Report of Official Survey of Pacific Mine. -
in Silver Mining District, Tuma Co. A.T.

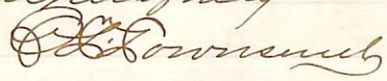

Nov. 16th 1881

Hon John Wasson,

U.S. Surveyor Gen. of Arizona
Tucson A.T.

Sir,

In accordance with your letter of instructions dated Oct 28th 1881, I have submitted the following Report. - On the 12th and 14th days of Nov. 1881. I made Official Survey of the Pacific Mining Claim, situated in Silver Mining Dist. Tuma Co. - A.T. for Franklin Black Agb and atty in fact. I found the Claim in the same condition as the Black Rock, to wit. the notes of Survey wrong by about 28" or Double the Variation, I had all the corners and Monuments identified to me by disinterested parties, and then made the Survey according to the Monuments. - The surface of the Claim is very rough and broken up, the formation Granite, the Ledge not clearly defined, but showing a probable width of 50 feet. - The work done on the Mine has been done by the Claimant and his Grantor and consists of one shaft - 6 x 6 ft 100 feet deep, with a cross cut, 6 x 6 ft 30 ft long at its bottom, and could not have cost less than \$1500. The specimens I send are good. -

Very Respectfully

 U.S. Deputy Min. Surveyor
