Re: Submission of Notice of Mining Claim Location and Map for Recordation
"Red Hill"

RECEIVED
BLM AZ STATE OFFICE
2018 SEP - 6 P 2:10
PHOENIX, ARIZONA

Dear Sir or Madam:

Attached for BLM Recordation is a certified copy of a Yavapai County filed Notice of Mining Claim Location dated September 2, 2018, and a map of the location. Also enclosed is our check for \$212.00 to cover the recordation and filing fees.

This claim is not Aliquot and has been located and described by Metes and Bounds for the following reasons:

1. The claim lies adjacent and slightly overlaps our Red Hill #2 Claim.
2. The placer deposit covered by this claim is a bench placer with specific dimensions which makes location by aliquot parts impractical.
3. The claim is adjacent to and surrounded by claims to the North and West that are part of the Pine Creek Mining claim group, and to the South and East by a series of claims owned by Western Resources generally referred to as the Powder River and Eagles Nest Claims.

This claim is part of an approximate 300 acre claim group owned by Pine Creek Mining. The claim is under permit by the USFS and is being actively mined. It has been previously approved the BLM as a non-Aliquot claim, as described below.

For whatever reason, this claim seems to be jinxed. An ongoing series of unfortunate events have occurred that have resulted in a lot of extra work for both of us.

It was originally a association placer claim that was divided into Red Hill and Red Hill#2 at the request of the BLM on March 15, 2016. Thereafter:

1. The BLM sent a Notice on April 18, 2018 that the claim was not Aliquot; and needed to be so absent other considerations. We replied on April 29 with acceptable reasons, and the claim was approved as non-Aliquot.
2. The law firm that is responsible for making annual maintenance fee payments forgot to pay for Red Hill AMC437453 and it lapsed on August 31, 2016.

AN0452239

- 3.. Upon receipt of Notice of the lapse, the identical claim was immediately refiled on November 21, 2016, and assigned the new number AMC440266.
4. Subsequently, the BLM rejected the AMC440266 filing as it was submitted more than 90 days from the date of location. I am not sure this should be a necessary requirement when the same owner is correcting a technical mistake on an existing claim. However, on September 15, 2017, we reflagged all corners, put up a new location post, and posted a copy of the new Notice of Mining Claim Location on the post.
5. The BLM accepted the new Notice as AMC446090.
6. In August 2018, the BLM sent another letter stating that the claim was not Aliquot, not realizing this was the same claim as had been previously approved as non-Aliquot. We decided this time to turn the response over to the geologist who had mapped and surveyed the claim. However, he had delayed responding, and then had a medical emergency, leaving town and resulting in the claim being voided for non-response to the Aliquot letter.
7. So on September 1, 2018, we relocated the claim and posted a new Notice, filing it with Yavapai County on September 4, 2018. This time we are including an advance discussion of the Aliquot issue. This will soon be the fourth claim number assigned to this troublesome claim – and hopefully the last.

Thank you, and we apologize for the ongoing inconvenience.

Very truly yours,
Pine Creek Mining, Inc.

Peter L. Percy
