SURVEY NO. 2324

IMPROVEMENTS

I certify that the value of the labor and improvements on this group, placed thereon by the claimant, or its grantors, is not less than \$500 for each location, and said improvements consist of the following:

EASTERN STAR LODE

- No. 1 Discovery Shaft 6 x 8 x 10 ft deep bears from the N E E C of location S 39° 36' W 525.0 ft. Value \$ 50 00
- No. 2 Open Cut 4 x 10 x 22 ft extending in a N 10° E direction, the center of the mouth of which bears from cor No 4 S 21° 02' W 553.0 ft. Value 50 00
- No. 3 Tunnel, the center of the mouth of which bears from cor No 4 S 7° 05' W 634.0 ft. extending in a N 46° W direction, directly into the mountain, 358.0 ft. Value 2520. This tunnel, when extended to cut the ledge on the Silver Star claim, will gain a depth of 260.0 ft. At the point at which it enters the Silver Star claim it is 170.0 ft beneath the surface. Owing to the rugged topography, it would be impracticable to sink a shaft on the Eastern Star claim at the point at which it is desired to tap the ledge, merely for exploratory purposes. the same depth being gained at a lesser cost by driving a tunnel and at the same time exploring the intervening ledge on the Eastern Star claim and any other ledges which may be found to exist. I, therefore, consider that this tunnel is of equal value in developing the Eastern Star Lode and the Silver Star Lode, and have allotted one-half of the value therein to each of said claims.
 1/2 value of Eastern Star Tunnel 1260 00
 Total value of improvements on and for the Eastern Star Lode \$1360 00

SILVER STAR LODE

- No. 1 Discovery Shaft 4 x 6 x 10 ft deep, the center of the S W side of which bears from the S W E C of location N 40° 04' E 130.0 ft Value 50 00
- No. 2 Shaft 4 x 6 x 10 ft deep, the center of which bears from cor No 2 N 11° 15' W 166.0 ft. This shaft is sunk in very hard limestone. Value 75 00
- No. 3 Open Cut 5 x 14 x 12 ft, leading in a N 10° W direction to a Tunnel 4 x 6 x 15 ft; the center of the mouth of the open cut bears from cor No 2 N 42° 10' E 512.0 ft. which it enters for a distance of 2 1/2 ft. To secure a better tunnel site and to insure that it was started on the Eastern Star Lode. Value 100 00
- 1/2 interest in Eastern Star Tunnel, the center of the mouth of which bears from cor No 1 S 7° 05' W 634.0 ft Value 1260 00
- Total value of improvements on and for the Silver Star Lode \$1485 00
