Field Notes of the Survey
of the Rucker Mining Claims,
Warren Mining District,
Cochise Co
Arizona

To the Hon. Royal A. Johnson
U. S. Surv. Gen. A. T.,
Tucson

Sir

I received instructions
from you to make a survey
of the Rucker Mining Claim
said instructions dated Jan. 30th
1884, and in compliance there-
with I send you the
accompanying Field Notes,
Plat, and affidavits.

Field Notes.

On the night of the 9th
of Feb. 1884., I took the Western
Elongation of the North Star,
by which I make the Variation
at this place to be
12° 5' E

The instrument used by me
in this work was a Transit and
the courses were taken "Magnetic"
and reduced to the True Meridian
The readings were taken at
both ends of each line and
were found to correspond.

The Rucker Mining Claim was located in Aug 1877; and in the months of Sept or October 1880. was surveyed by Chas. Ackley at which time small posts (2"x4") were placed in the monuments.

The survey followed the original location, and the amended location notice was based upon the survey. This was followed by me as closely as possible.

At the Initial Monument of the Rucker Mining Claim, said Monument situated in the W. End Centre of said Claim, I placed in the ground a post 4"x4", 5 feet long and surrounded it with a monument of stones - said post being marked

R.M.I. I.M.,

From which post the
