300. To Post I.M. Freecoinage M. No. 1. and
 place of beginning survey of
 exterior lines of claim.

Area.

Total Area of claim 20.25 Acres.

Location.

This claim is located in the
 Tombstone Mining District
 Cochise County, Arizona Territory.
 About two miles west of Tombstone,
 And is bounded upon the south
 by the Merrimac M.C. Lot No 51.

Improvements.

Made upon this claim by claimant consist of Shaft. A.1. 5 X 7 ft. 100 ft. deep. bears N 83° 30' E 78 ft. from Post 1, M. Freecoinage M. No. 1.

A Drift. 4 X 6 ft. 20 ft. long. from bottom of Shaft. A.2. (60 ft. deep) bears N 18° 20' E 550. ft. from Post 1, M. Freecoinage M. No. 1.

Crossings on center line of claim bear N 19° 46' E 170 ft. from Post 1, M. Freecoinage. M. No. 1.

And I hereby certify that the value of said improvements exceeds the sum of five hundred dollars.

The improvements made by other parties. before this location was made. consist of Shaft. B.1. 4 X 6 ft. 50 ft. deep. bears N 15° 0' E 445 ft. and Shaft. B.2. of 4 X 6 ft. 97 ft. deep. bears N 15° 0' E. 500. ft. from Post 1, M. Freecoinage M. No. 1.

Instruments used a Young and Sons improved Solar Transit and Steel Tape.

Bear and courses taken by use of the solar apparatus. after testing Instrument at U. S. standard Meridian established for this District.

Note. I find the Southerly end line of this claim to be the northerly end line of the Merrimac M.C. Lot No 51 The Official Notes of the Northerly end line of the Merrimac, gives this line at N 82° 15' W and 58° 15' E I find the same line to bear N 58° 50' W and 558° 50' E.

This discrepancy being so great I go to Post M.M.C. No 6, and take the bearing of the easterly side line of the Merrimac M.C. which is common to the west side line of the Clipper M.C. Lot No 105.

And I find this line to bear $531^{\circ}20'W$. and the official Notes of the Clipper west side line, is $531^{\circ}17'W$. while the official Notes of the Merrimac ^{M.C.} gives this same line at $57^{\circ}45'W$.

I also go to Post XXX No. 2, which is also the S.E. cor. Merrimac, and test the southerly end line of the Merrimac which is also the northerly end line of the Triple ex and find that line to bear $N 58^{\circ}39'W$, and the easterly side line of the Triple ex. to bear $S 48^{\circ}18'W$. which bearings check with the official Survey Notes of the Triple Ex. M.C. Lot No 152.

I cannot account for the errors in official survey of the Merrimac.
