OATH OF ASSISTANTS

We hereby certify that we assisted Walter G. Turley,
Surveyor-Forest Service in surveying all those
parts or portions of Homestead Entry Survey No. 254, in
-- surveyed Section 27, Township 21 S., Range 17 E.,
-- surveyed Section 28, Township 21 S., Range 17 E.,
(Survey awaiting approval)

of the G. & S.R.B. & meridian, State of Arizona, which
are represented in the following field notes as having been
surveyed by him and under his direction; and that said sur-
vey has been in all respects, to the best of our knowledge
and belief, well and faithfully surveyed, and the corner
monuments established, according to the instructions fur-
nished by the United States Surveyor General for Arizona.

Note: It would have been
very expensive and incon-
venient to appear before an
officer to administer oaths
to Assistants; hence, they
were taken by the Surveyor.

Charles D. Hodson, Chairman
Charles K. Baechly, Chairman

Subscribed and sworn to before me this 4th day of
December, 19 14

Walter G. Turley
Surveyor - Forest Service

OATH OF SURVEYOR

I, Walter G. Turley, Surveyor - Forest Service
that, in strict conformity with the special instructions of
the United States Surveyor General for Arizona, dated
September 16, 1914, and the laws of the United States, I have
well, faithfully, and truly, in my own proper person, sur-
veyed a tract of land ~~upon the application of~~ embraced in
List, No. 3-1420 dated Sept. 5, 1911, for
Patent, under the Act of June 11, 1906,
the same to be known as Homestead Entry Survey No. 254,
situated within the CORONADO National Forest, in
-- surveyed Section 27, Township 21 S., Range 17 E., and
-- surveyed Section 28, Township 21 S., Range 17 E.,
(Survey awaiting approval)

of the G. & S.R.B. & meridian, Arizona, and the
related retracements and resurveys and section subdivisions,
which are represented in the following field notes as having
been surveyed by me; and I further solemnly swear that all
the corners of said survey have been established and perpet-
uated in strict accordance with the stated special instruc-
tions, and in the specific manner described in the field
notes, and that the following are the original field notes
of such survey.

Walter G. Turley
Surveyor - Forest Service

Subscribed and sworn to before me this 4th day of
December, 19 14

my commission expires Feb 6, 1918

R. B. Callie
Notary Public

CORONADO NATIONAL FOREST

STATE OF ARIZONA

Chains Applicant for listing Augustus Yeary, Application No. 184, dated February 10, 1911; List No. 3-1420, dated September 5, 1911; Homestead Entry No. 022318, made in the Phoenix Land Office on May 7, 1913 by Chas. L. Everhart, whose post office address is Elgin, Arizona. Surveyed under Acts of June 11, 1906 and June 30, 1914, and special instructions from the Surveyor General for Arizona, dated September 16, 1914 and designated as Homestead Entry Survey No. 254. Situated in secs. 27 and 28, T. 21 S., R. 17 E., Gila and Salt River Base and Meridian, (survey awaiting approval) within the Coronado National Forest, Arizona.

Survey commenced November 24, 1914 and executed with a W. and L. E. Gurley light mountain transit No. 12953 provided with prism eye piece, stadia wires, vertical circle and Burt solar attachment. The horizontal limb of the transit has two double verniers placed opposite to each other and graduated to single minutes of arc, which is also the graduation upon the verniers of the latitude and declination arcs.

I test the adjustments of the transit and solar attachment, and make necessary corrections. The stadia wire interval is adjusted to read 1:132.

All distances are horizontal, and were reduced from measurements made directly on the slope with a standard 500

link steel tape graduated to links and tenths; and the slope angles determined with a clinometer the vernier of which reads to degrees; and a Philadelphia stadia rod, graduated to feet and hundredths, provided with two targets the verniers of which read to thousandths

of a foot.

Chains November 24, 1914.

