Content Mining Claim

Tombstone Mining District

Cochise County, Arizona

Survey of the Exterior Lines

Before commencing the survey of the exterior lines of this claim I compare the meridian determined by my instrument - a solar compass made by Young & Sons of Philadelphia I with the U.S. Standard Meridian established in the District

I set my instrument over the point in the north end of said meridian, marked by a brass point set in a stone block and witnessed by a post marked "U. S. S. M." etc. as per notes of the establishment of said meridian. I took an observation for latitude and at a proper hour set off the declination and found the meridian described by my instrument to coincide exactly with the U. S. Standard meridian. The variation of the needle of my instrument, as it so stood was $12^{\circ} 16'$ East. The variation of the needle of the instrument used in establishing the meridian was $12^{\circ} 5' 3''$ East a difference of $22'$ which adopting $11^{\circ} 5' 3''$ East as the standard variation, must in my instrument be called "instrumental error" and allowance made for it in the following survey

I examine the corners

of the Content claim referring to a copy of the location notice for guidance. I find the corners well marked by monuments and the ground located as described in said location notice

Commencing at the N. W. cor. of the claim, which is also the original N. E. cor. of the Contentment claim, ^{Lot No. 68} This is marked by stakes in mound of stones for both of these corners

To more permanently mark it for the N. W. cor. of the Content claim, I set a post 5 ft. long 4x4 in. sq. marked "C. M. C. No. 1" 1/4 in the ground and build around it a mound of stones 2 1/2 ft high

Thence along the N. E. end of claim and along line of North Point Claim.

S. 55° 40' E Variation 11° 53' East
(Allowing for "instrumental error" as above explained)

#. 61 = 304.26 ft To N. E. cor. of claim, and 6 lks. S. 55° 40' E. from stake marked "North Point" in a mound of stones. This N. E. cor. of the Content claim is also a cor. of the Cincinnati claim, as officially surveyed by me and is marked therefore by a post 5 ft. long 4x4 in. sq. marked "Ci. M. C. No. 14" set 1/4 in the ground and around it is built a mound of stones 2 1/2 ft. high. I mark another side

for the latter two claims, by a

"Cont No. 6 No. VII". In order to com-
ply with the law of Congress
in the matter of making the end

have to cut off a small triangle

is N. 24° 24' E. from said original

## Tombstone Mining District A.T.

From the S. E. cor. of Coutant claim where the post is marked "C<sup>t</sup>. M. C. No. 111" U.S. Mineral Monument No 1 bears S. 47° 0' W. 41.00 chs. distant.

From the N. W. cor. of Coutant, where the post is marked "C<sup>t</sup>. No. 6 No 1" a shaft on the claim bears S. 9½° E. 2.14 <sup>chs</sup> lbs. distant. This shaft is 4x6 ft. in dimension and is 19 ft deep

Note: This claim adjoins the Cincinnati and the Coutantmont as shown in the foregoing notes both of which claims have been surveyed for patent. The lines common to these adjoining claims, have the same corresponding bearings

### General Description etc.

The Coutant Mining Claim is situated in the Tombstone Mining District, Cochise County Arizona Territory. It lies in the near neighborhood of the most prominent mines in the District

The surface is uneven and rocky, with little vegetation, some brush - no timber - The work done on the claim, consists of the shaft above described and the drift run from the Coutantmont shaft as described in the foregoing notes. The value of this work exceeds five hundred dollars

Contuck Mine.

We the undersigned by virtue of the Congressional law of May 10. 1872 have this day located and claim this mining location or claim to correct an error in the location notice of the Contuck mine, Located by Josiah H. White and W. C. Parsons July 10 A. D. 1878. Commencing at a point and as described in the location notice of the Contuck mine would be at the N. E. corner (and to correct the same this location is made.) thence easterly along the Southern boundary of the North point location 300 feet more or less to the South East corner of the North point being the North east corner of this location. thence Southerly and parallel to the Western boundary line of the Contuck mine 950 feet more or less to the South east corner of the Contuck mine. Thence Southerly 933 feet more or less to place of beginning to be known as the Contuck. This notice is placed on the original North East corner monument of the Contuck mine prior to the survey and afterwards supposed to be one of the Eastern boundary line monuments of the Contuck mine. Said Contuck mine was duly recorded in the office of the County Recorder of Pinal County, A. T. on page 175 in Book A. Record of mines to which reference is hereby made, claiming all the privileges granted by the Laws of Congress Territory and District.
