## INSTRUMENT.

This survey was made with a Gurley Solar Transit. The courses were deflected from the true meridian as determined by direct solar observations. The distances were measured with a 100-ft. and 500-ft. steel tapes.

## Note:

Line 2-3 New Jersey lode Lot No.52 is in error.

## Note:-

The common improvement tunnel No.1 on Arizona Mascot No.2 is so located that by continuing it in its present course and by cross-cutting and lateral drifts each lode in this claim can be developed with economy. From the mouth of this tunnel the surface rises to the North, the north end of this claim being about 1000.ft. higher than the mouth of this tunnel.
