<i>Net area - Summit lode</i>	<u>17.528 Acres.</u>

EXPENDITURE OF FIVE HUNDRED DOLLARS.

I certify that the value of the labor and improvements upon this claim placed thereon by the claimants or their grantors is not less than five hundred dollars, and that said improvements consist of:

Discovery cut No. 1, which bears from the S.C.E. Mon. N. 29° - 4' E. 100 ft., and is 4 x 15 x 10 ft. face, Value \$100.00

Four Hundred dollars worth of the improvements on the Crowned King Tunnel is to be applied to the Summit lode. The intention of the Company being to cross cut from said tunnel to develop the Summit lode.

This Sur. was made with a Gurley Light Mountain Transit with Solar Attachment. The courses were deflected from the true meridian as determined by solar observations.

The distances were measured with a Steel tape.

The discrepancy in the area of conflict of the Summit lode with the Spring Green lode as shown by this survey and as called for in a previous adverse survey, due to a slightly different position of the south end line of the Spring Green lode is due to error in the adverse survey. A. B. Mader

U.S. Deputy Min. Surveyor.
