Two Lode

No. 1 Dis.point situated on the S bank of a cut 40x200x40 ft. bears N.0°01'E. 625 ft. from the South End Center, the cut is an approach to a tunnel the portal of which bears S.25°59'40"W. 875.08 ft from Cor. No. 2; the tunnel bears S. 44° 27' W. from the portal end and is now in the course of construction, the terminal point of which will be the AUDREY shaft on the Iron Carbonate lode Sur.No.1212 property of the claimant.

This improvement beginning at the lowest possible point for a tunnel site, is being driven to develop the lodes of the several groups owned by the claimant.

The portal of this tunnel is accessible by railroad and permits of more economical mining operations in development of the several groups through which it passes.

It will give a maximum depth of about 1600 ft. in the development of the higher lodes of the claimant and proportionately less depth as one approaches the portal. In its entire length of approximately 12700 feet it will develop a district geologically for a great distance on either side, thus enabling further later development, in view of the fact that it is a cross-cut tunnel and traverses an area to the East of the great North and South Fault of the Verde Mining District. It will develop the area geologically owing to the fact that surface conditions do not permit of a close study of the geological structures, and by so doing from the depth of this tunnel it will accordingly be a very great asset in mining operations.

This tunnel will be used as a haulage tunnel for the ores developed along its route and also is of considerable importance for drainage purposes, it having been proven that parts of the area traversed by this tunnel cannot be economically developed by shafts due to the enormous flow of

water encountered.

Taking into consideration, geological conditions, haulage and drainage advantages, I consider this improvement a common improvement and of such character as to redound to the benefit of the groups and lodes herein mentioned to wit:

ADJOINING CLAIMS

This survey is bounded on the North by Public land, on the East by script land, The United Verde Copper Co. claimant; on the South by H.E.S. 472, Mrs. F.A.Hinman, claimant, Public land, Quincy lode Sur.No.3305, Texas lode Sur.No. 3197, owned by the claimant; No.1 lode, No.5 lode, No.4 lode, all of Sur.No.3350, and Spur lode Sur.No.3315, all being owned by the claimant of this survey; on the West by the Sunset lode Sur.No.3315 owned by the claimant of this survey, and the Lulu lode Sur.No.1490, the Jerome Verde Mining Co. claimant; and Public land, and by the No. 6 lode, Sur. No. 3350, and the Custer lode, Sur. No. 3197.

INSTRUMENT

This survey was made with a light mountain W.& L.E.Gurley transit.

The courses were deflected from a triangulation system the courses of which were deflected from a true meridian as determined by observations on Polaris at Eastern Elongation October 5th. to 8th. inclusive, 1917.

The distances were measured with 50 and 600 foot steel tapes.

REPORT

The lines of the several lodes of this claim were run directly upon the ground and the corners established by direct measurements upon these lines.

The tie lines were run directly upon the ground.

The Public land corners of T. 16 N. R. 2 E. to which this survey is tied are bronze capped iron pipes properly marked. and those corners of T. 16 N. R. 3 E. which fall on or near the lines of this survey were stones marked and having a 5 inch iron pipe set alongside them.

The differences of this survey with those which have been approved are due to error in the latter.

U. S. SURVEYOR-GENERAL'S FINAL CERTIFICATE ON FIELD NOTES.

Department of the Interior,

OFFICE OF U. S. SURVEYOR-GENERAL,

Phoenix, Arizona,

MAR 5 1920, 191

I, U. S. Surveyor-General for DISTRICT OF ARIZONA,

do hereby certify that the foregoing transcript of the Field Notes, return and approval of the survey of the mining claim of United Verde Extension Mining Company, known as the Denny, Mocking Bird, Reverse, Jimmy, One, Three, Four, Five, Six, Seven, Eight, Nine, Eleven, Twenty Seven, Thirty, Thirty One, Thirty One Extension, Thirty Two, Thirty Three, Thirty Four, Rose, Meadow Wash, Mary Ann, Indian Camp, Coal Digger, Margarite, Moon Fraction, Lime Kiln, Two, Ten, Twenty Eight, Twenty Nine, and Jerry Lodes, situate in

VERDE

Mining District, YAVAPAI County, ARIZONA,in Section s 12, 13, 14, (Uns) & 24, Township No. 16 N, Range No. 2 E., G&SRB&M, and

designated as Survey No. 3436, has been correctly copied from the originals on file in this office; that said Field Notes furnish such an accurate description of said mining claim as will, if incorporated into a patent, serve fully to identify the premises, and that such reference is made therein to natural objects or permanent monuments as will perpetuate and fix the *locus* thereof.

And I further certify that five hundred dollars' worth of labor has been expended or improvements made upon ^{or for each of} said mining claim by claimant or its grantors, and that said improvements consist of 59 cuts, 21 shafts, 10 tunnels, and 33-89th of a tunnel (a common improvement, 1-89th of which is properly accredited to each lode in this survey), Value \$165,224.38.

and that no portion of said labor or improvements has been included in the estimate of expenditures upon any other claim.

I further certify that the plat thereof, filed in the U. S. Land Office at Phoenix, Arizona, is correct and in conformity with the foregoing Field Notes.

Frank P. Trott,United States Surveyor-General for Arizona.
