Field Notes of survey of "Survey" Mining Claim

REPORT.

This claim is situated in Tombstone Mining District, Cochise County, Arizona, one quarter mile southwest of the town of Tombstone, and is bounded on the northeast by the Doughnut and the North Extension of the Sulphuret; on the southeast by the last named claim; on the southwest by the West Side; and on the northwest by the Intervenor.

A well defined mineral vein runs through the claim and bears about N. N. E & S. S. W.

The work done consists of three shafts, sunk by the owners or their grantors, which are fully described in these notes. And I hereby certify that the work done and improvements made upon this claim, exceed in value the sum of Five Hundred Dollars

There is an apparent conflict on the northeast side of this claim between it and the Doughnut; but it is made with the consent and by request of the owners of the Doughnut who are also the owners of this claim; and is made to secure the parallelism of the end lines but is not claimed in this Survey.

J. G. Howe.
U. S. Deputy Surveyor of Mineral Lands.
