This survey was made with a Gurley Light Mountain Solar Transit, the courses were deflected from the true Meridian as determined by solar observations. The distances were measured with a 50 and 300 ft. steel tape.

NOTE:

Some years ago the Yuma Copper ^{+ Silver} Company had a number of claims surveyed for patents. These patents were never completed and the claims reverted back to, the Government and have been located by John C. Bullard, and lie to the west of Survey No. 2467, and U. S. Mineral Monument No. 1 ^H D. was erected for the said survey. *The old surveys of these claims that are in conflict with this survey have been abandoned and all traces of copies have been lost.*
