NOTE.

All corners of this survey are identical with the respective corners of the location, excepting corners No. 4 and No. 5 Gambler Lode and corner No. 1 Robbie Lode, as mentioned in the notes.

Variation of the needle 15° E.

A substantial mound of stones of 4 ft. base, and filled with earth and gravel surrounds each post.

No bearings are available where not mentioned.

The difference in bearing of lode line of Line Road lode between these notes and the location certificate is due to a typographical error in the latter.

LOCATION

This claim is located in T. 19 ^{uncovered} R. 20 W., G. and S. R. M. public survey extended, San Francisco Mining District, Mohave County, Arizona.

EXPENDITURE OF FIVE HUNDRED DOLLARS.

I certify that the value of the labor and improvements upon this claim, placed thereon by the claimants and their grantors, is not less than five hundred dollars for each location, and that said improvements consist of:

- Discovery* On the GOLD ROAD Lode
1. Shaft, 75 ft. deep, which bears from westerly end center S. $51-1/2^{\circ}$ E. 391 ft. Value \$750.00
 2. A cross cut tunnel, 25 ft. long, running southerly, the portal of which bears from easterly end center N. 52° W. 638 ft. Value \$250.00

Feet.

No. 3. A shaft 300 feet deep, with levels extending 200 ft. E. and 200 ft. W., at each 100 ft. level, and with cross-cuts, running through both hanging and foot-walls on each level; the drifts and cross-cuts aggregating 1425 ft. The collar of this, the main working shaft, bears from easterly end center, N. $56 \frac{3}{4}^{\circ}$ W., 502 ft.

Value, \$20,000.

Of the value of this shaft and workings, the following apportionments are made, to wit-

Gold Road lode,	\$500.00
Climax lode,	\$450.00
Tip Top lode,	\$135.00
Silver Dollar lode,	\$400.00
Gold Dollar lode,	\$450.00

The veins of this claim run parallel to each other, easterly and westerly, dip at a high angle toward the North. The principal ledge runs through the Gold Road, Line Road, and Billy Bryan locations on the southerly side of a ravine or canon, which canon rises rapidly from the westerly end of the Gold Road to the easterly end of the Billy Bryan. The principal workings are on this main ledge. Very little work has been done elsewhere, from the fact that it is more economical and profitable to carry on the development of the entire group of claims from the underground workings in main shaft located on the Gold Road location. Cross cuts are started at each level to tap the veins of the other locations. Deeper sinking, will be prosecuted in the main shaft and cross cuts, will be run in these lower levels, in this ~~same~~^{way} developing the veins of the several locations at great depth; whereby, by one system of workings and one plant of machineery, the entire property will be most advantageously and economically developed.

This survey was made with a Lietz Transit, No. 450, in good adjustment. The courses were deflected from the true meridian as determined by Solar observations made with a Saegmuller Solar Attachment, and checked by observation on Polaris. The distances were measured with 100 ft. and 500 ft. steel tapes. All measurements closed and checked within the limit of error allowed by the manual of instructions.

DESCRIPTION OF U.S.L.M. NO. 1699. A

U.S.L.M. No. ~~1699~~_A is a pine post 8 ft. long, 6 ins. square, set in mound of stone, 8 ft. base, 5 ft. high; and mound filled with small stones and gravel solidly packed. The post scribed U.S.L.M. No. 1699. A

Drove a nail in top of post and nailed a 2" x 4" scantling, 16 ft. long on side of post, with red and white flag on top of scantling.

This U.S.L.M. No. 1699,_A is located on the top of a rocky peak, between two ravines, about 150 ft. higher than said ravines, in T. 19 N. R. 20 W., G. and S. R. M. of public surveys extended, in San Francisco Mining District, Mohave County, Arizona.

It is impossible to sink the post more than 6 ins. below the surface, owing to solid rock.

It is impractical to set a stone, owing to the rock being shattered, and for the same reason it is impractical to chisel a cross and No. on the rock.
