prove discovery of a valuable mineral interest prior to transfer or to reduce the acreage to 20 acres per claimant as allowed by law. The amendments or documentation were required to be filed within 30 days of the date you received the Notice. The 30 day timeframe allowed has expired and no amendment or documentation has been received; therefore, the mining claims are declared forfeited.

This decision does not relieve you of the liability for reclamation of all areas disturbed by your activities on land encompassed by your mining claims and/or sites. After you complete the reclamation, you must notify the authorized officer of the appropriate surface managing agency so that the authorized officer may conduct a final site inspection and determine whether you may be released from liability. If you fail to reclaim the land to the satisfaction of the authorized officer, the surface management agency may cite you for noncompliance under its surface management regulations.

For land administered by the Bureau of Land Management (BLM), if you fail to reclaim the land to the satisfaction of the authorized officer as required in 43 CFR Subpart 3809, the BLM will issue an order of noncompliance under 43 CFR 3809.601(a). If you fail to comply with the noncompliance order, the BLM may take further action under 43 CFR 3809.604. Failure to conduct reclamation is a prohibited act that may subject you to criminal penalties. See 43 CFR 3809.605(h) and 43 CFR 3809.700. If your occupancy has been terminated and you fail to remove structures, material, and equipment, and any personal property in accordance with the regulations in 43 CFR 3715.5-1, the BLM may dispose of the property. In accordance with 43 CFR 3715.5-2, you will remain liable for the costs the BLM incurs in removing and disposing of the property.

Appeal Procedures

This decision may be appealed to the Interior Board of Land Appeals, Office of the Secretary, in accordance with the regulations contained in 43 CFR, Part 4 and the enclosed Form 1842-1. If an appeal is taken, your notice of appeal must be filed in this office (at the above address) within 30 days from receipt of this decision. The appellant has the burden of showing that the decision appealed from is in error.

If you wish to file a petition pursuant to regulation 43 CFR 4.21 (58 FR 4939, January 19, 1993), for a stay of the effectiveness of this decision during the time that your appeal is being reviewed by the Board, the petition for a stay must accompany your notice of appeal. A petition for a stay is required to show sufficient justification based on the standards listed below. Copies of the notice of appeal and petition for a stay must also be submitted to each party named in this decision and to the Interior Board of Land Appeals and to the appropriate Office of the Solicitor (see 43 CFR 4.413) at the same time the original documents are filed with this office. If you request a stay, you have the burden of proof to demonstrate that a stay should be granted.

Standards for Obtaining a Stay

Except as otherwise provided by law or other pertinent regulation, a petition for a stay of a decision pending appeal shall show sufficient justification based on the following standards:

- (1) The relative harm to the parties if the stay is granted or denied,
- (2) The likelihood of the appellant's success on the merits,

- (3) The likelihood of immediate and irreparable harm if the stay is not granted, and
- (4) Whether the public interest favors granting the stay.

If additional information is required, please contact RéAnn Myers at 602-417-9413. Please include your AMC serial number(s) on all correspondence.

Sincerely,

Elena Fink
Deputy State Director
Lands, Minerals and Energy Division

Association Placer Mining Claims Documentation or Amendments Required

The mining claim listed above is an association placer mining claim that is over 20 acres in size. The claim was originally located with the required number of locators to meet the 20-acre per locator requirement. However, the claim is now held by a smaller group of claimants than originally located them and is therefore not in compliance with the legal requirements.

By law, each individual claimant is allowed to hold a maximum of 20 acres per claim. A corporation is considered to be a single entity that is allowed to hold a maximum of 20 acres per claim. In accordance with 43 CFR 3833.33 you may transfer, sell, or otherwise convey an association placer mining claim at any time to an equal or greater number of mining claimants. If you want to transfer an association placer claim to an individual or an association that is smaller in number than the association that located the claim you (a) must have discovered a valuable mineral deposit before the transfer; or (b) upon notice from the Bureau of Land Management (BLM), you must reduce the acreage of the claim, if necessary, so that you meet the 20-acre per locator limit.

On February 10, 2020, BLM sent you a notice requesting that you show compliance with 43 CFR 3833.33 by providing either documentation of a discovery of a valuable mineral deposit for the above listed claim prior to the claim being transferred from the original locators to yourself, or reducing the claim acreage to the 20-acre per locator limit as allowed by law.

On February 20, 2020, information was provided to this office with the intent to show that a valuable mineral deposit existed on the claim prior to transfer.

BLM determined that the information was incomplete to show that a valuable mineral deposit existed prior to the transfer of the claim to you.

BLM is hereby giving you an opportunity to provide more information to prove discovery prior to the date whereby the claim was transferred to a smaller number of claimants.

The claimant should fully describe the reasons why the deposit claimed is believed to be a valuable mineral deposit. This should include sufficient details so that a mineral examiner can determine that the claim owner had a reasonable prospect of success in developing the deposit at the time of transfer.