I set up my transit over the 1/4 sec. cor. to secs. 28

and 33, which is an iron post with brass cap 12 ins.

above ground, marked and witnessed as described by the

Surveyor General; and, with telescope direct, I observe

Polaris in accordance with instructions at 6h. 45m. p.m.

l.m.t., and mark the direction thus determined with a

tack in a stake set firmly in the ground 5.00 chs. N.

of my station, in Lat. $31^{\circ} 34' 00''$ N., and Long. 110°

$37' 31''$ W.

Astron. l.m.t., obsn., Nov. 23, 1914, 30h. 45.0m.

Astron. l.m.t., U.C. Pol. Nov. 23, 1914 9h. 20.5m.

Hour angle Pol. at obsn. 21h. 24.5m.

23h. 56.1m.

Time argument, 2h. 31.6m.

Azimuth Pol. at obsn. $0^{\circ} 50' 06''$ W.

With my transit set up over the 1/4 sec. cor. to secs. 28

and 33, heretofore described, and the telescope reversed

in altitude and azimuth, at 6h. 54m., p.m., l.m.t., on

the same date, I again observe Polaris in accordance

with instructions, and mark the direction thus deter-

mined with a tack in a stake set firmly in the ground

5.00 chs. N. of my station.

Astron. l.m.t., obsn., Nov. 23, 1914, 30h. 54.0m.

Astron. l.m.t., U.C. Pol., Nov. 23, 1914 9h. 20.5m.

Hour angle Pol. at obsn. 21h. 33.5m.

23h. 56.1m.

Time argument, 2h. 22.6m.

Azimuth of Pol. at obsn., $0^{\circ} 47' 30''$ W.

November 25, 1914.

I turn off $0^{\circ} 50'$, the azimuth of Polaris, to the E. from

her direction at 6h. 45m. p.m., l.m.t., November 24,

CORONADO NATIONAL FOREST

STATE OF ARIZONA

Chains 1914, and mark the line thus determined with a tack in a stake set firmly in the ground 5.00 chs. N. of my station.

I also turn off $0^{\circ} 47\text{-}1/2'$, the azimuth of Polaris, to the E. from her direction at 6h. 54m. p.m., l.m.t., and mark the line thus determined with a tack in a stake set firmly in the ground 5.00 chs. N. of my station.

This line falls $0^{\circ} 00' 06''$ of measured arc to the W. of the line previously established.

I mark the mean of these two lines with a tack in a stake set firmly in the ground 5.00 chs. N. of my station, and from the corresponding meridian, all the courses stated in these field notes were deflected and referred by continuous sustained angulation.

Latitude $31^{\circ} 34' 00''$ N., and Longitude $110^{\circ} 37' 31''$ W. at the $1/4$ sec. cor. to secs. 28 and 33, T. 21 S., R. 17 E. G. and S. R. B. and M., taken from the special instructions of the Surveyor General. Cor. No. 1 is identical with the $1/4$ sec. cor. to secs. 28 and 33. It was not practicable to check the latitude by direct observation. My watch is set for standard 105th meridian time. I subtract 22m. 30s. therefrom for l.m.t.

November 24, 1914 at cor. No. 1 of this survey, I observe the magnetic declination to be $13^{\circ} 32'$ E. at 8h. 00m. a.m., l.m.t., which reduced gives a mean magnetic declination of $13^{\circ} 29'$ E.

RETRACEMENT.

Thence South.

On a random line from the $1/4$ cor. to secs. 27 and 28, T. 21 S., R. 17 E. (survey awaiting approval) which is

Chains a regulation standard iron post with brass cap 12 ins. above ground, stamped S 1/4 28 in West half and S 27 in East half of cap and a mound of stone, from which:

A 7 in. white oak, scribed 1/4 S 27 B T, bears S. 15° 45' E., 141 lks.

A 12 in. white oak, scribed 1/4 S 28 B T, bears N. 86° 10' W., 108 lks.

