OATH OF ASSISTANTS

We hereby certify that we assisted Walter G. Turley,  
Surveyor - Forest Service in surveying all those  
parts or portions of Homestead Entry Survey No. 96, in  
--surveyed Section 4, Township 15 N., Range 12 E.,  
--surveyed Section, Township, Range,  
of the G. & S.R.B. & meridian, State of Arizona, which  
are represented in the following field notes as having been  
surveyed by him and under his direction; and that said sur-  
vey has been in all respects, to the best of our knowledge  
and belief, well and faithfully surveyed, and the corner  
monuments established, according to the instructions fur-  
nished by the United States Surveyor General for Arizona

Note: It would have been  
very expensive and incon-  
venient to appear before  
an officer to administer  
oaths to Assistants; hence,  
they were taken by the Sur-  
veyor.

Charles D. Hudson, Chairman  
Charles G. Baecht, Chairman

Subscribed and sworn to before me this 12<sup>th</sup> day of  
November, 1914.

Walter G. Turley  
Surveyor-Forest Service

OATH OF SURVEYOR

I, Walter G. Turley, Surveyor-Forest Service, do solemnly  
swear that, in strict conformity with the special instructions  
of the United States Surveyor General for Arizona, dated Sep-  
tember 29, 1913, and the laws of the United States, I have well,  
faithfully, and truly, in my own proper person, surveyed a  
tract of land embraced in List No. 3-1829, dated April 5, 1912,  
Application No. 117, dated December 13, 1911, for listing and  
patent under the Act of June 11, 1906, the same to be known as  
Homestead Entry Survey No. 96, situated within the Coconino Na-  
tional Forest, in  
--surveyed Section 4, Township 15 N., Range 12 E.  
of the G. & S. R. B. & Meridian, Arizona, and the related re-  
tracements and resurveys and section subdivisions, which are  
represented in the following field notes as having been survey-  
ed by me; and I further solemnly swear that all the corners of  
said survey have been established and perpetuated in strict ac-  
cordance with the stated special instructions, and in the specific  
manner described in the field notes, and that the following are  
the original field notes of such survey.

Walter G. Turley  
Surveyor-Forest Service

Subscribed and sworn to before me this 16 day of  
November, 1914.

My commission expired April 6, 1918 R. B. Gallie  
Notary Public

COCONINO NATIONAL FOREST

STATE OF ARIZONA

Chains Applicant for listing, Charles F. Quayle; Supplemental Application No. 117, dated December 13, 1911; List No. 3-1829, dated April 5, 1912; H. E. No. 021748, made in the Phoenix Land Office on March 17, 1913 by Charles F. Quayle.

Also a tract of unlisted land adjoining on the Northwest was included in this survey. The land is suitable for listing and contains permanent improvements constructed by the claimant. Supplemental listing will be made as a basis for amendment of Entry No. 021748.

Surveyed under special instructions from the Surveyor General for Arizona, dated September 29, 1913 and designated as Homestead Entry Survey No. 96.

Situated in Sec. 4, T. 15 N., R. 12 E., Gila and Salt River Base and Meridian within the Coconino National Forest, Arizona.

Surveyed under the Acts of June 11, 1906 and March 4, 1913.

Survey commenced June 16, 1914 and executed with a W. and L. E. Gurley light mountain transit No. 12953 with vertical circle and Burt solar attachment. The horizontal limb having two double verniers placed opposite and reading to single minutes of arc, which is also the least graduation upon the verniers of the latitude and declination arcs.

Test the adjustments of the transit and solar attachment and make necessary corrections. The stadia is adjusted to read 1:132.

All distances are horizontal, and were reduced from measurements made on the slope with a 400 link steel tape and a Philadelphia stadia rod graduated to feet

Chains and hundredths with target verniers reading to thousandths. The slope angles were determined with a clinometer.

June 16, 1914.

At 10h. 15m., p.m., l.m.t., I observe Polaris at cor. No. 4 of the list survey, with telescope direct and mark the direction thus determined with a tack in a stake set 5.50 chs. N. of my station. Latitude, 34° 43' 50" N. Long. 111° 05' 23" W., deduced from values given in the special instructions of the Surveyor General.

Astron. l.m.t., obsn., June 15, 1914, 34h. 15.0m.

Astron. l.m.t., U.C. Pol., June 15, 1914, 19h. 52.0m.  
14h. 23.0m.  
23h. 56.1m.

Hour angle of Polaris at obsn. 9h. 33.1m.

Azimuth of Pol. at obsn. 0° 49' 25" E.

At 10h. 26m., p.m., l.m.t., on the same date, I again observe Polaris at cor. No. 4 of the list survey, with telescope reversed and mark the direction thus determined with a tack in a stake set 5.50 chs. N. of my station.

