To: BLM Minerals Professional

Subject: unpatented mining claim staking irregularities

Date: October 5, 2020

By: Clive R. G. Bailey AIPG #4605 cell: (520) 360-4936

I am contesting Excelsior's Location of EMC 43A reportably staked on 9-21-20 My Sara -23 Claim attached was staked on 9-29-20. ( GPS location 12R 0612440 3509977 Nad27)

Excelsior has operated a very forceful campaign of staking claims (Noil's ect) in the Courtland - Gleeson stirring up a small firestorm with Micheal Oster as the primary opponent to Excelsion with land access and overstaking issues. I know the Sheriff has been out on multiple occasions. I can't enter into this controversy as my other Sara 1-22 claims have been respected.

My issue is placing of the actual notice of location. Traditionally it's in a mason jar in the monument pile (old school) or in a pill vial taped and wired to the 2x2 or in the rock cairn supporting the post. Such that a normal person with a small effort find and read the notice. These claims are being staked with a more stealthy and hidden purpose. Two small pits one for the post and a neighboring small pit where the pill bottle is buried. Then a small rock monument is built a top hiding the location documents to the normal person. This defeats the general intent and purpose of the 1872 law. In the case above I have not removed the small cairn and dug down to find the bottle. I have pictures and video of other claims staked in this deceptive way (by local residents).

If Rich Darling (Survey Company) or Rod Willard (Excelsior) would have told me to go back to the site push the small rock cairn away a dig a couple inches you can find an orange pill vial with the location document ??? Wrong!

Purhaps if this stituation escalates and your Ranger comes down to investigate. He would check this un-touched site.

The 1872 law has been perverted in the past IE: plasic sewer pipe as post. I feel as a 40 year professional Geologist this hiding of the location doc's is a peversion of the law.

Copy of my email coorespondence to follow:

to Richard

Rich,

I had intended to put Sara 23 in prior to going to Beatty, NV to assist Augusta Gold (Titan Mining Corp) on the Bullfrog Project.

We went out early yesterday and found your LM- EMC 43A location 2x2 stake ( 12R 0612440 3509977 Nad27) with no location document, bottle or any sign of a bottle in the small rocks holding the stake.

We staked the Sara 23 fraction in this location yesterday (9-29-20). I can provide a copy of my Location document if needed.

I must assume I got you in mid process and later you would "paper" this location. I'm asking you to stop your claiming process on just this one claim LM- EMC-43A and remove your LM at your convenience.

I provided to Excelsior a lot of information on the Sara group and data on lands that surround them in confidence, they failed to inform me of their intentions with this staking effort.

We'll see what happens.

Clive Bailey CPG #4605 (520) 360-4936

Sep 30, 2020, 10:13 AM (6 days ago)

to Rod, me

Clive,

No, we did paper the claim on the 21st of September. I have no idea why the papers were not there other than we are having some issues with Mr. Oster and he might be pulling them. I do have the signed notice in my office.

You need to get in touch with Rod but we did set and paper that claim.

to Rich, Rod

Rich,  
Ok, thank you. If you say you papered it on the 21st you did .....no evidence on site other than the post. I was in Beatty at that time.  
Clive

**SARA #23 Fraction NOTICE OF LOCATION (LODE)**

Name and Address of Locator:

**NOTICE IS HEREBY GIVEN** that the above named lode mining claim was located on September, 29, 2020 by Clive R. G. Bailey the locator and owner thereof, under the provisions of Section 23, Title 30 of the United States Code and A.R.S. § 27-202.

This claim is a fraction with a west boundary wrapping around and being contiguous with the Gladys No. 3 patented claim (MS-3397). The approximate description is as: From the Sara #23 Fraction NW corner thence; bearing east ~300' to the north-end center; thence east ~300' to the NE corner ( SE#16,SW#14 & NW #15 mutual corner); thence south ~1500' to the SE corner. thence west ~300' to the south end-center; thence ~300' west to the SW corner; thence north ~155' to intersection with the Gladys No. 3 Patent; thence contiguous with the east boundary S30 °E 40' (SW cor. of Gladys No.3); thence N 60° E 600' to (SE cor. of Gladys No.3); thence N30° W 1120' along the contiguous Gladys No.3 east side line intersecting the west side of the Sara #23 Fraction; thence north ~85' returning to the NW corner. This claim is approximately 1,500 feet in length along the vein or deposit of mineral-bearing rock in place and 300 feet in width on each side of the middle of the vein. The notice of location post and rock monument is posted on the centerline of the claim on a post from which point the claim measures 50 feet south of the north end center monument and 1450 feet to the south end center monument. The general course of this claim is north to south and is situated in the SE ¼ of Section 5 Township 20 South, Range 25 East, G&SR Meridian, Courtland-Gleason Mining District, Arizona. The boundary of the claim is monumented by six posts, one at each corner of the claim and one at the corner of each end line. The type of corner and location monuments, are 2" X 2" wooden posts.

The locality of this claim with reference to some natural object or permanent monument and additional information concerning its locality are included on the attached map as incorporated herewith and as follows: The Northwest corner of the claim is located 5800 feet west and 3000 feet south of the Southwest Corner of Section 34, Township 20 South, Range 25 East, G&SR Meridian.

DATED and posted on the ground this 29th day of September, 2020.