39.94 I fall 4 lks. E. of cor. to secs. 27, 28, 33 and 34, which is a regulation iron post with brass cap 12 ins. above ground, stamped R 17 E - S 27 in NE. quadrant; S 34 in SE. quadrant; S 33 in SW. quadrant; and T 21 S - S 28 in NW. quadrant of cap, and a mound of stone, from which:

An 8 in. white oak, scribed T 21 S R 17 E S 27 B T, bears N. 20° 00' E., 53 lks.

A 14 in. white oak, scribed T 21 S R 17 E S 34 B T, bears S. 35° 30' E., 50 lks.

A 10 in. white oak, scribed T 21 S R 17 E S 33 B T, bears S. 82° 30' W., 30 lks.

A 7 in. white oak, scribed T 21 S R 17 E S 28 B T, bears N. 38° 35' W., 52 lks.

Return course N. 0° 03' E., 39.94 chs.

Theence West.

AREA

Area in Sec. 27 - - - - - 65.00 acres

Area in Sec. 28 - - - - - 94.92 acres

Total area - - - - - 159.92 acres

IMPROVEMENTS

The improvements made upon this homestead consist of the following:

A frame and tent dwelling 14 x 12 ft., the long side extending E. and W. and the SW. cor. of which bears N. 64° 00' E., 12.98 chs. dist. from cor. No. 7 of this survey.

Estimated value ----- \$100.00

Approximately 2 miles of wire fencing.

Estimated value ----- \$200.00

Approximately 38 acres of cultivated land.

DESCRIPTION.

This claim is situated on the Northeast slope of the Canelo Hills at an elevation of approximately 5200 ft.

CORONADO NATIONAL FOREST

STATE OF ARIZONA

Chains

The drainage is into the San Pedro River. This place is valuable for general farming and stock raising.

There is no timber in this section. The slopes support a stand of black and white oak.

The water for domestic purposes is hauled about three miles.

The soil is a dark loam and produces the ordinary crops of the temperate zone without irrigation. Good crops of corn, potatoes, sorghums, and small grains have been produced.

This section is not reported to be mineralized and no townsites, mining, coal or oil claims are known to have been located in this vicinity. This entire section is a limestone formation and some of it is included in this survey.

Elgin post office and railway station is 9 miles in a Northeasterly direction.

There are no conflicts. List 3-3373, described by legal subdivisions, lies a short distance to East of this claim. Cor. H-4 of H. E. No. 016523, Alexander Hinson, unsurveyed H. E. S. 261, bears S. 89° 13' W., 19.70 chs. dist. from cor. No. 5 of this survey.

DIRECTIONS.—1. Carry out calculations to two decimals only.

2. In balancing Latitudes and Departures do not obliterate or change the original figures.

Put the corrected figure or figures above in red ink. Do not change the footing of the original figures, but put below them the corrected footing in red ink.

The corrections for balancing fallings should be proportional to the lengths of the lines.

3. In calculations of fallings take result to nearest link. In calculations of N. and S. areas drop all after second decimal. Surveyors are required to use the Standard Field Tables issued by the G. L. O.

4. Only three copies of this tabulation are necessary, for the District Office, the Surveyor General, and the Commissioner.

APPROVAL

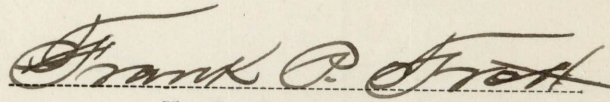

Office of the United States Surveyor General,

Phoenix, Arizona, May 4 , 1917

The foregoing field notes of Homestead Entry Survey No.

254

executed by Walter G. Turley, Surveyor-Forest Service
[Forest Service Title.]
under his special instructions, dated September 16, 1914, having
been critically examined, and the necessary corrections and explanations
made, the said field notes, and the surveys they describe, are hereby
approved.

U. S. Surveyor General.

I certify that the foregoing transcript of the field notes of the
above-described survey in the State of Arizona , has been
correctly copied from the original notes on file in this office.

Frank P. Trott,
U. S. Surveyor General.