Astron. l.m.t., obsn., June 15, 1914, 34h. 26.0m.

Astron. l.m.t., U.C. Pol., June 15, 1914, 19h. 52.0m.  
14h. 34.0m.  
23h. 56.1m.

Hour angle of Polaris at obsn. 9h. 22.1m.

Azimuth of Pol. at obsn. 0° 52' 37" E.

June 16, 1914.

June 17, 1914.

I set off the azimuth of Polaris 0° 49-1/2' to the W.

Chains

from her directions at 10h. 15m., p.m., l.m.t., June 16, 1914, and marked upon the ground as heretofore described; and mark the line thus determined with a tack in a stake set 5.50 chs. N. of my station. I also set off the azimuth of Polaris  $0^{\circ} 52-1/2'$  to the W. from her direction at 10h. 26m., p.m., l.m.t., June 16, 1914, and marked upon the ground as heretofore described; and mark the line thus determined with a tack in a stake set 5.50 chs. N. of my station. This line falls  $0^{\circ} 00' 24''$  of measured arc, to the West of the first line. I mark the mean of these two lines with a tack in a stake set 5.50 chs. N. of my station and to the corresponding meridian all the courses of this survey are referred.

At 8h. 15m., a.m., l.m.t., on the same date, I set off  $23^{\circ} 23-1/2'$  N. on the decl. arc and  $34^{\circ} 44'$  on the Lat. arc and determine a meridian with the solar at cor. No. 4 of the list survey and my line of sight falls  $0^{\circ} 00' 09''$  of measured arc to the E. of the meridian as established by last night's Polaris observations. Therefore, I conclude that my instrument is in satisfactory adjustment.

At 8h. 30m., a.m., l.m.t., on the same date, I set off  $23^{\circ} 23-1/2'$  N. on the decl. arc and  $34^{\circ} 44-1/2'$  on the lat. arc and determine a meridian with the solar at the 1/4 sec. cor. between Secs. 4 and 33, Tps. 15 and 16 N., R. 12 E., G. & S. R. B. & M., which is a sandstone 11 x 10 x 5 ins. above ground marked and witnessed as described by the Surveyor General.

 cor.

---

Thence S. 39° 30' W.  
 Descend NE. slope 5 ft. in pinon and juniper.

2.50 Leave pinon and juniper and continue ascending gradually  
 over grass covered bottom, 5 ft. to foot of hills.

21.00 Leave bottom, bears E. and W. and ascend N. slope in  
 pinon and juniper 20 ft.

25.98 To cor. No. 1, the place of beginning.

Chains

Listed area	16.12 acres
Unlisted area	6.38 acres
Total area	22.50 acres.

IMPROVEMENTS.

The improvements made upon and for the benefit of this additional homestead, consist of the following:

The SE. end, an earth embankment 200 ft. long and 25 ft. high at its center point, forming a reservoir whose capacity is estimated to be 5 acre feet, bears S. 45° 40' W., 10.62 chs. dist. from cor. No. 4 of this survey.

Value ----- \$300.00

Approximately 3/4 mile of fencing, the majority of which is on the outside of the claim.

Value ----- \$ 75.00

DESCRIPTION

This claim is situated on the Mogollon Mesa at an elevation of approximately 6600 ft., and occupies a grass covered glade sloping gently to the NE. and a fringe of slope on either side covered with pinon and juniper. The soil is sandy loam in character and produces crops without irrigation. There is but little subsurface water and the water for domestic use is either hauled or rain water stored. There is a fringe of woodland included in this survey. I saw no indication of mineral upon this claim.

Chains

CONFLICTS AND ADJOINING CLAIMS.

H.E. No. 014784, which contains 130.88 acres, made in the Phoenix Land Office by Charles F. Quayle, based upon list 3-890, lies immediately NE. of this claim and contains the dwellings and other buildings and improvements of applicant herein.

Winslow postoffice and Santa Fe railway station is 36 miles by wagon road in a Northeasterly direction.

 The necessary for the purpose of this regulation is to be kept in the office of the District Office, the Excise Officer, the Collector, the Assessor and the Commissioner.

DIRECTIONS.—1. Carry out calculations to two decimals only.

2. In balancing Latitudes and Departures do not obliterate or change the original figures.

Put the corrected figure or figures above in red ink. Do not change the footing of the original figures, but put below them the corrected footing in red ink.

The corrections for balancing fallings should be proportional to the lengths of the lines.

3. In calculations of fallings take result to nearest link. In calculations of N. and S. areas drop all after second decimal. Surveyors are required to use the Standard Field Tables issued by the G. L. O.

4. Only three copies of this tabulation are necessary, for the District Office, the Surveyor General, and the Commissioner.
