INSTRUMENT.

This survey was made with a Gurley Solar Transit. The courses were determined by direct solar observations. The distances were measured with 100 ft. and 500 ft. steel tapes.

REPORT.

The lode lines of these claims were run direct upon the ground and the corners were established by means of offsets from the lode lines. The tie lines were run direct upon the ground. U.S.M.M. No. 1 is an 8x8 in. oak post 7 ft. above the ground in mound of stone, scribed U S M M No 1 C B M D. The cor. to secs. 22, 23, 26 and 27, and the 1/4 cor. secs. 22 and 23, T. 13 N., R. 3 W. are properly established corners with bearing trees. The sec. cor. is a granite stone and the 1/4 cor. is a rock in place.

All old patent corners mentioned are 3"x3"x3' oak posts in mounds of stone and properly scribed except cor. No. 1 survey 484, Valley Forge lode which was not found; and cor. No. 4, survey 485, Chicago lode which was not found. Surveys of surs. 485, Chicago lode, 484 Valley Forge lode, 483 Copper Nugget lode, 486 Aztec lode and 515 Copper Bell lode were found in error.

This claim is located on rolling ground and the common improvment, shaft. No. 3 Mary Bell lode, is so located that by drifting all the lodes in the claim can be developed.
