No Rights Acquired on Portions of Lode Claim(s)

Pursuant to Title 43 Code of Federal Regulations 3832.1, this office received your notice(s) of location for recordation of mining claims. However, portions of the lode mining claim(s) listed above appear to lie within lands that are not open to location for the following reason:

The claim is located partially on land that is patented and therefore not open to location. The Federal Government does not administer the surface or subsurface estate. Patent #378850, dated January 22, 1914.

Therefore, although the claim(s) has/have been recorded, you have acquired no rights on any portion of the subject mining claim(s) that lie within these lands. Enclosed for reference is a copy of the Master Title Plat.

If additional information is required, please contact RéAnn Myers at 602-417-9413. Please include your AMC serial number(s) on all correspondence.

Mining Claim Location Notice(s) – Amendment(s) Required

Pursuant to Title 43 Code of Federal Regulations (CFR) 3832.1, the Bureau of Land Management (BLM), Arizona State Office, received your notices of location for recording mining claims. In accordance with 43 CFR 3832.12, the claim(s) listed above cannot be accepted as filed and must be amended as noted below.

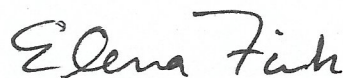

- The legal land descriptions given on various parts of the location notice do not match. The legal land description provided on page 1 states the location monument is in T. 7N, R. 5E?. The location notice says the claim encompasses portions of the following quarter sections, Township, and Range, 7N 5S/W. The map provided shows the claim in the NE1/4 of a section. The second page of the location notice says the claim is in sec 32 and 33, T. 7N, R. 5. No direction was given for the range.
- Your claims are not described by a metes and bounds description. A metes and bounds description is needed to accurately plot your claims. Please note that GPS coordinates/latitude and longitude coordinates are not accepted by the BLM in place of metes and bounds descriptions and tie-ins for a mining claim.

- An inadequate map was provided - you must clearly show on a map or sketch the boundaries of the claim. The map should clearly mark the boundaries of both the section and quarter section and should depict where within the quarter section the claim lies. The map should be accurate enough for BLM to identify the mining claims or sites on the ground. The map should depict both sections and the quarter sections within the sections. Distances from the sides, top and bottom of the sections should be listed on the map to give us a more accurate idea of the where the claim actually lies on the ground. The length and width of the claim should also be written on the map.

In accordance with 43 CFR 3832.12 a lode claim must be described by metes and bounds and include a tie to a permanent monument such as a section quarter corner monument. All claim descriptions must include state, meridian, township, range, section and by aliquot part to the quarter section.

An amendment must be filed for each claim listed above to correct the defects identified. There is a \$15 BLM processing fee for each amendment. The amendment(s) must be received by BLM within 30 days of your receipt of this notice. If the amendment(s) is/are not received within the 30-day timeframe the mining claim(s) will be declared null and void.

If additional information is required, please contact RéAnn Myers at 602-417-9413. Please include your AMC serial number(s) on all correspondence.