As stated in the attached Certified Mineral Mine Inspector memo, the following information or additional information is needed:

- The location map would be more informative and useful if it showed some context. That could be provided with an additional area map showing nearby cities, county lines, roadways, drainage basins, or other features that might be found in proximity to the claim block.
- The sampling information is not adequate.
 - Historical sampling and sampling from areas outside of the actual claim are not pertinent to the determination of a "discovery" on this claim block.
 - A "discovery" is site specific to a claim: only samples that can demonstrate they were collected in-situ within the claim boundaries are useful in this determination.
 - Describe the sampling protocol used. That should include details of who did the sampling, what was sampled (volume, weight, character, etc.), how the samples were collected and treated (panned, drilled, bulk, etc.), the means for locating sample sites and their ongoing identification, and when the sampling occurred (date and time required). Any additional information that helps describe the sampling effort and material collected would be useful.
 - Describe the laboratory testing protocol used. That should include a chain of custody, the processes used on each sample (weighed, washed, sieved, digested, etc.), the tests performed on each sample (AA, ICP-MS, fire assay, etc.), the equipment used for all tests (make, model, etc.), the gold recovery and purity per sample taken (test results including units of measure, margin of error, etc.), and the original final data from a certified laboratory reporting results of all testing.
 - When providing specific sample results, they should be correlated to a specific location and, if possible, to an areal extent. A map of the exact location of each sample should be provided.

- Provide a "reserve estimate" that includes a map of the deposit boundaries, not just the claim boundaries.
 - While the deposit outside the claim is not relevant to discovery within the claim, providing an estimate of the deposit thickness and extent is critical.
 - Also include a discussion of the calculations used to arrive at that reserve estimate and explain how the cut-off grade was developed for the described deposit.
- Develop an estimate of the cost to complete mining the described deposit at this site. This estimate needs to be complete enough to determine a reasonable prospect of success.
 - Provide an estimate of actual development costs expected, minimizing assumptions. This should describe a complete plan for preparing to mine the reserve estimated above.
 - Provide an estimate of all equipment and operational expenses expected. This should describe a complete plan for mining, from start to finish at this site. It would be useful if a process flow chart was provided and it should include a timeline for completion of operations.
 - Provide a site plan map for the process of mining, such as office and equipment locations, parking and traffic patterns, storage piles (processed and unprocessed material), sanitary facilities, etc.
 - Provide an estimate of reclamation costs expected once all gold resources have been produced.
- The purpose of the requested documentation is to transfer claim block ownership, so ensure that the documentation provided supports a "discovery" prior to the date of transfer.
- The meaning of "discovery of a valuable mineral deposit" is important and should coincide with the statutory requirements. An effort should be made to clearly understand this meaning from a regulatory and legal frame of reference. "Discovery" includes all the following:
 - Found within the boundaries of the mining claim.
 - A person of ordinary prudence would be justified in developing the discovery.
 - A marketable deposit that is able to produce a profit.
 - No further exploration needed to delineate reserves or determine grade.
 - Has had adequate sampling within the claim boundaries.
- A "discovery" is not surmise, speculation, belief, indication, impression, or geologic theory of the existence of minerals on the mining claim.

Without this information we cannot determine if the claim is being properly held by a single claimant. Therefore, we are requiring that the requested information be submitted to this office for review by a mineral examiner.

This required information must be dated **prior** to the date of transfer. If you do not have this information, then you must amend the claim listed above, reducing the acreage to 20 acres per claimant as allowed by law.

We must receive either this additional documentation supporting a discovery of a valuable mineral deposit, or amendment within 30 days of your receipt of this notice. If the required documentation or the amendment is not received within the 30-day timeframe the mining claims

will be declared forfeited and void. If an amendment is filed, there is a \$15 BLM processing fee for the amendment. The amendment must also be filed with the county.

If additional information is required, please contact RéAnn Myers at 602-417-9413. Please include your AMC serial number(s) on all correspondence.

Sincerely,

Elena Fink

MSM #1

Transfer of Association Placer Mining Claims Amendments or Discovery Documentation Required

The Bureau of Land Management (BLM) Arizona State Office received a conveyance document transferring ownership of the above listed mining claims.

The mining claims being transferred are association placer mining claims. The claims are being transferred to a smaller number of claimants than originally located the claims.

By law, each individual claimant is allowed to hold a maximum of 20 acres per claim. A corporation is considered to be a single entity that is allowed to hold a maximum of 20 acres per claim. In accordance with 43 CFR 3833.33, you may transfer, sell, or otherwise convey an association placer mining claim at any time to an EQUAL or greater number of mining claimants. However, if the claim is transferred to a smaller number of claimants you (a) must have discovered a valuable mineral deposit before the transfer; or (b) upon notice from BLM, you must reduce the acreage of the claim, if necessary, so that you meet the 20-acre per locator limit.

