www.blm.gov/payportal/home.html.

The following is a brief summary of the filing process for Federal mining claims.

Mineral rights can be obtained on State or Federal lands that are open to mineral entry. Mining claims, leases, and mineral material sales apply to Federal Lands. Prospecting permits, leases, and material sales apply to State Trust Land. The process is complex, but can be accomplished by the average citizen.

Mining claims cannot be used as a residence or home site. Under the current moratorium on patenting claims, no title to the land can be obtained.

The initial claim fees for locating a federal mining claim are about \$10 at the County Recorder's offices and \$212 total filing and first year maintenance fees paid to the Bureau of Land Management.

The steps in acquiring mineral rights are generally as follows:

- 1) Find an area of interest and determine its legal description (i.e. Township, Range, Section, etc.)
- 2) Determine surface and subsurface ownership status as explained in Arizona Dept. of Mines and Mineral Resources (ADMMR) Special Report SR23, *Manual for Determination of Status and Ownership, Arizona Mineral and Water Rights*.
- 3) Acquire and maintain mineral rights as described in ADMMR Special Report SR12, *Laws and Regulations Governing Mineral Rights in Arizona* and *Arizona Mining Permitting Guide 2011*
