SUPPLEMENTAL REPORT

MAY 31, 1907

on Improvements on the TUFF NUTTLode for the benefit
of the POKAHUNTES lode.

22

Survey No 1672 A+B.

Tunnel No. 4 TUFF NUTT lode, which hrs. from N. C. E.
mon. S. 36° 54' W. 843 feet. Tunnel 4 x 6 feet 175
feet long, to intersect vein.

VALUE

\$1750.00

This tunnel being for the development of the entire
vein covered by the Tuff Nutt and Pokahuntres locations,
should be accredited equally to both claims, \$875.00
to be credited to the Tuff Nuttlode and \$875.00 to the
Pokahuntres.

The claimant, Mr. Kent, informs me that there is
now a level run along the vein to almost the common
end line of the two claims, and it is his intention to
work the Pokahuntres lode through the tunnel and level.

J. J. Fisher
U.S. Dep. Min. Surveyor.

DEPARTMENT OF THE INTERIOR.

Office of U.S. Surveyor General,

Phoenix, Arizona, June 1, 1907.

I, FRANK S. INGALLS, U. S. Surveyor General for the District of Arizona, hereby certify that Tunnel No. 4 on the Tuff Nutt lode, included in Mineral Survey No. 1672 A and B, is a common improvement for the development of said Tuff Nutt lode and Pokahuntess lode, included in said survey; that at the time of survey the deputy failed to credit this improvement as a common improvement, but under a supplemental report dated May 29, 1907, a copy of which is herewith attached, the deputy reports said improvement as a common improvement and justifies his action by an explanation setting forth the manner in which said improvement is for the common development of both claims. I further certify that said improvement was made prior to the expiration of the period of publication of notice of application for patent to said claims, and that no portion of the value of same has been credited to any other claim to satisfy the statutory requirement of five hundred dollars' worth of labor and improvements upon or for the benefit of mining claims.

U.S. Surveyor General.