The BLM is therefore requiring that an amendment be filed for each claim listed above, in accordance with 43 CFR 3833.33, reducing the claims acreage to meet the 20-acre per claimant limit, as is authorized by law; or submit appropriate documentation supporting that there was a discovery of a valuable mineral deposit prior to the date of transfer. We are enclosing a guide to clarify what documentation must be provided to BLM to support a discovery of a valuable

mineral deposit. The documentation will be reviewed by a mineral examiner to determine if the submitted documents are sufficient.

We must receive either the amendments or documentation of discovery of a valuable mineral deposit within 30 days of your receipt of this notice. If the amendments or the required documentation are not received within the 30-day timeframe the mining claims will be declared forfeited and void. If amendments are filed, there is a \$15 BLM processing fee for each amendment. The amendments must also be filed with the county.

If additional information is required, please contact RéAnn Myers at 602-417-9413. Please include your AMC serial number(s) on all correspondence.

I (We) intend to hold the claims(s) and/or site(s) listed below for the calendar year 2019, and I (We) have filed or will file a Notice of Intent to Hold in the county where the claim (s) is located.

Reason for filing a Notice of Intent to Hold instead of an assessment work filing (check one):

- Maintenance fee was paid to maintain claim(s) during this assessment year.
- Mill or tunnel sites.
- Claim(s) was located during the current assessment year.
- BLM has deferred assessment work (attach copy of decision granting deferment, or pending petition for deferment including date petition was filed.)

MAINTENANCE FEE WAIVER CERTIFICATION

SEE INSTRUCTIONS ON PAGE 2

- 1. This small miner waiver is filed for the assessment year beginning on September 1, 2018 and ending on September 1, 2019.
2. The undersigned and all related parties owned ten or fewer mining claims, mill, or tunnel sites located and maintained on Federal lands in the United States of America on September 1, 2018.
3. The undersigned have performed the assessment work required by law for each mining claim listed prior to filing this waiver and understand that by filing this form, the undersigned must file an affidavit of assessment work with the Bureau of Land Management (BLM) by the December 30th following the filing of this waiver.
4. The undersigned understand that if the assessment work obligation has not yet come due under 30 U.S.C. 28 (for those claims in their first assessment year only), a notice of intent to hold reciting this condition must be recorded by the December 30th following the filing of this waiver.
5. The undersigned understand that mill and tunnel sites may also be listed on this waiver and be waived from payment of the maintenance fee, and that a notice of intent to hold for these sites is required to be filed with the BLM by the December 30th following the filing of this waiver.
6. The undersigned understand and acknowledge that pursuant to 43 U.S.C. 1212 and 18 U.S.C. 1001, the filing or recording of a false, fictitious, or fraudulent document with the BLM may result in a fine of up to \$250,000, a prison term not to exceed five years, or both.
7. The mining claims, mill or tunnel sites for which this waiver from payment of the maintenance fees is requested are:

Table with 2 columns: CLAIM OR SITE NAME, BLM RECORDATION SERIAL NUMBER. Rows include Au Digger #1, MSM #01, MSM #02, and empty rows 4-10.

18 U.S.C. 1001 and 43 U.S.C. 1212 make it a crime for any person knowingly and willfully to make to any department or agency of the United States any false, fictitious or fraudulent statements or representations as to any matter within its jurisdiction.

INSTRUCTIONS

1. This certification is made under the provisions of 43 U.S.C. § 1744 and 30 U.S.C. §28-28k and the regulations thereunder (43 CFR Part 3830).
2. The claimant(s) must fill in the dates in paragraph 1 for the beginning and ending of the assessment year for which this waiver is sought.
3. The claimant(s) must fill in the date in paragraph 2 for the beginning of the assessment year for which this waiver is sought.
4. All claim and site names and BLM serial numbers must be listed for the mining claims, mill sites, and tunnel sites for which the waiver is sought.
5. All owners of the mining claims, mill sites, and tunnel sites and their addresses must be given.
6. This waiver form must be signed by all the claimants or their designated agent, in original form. If an agent is designated, a notarized designation of agent, signed by all of the claimants with proper address given, must be submitted with this waiver.
7. This form must be filed no later than September 1st for the upcoming assessment year in the BLM State Office where the mining claims or sites are recorded, or the waiver cannot be granted by the BLM. (Example: To obtain a waiver for the assessment year 2012, which begins on September 1, 2011, you must qualify for and file for a waiver no later than September 1, 2011, in the proper BLM State Office.)
8. For all mining claims which require assessment work, you must record an affidavit of labor on or before the December 30th immediately following the filing of this waiver. For all other mining claims or sites waived, you must record a notice of intent to hold on or before the December 30th immediately following the filing of this waiver.
9. Mill and tunnel sites may also be listed on this waiver and be waived from payment of the maintenance fee. A notice of intent to hold for these sites is required to be filed by the December 30th following the filing of this waiver.
